EDITORIAL

July 6, 1961

AIPA BULLETIN. Published monthly. 12 issues per year. Fee \$3.00 yr.

BOARD MEMBERS-

B.J. BINGHAM  
BEDFORD BROWN  
FERDINAND DOMBROWSKY  
BILLY DRAEB  
TOM HIDLEY  
DORIS JOHNSON  
RICHARD NIEMAN  
DENNIS SMITH  
WALTER SPAULDING

The response per last month's issue on the question of a AM DX column has been overwhelmed. Seems as though we have many AM-DXers in our clan that really want the column incorporated in the bulletin. As you know, this club originated as a TV-DX club and has since added the FM-DX column which is going over big. Now it appears that we will also add the AM-DX column.... This we are doing for our members- It is not our intention to go out for AM DXer from the various other AM DX clubs.... In NO way will we solicit their members.

The TV-DX season has it's peak, as does the AM-DX. During the Spring and Summer months we do expect the TV reports to be the heaviest and AM reports to then carry on for the winter months, in other words no lull in the bulletins where DX reports are concerned. We ask the members to be considerate and report AM reception when it's worth while, especially during summer months. Send your reports to your regular Editor. (For example)-- there was a time in reports of MS that WCBS-TV ch 2 was reported hundreds and hundreds of times a day by all most every one HI!... Right ?/.... Now, by this we don't mean NOT to report, but you can understand what we're trying to put across. We are limited to so many sheets to a bulletin so that we can mail it, and we would feel bad if it was'nt possible.

Surely this year has been a good E-Skip reception one, it was a little late in starting, but has made for for it by being almost consistent. Reports from all parts of the country confirm the good quality and duration. --- One of our local TV stations here even went as far as to announce "Do not adjust your set, the interference you are experiencing is caused by atmospheric conditions" (Was'nt that a shame ?)

It's pleasing to note that some of our members may drop out and stray away, but they always come home to the AIPA! After trying some of rest-they say the AIPA is the best,

Tom Hidley has written quite a few articles on "Your Aunt Tenna". The facts and data are very important in regards to installation. I hope our members have derived some benefits ~~from~~ same. When it comes time to buy your next antenna---look into the Winegard Powertron model SP-44X - This is the DXer's dream antenna. If there is any signal in the air at all, the SP-44X will bring it in .

This is our last time to mention to be sure and TRY to make the Royal Oak, Michigan National Convention, the AIPA's yearly big event. Dick Miller-host... 823 Wyandotte ... Royal Oak, Mich. Phone LI 55471 . (Go out Woodard Ave north direction to 10 mile road- turn right and travel 7 blocks to Wyandotte, turn left.. That's it !

Art Collins.

July 6, 1961

Come gather around for another great get together July 29th & 30th. A Saturday and Sunday occasion which happens once a year. The AIPA is calling all available TV DXers to make a date for Royal Oaks, Michigan at Richard Miller's. Entertainment, visiting Television Stations, taping, taking pictures and best of all the association and fellowship we have together.

Turn your heads to Royal Oaks, and follow your nose to Richard Miller's.

Motels within reach, and after a good nights rest, you will be in ship shape for a wonderful time at the 1961 AIPA Convention.

Strawberry short cake, blue berry pie.  
V-I-C-T-O-R-Y.  
Are we in it?  
There is No Guess.  
TV DXers at their best.

Don't "spoon" around! Come and "fork" over some of your time. "Knife" it in your plans for this summer. Attend the 1961 Convention.

You have had so many skips, so hop & long to Royal Oaks.

Amazing, most DXers will have twenty more TV Stations to their loggings. You will hear about this at the 1961 Convention.

More skips than meteor scatter, June and July 1961. Channel 2 to 6.

The Knife, Fork, and Spoon Degree, always ready for nourishment.

How it looks from here.

More reports than ever before.

Western Hemisphere very well shock up.

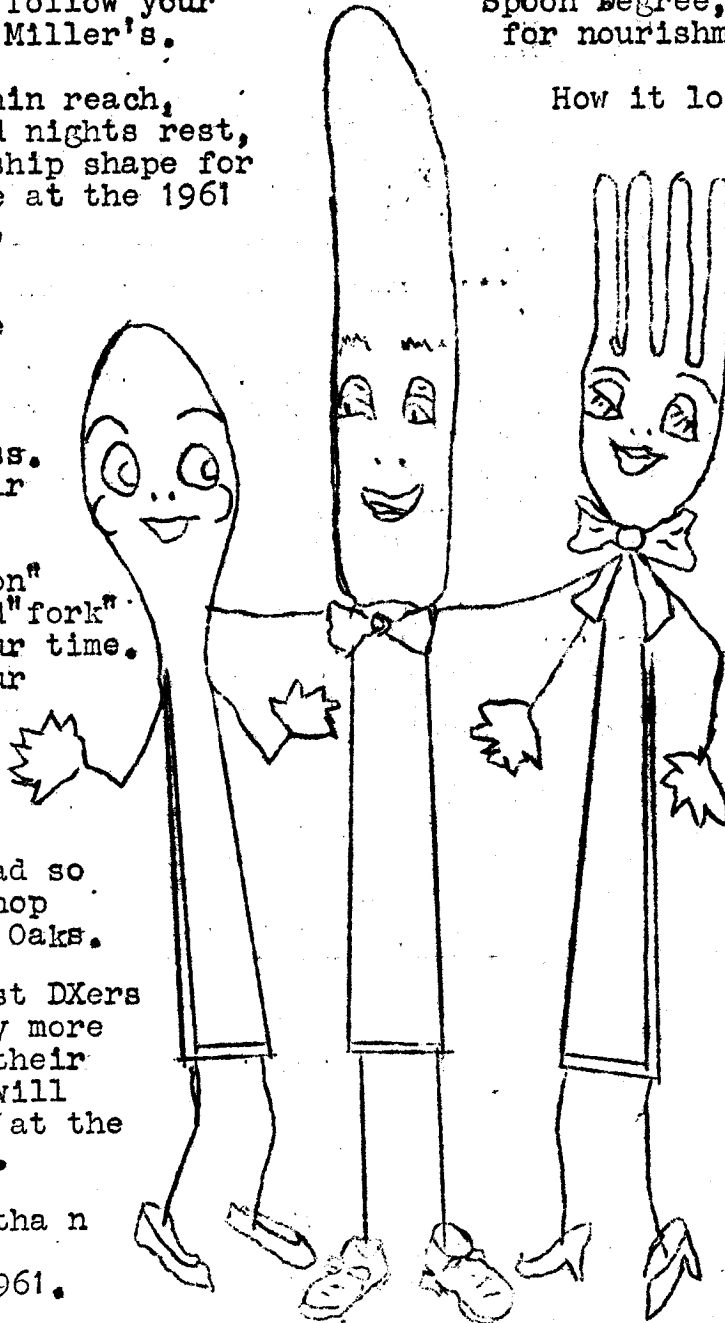

Not just an ordinary disturbance in the milky way.

All of us DXers got clabbered with new stations.

Even the ones that were a long "whey" came drifting in.

The cream of DX rose to the top. There isn't any "better butter"

Bru'ter !

THE MORE WE GET TOGETHER, THE HAPPIER ARE WE

With warmest regards to all.

Thomas J. Hidley..

The way is cleared for grant of New Orleans, La station on ch 12.  
KSHE-FM 94.7mc. in St. Louis, Mo. will broadcast full time STEREO--begin-  
ning early Aug 1961. power increase 25Kw, then 35Kw and up to 250Kw.  
this is the new type Multiplex Stereo for FM.  
Other FM stations to broadcast multiplex stereo effective June 1st--  
WGFM(FM) Schenectady, N.Y. Zenith's WEFM(FM) Chicago, Ill  
KMLA(FM) Los Angeles, Calif.

WELCOME NEW MEMBERS...

Roger Bunney-Trelawne, Romsey Hants-England.  
Wayne Plunkett-124 John St. Weston, Ontario. A TV and FM DXer. Watne  
has been in on the E-Skip and FM skip, wants to know record on FM  
Nick Kruzovsky-116 1/2 Heights Court, N.Y. (Thanks to Al Kopec for this )  
Nick also a FM DXer. ( We are adding new members at a steady pace  
since we are pushing the FM DX. ) DXers around the country are hearing  
of our club going over to FM and now AM-- this will bring em in !

RE-NEWALS...

Ghislain Girard-Arvida, Quebec. (TV, Radio Ham,) 6th yr.  
Don Ruland of (Newaddress) 1131 David Dr. Bensenville, Ill. 3rd yr.  
James Hughes (of WKNX) now at WSWM-FM (News director) East Lansing, Mich  
James is an avid FM DXer as well as get in on the E's at the TV set.  
He will be at the Royal Oak Convention. now starts his 3rd yr.  
Phil Jacobs of 5100 Hingston Ave. Montreal, Que. 3rd yr. Radio & TV DXer.  
A lbert Kopec of Hidden Acres- Himrod, N.Y. an old timer in the AIPA.  
Eric Norberg home from Pomona College for the summer--address now P.O.  
Box 1147 Carmel, Calif.  
Rejoining after a long absence are Armand Pelland 82 Dewey St in  
Woonsocket, R.I. (Armand states that after being in other out-fims, he  
finds the AIPA BEST.)

Many of the old timers will re-call the name Hank Holbrook of this  
club. Well, Hank is back with us and it's a pleasure to enter his name  
in the files again. (I'm sure Hank was Vice Pres. at one time )  
He is a DXer in TV and now FM for year, half. Hank address is 4710  
Edgemoor Lane #206 Bethesda 14, Md.

Art Collins.

The math of the convention has finally arrived and I can hardly wait till the 29 and 30th to meet all who are going to attend. Hope to see at least 40 members there in Royal Oak, Michigan. Its just a short trip for me 160 miles. You fellows up there in the Buffalo area if you go through Canada its about 100 miles closer.

Well I have some more sign on and off times from the Boston Cleveland and Chicago area this month. The sign off times are a estimate as I figure a hour and a half from time late movie begins. Week Days Local Time

FM DX

David Janowiak  
4312 South 47 Street  
Milwaukee, Wisconsin

July 1961

Yes, we are nearing the low spot of this sunspot cycle. But I wish that someone would tell old mother nature about it. The E's loggings for the months of May and June have been truly amazing. The MUF has gone all the way to the end of the FM band on some occasions. The Eastern boys seem to have received the better skip, but maybe they were a little more alert?

#### REPORTS

Art Collins, Buffalo N.Y. was one of the many who profited by the May 27 E's opening. Art logged the following via E'S; WNAD 90.9; KANU 91.5; KSPI 93.9; WRR 100.1; KOTN 92.1; WHLA 91.3; KJRG; and WBAP 96.3. Most of these are in the Texas, Okla. area. Art's H.H.Scott receiver was manned only by a simple indoor dipole antenna. Art should have a famous name ten element yagi up for FM by the first of July. Art also notes tropo out to Cleveland, Detroit and others on a daily bases. Art's log rests at 89.

Dennis Smith continues red hot on the FM DX trail. Dennis DX's from Wasco Cal. with a Halicrafters SX-43 and a ten element FM yagi. All Via E's, May 23, KNFM 92.3 new; KTBC 93.7 new; KCLE 94.9 new; KWMO 99.1 new; KRLD 92.5; WFAA 97.9 new; KOKH 88.9 new; KGNC 93.1; MAY 30; KRLD 92.5; WBAP 96.3 new; KFJZ 97.1 new; KCLE 94.9; JUNE 10; KRLD.; KBFM 96.3. new. All stations logged between 1200 and 1900 and all to Texas and Okla. Dennis claims 9 new for a total of 79 logged.

Hank Holbrook, 4710 Edgemoor Lane #206, Bethesda 14 Maryland, has returned to the AIPA. Hank sat in on some of that great E's that hit out east. Hank informs me that a FM dxing pal of his logged over 60 E's stations in two weeks from his Omaha Nebraska home. All this occurred in late May. Yes, the skip is poor indeed! May 27, via skip; K100 100.5; KOCW 97.5; KAFM 99.9. All in Okla and Kansas. May 28, Hank's best log, KHFI 99.3 Austin Texas 1315 miles. ERP of KHFI is 780 w. Hank is troubled with locals so he uses a built in antenna for most of his work, but he does use a Six element yagi for late evening work when his locals sign off. The Receiver is a Siemens K-43, 6 tubes. The receiver covers LW, MW, SW, AND FM. The most distant tropo log is WJEF 93.7 in Grand Rapids Mich. about 530 miles. Hank also has the rare distinction of hearing M'S on FM when he logged WTJS 104.1 in Jackson Tenn. on Oct. 13 1960. Hank's total is 141 FM stations verified in 18 states. Thanks for the report Hank, Best of dx in the future.

Albert J Kopec, Hidded Acres N.Y., found the FM band alive with skip and tropo. May 12; tropo WBWW 107.7 new; WPEN 102.9; WAMC 90.3; May 13 all tropo; WQAL 106. WHLM 106.1; WDRC 102.9; WNCN 104.3; May 27 Al's first skip logging, KRLD 92.5 new in Dallas; June 4 all skip; WOW 92.3; KQVE 97.9; WHAD 90.7; WHWC 88.3; WHHI 91.3; KWOA 94.7; WHLA 90.3; KANU 91.5 all new. JUNE 10; KPAM 104.7 new on skip; via tropo, WYSL 103.3; WFLY 92.3; June 11; WPEL new local on 96.5; WIBG 94.1; WIF1 92.5; WJBR 99.5; WITH 104.3 new; and WNCN 104.3; June 13; WHAT 96.5 via tropo, and WDAF 101.9 via skip. Al heard 14 new calls and his fine log rests at 111 with 59 verified.

David Nieman found May 26 quite a day for skip. At his Buffalo home Dave heard skip up to 106.1 mc. All new stations were heard toward Kansas, Texas and Okla. KOTN 92.3; KANU 91.5; KJRG 92.1; KSYN 92.5; KWPM 93.9; WNAD 90.9; KSPI 93.9; KSPL 95.5; WBAP 96.3; and WRR 101.1 KJRG, which was heard by Art Collins also is a 250 watt in Newton Kansas. Distance to KJRG is 1030 miles. Dave's log is 94 stations.

Tom Leu of Chicago snagged some tropo in May with WBON 107.9, WJBL, WSWM, WELF, AND WHKW all new adding to Tom's log. He now has Heard 65, with 4 states.

## FM DX

Reports, con't.

John Dyckman, Canfield Ohio heard some FM tropes since last report. April 21, WSOM 108.1 ; WSOM also on the 23, 24, and 30 of April. May 1, WKBN 98.9 and WSDM; May 3 and 4 WSOM; WPIC 102.9 also on May 4; May 5, WKBN; May 9, KDKA 92.9; May 22, WPIC; May 23 and 24, WSOM. Thanks for the report John.

Ferdinand Dombrowski, Okauchee Wisc. heard some skip on June 19 1815 to 1845 at about 89.7 of 89.9mc. The unid was probably WBBH 89.7. Skip was terrific on this day as I had a ball on tv on the 19th.

My FM dxing finally shows an identified skipper as WNAD snuck in a few times during some fine tv skip openings. My log is at 68.

### FM MULTIPLEXING

As you all probably know by now, the FCC has finally approved a system for FM multiplexing. Just what will this mean to the FM owners and the FM listener? Before we venture out to answer that question lets look at some pertinent facts about the multiplexing game.

Multiplexing will allow the FM owner to receive stereo programs without having to tune on two radio stations. Under the new system, a single transmitter will send out two separate signals simultaneously. With proper receiving equipment, the signals will be employed as in present hi fi reproduction.

A quick check of FM station owners reveals that about half of them are interested in stereo multiplexing. Long range outlooks seem to indicate that some stations will be employing the new system by late summer.

Manufacturers of hi fi equipment are busy with circuits capable of receiving the soon to be famous signals. Some manufacturers have been working on the parts for some time as they foresaw the FCC approval of the Zenith and General Electric multiplexing system for quite some time. However, the first real market for a complete multiplexing system will not be seen for about two months. By fall, the warehouses should be flooded with multiplexing adapters and well as complete systems. The average FM enthusiast will be able to purchase an adapter for a price between 25 and 100 dollars. H.H. Scott has a 50 dollar one now for its FM tuner, while Fischer has announced a \$9 dollar adapter soon to be on the market.

The new signals will be compatible. If a tuner is tuned to a stereo station, it will receive combined stereo and monophonic signal. If the proper multiplexing equipment is used, stereo tape enthusiasts will go wild taping their favorite music. A 19 kc carrier will be transmitted, while a 38kc subcarrier will be transmitted and fed to the demodulator. The 38kc signal will be amplitude modulated, but the entire composite signal is Frequency modulated.

All right, the FM owner may say, but what about the difficulties connected with the new system? The new system may be likened to reception of a UHF signal. Proper antenna will be of utmost importance with the new stereo set-up. Also, ignition trouble will be more severe. The adapters made by the various manufacturers may not be properly designed for true stereo performance. Many manu. may rush out a few adapters just to keep up with the market. Unforseen interference probably will dampen the ego of some homeowners.

Taking everything into consideration, I believe that the new system will add to the rush of those who want to get in on good music. FM receivers will sell at even a more rapid pace than they have been, and the once dead FM band will be more popular than ever!

INTERNATIONAL column  
6 July, 1961

Ferdinand Dombrowski Jr.  
1335 Road B, Okauchee, Wis.

I have 4 orders for TV factbooks, including my own. Come on, lets have one more order, what do you say? Maybe 2 or 3 of you would care to go together on one. Make check or money order out to me, because I may send in an order for 5 before the 5th order is in. Just one more?

Information is in short supply as I mentioned last month, but I have a few things anyhow.

A letter arrived from Eric Nelson in Sussex, N.B. with information about the satellites of CKCW-2. He says the following: CKAM-12, 141 kw in Upsalquitch Lake, N.B. rebroadcasts the programs of CKCD-7, Campbellton, N.B. which is a satellite of CKCW-2. Ch.7 has an ERP of 865 w CJCH-5 has a QTH of 743-5 Robie St. in Halifax. I've seen this one two times this summer already.

To correct a typographical error last month, CBAFT-11 is in Moncton and the new ch.13 will be in Edmunston, N.B. I also incorrectly listed CFCN-4 as transmitting on ch.5.

Does anyone know if CBXT-5 is on the air? Billy Draeb and I saw it on May 28, we think. Possibly they were transmitting tests as they are not due on the air until Sept. 1. I had my doubts that CFCN-4 was on the air but Billy definitely saw it on June 19. I've seen CHCT-2 several times but never anything that looked like CFCN-4.

The most outstanding DX here the past month was 45 minutes of the TP for CMAB-2, which Arnaldo Coro recently stated in "TV Horizons" is no longer on the air. My logging was on June 9th from 1608 to 1655; 5 days later I had 2 hours of DX which sounded like Cuba again, although I can't be positive. It was very odd reception, coming from the SE at first with "Bat Masterson" at 1830-1855, and then the direction shifted to WSW for the next 1 1/2 hours. Castro was speaking at fadeout time, 2020, still from the WSW. WBBM-2 was unusually strong that evening so the DX probably would have been much stronger from the SE if WBBM hadn't been in the way. This happens with WMT-2, and any DX on ch.4 and 6 which must override my locals, WTMJ and WITI. I didn't have a ch.6 for a few weeks but I have a new strip now and I'm ready for ch.6 DX again.

Skip has been pretty amazing this year with so many new stations and no time for FM skip DXing although I know it was there on several days. One-third of all my new stations this year have been on ch.5, my biggest year for that channel since 1956. Ch.4 also has been unusually good, despite the fact that WTMJ-4 is only 27 miles away. I have photos of WTVY and WJXT to prove it, and was just a little too slow on the trigger to catch WTVJ. When WWL and KROD came in I wasn't ready for them.

About that second Cuban reception again, Arnaldo Coro says Ciego de Avilla is the only ch.2 in Cuba now, so "Bat Masterson" may have come from there. Maybe CMAB is just experimenting on ch.2. No communist country I've heard of had 3 TV networks. The second network is under construction in many of them now, but not a 3rd new.

Besides CBXT-5 and CMAB-2, my other IDX includes such new stations as CJCH-5 and KEJ-5 on May 23; CKX-5 on May 25; CHSA-2 on May 28 and 10 June; also on June 10th were CFCM-4 and CKMI-5, and on June 19th CBMT6. Many other Canadians were seen but these are only the new ones.

Billy Draeb's new foreign stations in June so far are CBFT-2, CBMT6, and CFCN-4. He also saw CHSA-2 and CBXT-5 in late May the same nights I did. He watched an hour of Spanish skip on ch.3 June 14th but it turned out to be WEDU-3. I had it rough too, Billy. I had 2 Spanish stations on ch.2 but one turned out to be WMT-2. They were interviewing some Latin American in the studio.

I've been so busy with DXing that my notes and information are all messed up so I'll quit for this month. I've received a TV station list from Europe and may start listing them next month. 73s and best of EX.

July 1961

Dennis Smith  
450 Poplar Ave.  
Wasco, California

Hi! The sporadic-E skip which we have been waiting for, for such a long time, has finally hit--and since May 20 has been coming in loud and strong all over. Its strength is evident, because in many cases the Es signal has overridden local stations. Both the veteran and beginning TV-DXer have added many new stations to their logs. In the period between May 20 and June 20, there was Es every day somewhere all over the West. On to the reports--new stations this month are underlined.

In Seattle, Washington, Elwood Walter has been having lots of fun so far--he has received veries from stations and has taken some photos, too. May 28: Es, KCKT-2 Kans KDIX-2 N.Dak. May 29: Es, KNXT-2 Calif. June 3 & 4: Es, unID. June 5: Es, KTVK-3 Ariz KNOP-2 Neb, KCKT-2. June 11: Es, KOTA-3 S.Dak, KTVR-2 Cola, KCKT-2 KNXT-2. June 13: tropes, KREM-2, Es, KCKT-2 KTVR-2. June 15: KNOP-2 KTVR-2. June 19: Es, WGR-2 Buffalo (2117 miles double hop), KMTV\*3 Neb, KTWO-2 Wya, KOTA-3, tropes KPTV-12 Portland. His total now stands at 25. If anyone is interested, Elwood tells of the "Information Please Almanac," sold in drug stores--it gives air miles between all large cities--this would be helpful to make accurate mileages in DX work. On June 19, he saw a slide with a woodshed in the left half of the picture with a man's head in the doorway, and the words "WOOD SHED" in the right half (I've seen it, too--but haven't identified the station--does anyone know what station has this slide?

Jay Dee Lutey in Kimball, Nebraska has seen some skip, of which the most recent (letter dated June 12) has been KTVU-2 KCRA KNXT-2 KFRE-12 Calif. & WFBG-10 Pa. He has put up a new antenna after the old one was battered by large hailstones a couple of months ago. His total is 58.

In Festus, Missouri, B.J. Bingham has been pulling in the skip, with a bit of tropes, also. Some skip every day, but not always with IDs. May 20: tropes, WAPI-13 WBRC-6 WSFA-12 (500 mi.) Ala, KATV-7 KTHV-11 KTVE-10 Ark, WHBQ-13 Tenn. May 22: Es, no IDs. May 23: Es, XEW-2 XEZ-3 Mexico, KRIS-6 KID-3 KOA-4 KUTV-2 KTVK-3 KOTA-3 KDUH-4 KFBC-5 KTWO-2 KTVR-2. May 24: Es, Cuba, no IDs. May 25: tropes, WHBQ-13 WMCT-5 WSIX-8 WLAC-5 Tenn, KCMO-5 KFEQ-2 KODE-12 Mo, KRNT-8 KOAM-7 KOLN-10 WBKB-7 WBBM-2. May 26: Es, WTIC-3 Conn, WRCV-3 WFIL-6 Pa. May 27: Es, WSYR-3 WKTU-2 WGR-2 WCBS-2 NY, WRCV-3 WFIL-6 Pa, WTIC-3, WLBZ-2 Maine, WTAR-3 WMAR-2 WRGB-6 CKVR-3 CBLT-6 Ont. May 28: Es, KHPL-6 KDUH-4 Neb, KOTA-3 S.Dak. May 30: Es, KMID-2 KROD-4 KPRC-2 KENS-5 WOAI-4 KGBT-4 KBTX-3 KRIS-6 Tex, KAVE-6 N.Mex, KTVK-3 Ariz, XEFB-3 Monterrey. May 31: tropes, KV00 2 WHAS-11 KCMO-5, WDXI-7 WHBQ-13 WMCT-5 WREC-3 WSIX-8 WLAC-5 Tenn, KTTS-10 KYTV-3 KTVO-3 KMBC-9 Mo, KTUL-8 KOTV-6 KWTV-9 Okla, WFAA-8 KTHV-11 KATV-7 KOAM-7 WCPO-9, WGN 9 WBKB-7 Ill. June 1: tropes, WLW-D-2 KTVE-10 WTVC-9, Es west, KTVK-3 KID-3 KOOK-2 KTWO 2. June 4: Es, WRBL-3 (550 mi.) Ala, WJXT-4 WESH-2 Fla, CJBR-3 Que, WTIC-3. Jim Dillon has been back in Regina, Saskatchewan for a while, and has seen some unID skip on June 10 on chs. 4 & 5. He reports that he still hasn't been able to get an antenna--and doesn't know how soon he can....

Dee Johnson sends along a big report from Longview, Washington. May 25: Es, CKCK 2 CHSC-2 Sask, KNXT-2 KEY-T-3 Calif, KOOK-2 KFEQ-2. May 27: Es, KCKT-2. May 28: Es, WFMY-2 (2350 miles double hop) N.C, unID ch.3, WESH-2 (2400 miles double hop) Fla, unID ch.2 Spanish pix & audio, KTWO-2 KCKT-2, KID-3 (585 mi.) Ida, KWL-2 (she says there is

July 1961

(Dee Johnson's report continued) no such station with this call--anybody know--?), CKCK-2 Sask. Maye29: Es, KTVR-2, XEM-3 Mexicali, KEY-T-3 KNXT-2 KRCA-4 Calif, KLRJ-4 Nev. Maye30: Es, KTVU-2 KGNC-4 KPRC-2(1950 miles double hop--for 3 hours!)Tex, CKCK-2 KNXT-2, KBTX-3 Tex, KTVR-2 KROD-4. June 4: Es, KTW-2. June 5: KNOP-2 KTVX-3 KVOA-4 KOTA-3 KOOK-2 KPRC-2 (1950 mi.) KMID-2. June 6: Es, CKCK-2. June 10: Es, KSL-5 KUTV-2 KCPX-4 KREX-5 KID-3(585 mi.) KFBC-5 KTW-2 KLRJ-2. June 11: Es, KPRC-2(1950 mi.) KCKT 2 KDLO-3 KOTA-3 KNOP-2 KOOK-2 CKCK-2 CKOS-3 CJFB-5, XEFB-3 Monterrey(double hop)--a live bullfight was seen for over an hour--very exciting). June 13: Es, KNOP-2 KPRC-2 (1950 miles--how's that for a persistent double-hopper?) KTW-2 KHAS-5 KFDX-3 KTVR-2 KCSJ-5 KUTV-2 KCKT-2. June 19: KCKT-2 KTW-2 KDUH-4, KNOP-2 KTVK-2 KOTA-3 XEM-3 KDIX-2 KDLO-3 KOOK-2 KCSJ-5 KTVR-2. Her total, with 4 new, is now 153.

Eric Norberg of Carmel, California came home from college, and had about a week to look for DX before going on a vacation trip after June 17--on June 10: Es, KNOP-2 Neb, KROD-4 KFDX-3 KMID-2 Tex. June 11: Es, KMID-2 Tex, KTVR-2 KOA-4 Colo, KCKT-2 Kans, & others unID. 2 new ones bring his total to 36.

Dave Combs (Medium Wave Editor, American Shortwave Listeners Club) has more than doubled his log in a month's time with all the Es. May 23: Es, WGBH-2 Mass, KGPT-4, WBAP-5 KMID-2 KEDY-4 KRCD-4 Tex, XEW(2) on ch.3 Mexico, KPHO-5 KTVK-3 Ariz, KID-3 Ida, KTW-2 KOOK-2 KTVR-2. May 24: Es, WTHS-2 WEDU-3 Fla. May 27: Es east, WNEW-5 WJAC-6 WRAL-5 WTAR-3 WFIY-2 WRC-4 KDKA-2 CBFT-2 CBOT-4 WPTZ-5. May 28: Es south, WESH-2 WUSN 2 WSAV-3 WTVI-4 WJXT-4. May 30: Es, WESH-2 Fla, KMID-2 KRIS-6 Tex, XEFB-3 Monterrey. June 3: Es, XEW(2) on ch.3, June 4: Es, WTIC-3 Conn, WSYR-3 NY, CJIC-2 Ont. June 5: Es WFTV-2 NY, KPRC-2 KMID-2 WOAI-4 XEFB-3 KROD-4. June 6: Es, WRCE-6 NY, WUSN-2 WGBH-2 WTIC-3. June 7: Es, WGBH-2. June 8: Es, WGBH-2, WEAR-3 Fla, WEL-4 Mass. June 9: Es, WTHS-2, CKCK-2 Sask. June 10: Es, WFMY-2, WMAR-2 Md, WRC-4 WSAV-3, KDKA-2 WRCV-3 Pa, CJBR-3 CKMI-5 Que. June 11: Es, CBFT-2, WLBZ-2 Mne, KMID-2 XEFB-3. June 12: Es, WEDU-3, KOB-4 N.Mex. June 14: Es, WMAR 2 WTAR-3. June 15: Es, WSYR-3 NY. June 17: Es, WRC-4 WMAR-2 WRCV-3. June 19: Es, WNBC-4 WNEW-5 NY, WBZ-4 WTIC-3 WUSN-2. Dave has added 45 new ones on his old total of 39, making a new total of 84..you'll get to 100 soon. BCB DXers have reported some TV-DX to his MW Section of the ASWLC, so he is recommending the AIPA to them if they want to learn more about TV-DX. Very fine, Dave.

David Pomeroy writes from Overland Park, Kansas that he finished his freshman year at The College of Emporia in Kansas, and began DXing the next day, with skip being seen every day since then. He is now using a Curtis-Mathis 23" set with rabbit ears, and a TRIO SS-44 UHF antenna, and hopes to get his old Sperton set kixed in a few days. UHF is received with a Mallory UHF Converter, and he notes that local ed. KOSD-19 is off the air for the summer. His DX. May 26: Es, WTHS-2 Fla. May 27: Es, WGBS-2 WFMY-2, WRCV-3 KDKA-2 WJAC-6 Pa. May 28: Es, WGR-2 NY. May 30: Es, WFMY-2, KBTX-3 KMID-2 KPRC-2 Tex, WAIQ-2 Ala, XEFB-3 Monterrey. May 31: trop, KOMU-8 Mo. June 4: Es, WRLB-3 WSAV-3 Ga, WESH-2 Fla, CJIC-2 Ont, WGR-2 WSYR-3 NY. June 10: Es, XEFB-3. June 15: Es, WTIC-3 Conn. June 17: Es, CBFT-2 Que. June 19: Es, WRCV-3 WESH-2. His first Mexican station(XEFB) was #100,--and his total is now 102 with 5 new stations.

Percy Cox in Visalia, California sends in a big report, with DX back to January. Jan. 3: Es, KOCO-5 WKY-4 Okla., KCKT-2 KARD-3 Kans., KCMC-6 KMID-2 KFDX-3 Tex. Jan. 8: Es, KMID-2 KARD-3 WKY-4 KFDX-3 KARD-3 KGNC-4 KEDY-4. Jan.9: Es, KMID-2 WKY-4. May 23: Es, CHSA-2 KMID-2. May 29: Es, KMID-2 KEDY-2 KFDX-3 unID-5. May 30: Es, KMID-2 KEDY-4 unID-5 KOTA-3 KDUH-4. May 31: Es, WKY-4 KVOO-2 KOCO-5 KOTV-6 Okla., KFEQ-2 Mo. June 1 unIDs. July 1961

Dennis Smith  
450 Poplar Ave.  
Wasco, California

(Percy Cox's report continued) KXJB-4 Dakotas. June 9: Es, KEDY-4 KMID-2 Tex. June 10: Es, KVOO-2 KFDX-3 WKY-4 KOCO-5 KMID-2 KEDY-4. June 11: Es, WKY-4 KVOO-2 KFDX-3 KOCO-5 KMID-2, 6-meter hams Dallas on ch.2, KARD-3 KCKT-2 KEDY-4 WBAP-5 KRLD-4 KFDX-3 KSYDD6 KOTA-3 KDUH-4 CKCK-2 CHAB-4. June 12-16: few minutes of unIDs every day. June 17: Es, KSWA-102.7 FM, KCKT-2 KHAS-5 KFDX-3 KSYD-6 KPHO-5 KTVR-2 KOB-4 KLRJ-2 CHC CHCT-2 CFRN-3 CFCN-4. June 18: unIDs. June 19: Es, KREM-2 KDIX-2 CHCT-2, WCBS-2 WLW-D-2 (both double hop), 6-meter hams Ohio on ch.2. June 20: Es, WSB-2 Ga. (double hop), KPRC-2. His log is now 114 with 4 new.

Yours truly in Wasco, California saw a lot of Es, except when I was in San Francisco June 18-25--which was a good week for DX... May 30: Es, KTWO-2 Wyo., KBTX-3 KEDY-4 KMID-2 KEDX-3 WOAI-4 KENS-5 WBAP-5 KRLD-4 KCEN-6 Tex. May 31: Es, KCKT-2. June 1: Es, unIDs. June 2: Es, KVOO-2, ground wave, XEWT-12 Tijuana (local KFRE-12 now off air). June 3: Es, CKCK-2 KMID-2. June 4: Es, unID ch.2 & 4. June 9: Es, KLEW-3 Ida, KREM-2 KXLY-4 KHQ-6 Wash, CHCT-2 CFCN-4 CFRN-3 Alta., ch.4 unID (local newscast, spons. North State Bank--seen at 1910 EST--where could this be? Tampa was mentioned, but it was not Florida--replies from WTVJ-4 & WJXT-4 Fla. said it wasn't them), KOB-4 N.Mex. June 10: Es, KMID-2 WOAI-4 KENS-5 KROD-4 KSYD-6 Tex. June 12: Es, unID ch.2. June 14: Es, KCKT-2 KTVR-2 KNOF-2. June 17: Es, KNOF-2 KHPL-6 Neb, KOA-4 KCSJ-5 Colo, KCKT-2 Kans. Present total is now 105 with 5 new.

During this month, I had some nice visits with Percy Cox in Visalia, and David Crockett & Alban Preston in the Bay area. I've also received some tapes from Eric Norberg and B.J. Bingham recently--I would like to hear from anyone by tape, and of course I will reply. An interesting item from Eric's tape is the fact that San Francisco ed. station KQED-9 plans to install two 100-watt UHF translators in his general area...and B.J. told of the latest developments on the Convention.

CONVENTION NEWS BITS: You will be hearing from some of the western AIPAers on tape at the Royal Oaks Convention...Dee Johnson has recorded one side of a little tape and has sent it to me to record the other side for the Convention goes--and Dave Crockett finally was able to get his repaired recorder back, so he and Allan Preston will record a tape together, also. You will hear from others, too... However, response for a western convention was very small (2 or 3 in favor), which isn't many--so there probably won't be a western convention this year--but we can still think to next year--if you recall, Dave Crockett, one of the group that viewed reception from Mt. Ashland last summer, had inquired to the National Forest services about the possibility of climbing 14,495-foot-high Mt. Whitney, and after they said "no" to that hill, he inquired further, and came up with a "yes" answer from Inyo National Forest, home of White Mountain Peak, 14,242 feet elevation, about 75 miles north of Mt. Whitney. This is quite a trip to think about for next summer, so if any one is interested, please let us know. There will be more details about White Mountain Peak in next month's column. Meanwhile, let's all do what we can to support the efforts of Dick Miller, Art Collins, B.J. Bingham, and many others, to make this year's AIPA Convention the best one yet--and by all indications, it will be just that.

FCC hearings were held in Bakersfield, California, for a week at the end of May and the beginning of June, to hear testimony on the proposed changing of KERO-TV 10 to UHF, probably channel 23. Many witnesses appeared during that time, and now the information is being studied by the FCC prior to the final decision--what will it be?

Nice big column this month--the DX is tremendous, and so are the reports.

Best of DX to all

Dennis

NEW PERMANENT ADDRESS: 6141 South Mayfield, Chicago 38, Illinois

Well, your CCI-editor has now become an official meteorologist upon graduation from college and am now stationed permanently in Chicago until the draft or something worse gets me. I am typing this column with thanks to Tom Hidley since my own typewriter is an utter wreck. We're having a little party tonight at the Hidley's, and it brings back memories of the wonderful Chicago convention last year. So far only one report has arrived for this month.

Unidentified Programs (All time is E.S.T.)

Dennis Smith, 450 Poplar Avenue, Wasco, California

1. May 28 ch.6 1 0:25am Indian head TP with ID on left side  
X tall #6 with ID vertically beside it.
2. May 30 ch.2 12:18pm "Checkerboard" TP
3. May 30 ch.3 3:09pm video slide only-Weather Bulletin
4. June 3 ch.4 6:50pm Sheena
5. June 4 6:50pm ch. 2 Pre-school children's show.
6. June 9 ch.2 5:00pm Medic
7. June 9 ch.2 6:00pm Indianapolis race
8. June 9 ch.4 7:10 pm News, sponsored by Coors. Is this a Fla. Stn?!
9. June 10 ch.6 7:25pm RTMA TP, slightly tilted, top to right.

\*\*\*THE LAST TWO ARE MOST IMPORTANT, PLEASE CHECK.

Any further reports will be added at the bottom of the page. Until August, let's all meet at the convention; meanwhile 73's and best dx to all, Bedford

SPECIAL NOTICE : DUE TO  
CIRCUMSTANCES BEYOND OUR CONTROL,  
 A PAGE WAS DELETED FROM THIS MONTH'S  
 EASTERN DX COLUMN. IF YOUR REPORT  
 IS AMONG THE MISSING, PLEASE ACCEPT  
 OUR DEEPEST REGRETS. \_\_\_\_\_ THANK YOU!
