WALTER SPAULDING

The 1961 AIPA National Convention is now a thing of the past. Much planning, and preparation was involved by Richard Miller and family-then the two days of the convention, July 29 and 30 showed their efforts. They really went ALL OUT.

Surely, no one who was present can forget the wonderful time shown them.

We sincerely thank Mr. and Mrs. Miller whole heartedly for their endless efforts they put forth to assure every one there a pleasant visit, and to see to it that they had full and plenty.

The location, Royal Oak, Michigan seemed to be ideal for the 1961 Convention. Attending members came from all the bordering states as well as Kan. Mo. N.Y. Mass.

It has been suggested that we keep the National Convention site in that area. We have only one offer for the 1962 convention site-that being Bob Seybold's home at Dunkirk, N.Y. (40 miles south of Buffalo.) For many of the members-this is too far. We're open for any offers from the areas more centrally located.

A yearly National Convention is a wonderful thing for all the DX clubs. It brings the members together, gets them personally acquainted, creates good will, and in all purpose is supposed to create true and good fellowship among the members...YET- there are those who come to a convention only to ridicule, criticize, and find fault with the bulletins and club in general. A situation of this nature should not exist, but unfortunately does in any large group.

It has been decided that the AIPA drop the idea of conducting AM Radio DX Column ! There are Radio DX clubs that handle this type DX and have been doing a wonderful job of it. We could not give our all in this field therefore we shall leave well enough alone!

We believe that perhaps it is time to set down a few flexible laws about counting TV stations. Logs are compiled so many ways by our DXers. It is only fair that our over all totals add up the same for each and every member, the way in which a log is compiled will have to be uniform among members in order to show in the listings. We are going to call upon our Board Members and derive a fair, and official method. (Will each board member write me in this matter upon receiving bulletin)

With the passing of a very good Convention, and a very good DX year, Es now under our belts (don't know what to call it for the Women) I'll close down the press for now.....

Art Collins.

CALLS ASSIGNED & Changes..

KOUL(TV) Alamose, Cal. (new)
WETA-TV(Ed) Washington, D.C. new
KMED-TV Medford, Ore.

KATU(TV) Portland, Ore. from KOXO(TV)
WCCA-TV Columbia, S.C. new
KVCR-TV(Ed) San Bernardino, Cal Ch 24
KCRL(TV) Reno, Nev. new

WDHA(FM) 105.5 Dover, N.J. began Stereo Multiplex broadcast tests in the New York area July 9th. 1 to 6 A.M.

WCRB-FM Boston, Mass. to begin FM/Multiplex July 10th. (H.H.Scott Eqp)

WPLM-FM 99.1mc. Plymouth, Mass. now on the air.

Gallipolis, Ohio (The 1956 Convention site.) to get a new FM 101.5mc.
Ed Hepp in Tucson, Ariz. will be listening to a new FM there 92.1mc.

CHCH-TV ch 11 Hamilton, Ont. now released from the CBC. now an Indep. The high Tower situation is much in the FCC lime light. They are putting thumbs-down on the high tower. WHAS-TV Louisville, Ky denied request to build a 1,859' tower. This would of made it the highest man made structure. Yet, WRBL-TV Columbus, Ga. OK'ed for a 1,790 footer, thus surpassing the KFVS-TV 1,676' tower which was the tallest champ.

WTVW(TV) Evansville, Ind. ordered to operate on ch 31 instead of their 4 year fight to operate on Ch 4

The new WEPA-TV ch 24 in Erie, Pa. now under construction will go NBC-TV Oct. 1st. (Erie may lose their Ch 12 there.) There are to be many channel changes along these lines. We will list them as they are official.

An Education Group to get WNTA-TV. New format starts Jan. 1st. in the New York area, will be their first noncommercial educational station. Allen Park, Mich to have a new TV station by Sept. WJMY-TV ch 60. They also own the new WRMP-FM 98.7mc. 64,000 watts which went on the air mid July.

The new WINEGARD POWERTRON antenna SP-44X is available thru Hurstein-Applebee in Kansa City, Mo. and World Radio Lab mail order catalogs as well as most of the better parts distributing houses in the country. We would advise our members to contact these sources for prices on the powertron. Bill Eckberg has one and reports that NOTHING can touch it for performance. (Bill has left for 6 months duty-National Guard.)

WELCOME new member- Mike Caughey of Orion, Ill.

The convention has come and went with a very good turnout in Royal Oak, Michigan. Our host has shown us a very good time and here's truly wants to thank him for the food and refreshments and also the very good entertainment. We had a very good turnout of members 27 at my count. Present were Art Collins (pres) King Schafer (v. pres) from Buffalo also representing New York were Don & John Voegele, Lancaster Bob Seybold, Fredonia David & Dick Nieman, Buffalo Art Frieese, White Plain Representing Illinois were Bedford Brown, Chicago David Swanson, Chicago Mr. & Mrs. Dave Janowek, Joliet Gary Olson, Barrington Ed Prond & Family Dolton From Indiana Larry Vehorn, Indianapolis Carter Bays Culver Don Roller, Fort Wayne Wisconsin had the following members present Fredie Dombrowski, Okauchee Billy Dreab, Kewanee. Our Michigan members were Our Host Dick Miller, Royal Oak Jim Hughes now with WSWM The FM station 99.1 in East Lansing Bill Work Detroit Demsey Fuqua, Detroit From the great state of Missouri our very good member B.J. Bingham, Festus. I can't forget my great state Ohio along with my family we had another member Carlon Howington, Uniontown. Our two members with most distance to travel were Doug Thomson, Massachussettes and our most western DX'er was from Overland Park, Kansas David Pomeroy.

I am sure all of us present wish to thank our host Dick Miller his wife and neighbors for the work they done in trying to make us have a swell time. Also thanks for the wonderful turn to the TV station

Well to the latest of this column being sent in I will have in next the reports sent to me.

Walter W. Spaulding

" YOUR AUNT TENNA "

This is a follow up in regards to antennas. In this day and time we find many makes of antennas. All makes claims that theirs is superior to their competitors. But all of you have had some experience in long distance fringe area reception, and are able to draw your own conclusions of which you consider the best. If any of you have over 75 TV Stations, considering your local stations, and your location, also the elevation where you live. Then you can evaluate a true picture of the gear used, and the installation. At any time you feel there is a question about your own gear, and you are not doing so well, then you can get some very good answers from other members of the AIPA. Again we must consider the reports by other DXers, elevations, locations and how the skips are coming in, whether the low band, high band or UHF. Your report is valuable to others, as well as their reports will be a great help to you. If you co-operate, others will co-operate with you. Reports are important, support the editors of the AIPA, and in turn you will be an instrument in helping your fellow members.

" AN ANTENNA BOWS OUT "

I'm an old antenna on a chimney mount,
My years of service makes me no-account,
Standing up there in all kinds of weather;
It's sure a great wonder how I stayed to-gether.

All rusty, corroded, no one pays attention;
In this sad state, could 'I get honorable mention?'
With arms all sooty, dull and gray;
'I tell you boy I've had my day.'

Once I was sparkling, bright and new;
I brought in show that were a pleasure to you.
Viewing you were happy and some times in tears;
But 'Holy Cats', I can't last for years.

So take me down; don't mean my fate;
I won't feel sorry because you gave me the gate.
So up with a new and modern gear;
Believe me brother this is no 'bum steer'.

Remember you can tune in the latest TV Set;
GIVE YOUR ANTENNA CRAWL FOR THE RECEPTION YOU GET!
The TV may say: "It's the latest, modern and new;"
But give me a good antenna and I'll show what I can do."

Now my good people keep this in your minds;
Modernization keeps up with the times,
You can walk down the street and see our fate;
Do people get wise? No! Their picture is third rate.

Ah! Minna The Antenna

This was published several years ago in the AIPA Bulletin,
Since then our club has gained many new members, and the
subject of antennas. This would go along with the article.

With warmest regards to all. Thomas J. Hidley 6117 N. Canfield Chicago-

continued: systems use 625 lines, although there are 2 different systems. The OIR or Russian system uses an 8mc channel compared to a 7mc channel for the CCIR system which is the most common in the world. An 8 mc channel is in the planning stages for the CCIR countries but there will be other differences between the systems no doubt. So far there are 4 different "channel arrangement" systems within the CCIR, and possibly 2 in the OIR. Here's the arrangement for all systems:

American: 54-88mc, 174-216mc, 470-890mc.	Channels A2-83
British: 41-68mc, 176-216mc, UHF exper.	" B1-13
Chinese: 40 $\frac{1}{2}$ -100mc, channels undefined.	" C1-2+
European: 47-68mc, 174-216mc, 470-561mc.	" E2-11
French: 41-67.3mc, 162-215mc, UHF proposed.	" F2-12
Italian: 52 $\frac{1}{2}$ -68mc, 81-83mc, 174-216mc.	" A-H
Japanese: 90-10mc, 170-222mc, UHF exper.	" J1-12
Russian: 48 $\frac{1}{2}$ -66mc, 76-100mc, 174-230mc.	" R1-12
Australian: 48-92mc, 132-146mc, 174-216mc.	" P1-10
New Zealand: 44-68mc, 174-216mc.	" Z1-9

Here are the frequencies of the low band channels around the world; Each month I hope to list some of the low band stations around the world that are on the air and available to any DXer who may be lucky enough to see them via Aurora skip, or F2 skip in the coming season:

Austria: E2A Jauerling, 60kw.

E3 Veitsch, 10kw.

E4 Patscherkofel, 60kw.

Belgium: E2 Aalter-Buisselede, 100kw, Flemish.

E2 Anwerpen, 300kw, Flemish.

E3 Liège, 100kw, French.

Bulgaria: R2 Sofia, experimental.

Czechoslovakia: R1 Ostrava, 100kw.

R2 Bratislava, 100kw.

R1 Praha, 15kw.

R2 Jizni Cechy or C.

Budejovice, 100kw.

Cyprus: E2 Nicosia, 1.5kw.

Denmark: E3 Fyn, 10kw.

E4 København, 10kw.

Finland: none.

France: F2 Bastia, 50 w.

F2Caen-Mt. Pincon, 50kw.

F2 Limoges, 400kw.

F2 Troyes, 20kw.

F4 Ajaccio, 500 w.

F4 Besancon, 3kw.

F4 Bourgogne, 40 w.

F4 Carcassonne, 20kw.

F4 Hyeres-Cap Benat, 40 w.

F4 Nantes, 20kw.

Germany, West: E2 Bledenkopf, 20kw.

E2 Bremen-Ohlenberg, 100kw.

E4 Bielefeld, 30kw.

E2 Cappelmanns Hohe, 100kw.

E2 Grunten, 11kw, 100kw.

E3 Kreuzberg-Rhon, 11kw, 100kw.

E4 Ochsenkopf, 11kw, 100kw.

E4 Raichberg, 40kw.

Germany, East: E4 Cottbus, 3kw.

E3 Helptorberg, 3kw.

Greece: none.

Hungary: R1-Budapest-

Hungary: R1 Budapest, 150kw.

R2 Pecs, 1500 w.

August 1961

Hi! This past month has been great for sporadic-E skip also, especially around the first part of July. It seems to have quieted down a bit at this moment, but there has been plenty to keep us hopping. In fact, with the sunspots declining, our old Es may be better off--more openings, although not as intense (single-hop mileages generally greater than they were in the last few years--there were many 500-700-mile openings noted here in that time, but the trend now seems to be back at the old 800-1500-mile distance), and perhaps more reliable. Our winter Es season may also enjoy a comeback, as it hasn't been as good lately as it once was--but, we'll wait and see. As reported here between June 20 and July 20, Es occurred June 20, 21, 22, June 26 through July 14, and July 16 through 20.

We have a new member here in California--Morton D. Meehan of PO Box 9, Livermore, Calif. Mort is an FM DXer in that part of the state, and his job keeps him hopping from one city to another around there, although he usually spends his weekends at his cabin in Santa Cruz--so he is familiar with FM conditions and its peculiarities over many different areas of California. Welcome to the AIPA, Mort.

Edward Rugel reports from Independence, Kansas that he has returned from the University of Kansas where he'll get his BS degree in Civil Engineering next spring. Meanwhile, he has been back at the DX controls since June 1, although his DXing time during the week is limited. June 1: Es, KOTA-3(new) S.Dak, KDUH-4(new) Neb, WSAV-3. June 5: Es, KBOI-2. June 10: Es, WRC-4. June 11: Es, WMAR-2 WUSN-2. June 13: Es, CKRN-4(new) CBFT-2 Que, WTIC-3(new) Conn. June 14: Es, WMAR-2. June 15: Es, WGBH-2 WTIC-3. June 17: Es, WRCV-3 CBFT-2 KID-3 KSL-5 KCPX-4. June 18: Es, KPKA-2 CKVR-3. June 19: Es, WTAR-3, WBZ-4 WHDH-5(new) Mass, WRAL-5 WMAR-2. June 20: Es, WTVJ-4. June 27: Es, WTAR-3 WUSN-2 WFIL-6 WUNC-4 WCSC-5 WBTW-3 WECT-6 WJXT-4 WSAV-3 WPTV-5 WDBO-6. June 28: Es, KID-3 XEFB-3 KBOI-2 XEZ-3. June 29: Es, WUNC-4 KSL-5 KCPX-4 KUTV-2, XEWH-6 or XETV-6(new--first Mexican station--most likely XEWH-TV). June 30: Es, KUTV-2 KTWO-2 XEZ-3. July 1: Es, XEZ-3 WCSC-5 WUSN-2. July 2: Es, WUSN-2 WCSC-5 WJXT-4 WFBC-4 WJBF-6, KRTX-3(new) Tex, XEFB-3 WESH-2 KGRT-4 KRGV-5 WLW-D-2 WRCV-3 WBTW-3. July 7: Es, KUTV-2 KSL-5 KCPX-4. July 9: Es, WJAC-6 WCBS-2 WTIC-3 WBEN-4 WGR-2 KYW-3. July 10: Es, WUSN-2 WCSC-5 WECT-6 WRAL-5 WUNC-4. July 11: tropo--very unusual, about 900 miles, WJXT-4, WRBL-3(new) Ga, Es, WUSN-2. Ed's log now stands at 221, with 212 verified by letter or card--he also has 85 photos.

B.J. Bingham is next, with a big log from Festus, Missouri. First off, he had a tentative logging of a northwest station, possibly KREM-2, on June 9. He received a positive verie from KREM-TV, so it is his first Washington station, at 1500 miles. June 19: Es, WLBZ-2 WRCV-3 WTIC-3 WBZ-4 CJBR-3 WASH-6 WRGB-6. June 27: Es, WJBF-6(new--750 mi) WSAV-3 Ga, WUSN-2 KBTX-3 WEDU-3 WTVJ-4 WESH-2. June 28: Es, CMQ-6(CMQ-500) KRTV-3(new) Mexico, KAVE-6 KID-3 KTVK-3, KSYD-6(new--700 mi) Tex, WECT-6(new--700 mi) NC, KROD-4 KUTV-2. June 30: Es, CBWT-3 GKOS-3 KOTA-3 KID-3 KTVK-3 KCPX-4 KTWO-2. July 1: Es, CMH-3 CMBF-4 CMQ-6 WDBO-6 WTVJ-4. July 2: Es, WDBO-6 WECT-6 WCBS-2 WMAR-2 WFMY-2 WRCV-3 WSAV-3, WRBL-3(550 mi), XEZ-3 WOAI-4 KRIS-6 WTAR-3 WSB-2 WFIL-6 KID-3. June 3 tropo to 370 miles, WLW-I-13 WISH-8 WAVE-3 WHAS-11 WGN-9 WBKB-7 KMBC-9 KTTS-10 WREC-3 WREX-13 WCPO-9 KOAM-7. July 6: Es, WTIC-3 WRCV-3 WMAR-2 WRGB-6. July 8: Es, KID-3. July 9: Es, WRCV-3 WTIC-3. July 10: Es, CMBF-4 CMH-3 XEZ-3 XEW-2 WEDU-3 WEAR-3 WSAV-3 WRBL-3 WDBO-6 WJBF-6 WSB-2 WESH-2 WJXT-4 KOTA-3 KDUH-4. July 11: Es, XEW-2 XEZ-3 CMQ-6 CMQ-3. July 12: Es, WGR-2 WMAR-2 WCBS-2. July 13: Es, KOTA-3 KDUH-4 KOOK-2 KOA-4 KID-3, KRTV-3(new--1350 mi--last I heard, this station was only 600 watts video ERP) Montana, XEFB-3. No skip was then seen up to the 19th. His log is now 279 with seven new.

Dee Johnson has also been busy at the dials in Longview, Washington. June 21: Es, KNXT-2. June 22: Es, KTWO-2 KLRJ-2 KVOA-4 KTVK-3. June 26: Es, KTWO-2 KTVR-2 KCKT-2 KNOP-2 KDUH-4. June 28: Es, KUTV-2 KTVR-2 KNXT-2 KOB-4 KTVK-3 KVOA-4. June 29: Es,

August 1961

Wasco, California

(Dee Johnson's report continued) KTVR-2 KNXT-2. June 30: Es, KTVR-2, KDKA-2 (2150 mi. double hop--tape made) Penn, KFW-3 (2080 miles double hop) Ohio, KTW-2. July 1: WSB-2 (2200 miles double hop) Ga., KTW-2 KOTA-3 KDUH-4 KOOK-2 XEM-3, KFEQ-2 (1480 mi--photo taken), CMAB-2 (2700 miles double hop--photo taken) Cuba, KNXT-2 KNOP-2 XEM-3, ??-5 (live panel show, 7:30 PM PDT), KOTA-3 KTVR-2. July 2: Es, KNXT-2 KMID-2. July 3: Es, KVOO-2 (1600 mi). July 4: Es, KNXT-2 KRCA-4 KTVK-3 XEM-3 KUTV-2 KNOP-2. July 6: Es, KNXT-2. July 7: Es, KVOO-2 (1600 mi), KTW-2 KTVR-2 KLRJ-2. July 8: Es, KOTA-3 KDUH-4 KNXT-2 KNOP-2. July 9: Es, KTVR-2 KNOP-2. July 12: Es, KTVR-2, WCBS-2 (2550 miles double hop--tape made) NY, WGR-2 (2150 miles double hop--tape made) Buffalo. July 20: Es, KOOK-2 KTVR-2 KFBC-5 KTW-2 CKCK-2. July 22: Es, CKCK-2. Also, I would like to correct a mistake I made in Dee's report last month--I listed CKCK-2 on June 6 as Es, but it was MS instead. Sorry, Dee... Her total stands at 153.

Percy Cox reports from Visalia, California that skip has been good--enough to produce nothing but a jumble of stations at times with his stacked OL-4X's, but his UHF open bow-tie would then reduce the interference to clear pictures... July 1: Es, KMID-2 KEDY-4. July 2: Es, KOCO-5 KMID-2 KVOO-2 KCKT-2 KPRC-2 KFEQ-2 KARD-3 KSYD-6 KRLD-4 WKY-4 KEDY-4 KGNC-4 WBAP-5 KENS-5 KOTV-6 KSYD-6, also 25 FM stations from Texas & Kansas. June 3: bursts, no IDs. June 4: Es, KOTA-3 KTW-2 KCXT-2 (new--where would this be?) KFEQ-2 KING-5 CBUT-2 KOMO-4 KREM-2 KCEN-6 KGNC-4 KVOO-2 KRLD-4 WBAP-5. July 5 & 6: Es, no time for IDs. July 7: Es, KMID-2 KFDX-3 KEDY-4 WKY-4 KDIX-2. July 8: Es, early AM, no IDs. July 9: Es, WOAI-4 KENS-5 KPRC-2. July 12: Es, KNOP-2 KTW-2 KOTA-3 unIDs ch.4 & 5. July 13: Es, unIDs ch.2,3,& 4. July 14: Es, KCKT-2 KARD-3 KGNC-4 unIDs ch.5 & 6. July 16: Es, KMID-2 KEDY-4 KFDX-3 unIDs ch.5. July 20: Es, KNOP-2 KOTA-3 unIDs ch.4,5,& 6. Away on vacation July 21-24 July 25: Es, KOOK-2 KDIX-2. One new one brings Percy's total to 116. And, there was a goof in his report last time--the listing of KTVI-2 on June 2 was actually KTV-4....

Your editor's log in Wasco, California is broken up this time because of occasional trips to Santa Barbara, where the locals are too strong to identify skip. June 28: Es, KFSA-5 (new--1450 mi) Ark, KVOO-2 KOCO-5 KHAS-5 KTW-2 KOA-4 CHCT-2 KREM-2 KXLY-4. June 29: Es, KTVR-2 KTIV-4 KHAS-5. July 1: Es, KREM-2 KING-5. July 2: Es, WKY-4 KMTV-3 KARD-3 KFSA-5 KSYDD-6 KFDX-3 KXLY-4 KGNC-4 KCKT-2 KNOP-2 CKCK-2. July 3: Es, WKY-4. July 4: Es, KOMO-4 KDIX-2 WKY-4 KVOO-2 KCKT-2 KFDX-3 KARD-3 CFRN-3 CHCT-2. In S.B. July 10-14. July 16: Es, KROD-4 KMID-2 KTW-2 KREM-2 KVOO-2. In S.B. July 17-20, Es those 4 days--no IDs. July 23: trop, KVIP-7 (400 mi). July 25: Es, KNOP-2 KFDX-3 KTW-2 KOTA-3 KOOK-2 KREM-2. One new brings the log up to 106.

Eric Norberg in Carmel, California saw some DX, too--July 2: Es, KMID-2 KOB-4. July 4: Es, CHAB-4 (new) Sask, KFDX-3 KGNC-4. July 6: Es, KMID-2. July 7: Es, KTW-2. July 22: Es, KREM-2 KXLY-4 (new) Wash. His total is now 39 with 2 new ones. Eric tells of an interesting situation, concerning our area and the FCC proposal to make it all UHF--there was a question whether or not ch. 12, recently taken out of Fresno and put to Santa Maria, would straddle the coast mountains on the west side of the valley with a maximum-power signal, thus putting ch.12 back into the valley--but an application for this channel with 23.75 kw and 827 ft. height seems to leave this area safe...but then, KSBY-6 San Luis Obispo, not far from Santa Maria, just came up with a construction permit to raise ERP from 16 to 100 kw and height from 1260 to 1570 ft. KSBY's present signal into this area is only fair and not very strong--but their CP would make it grade A from Fresno to Bakersfield...thus covering the UHF area, just when the FCC is trying to get rid of VHF here....???.

The buildings for the new channel 53 station in Fresno are nearly completed, and the electronic equipment is now being assembled. It is hoped to be on the air as early as this September, if all goes well, and it will be Fresno's 4th UHF station. And, KBAK-29 Bakersfield has just moved from its old studios on the hill north of

August 1961

Wasco, California

town (where their old xmtr will be retained as a stand-by) to the new headquarters in the downtown area, in which there has been installed about a quarter of a million dollars worth of new equipment. This includes a new video tape unit, which is the only one between Los Angeles and San Francisco.

CONVENTION NEWS BITS: At this writing, the AIPA Convention for 1961 is just about ready to get under way...and from what I've heard, there will be a lot going on -- plenty of places to visit (radio and television stations), as well as all the talk and comparing of notes between the members, and many tape recorders going, too. As I said last month, there is no western convention this year--there are so few of us scattered so far apart, it is difficult indeed to get even a few of us together in one spot. At any rate, we'll see what we can do next summer--we are now open to suggestions for anywhere you would like to hold it, and anything you want to do...a couple of things are already in the tentative stage, and we are wondering if you would like to take part in either one of them. One possibility is this: if the western convention were to be held in or around Wasco, a visit might be made to the new transmitter location of KBAK-29 Bakersfield, located over 7600 feet high in the Sierra Nevada east of the city, as well as their new downtown studio (at something like 300 feet elevation). Percy Cox of Visalia could help arrange such a visit. That is one thing the Far West has plenty of--and that is high mountains. Another possible excursion concerns the very high hill mentioned last month--White Mountain Peak in eastern California, 14,242 feet up and about 75 miles north of Mt. Whitney. Who knows how far away signals could be seen from up there? David Crockett of Burlingame, California has been investigating this mountain, and has sent me some of the details. Bakersfield is about 200 miles away from the community of Bigpine (by road), where the main road is left to begin the upward ascent. Bigpine is on U.S. Highway 6, 15 miles south of the town of Bishop. The research laboratory at the top of White Mt. Peak is operated through the U.S. Navy by the University of California, and is reached by taking a small paved road east from Bigpine, and then turning to the north on a narrow, winding dirt road which goes up the mountain--part of this road is very steep, and the highest part can be driven only with 4-wheel drive vehicles. Such jeeps can be rented at a lab station part of the way up the mountain. The entire distance from Bigpine to the top is 50 miles. The structure at the top is a 15' x 30' stone building, and has domestic household electricity provided by a gasoline generator. It also has accommodations for meals and sleeping. Roadside service is also provided, if something goes wrong with the car on the way up (or down), and since anyone going up notifies stations at the different levels, a crew is sent out if more than the usual time is taken in travelling the road. This roadside service, as well as some of the accommodations, has to be paid for, and the more people there are, the less it would cost each person. (If you would like to know some of the fees involved, as well as other details not covered here, you can write to Dave Crockett at 1024 Toyon Drive.) White Mt. Peak is almost as high as Mt. Whitney, and is probably just as good as Mt. Whitney for TV-DX--if anything, it may be a bit better, since it's a little further away from the many southern California stations. Here are some approximate distances by air miles from the Peak to other points...California: Fresno 80, Bakersfield 150, Los Angeles 230, San Diego 330, San Francisco 225. Oregon: Klamath Falls & Medford 400, Portland 575. Idaho: Boise & Twin Falls 400. Utah: Salt Lake City 375. ARIZONA: Phoenix 425, Tucson 525. Nevada: Reno 140, Las Vegas 200. Baja Calif.: Mexicali & Tijuana 360. Some of these might be seen, and maybe others even more distant. A couple of us may take a dry run over to this area later on this month.. and a report will be made of that journey next time. Meanwhile, I wish some of us way out here could have gotten to Royal Oak, but no such luck, but I hope everyone who did attend had a lot of fun.

Anyway, I'll be waiting for the reports for the next column--since there is still some Es floating around.

Best of DX to all

Dennis

Bedford P. Brown, Jr.
6141-South Mayfield
Chicago 38, Illinois

Again thanks to Tom Hidley for the use of his typewriter. It seems as though, as B.J. puts it, we Chicagoans will soon be outnumbering the New Yorkers, quite a feat. We still don't know how many of us are going to make it to the big A.I.P.A. convention, but I shall be there for sure. There are a lot of reports this time so here goes, and to all thanks a million for the reports.

Unidentified Programs (All time is Eastern Standard Time.)

Bryan Rawlings, 4376 Wilson Avenue, Montreal 28, Quebec, Canada

1. June 29 1045 to 1110 EST ch.4 "Goldcoast Theatre" movie about bull-fighting. (Would this be KPAC-TV?)

2. July 3 1245-1250 ch.2 Ind.-head tp to's and sw (would anyone know tps used by WAIQ, WTHS-TV, and KPCA-TV?)

~~X~~/Gary Olson, 35 Lake View Lane, Barrington, Illinois

1. June 13 ch.4 show about flags, their history, discussed by two men, 8:15 to 8:30pm.

2. June 13 ch.3 11:00pm ski p-sign off with national anthem.

3. June 14 ch.3 3:00pm skip-conelrad test 30 secs. followed by the "Ranger Andy Show", northeast

4. June 14 ch.2 3:30pm college support announcement NBC northeast

5. June 14 ch.4 3:40pm pictures of musical instruments with titles-ne

6. June 14 ch.3 4:20pm sports show-mentioned eastern vs salisbury game

7. June 19 ch.2, 3, 4, 10:00am northeast Indian-head test patterns

8. June 19 ch.4 10:50am south "Call 522-3275"

9. June 19 ch.2 4:30pm organmusic 4:30pm, Dial Evergreen 4-3311, 4:40pm Weather report (northeast)

10. June 19 ch.3 5:07pm weather man-looked like map of Europe-northeast

11. June 19 ch.3 5:15pm adds for Zacheck National Beer on ch.2 (?????)

12. June 19 ch.2 7:30pm math(skip) program with man teacher-s or se (WTHS?)

13. June 27 ch.3 8:50pm educational reading show with kids(skip), then two kids; Debby Blondin and Debby Johnson singing Playmate, followed by an add for remodeling(e or se)

14. June 27 ch.3 RTMA TP northeast 3PM

15. June 27 ch.5 4:00pm the Verdict is Yours, add for Coke with Anita Bryant(south)

16. June 27 ch.4 kidshow with woman clown as mc 5:15pm south or sw.

17. June 27 ch.3 educational program on history of Israel, Persia, and China.

18. June 27 ch.3 weather for Tampa and Jacksonville 7:30pm, add for Bunther-gung pools

19. June 29 ch.3 5:30pm ch.3 skip English movie with foreign subtitles

20. June 29 ch.4 6:15pm Kincaid and the News promo followed by

"The big 3" News promo.

21. June 29 ch.5 5:30pm "Get two dresses for the price of one" followed by "Stu Erwin next on channel 5"

22. June 29 ch.4 7:00pm Capt. K.C. Show ends.

23. June 29 ch.6 7:30pm sports show audio-sounded like Bud Wilkinso n

24. July 2 ch.4 1 1:30am "Impact" followed by add for municipal auto sales.

25. July 2 ch.6 "Craine's 6 hour sale 1:00pm

26. July 2 ch.3 3:30pm add for town house motel-restarurant

27. July 2 ch.3 3:55pm discussion program ending (live) east

28. July 3 ch.2 11:50pm-s or sw-two country and western singers followed by add for Brock Car Dealer at two locations.
