The Worldwide TV-FM DX Association

Serving the VHF-UHF Enthusiast

VHF-UHF DIGEST

E-ZINE VERSION

SEPTEMBER 2002

The VHF-UHF Digest is the official publication of the Worldwide TV-FM DX Association dedicated to the observation and study of the propagation of long distance television and FM broadcasting signals at VHF and UHF. The WTFDA is governed by a board of directors: TOM BRYANT, GREG CONIGLIO, BRUCE HALL, DAVE JANOWIAK AND MIKE BUGAJ.

MEMBERSHIP ENDING IN SEPT 2002

Check this list. This is your last issue unless you re-up.

Wayne Benkinney	Mike Bugaj
Joe Fela	Joe Gragg
Kurt Nelson	Jim Renfrew
James Snow	Eric Voytko
FJ Issard	Bill Smith
John T. Ridge	Cliff Rames

WTFDA membership stands at 277 as of 8/24/02.

If you have a computer, hang out at the place where many of your fellow Dxers reside. That place is the WTFDA list at Topica.com. Want to

know when tropo is up? You'll find out. The Topica list takes out the guesswork. Subscribe now by sending an email to WTFDA-subscribe@

topica.com. Your logbook will love you for it! Have a great tropo season!

IRC CHAT...ICQnet room #dx every Tue/Fri At 10:00pm ET

This time we have a very full issue for you. FM News is back again, this time edited by Steven Wiseblood. It looks good. And with the 2002 WTFDA convention passing into history, John Zondlo presents a three page recap of the event and we do hope you enjoy it.

Tom Bryant returns again with his Time Tunnel and this time he has quite a few rare photos for your enjoyment.

There's lots of good reading in this issue of the VHF-UHF Digest. I hope you'll agree.

The 2002 WTFDA TV Station Guide MAKES A GREAT CHRISTMAS GIFT!

You just can't get any better than this! Over 400 pages of listings by channels and by plots on channel maps...full power, LPTVs, translators and DTV stations. The WTFDA Station Guide has it all! Make your check or money order for \$23.00 (US funds for those outside the USA) payable to **Dave Janowiak** and mail it to:

John Ebeling 9209 Vincent Avenue South Bloomington, MN 55431-2157

Order now! Supplies are limited! Don't be left out!

For even more info see us online at: http://fmdx.usclargo.com/tvg.html

SEPTEMBER 2002

Hello, and welcome to the Mailbox for September. I know you all are burned out from all the E skip we got this summer (just a little sarcasm here). Now it's time to move on and immerse ourselves in tropo and maybe a little meteor scatter for the fall.

One more thing...it's September, and this marks my first anniversary as VUD publisher. Personally I find this hard to believe. Two years ago I never thought I'd be doing this job. I'm looking forward to year two.

MEMBERS AND MORE

Welcome this month to Ryan St. Arnold from Hermantown, MN. Ryan is a friend of Jacob Norlund and I've talked to Ryan a few times on IRC chat. Ryan is a ham and has the calls KC0JEX and likes TV, FM and public service DX. He uses a 13" Sanyo TV (probably much like mine), a 35 element UHF corner-yagi, a Sangean ATS-818 receiver, an 8 element VHF log periodic and a Uniden BC-895 XLT (mine's a BC 865). Ryan gets in under the student discount. It's nice to have you here, Ryan, and show up on chat sometime and we'll talk.

I have renewals in from the following folks: John Tudenham(MO), McCormack(MN), Bill Burrows(PA), John Kellev(TX), Zondlo(OK), Chip Bill Eckberg(IL), Robert Williams(ID), Les Rayburn(AL), Walter Patton(ON), Tobia (CA), Glen Boche(MN), Randy Miltier(OR), Mike DeRoo(KS), David Flottman(MO), Jim Ayers(GA), Ronald Purdue(MN) and Calvin Glover(MD), Thank you all for your support!

The renewal from Jim Ayers came as a shock. Jim had emailed me earlier that he wasn't renewing due to the utter congestion of the band in the Atlanta area, but he had a change of heart (like the TV show of the same name). I can understand that. This club is addictive.

Note to Al Tobia and Randy Miltier: how about logging in to chat some night. It's been a long time.

100000WATTS.COM

According to the August 12, 2002 edition of the NRC's *DX NEWS*, WTFDA member Scott Fybush has taken over the management and updating of the 100000 watts site previously run by Chip Kelley. More than a few of us wondered what would be the fate of this important website and we're grateful to see it's in the hands of a professional like Scott. Thank you Mr. Fybush!

<u>dMARC NETWORKS</u>

More hope for RDS enthusiasts: dMarc Networks is excited to announce the production launch of our patent-pending dRDSTM system, providing packet-based, centralized Radio Data Service (RDS) management and data broadcasting. This revolutionary system enables broadcasters and marketers to dynamically schedule, target, deliver, and report on data broadcasts across one or RDS multiple stations, all through our userfriendly desktop software. dMarc WebManager dRDSTM 1.0. allows broadcasters and marketers to target and deliver subcarrier content to RDS-enabled car receivers, now standard in over 75% of new automobile models. dRDSTM is included in our dMarc For Broadcasters suite, and is also available to be managed and sold through our Subcarrier Representation services. If your broadcast station already offers RDS, no problem..as our dRDSTM solution can be integrated with most RDS hardware systems to expand your data broadcasting capabilities and revenue opportunities.

Launched initially in Southern California, and spanning more than 27 FM stations from San

Luis Obispo to San Diego, dMarc Networks enables content and data service providers to plan, target, and deliver data and content files seamlessly across a area reaching more people. 15,000,000 dMarc Subcarrier Representation offers direct access to this population. through our multi-station providing wide reach, signal network, redundancy and pinpoint targeting through our patent-pending dMarc technology.

dMarc has a scheduled national expansion beginning during the third quarter of 2002.

BEYOND LINE OF SIGHT

This is from Bob Cooper: "I suggest anyone who REALLY wishes to understand how various forms of VHF and UHF propagation function should locate a copy of "Beyond Line of Sight - A History of VHF Propagation from the pages of QST" by Emil Pocock. The ARRL web site should have an ordering system for this one. It traces the world above 50MHz from the touches on and details how 1930s, everything from tropo scatter to field aligned Es works and includes some interesting references to TV and FM DX as well. This should be in every DXer's library as a reference work."

A NEW PARABOLIC?

Recent news from Rich Wertman: "As most of you know there are no more Channel Master/Antennacraft-Finco parabolic antennas being built. There are commercial types available from Wade and Taco, however most people don't want to spend in the thousand-dollar range for one. I'm currently doing some experimenting with a 6' and 7' mesh satellite dish being used for UHF TV. The reflectors are fantastic and blow most dishes away in terms of f/b ratio and directivity. The problem lies in their weight and windload. I'm reducing the amount of ribs in each of the 4 sections this helps with weight. I'm also not using the typical mount. I've configured a mount with u-bolts on the top and bottom of the outer rims. The feed style has been the Finco feed and a CM 2bay bowtie. I'll publish results soon!! I think you'll be surprised. I'm also working with a Canadian antenna company to help in the design and building of a high gain parabolic antenna for this purpose. I'd like to be marketing a dish again soon. With HDTV coming on I think many areas will require a high gain antenna, not rabbit ears!

HE HEARD YOUR STATION

When I first saw this, I thought it was a QSL card, but upon looking closer I find it an "I received your station" card instead. This was sent by Jim Gill, who does his TV Dxing from beautiful Bradenton, Florida.

If you have a QSL card or something of this nature, send it along with your renewal and I'll save them and use them to fill up any unused space.

A GREAT GATHERING!

The 9th Annual Madison Get-together for DXers and Radio Enthusiasts is over, but not forgotten. This year's event, held on Saturday August 17, 2002, was hosted by Bill and Nina Dvorak at their home, 501 Algoma Street Madison WI 53704-4812. The day was sun-drenched with low humidity and a refreshing slight breeze, and the temperature peaked at a perfect 80 degrees.

A record 26 DXers showed up for this year's event. Included in this number were 11 WTFDA Members: Mike Condon, Bill Eckberg, Paul Froehlich, George Greene, Jeff Kadet, Neil Kazaross, John Lentz, Frank Merrill, Ken Onyschuk, Marv Shults, and host Bill Dvorak. Over the years, the support that has been given the Madison GTG by WTFDA members has been outstanding, and the Madison group thanks them very much.

Next year will be our milestone 10th GTG. If you are interested in joining us and meeting fellow WTFDA members, please contact us. Next year's host will be Tim Noonan, e-mail < dxing2@aol.com >, or contact Bill Dvorak, e-mail <dxerak@aol.com >.

<u>LAST BUT NOT LEAST</u> That's all I have for this time. Take care and see you all next month. –Mike

Thanks to Charles Gauthier and Fred McCormack for information in this month's column.

The programming change at WISC-DT Madison affects only their DTV station. They had been running a WB affiliate on their second virtual channel. (The "TVW" outlet that had been cable-only before the DTV signed on the air) Madison's UPN affiliate WHPN-57 is switching to WB this fall. So the WB cable-only station is switching to UPN, and with it the second virtual channel. Similar situations exist in Springfield, Missouri (where a UPN LPTV is carried on the second virtual channel of a full-power DTV station) and central Illinois. (Where a CBS DTV on one end of the market is carrying their co-owned UPN affiliate from the other end of the market on their second virtual channel, and vice-versa.)

Note major power increases at several stations this month. WDBB-17 (Alabama), WQHB-63 (South Carolina), KLSB-19 (Texas), and KWBU-34 (also Texas) should all become much easier DX targets. At the same time, at least ten DTV stations have been granted major <u>decreases</u> in power. DTV still isn't making financial sense for stations, and many are operating at the lowest power practical to save electrical bills. There are also a number of long-distance LPTV moves this month.

The FCC has taken action it hopes will reverse this situation. After a deadline, many new TV sets will be <u>required</u> to receive DTV signals. The requirements will be phased in over a five-year period, depending on screen size:

TVs 36" or larger: 50% must receive DTV by 1 July 2004, all by 1 July 2005.
TVs 25-35": 50% must receive DTV by 1 July 2005, all by 1 July 2006.
TVs 13-24": all must receive DTV by 1 July 2007.
Other devices which receive TV signals: (VCRs, DVD recorders, etc.) all must receive DTV by 1 July 2007.

Smaller TVs will not be required to receive DTV. This is similar to Commission policy on closed-caption decoders, which are required in receivers larger than 13" but not in smaller sets. The Commission believes action is permissible under the 1962 All Channel Receiver Act. This law was originally enacted to save UHF TV, by requiring all TVs to receive UHF signals.

Setmakers are of course not particularly happy with these rules. (will they be challenged in court? I don't know yet.) I doubt they'll add more than maybe \$10 to the price of a new TV. A few chips will have to be added. The impact will be a bit more than closed-captioning requirements but not a whole lot more.

Some websites are also reporting that some in Congress are considering legislation that would require cable to carry DTV stations <u>in addition</u> to analog signals. Current FCC rules require carriage of <u>either</u> analog or digital, but not both. I have not seen any such legislation actually introduced yet.

The new channel 52 application in San Francisco is a strange one. This is for a "booster" station - a station that relays another station on its own channel. (Like a translator, except the input and output channels are the same. Boosters are usually fed by microwave rather than off-air.) All boosters I'm aware of relay full-power stations. But there is only one full-power analog channel 52 station in California. It's in Corona, near Los Angeles - way too far from San Francisco to have a booster there. Boosters must operate within the predicted coverage area of the stations they relay.

I <u>suspect</u> the intended primary of this San Francisco booster is a DTV station, KICU-DT in San Jose. KICU-DT is indeed on channel 52. And their transmitter is far enough south of town that it could probably use a booster, yet close enough that San Francisco is in the predicted coverage area. Still strange.. is that the applicant is Jeremy Lansman. That name is probably familiar to many members. Lansman was involved in several community-radio projects like KDNA in St. Louis; he's also involved with KYES-5 in Anchorage and "FM radio on TV" outlet KZND-LP ch. 6 also in Anchorage. To my knowledge he has nothing to do with the ownership of KICU. However, sometimes it's tough to know more obscure ownership links...

CICE-TV-4's application to move to channel 29 had not been found "technically acceptable" by the Department of Industry in time for the CRTC to act on it. It doesn't appear that they found it to be <u>unacceptable</u>, only that they hadn't ruled on it. My guess is the application can be re-submitted provided TVOntario can obtain a guarantee of acceptability in time for CRTC action. I can't think offhand of any reason why the use of channel 29 for a low-power relay would be a problem at that location.

Fred can confirm that K65DT Walker, Minnesota now translates KFTC-26 instead of WFTC-29. The only difference between the two primaries is a two-line ID "KFTC-TV/Bemidji MN" in the lower-left corner around the top of the hour.

In Walker, the upcoming WFTC/KMSP network swap should have little effect; both stations are on translators there. KMSP translator K49CU is more powerful than WFTC's K65DT. (Nearly 9kw vs. about 800 watts) K49CU is also, however, roughly 10 miles out of town to the southeast.

Charles notes that WVNY-22's four translators disappeared from my database for awhile. For some reason, their programming records had vanished. Strange. For the record, these stations are:

W60AF	Malone, NY
W66AJ	Lyon Mountain, NY (Charles sees this one in Montreal)
W55AILak	e Placid, NY
W63AD	Rutland, VT

Oh, the funny-looking "950320KH" callsign on the new Ithaca, NY station is not a typo. This is a construction permit for a new station which has not yet requested call letters. 950320KH is the "reference number" associated with their original application - which was filed on March 20, 1995. (The "KH" is to distinguish their application from other applications filed on the same date) This procedure of using reference numbers for new stations was regular FCC policy for many years, but recently they've been assigning call letters (in alphabetical order) to new stations shortly after the construction permit is issued. Why the Ithaca station hasn't received such a call I can't say.

Still no skip to speak of. Tropo seems to be picking up though. Good DX!

WESTERN TV DX CONTINUES FROM PAGE 27

I caught the end of an Es opening to Mexico on July 14. Logged new XHDRG-2 with rotating ID and local ads. Five photos of the ID are yet to be developed. The distance of 1498 miles is a noman's land. Are loggings of 1450-1600 miles single hop, double hop, intercloud, or other type of Es? {*Editor, Yes!*} Logging was at the end of an opening and no close Es stations were present, so I suspect a long single hop. The only other station ever logged in this range was Sydney NS-5. I determined the distance with a computer.

METEOR SHOWER GUIDE FOR SEPTEMBER 2002

There are no major showers this month but seven minor showers do have their peaks this month. The showers are: 1.Alpha Aurigids (9/1 and 9/2), 2. Gamma Aquarids (9/7 and 9/8), 3. Alpha Triangulids(9/11 and 9/12), 4. Southern Piscids (9/11-20th), 5. Eta Draconids (9/12 and 9/13), 6. Gamma Piscids (9/23 and 9/24) and 7. Sextantids (9/30 through 10/4). Happy hunting!

Oklahoma City

okianoma City

by John Zondlo

A look back...

Oklahoma's capital welcomed 19 members of WTFDA to this year's annual convention July 25-28. Kicking off the festivities was the early bird gettogether Thursday evening. Members met at our host motel, the Hampton Inn in Yukon, before venturing to the Bricktown entertainment district of OKC for dinner at Zio's Italian Restaurant. To the left, waiting for dinner are (starting at front & going clockwise) David Sinclair, Scott Fybush, Tom Bryant, Bill Eckberg, Paul Swearingen, John Callarman, Marv Shults, George Greene and Greg Coniglio.

After dinner everyone headed over to the Oklahoma City National Bombing Memorial, which commemorates the April 19, 1995, bombing of the Murrah Federal Building. At left, my kids, Joel and Christy, pose in front of a poignant reminder of the bombing left by rescue workers who searched for victims amidst the rubble. Below, George Greene, Greg Coniglio and Tom Bryant gather by the reflecting pool at the Memorial.

Our first full day of activities, Friday, July 26, began with the opening of the meeting room at the Hampton Inn. Conventions are a great time to renew old friendships and begin new ones. In the picture on the bottom left, Washington member Stan Weisbeck chats with David Sinclair from British Columbia. In the background, other members check out the equipment which was set up to try and snag some DX during the convention. Later in the day, several members ventured to the National Severe Storms Laboratory in Norman. On the bottom right, in the foreground, Tom Bryant, John Ebeling and George Greene view the Storm Prediction Center. One of their expert meteorologists fielded a myriad of questions from members about the workings of the Lab. No doubt about it, TV-FM Dxers have a fascination with weather!

Friday evening at the Hampton Inn featured pizza, conversation and a bit of DXing. To the right we see Jim Thomas, Marv Shults, John Callarman and John Ebeling standing around George Greene discussing DX (or the lack of it). In the foreground is Tallahassee member Jeff Lockwood. Jim graciously provided much of the equipment used during the convention, including the APS-9 antenna in the picture. He also designed T-shirts and a banner for the event. By the way, there are still a few T-shirts available, contact me at the address listed in Southern FM DX.

To the left, Tom Bryant and David Sinclair check out the local TV scene. Unfortunately, being on the ground floor of the Hampton Inn didn't help DXing a whole lot, nor did the electrical noise in the motel. Folks were able to see a couple of the Lawton, OK, stations, while those listening to FM were able to hear a few Dallas area stations. Despite the hopes of those attending, neither Es nor trops materialized during the convention.

Saturday got off to a great start with Tim McVey's tuner clinic. Tim brought in loads of test equipment to check out tuners and bring them up to spec. After a detailed explanation of the workings of a tuner, those attending gathered around the test bench for some hands on instruction as Tim worked on my Akai AT-VO4 (thanks, Tim!). To the left, Tim gives his analysis of the AT-VO4 to Dave Sinclair, John Ebeling and Bill Eckberg. Below that, Marv Shults gets a close-up look at what Tim is doing. Along with my tuner, Tim also worked on Scott Fybush's and Jim Thomas' tuners. His expertise and experience truly made this clinic one of the highlights of the convention

Saturday afternoon, many of those attending headed into town for tours. First on the agenda was a tour of the Clear Channel networks based in OKC. CC operates many networks in Oklahoma City, including the Oklahoma News Network, The Oklahoma Agrinet, the Agrinet of the High Plains and the Yancy Farm Network. In addition, Clear Channel Sports uses the facilities for the production of the lowa State University and Texas A&M sports networks.

Following the CC tour, Joel Reagan of KYIS took us on a tour of the Citadel Broadcasting stations in OKC, which include KATT, KYIS, WWLS, KKWD, KLGH and KQBL. The tours were a great lead in to the events planned for Saturday evening.

Saturday night the scene shifted to the Interurban Restaurant for the banquet. To the left, in the foreground we see FM Atlas publisher Bruce Elving & his wife, Carol, sitting across from John Ebeling.

After dinner it was time for door prizes, which included T-shirts from local stations such as KKNG and KJYO, and coffee cups from KQCV and KTOK.

Following a videotaped presentation on Mexican TV by Danny Oglethorpe and an auction conducted by Paul Swearingen, Tom Bryant represented the club's board of directors in hosting the annual business meeting. Unlike last year's meeting, when WTFDA was in a transition period following the resignation of long time publisher Bill Thompson, this year's meeting was rather uneventful. Tom brought members up to date on the status of the club newsgroup, the electronic VUD (e-VUD), and the TV Station Guide. He then opened up the proceedings for questions from the members.

After departing the Interurban, most members headed back to the Hampton Inn to check out the DX and chat some more. Several, including Scott Fybush, Rick Lucas and John Callarman, headed up to Tom Bryant's room to check out some classic TV QSL's and pictures. Others hung out in the meeting room, checking out the collection of freebies and door prizes available. To the right are John and Ira Ebeling, Marv Shults, Bill Eckberg and Dave Sinclair. A few DXers checked out the bands, but after the poor conditions of the first few days of the convention they gave up hope of any great openings during their time in Oklahoma City.

The final day of the convention, Sunday, July 28th, saw many members departing early for their next destination. Here, Tom Bryant, George Greene, Stan Weisbeck, Marv Shults and Bill Eckberg gather for breakfast at the Hampton Inn. The meeting room stayed open til 2 for the final few who hung around.

Here are the fine folks who attended this year's convention, by state & province-BC: Dave Sinclair; CO: Jim & Cheryl Thomas; FL: Jeff Lockwood; IL: Bill Eckberg, Marv Shults; KS: Paul Swearingen; MN: John & Ira Ebeling, Bruce & Carol Elving; NY: Greg Coniglio, Scott Fybush, Rick Lucas; OH: George Green; OK: Danny Buntin, John Zondlo; TN: Tom Bryant; TX: John Callarman, Joe Gragg; VA: Tim McVey; WA: Stan Weisbeck.

As host, I'd like to thank the following for making this year's convention an event to remember: My family, all of those who attended, Traci Yarbrough & staff (Hampton Inn), Daphne Zaras (National Severe Storms Laboratory), Jim Thomas, Bill LaFortune (Interurban Restaurant), Kevin Christopher (KKNG), Paul Sublette KQCV), Chris Fleming (Clear Channel), Derrick Nance (Oklahoma News Network), Joel Reagan (KYIS), Rich Wertman, Tim McVey, Danny Oglethorpe, Doug Smith.

For more pictures and comments about the convention, please check out the WTFDA 2002 page of Fmdxweb.com.

Steven C. Wiseblood 28 LBJ Blvd. Brownsville, TX 78521 stevenwisebl@hotmail.com

CHANGES AT THE BIG KAT - WHAT'S THE FREQUENCY?

The Daily Union, Junction City, Kansas August 11,2002 By Gail Parsons

Change is in the airwaves at Platinum Broadcasting. In a move that is anticipated for September, listeners to Big Kat 94.5 will have to adjust their radio dial to find disc jockeys Chad Allen, Rodney, Wende Horton, Bradley J. and JT. The crew isn't moving far, but because of a new station in Kansas City, Big Kat's (KJCK) new home will be at 97.5

General manager Mark Ediger said trying to put that new station in has been a "technical nightmare" and at least a dozen radio stations are moving frequencies because of it.

However for the Big Kat, the move should be positive and the listeners will benefit by having a stronger signal. "The move requires a new antenna - a huge 12 bay antenna," Ediger said. The one Big Kat uses now is more than 20 years old and has a diminished capacity because of its age.

While a stronger signal is nice, the switch provides a perfect excuse to give away stuff in a special moving promotion. Listeners will be rewarded with contests and giveaways, which Ediger refrained from going into detail about, besides saying that some of the prices involve cash. "There will be plenty of incentives to switch - all I will say is stay tuned, we will be enticing you to switch to 97.5," he said.

Once the move is made, Ediger said listeners should not be disrupted. On the day of the change a stand-by transmitter will be used to keep the station on the air while the switch is finalized.

Longtime listeners to KJCK might also recognize the return of a familiar voice- Jerry Brecheisen. "Jerry was a very familiar voice to anyone who has listened to KJCK in the past 20 years," Ediger said.

In addition to the new frequency for 94.5, September is also expected to bring new ownership for the radio station. Although the final details of the sale are still pending with the F.C.C., Ediger said he doesn't anticipate any complications that will prevent the sale from becoming final in mid-September.

The sale was necessitated after the death of former owner Bob Weary.

Eastern TV-DX

Matthew C. Sittel 15013 Eureux Circle Bellevue, NE 68123 mcsittel@cox.net

September, 2002

October, 2002 column deadline: Sep. 12

Eastern TV-DX is for reporters from the following states: AL, CT, DE, FL, GA, IN, KY, MA, MD, ME, MI, NC, NH, NJ, NY, OH, PA, RI, SC, TN, VA, VT and WV, plus Washington, DC. Also for reporters from the following Canadian provinces: NB, NF, NS, ON, PEI and PQ. Overseas reports are also welcome!

It looks like the 2002 skip season will be remembered for its lack of activity. July was very poor, as at least one reporter points out (two if you include me!). Some tropo activity gave us some DX to watch, which is where most of us are concentrating on now as we enter the late summer and early fall.

William McGuire, 2412 59th Place, Cheverly, MD 20785-2918

KDTN-2 is sometimes IDing as KERA-13, which is co-owned. WJXT-4 uses a "One 4 Only" logo on the lower right of the screen. July 2002 ranks the worst July ever for Es since I started seriously in the late 1970s. But tropo has made up for it with some very strong signals, though I stuck mainly to FM. I have now added a 4-bay antenna to my rig. 73s, Saul.

All tropo this month. Nothing else to say. The Daytons are my biggest trop catches yet at this location. More next month?

Yours truly had some minor DX while on vacation. While staying in Syracuse, NY, on August 1, 2002 there were some decent trops noted about 2330 EDT. I had my Sansui 9" TV/VCR combo w/rabbit ears in the motel room (4th floor, facing east) and noted nice signals from Utica and Rochester, with weak signals from Buffalo. On my ICOM R-10 handheld scanner I heard audio from the Toronto UHF stations, such as 19 with "tvo" spoken promos.

I checked for DX at a number of other locations on our drive through the Canadian Maritimes, but nothing was noted. In fact conditions might have been downright terrible; in St. John, New Brunswick the local TV stations were barely watchable on the west wide of town. Drizzle and 60F/16C couldn't have been all that conducive to decent DX!

Rio Grande City

This report is for July 2002. This time, tropo DX along the southern California coast to San Diego/Tijuana on TV-FM (250mi/320km) existed for the entire month. The air boundary varied from high to low elevation (the lower elevation the boundary is, the better the tropo for my low elevation). Temperatures continued hot inland, which also means the air layer above the boundry along the cool moist coast was hot and dry helping the tropo.

Jul 1-2: Fair

Jul 3-7: Variably poor/very poor

Jul 8-10: Fair Jul 11: Good + Jul 12-13: Fair Jul 14-16: Poor

Jul 17: Fair, Some stns very good; see

below

Jul 18-22 am: Poor Jul 22 eve-27:Fair

Jul 28-31: Variably poor

Jul 17 eve tropo between 1700-1800 PDT, peaked aprox 1730. (There were other only-fair signals from SD/Tijuana (XETV-6, XEWT-12, KPBS-15, XHTIT-21, XHJK-27, XHAS-33, XHBJ-45, XHU*AA-57), but the stations below were most notable. All were received on indoor rabbit-ear and bow-tie antennas.

KFMB 8 San Diego CBS very good 175/280 KGTV 10 San Diego ABC very good 175/280 KSDX-LP 29 San Diego CAN shopping fair (not seen very often) KNSD 39 San Diego NBC very good 185/295 XHUPN 49 Tecate BN UPN 200/320 (ID on horizontal frame bar superimposed on local K49EK) KUSI 51 San Diego 185/295 (Heavy 0-offset under local KBAB-LP) San Diego WB very good 185/295 KSWB 69

However, there was no signal this time from K35DG-CA La Jolla.

Best of DX to all, Dennis

John Ebeling, 6843 Hwy. 47, Alborn, MN 55702 The year to date Es report from the cabin in Prosit, MN in northern MN. It has been a lousy season up to August. Times are CDT.

Mike Cherry, VE7SKA <mcherry@saltspring.com>

Hi Victor - with Es season soon winding down - 2002 is the worst I've experienced in this region since I started DXing TV & FM in 1968!! Nonetheless, there have been a few "crumbs" to chase after

1205 <u>CHAU-7</u>	<u>4</u> QC Riv-au-Ren	ard	1250 KTWO 2 WY 849
		<u>1272</u>	AAA ()
1220 <u>CJPM</u>	6 QC Chicoutimi	<u>978</u>	The AM of June 8 saw 450 mile tropo from
1240 CFRS	4 QC	974	AR to TN. Close in stations that have eluded me for decades were seen. Rarely seen Bowling
CFCU-2	2 ON Kerns	<u>678</u>	Green 13 was strong at 357 miles. Nashville 30
14 Es 1000 WPBT	2 FL	1229	was snowfree for hours. A stationary front
XHRIO	2 TM	1201	extended from upper MI to central NE. A warm
1010 WEDU	3 FL	1031	front ran from Atlanta to Dallas. A pool of warm stagnant air was trapped between the fronts in
1100 WESH	2 FL	983	the Midwest.
1105 WPTV	5 FL	1168	June Es included areas not seen often with
WFOR	4 FL	1229	six new loggings. Some years I have only gotten
1200 KPHO	5 AZ	1348	one new station. June 14 saw short Es to Clearfield-3 for a half-hour and Toronto-5 briefly
KTVK	3 AZ	1348	at 559 and 514 miles respectively. June 25 saw
1210 KASA	2 NM	972	Scottsbluff-4 for half an hour and only five
1245 KNAZ	2 AZ	1258	degrees north of my local 4 at 61 miles. The
1820 <u>WPSX</u>	3 PA Clearfield	<u>559</u>	directivity of this discontinued antenna is legendary. All three stations I assumed were
1830 <u>CBLT</u>	5 ON Toronto	514	impossible to log here. Normally Es_ is
1840 WUND	2 NC	797	concentrated into Mexico and FL early. This
1845 WCBS	2 NY	792	year Es was common to the east, west, and into
1850 CFCN	4 AB	1293	Canada. I purchased a 13 inch Panasonic color
1855 CICT	2 AB	1293	TV/VCR Model CVS 1322 for \$169. The TV had
1900 CKAL	5 AB	1293	defeatable blue screen, no sound cutout, and
1905 CKAL-1	2 AB	1217	unparalleled vertical lock on weak signals. Pix
1930 CKRD	6 AB	1313	detail, sensitivity, and selectivity were excellent.
1935 CBCP-3	3 SK	1002	I returned the set as the tuner would lock in on an adjacent stronger signal instead of the weak
CJFB	5 SK	1029	signal tuned to. I'm told this capture effect is one
1945 KBME	3 ND	644	undesirable feature of phase locked loops. The
2035 KRTV	3 MT	1112	set had a notable feature. It displayed the call
2055 KFBB	5 MT	1112	letters of the station tuned to briefly. A knowledgeable dxer in the club stated in a
2100 CITL	4 AB	1206	letter—XDS is what call that text ID. It's being
15 Es 1030 KEBJ	2 TX	972	transmitted as part of the closed captioning data,
18 Es 0925 KBEJ	2 TX	972	etc. Twelve stations in the area transmit the signals. I think all the educational stations in WI,
1030 CFAP	2 QC	938	IL, and IA transmit it.

Jeff Kruszka, Editor 5024 S. Braxton Ave. Baton Rouge, LA 70817 jkruszka@bellsouth.net

September 2002

Here's more Mexican E-skip from Danny Oglethorpe, Shreveport, LA. Because of the small ID's, some will show up better in the e-VUD:

XHAGU-2 Aguascalientes, AGS 896 mi Es seen 7/31/01 @1438 CT

XHCCN-4 Cancún, QROO 891 mi Es seen 7/25/01 @1100 CT

XHCH-2 Chihuahua, CHI 778 mi Es seen 2/01

XHCV-2 Coatzacoalcos, VER 988 mi Es seen 6/13/01 @0935 CT "local ad"

XHPDT-2 Puerto Peñasco, SON 1159 mi Es seen 4/16/02 @2040 CT

CAPACIA CENANCIE CIPCA
CAPACIA CENANCIE
CAPACIA
C

XHCCH-5 Cuauhtemoc, CHI 826 mi Es seen 7/31/01 @1555 CT

XHTFL-5 Tepic, NAY 1019 mi Es seen 6/2/01 @1058 CT

XHAJ-5 Las Lajas, VER 930 mi Es seen 6/5/01 @1700 CT

And no, these are not E-skip photos, believe it or not, but some great tropo from Danny:

WBBH-20 Ft. Myers, FL 818 mi Tr seen 5/1/02 @0410 CT "cable channel 2"

WFTX-36 Cape Coral, FL 818 mi Tr seen 5/1/02 @0100 CT "cable channel 4"

The rest of Danny's outstanding May tropo catches next month. 73's, Jeff

Just caught the tail end of the opening as I was blissfully watching Nero Wolfe without realizing what was going on on the bands.

Notes:

(1)Sitting around after a day of driving, tuned up to the frequency and heard the station.

(2) Didn't know tropo was still around until I pulled up to the frequency and heard "Complicated."

(3) Not too far distance (115 miles) but since I was facing south, I couldn't get much from the north. I want into the week expecting to listen to WAEZ from Johnson City TN for regular listening, and not being able to get my favorite CHR ever, WNKS Charlotte, because of terrain. But actually WNKS and the rest of Charlotte was strong. I was facing south with a mountain behind me, so I think that contributed.

- (4) Amazed that a station NW of me could beat WBT, but it did.
- (5) Never believed something like that would come in in full stereo.

William McGuire – 2412 59th Pl. – Cheverly, MD 20785-2918 – EDT

Didn't wake up until 0800, so I wasn't able to scan entire dial before morning enhancement dissipated. Rain on the 28th must have evaporated since there was no noticeable enhancement the next 2 mornings.

Picked up a strange unID this trip. It came in strongest on 89.75 (set tunes in halves of tenths), but still sounded slightly off tuned. Ided as "Genesis Radio Network," carries various conservative and populist programs – some religious, some strictly political. They were hawking shortwave antennas for better reception.

Heard a 2nd station behind WVPG 90.3 NPR echoing about .2 second behind. No other WV NPR on that frequency, so still haven't found a way to distinguish WV NPRs on same frequency (88.9, 89.9, 91.7).

I'm in need of tubes for a 1975 GE television. Give me a call at (301) 583-0531. Also, I have a

copy of the issue of "The Week" magazine that contains an article on Philo Farnsworth. I'll send a copy of it on request.

Joe Kureth — 2900 Uniontown Rd. — Uniontown, MD 21158-3553 — EDT

Good news....6/14 was the first ever RDS logged via Es on the DX-398 purchased last December. Bad news...on 6/14 I was in Arbutus, MD, just SW of Baltimore and in the Baltimore-DC corridor where FM "birdies," harmonics, spurs or whatever are everywhere. I feel fortunate to have heard any DX. The 6/14 Es "cloud" looks like it was centered somewhere around the Indiana-Ohio border per my loggings and those of Jim Renfrew, Jerry Bond and others. The "cloud" didn't seem to move at all as most of my meager 10 loggings were in strong for at least two hours.

On July 22, 2002, I had the antenna height increased from 28' (8 meters) to 35' (10.6 meters). Also, the RG-59U cable that I had used for the last ten years was replaced with RG-6 cable. This has resulted in somewhat better FM reception (the best results of the new cable/antenna height can be seen on UHF TV). So, I tested it out on the FM side, and found that I

could null out semi-locals (such as KHCR 97.7) to hear DX. This was the case with the WMOI reception on July 24. One of my closest unheards was finally bagged on July 31 in the form of WGEL 101.7 (only 50 miles away in Greenville, IL). On that frequency, I also have a semi-local parked there (KLPW Union, MO). Now, the closest unheard is 100.1 in DeSoto (hard to do with locals on 99.9 and 100.3).

The Twin Cities made it in for only the second time at this QTH; a new one was added from the area in the form of WLTE 102.9. Two days later, the same metro area was in again, but this time, only on 98.5 and 99.5. Hearing Bruce Hanson on KTIS 98.5 was a pleasant surprise; the station I worked for in the late 1980's and early 1990's, WFTD 1080 Marietta, GA, carried his afternoon show from Skylight, "Panorama." Another new one was added that morning in the form of WVSI 88.9, simulcasting WSIU 91.9 in Carbondale, IL. I often wonder why WSIU would need a relay in Mount Vernon, when they're a semi-local in the Mount Vernon area. Anyway, the FM total stands at 680 as of August 10. 73, Eric (NOUIH)

From the Editor

Wow, what a showing by members in the Old Line State! Thanks to them, and Adam and Eric, for a great column this month. Glad to see someone got some DX this year. Es here has been extremely meager. I was hoping the convention would spark something, but that didn't happen. Now if I had scheduled it just a week later, those attending would've had a great Friday night of western DXing. Oh, well......

Speaking of the convention, be sure to check out the wrap up of WTFDA 2002 elsewhere in this issue. I had a great time hosting it. Hopefully I'll have a chance to get to another convention in the future and meet some of our eastern members.

See y'all next month!

Underlined is new, BR is Burnt River, TO is Toronto, SN is Snowball (near Newmarket). #1: 96.1 CBC in Timmins ON is exactly // North Bay but there were clearly two of them mixing. #2: Long MS burst for KZBK: "If you're listening to the Best Hits and Best Variety, there's a good

chance you're listening to KZBK."
#3: Upon waking, turned the radio on, caught a clear ID with list of stns incl. xltr on 90.7, which I happened to be on. But I was groggy & couldn't remember anything more specific than a mention of a stn in Austin. Opening was solid TX. Sigh...

#4: World Youth Day stations on for papal visit. Probably used mobile transmitters at three sites around Toronto.

#5: CJBC5 106.3 relaying TK-99 / TK-105 (99.5) NY oldies, probably picked up via 99.5 CJBC station in Kingston.

#6: Signals for the next three days strongest ever noted to Pittsburgh and Cleveland areas.

#7: CKUN is a recent CRTC grant for a Native community on Beausoleil Island, also known as Christian Island.

REMARKS: July 2002 ranks the worst July ever for Es since I started seriously in the late 1970s. But Tropo has made up for it with some very strong signals. I very rarely get the Pittsburgh direction at Burnt River. Nice auroral opening, too. The borderline variety where the hash is not intense and signals are relatively clear. The trade-off seems to be that the more intense aurora yield more unusual areas but are hard to ID. 73s, Saul

Magazine", which appeared to be an R&B countdown show, butno ID. <Note 2>- Could have been WKIE 92.7 Arlington Heights, IL or WKIF 92.7 Kanakee, IL. Putting WKIF in log because it was closer to the other stations that I was receiving at that time. <Note 3>- Local WPVQ off. <Note 4>- Adjacent local WFCR off. Heard many meteor pings on 88.5 frequency, but none IDable. <Note 5>- Came up strong for 20 minutes, then left while <Note 6>- Very suprised at this catch- 253 miles. WPVQ off. <Note 7>- Over local translator at 261 miles. <Note 8>- My strongest tropo opening to New York City. Usually I don't log stations for New York City, but these were extremely strong. <Note 9>- This was that night's UNID mystery. Talking extensively about the Mets and Giants, college sport program (although I did not catch the name of the college). 10>- Last summer I could hear this station every night, if I hear it once a week I'm lucky this <Note 11>- ESPN Radio. Top of the hour ID was for 99.7 WSKO in Providence. My theory is that it was a translator picking it up with the strong tropo but you never know. Came up over WQGN for over 25 minutes. <Note 12>- My first real meteor scatter burst, and there are more than one and I didn't get any local identifiers. Oh well.

<Note 1>- My UNID mystery for that night. Kept showing up with program "USA Music

SATELLITE NEWS

George W. Jensen 4604 Antanna Ave., Baltimore, MD 21206-4220 SCISATMAN@AOLCOM

Not too many changes this month - of note - SatcomC3 - 5 - delete Hallmark channel - now in an MPEG format and encrypted. On Galaxy 1 - 603 - the new Discovery HDTV service. Now on to the satellite rundown -

First - Galaxy 4. C and KuBand - 2000 - 12 year life20 watt C Band transponders and 60 watt KuBand transponders. Format - Odds/Horizontal, Evens/Vertical. Here are the generally in clear 7 - Feeds 9 - MPEG2 encrypted 11 - MPEG2 encrypted services: 2 - digicipher encrypted 14 - MPEG2 - 3980V/1160 - Feeds, Bloomberg, Sports Feeds, Color Bars Harvest Television, WHMB Ch 40 - Indianapolis, Indiana 16 - National Christian Television - The Shepherd's Chapel 17 - Buena Vista Television Feeds 21 through 24 - occasional feeds. Audio Sub-Carriers:- 15 - Pulse FM WHPZ FM Breme, Indiana and various World Harvest Radio International Feeds 16 - KNEA 970 - Jonesboro, Arkansas On the KuBand side many transponders are used for HITS - Head End In The Sky - a downlink service for cable television systems. open for reception are the following:- 401 - Outdoor Life Network, 583 - Bloomberg News, 604 - America's Health Channel, 620 - Toon Disney, 820 - 857 - DMX Music 820 - Listening Room, 821 - Jazz Vocal Blends, 822 - Hottest Hits, 823 - Modern Country, 824 - Alternative Rock, 825 - Adult Contemporary, 826 - Light Classics, 827 - 60's Oldies, 828 - Classic Rock, 829 - Urban Beat, 830 - Urban Adult Contemporary, 831 - Eap. 832 - Classic Jazz, 833 - Rock 'N Blues, 834 - Gospel, 835 - Childrens, 836 - Coffee House Rock, 837 - Dance, 838 - Christian, 839 - Album Rock. 840 - Hard Rock, 841 - 80's Hits, 842 - 70's Oldies, 843 - Classic R and B, 844 - Traditional Country, 845 - Soft Hits, 846 -Retro Dance, 847 - Acid Jazz, 848 - Swing, 849 - Lite Jazz, 850 - New Age, 851 - Holidays and Happenings, 852 - Great Standards, 853 - The 50's Golden Oldies, 854 - Reggae, 855 - Trends, 856 -

Symphonic.

Next to Telstar 5 - 97 West - Spring, 1997 - 12 years - C and KuBand - Format - odds/vertical, evens/horizontal power - C Band 12 to 23 watts, KuBand 60 - 120 watts. C band services - 4 digicipher feeds - Nebraska Public Television 8 - ABC News Channel feeds, 10 - Fox Network occasionally, 11 - MPEG2 - 3907V/4651 Latter Day Saints. MPEG2 3934V/2638 - Brigham Young University Television. 15 - MPEG2 feeds - 3991V/13300 - UPN Network and others 17 - MPEG1 Scola, 18 – Armed Forces Radio and Television in encrypted MPEG2, 21 - ABC West, 22 - ABC east, 23 and 24 - misc feeds, 600 - Nebraska Public Television, 601 - N2, 602 through 607 -Nebraska Public Television Instructional Television Distance Learning Service. KuBand Services:-Everything mentioned here is in MPEG2 unless mentioned otherwise-- 1 - 11749V/7232 - Homesat -Home School Service - religious based - all but one of 4 channels now encrypted. 5 - 11836V/20765 -IRIB Jaam-E-Jam Iranian, Sahar University Network, Rang-A-Rang, Iranian - US Based?, GCGI - Chinese, Super Value Channel - Chinese, Asia After Dark Proro Channel - TVI - Tamil , Haitian Satellite Television 8 - MPEG2 Encrypted, 9 - 11898V/20000 - Nile TV International, Palestinian Satellite Channel, Emirates Dubai 1, EDTV2 - Sports Channel, Saudi Channel 1, Dish Middle Eastern Channels Promos, Dubai Business Channel, KBS International Color Bars (Kelly International), Radio - Holy Koran Radio and main Saudi Audio Channel 10 digicipher feed 11 - 11929V/22000 - Euronews - Languages, Euronews English, Al-Manar TV, Syrian Satellite Channel, Fashion TV (seems to have gone dark here and elsewhere), MTV Lebanon (not the US music television), TV Polonia and RTV2 - Romana (new) radio services - Deutsches Welle 1 and Polskie Radio 1 and 3 21 - 12084V/23145 - Color Bars, Super Value Channel, The Asia Network, UCN Television, Radio services - CCBC Pop, CCBC News, CCBC Taiwan Radio Iran Los Angeles 22 - 12090H/20000 -TzuChi Television (Buddhist), Appadana Color Bars, National Iranian Television (US), 12115V/22425 - Buddhism Light Television, MAC Television- Chinese and TzuChi Television, 24 -12122H/22000 - HRT Sat Zagreb, Croatia, DFH1 Turkish, KISB2, KISB3 - radio services - Radio Hrvarska Zagreb, Radio Korea, 26 - 12152H/20000 - Abu Dhabi Television, Pars TV, Thai TV, Bangkok, Tapesh Television, Ajara TV (appears to be Russian), Melli TV, Iran TV Network, Color Bars, Jaam-E-Jam Iran, radio services - Radio Sedaue Iran, Radio Seoul. 12177/23000 - Kurd Sat, Samanyolu TV World Turkey, Maharishi Open University, Kurdistan Television, VTV4 - Hanoi, Vietnam, TRT International - Turkey, Color Bars, Kuwait Space Channel, radio services - World Radio Network - English, Languages and French (3 channels) Kuwait Radio , Radio Sedaye Melli Iran, and AFN. That's all for this month - see you in 30. 73's and good DX -Storge George.

Midwest Memories

(Here's more from Bill Eckberg's huge DX photo collection. Most of the photos included here were taken between 1955 and 1965 near Dixon, IL)

WEEQ-TV in LaSalle, IL was almost in Bill's back yard. While operation as a low power satellite of WEEK-TV (25) in Peoria ended years ago, it's back as a full power TBN o&o (and major "pest" for Bill).

Almost 50 years ago, CCI wasn't much of a problem. That's evident in this interference-free shot of channel 9 Minneapolis (which began operation in 1955 as KEYD-TV). That's likely the lens turret of a RCA TK-11A image orthicon camera on the left. Loew and National Telefilms owned the station at this time

KFEQ-TV 2 in St. Joseph, MO began life in 1953. Based on the shape of the screen this picture was probably taken off an early RCA color set.

Here's a rare one! WFAM-TV (59) Lafayette, Indiana.

Anybody remember when WEHT, Evansville was on Channel 50?

WEAU-TV has evolved to WEAQ-TV, but it still serves Eau Claire and Chippawa Falls, Wisconsin.

It's KSFY-TV now; and if that logo looks familiar, it was created by owner WDAY-TV in Fargo, ND.

Now KMOV, KMOX-tv St. Louis was a regular for Bill.

Another low-V Tr catch, WJIM-TV 6, Lansing, MI.

Dxers today know this as KTTC-TV, Rochester, MN.

Now KCCI-TV, here's a great pic from Des Moines.

Fantastic low-V Tr from WFBM-TV 6, Indianapolis.

These call letters launched both channels 4 (now WCCO-tv) and 11 in Minneapolis, St. Paul.

On the way to becoming today's KARE-TV, here's yet another call used on channel 11 in the Twin Cities.

The QSL Corner

Thomas J. Yingling, Jr. 221 Pinewood Road Baltimore, MD 21222-2345 E-Mail: KA3TCC@EROLS.COM

This column returns again, but now I'm all out of QSL items again. First we have: Bruce Elving, FM Atlas Publishing, 241 Anderson Road, Esko MN 55733-9413. QSLs this year have been few in number but the quality is just excellent!

WPMA 102.7 2278 Wortham Lane., Grovetown GA 30813-5103. Clarence Barinowski, owner, wrote a note on the bottom of my letter, saying: "Don't think we have heard a report of greater distance. We should increase power this year to 25 kW from present 6 kW. Yes, you did hear WPMA Sparta GA." The new construction permits calls for it to move to Buckhead GA. Also enclosed bumper sticker and program guide.

WPUB 102.7 PO Box 753, Camden SC 29020. "Kool 102.7" David McIntosh, news director, writes saying they were "quite surprised and pleased to receive your letter telling of your reception of WPUB-FM in Minnesota. To our knowledge this is the farthest that anyone has received the station." Mentions its oldies format. "I'm glad to see that there are still folks out there who are DXing (I DXed in the '60s and '70s--mainly on shortwave and medium wave)." He invited me to try DXing their MOR/easy listening AM on 1590. Power is 1000 watts day, only 30 watts at night. He thinks the best time to DX it is just before sunset. Enclosed bumper sticker.

KDHX 88.1 3504 Magnolia, St. Louis MO 63118. Letter from Larry Weir, operations manager, mentioning its heritage as KDNA 102.5 in the early '70s, and how it came back on 88.1 in 1987. His in specific verification mentions hearing from people "around the country occasionally who are radio hobbyists, and it's always fun to find out where some people are listening to us." Enclosed a bumper sticker and program grid.

KYZZ 100.1 424 N. Van Buren, San Angelo TX 76901. Audrey C. Luna, general manager she sent bumper sticker, a San Angelo city map, a KYZZ media kit, and a long, friendly letter that says in part: "You definitely have the long distance award at plus or minus 1300 miles! Congratulations!" [And she enclosed a "KYZZ Extended Distance Listener Certificate," with my name printed thereon. It must have been done on there Computer.] The letter continues: "Our DJs are bilingual, and as you note, broadcast in both English and Spanish," and she mentions her brother who died March '99 was a ham who built KYZZ. "I wish you and he could've had the opportunity to communicate. At ages 64 and 73, my husband and I are now the owner/managers of KYZZ. We have learned that radio stations are far more complex than just turning a button to 'on'. "Your treasured letter is currently being displayed on the office notice board, with a copy posted on the jock bulletin board. It is certainly a day-brightener and has been thoroughly enjoyed by all of the 'Z-Crew' Hope you hear from us again soon!"

<u>W265Al 100.9</u> For a translator of WXPR 91.7 Ironwood MI, received here in Esko, west of Duluth MN. Verification from president and manager Mick Fiocchi at WXPR, 303 W. Prospect St., Rhinelander WI 54501. He was not surprised at my reception. "We have been getting lots of complaints from people who ARE in our listening area and they can't hear us, that they are receiving other stations instead of WXPR . . . The 'ether' must really be in a turmoil recently."

Now from my DXing. I send letters with screen shots from Win-TV-D computer card.

WBOC-DT-TV 21 Box 2057, 1729 North Salisbury Boulevard, Salisbury, MD 21801.

Letter & baseball cap from Rick Jordan, VP in 1 week. Also qsl'ed analog ch 16. Also send booklet on HDTV-101 all about the station, tower located in Laurel, Delaware.

<u>WGNT-DT-TV 50</u> 1318 Spratley Street, Portsmouth, Virginia 23704. An e-mail QSL (bad, I want letterhead paper) from George M Randell, <u>gmrandell@wgnttv.com</u>. I e-mailed him back; no reply yet. I wonder if!

<u>WPVI-DT 64</u> 4100 City Line Avenue Philadelphia PA 19131. First an e-mail QSL from <u>James.D.Gilbert@abc.com</u>, then I got a package in mail with a letterhead paper letter and large coffee cup from James D. Gilbert, WA2CZD Director of Engineering. I was shocked. After first getting a e-mail QSL from WGNT-DT-TV, I though oh no! But, I was lucky. It looks real nice too.

Now as a filler for page 2, some TV dx and odd test patterns id's.

Sign Up/Renewal form Address Apt # City_____Zip____ Country_____ Interests: TV () FM () 30-50() Weather() email address Sign me up/renew me for: 1 year () 2 years () More () Yearly dues \$24 to US addresses, \$26 to Canada and Mexico \$38 to the rest of the world (payable in U.S. Funds)
