AND EVERYTHING IN THE WORLD OF
TV AND FM DXING

TV AND FM DXING WAS NEVER SO MUCH FUN!

THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF/UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: TOM BRYANT, GREG CONIGLIO, BRUCE HALL, DAVE JANOWIAK AND MIKE BUGAJ.

Editor and publisher: **Mike Bugaj**

Treasurer: **Dave Janowiak** Webmaster: **Tim McVey**

Editorial Staff: **Steven Wiseblood, Victor Frank, George W. Jensen, Jeff Kruszka, Keith McGinnis, Fred Nordquist, Matt Sittel, Doug Smith, Thomas J. Yingling, Jr. and John Zondlo,**

Our website: www.anarc.org/wtfda

ANARC Rep: **Jim Thomas**, Back Issues: **Dave Nieman**

ELECTRONIC EDITION for **SEPTEMBER 2003**

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

<http://fmdx.usclargo.com/join.html>

Dues are \$25 if paid from our Paypal account. But of course you can always renew by check or money order for the usual price of just \$24. Either way, it's still a bargain!

The WTFDA TV STATION GUIDE

It's the most comprehensive listing of North American Television stations in print! Just \$23 US will get you one. Mail your check or money order today. Make it payable to Dave Janowiak and mail it to John Ebeling, 9209 Vincent Avenue S., Bloomington, MN 55431-2157. Get your WTFDA TV Station Guide **now** before it goes out of print!

ONLY A FEW LEFT!

Trop's Up

Last time we told you about TA DXing. This time we are loaded for bear with page after page of DX loggings. Scan these pages; you might be able to ID an unid of yours.

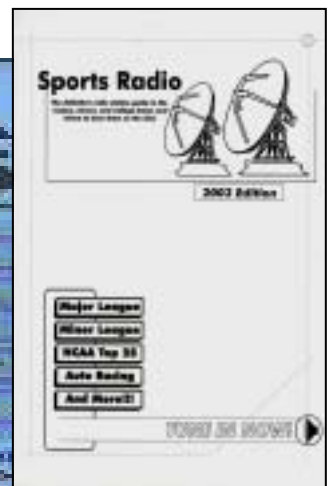

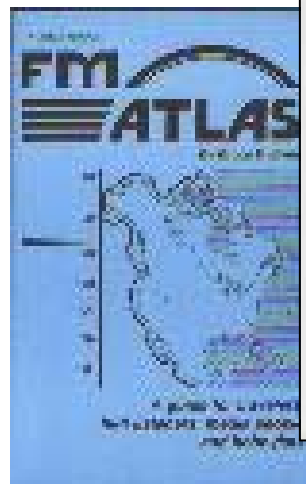

Due to unexpected computer problems last month (hard drive failure), the August eVUD never got published and all those who asked for paper VUDs should have them by now. One great thing about paper...it won't disappear from your computer's C drive. And you can read it in the WC whenever you want.

FM ATLAS #19

Bruce Elving's newest listing of FM Stations is just \$23.00. Send your check or money order to FM Atlas, PO Box 336, Esko, MN 55733-9413 and keep it next to your car radio or in the glove box of your car!

Sportsradio!

Jim Thomas tells you who's on what station and when...basketball, football, baseball, hockey, racing...just about everything! Send your check for \$12.00 to WTFDA, PO Box 501, Somersville, CT 06072 (checks payable to Dave Janowiak).

The Mailbox

P.O. Box 501, Somersville, CT USA 06072
MIKE BUGAJ MBUGAJ@SNET.NET

SEPTEMBER 2003

Well, the memories linger on. The summer 2003 skip season was good for almost everybody. A few of the DXers in the British FM TV DX Circle did spectacularly well with TA skip this season while WTFDAers out west and the southwest did great this year compared to the last few seasons. Some of us here in the northeast were lucky to log Bermuda in July and a few of us logged some very unexpected double hop Es to boot. There was also a report on the WTFDA list of an FM DXer in Maryland who logged CO, UT and ID during a severe thunderstorm. I would never recommend anybody doing this. The person was one lucky dude. He could have been killed.

MEMBERS AND MORE

This month we welcome another West Coast Canadian to our lovable group of DX misfits. His name is Steve McDonald and he lives in Mayne Island, BC. Welcome, Steve! It also appears that Steve is just a short swim away from long-time member Mike Cherry on Saltspring Island. Small word, isn't it?

Talk about small worlds. Our next new WTFDA member is Bob Rush. Bob lives in Holyoke, MA and over the years I've talked to Bob on the phone a few times but I've never met him. I hope we can fix that. Bob does FM DXing in his Honda Accord. Hi Bob!

Also this month we welcome some new members via Paypal. The first is Ken Alexander in Aurora, ON and the next is Curtis Sadowski in Paxton, IL. Curtis has been very active on the WTFDA list and we're happy to have you and Ken along with us for the ride.

Now we'll find out who renewed for another year. The winners are: **John Lentz(WI)**, **F.J. Issard(ON)**, **Glenn Hauser(OK)**, **John Tudenham(MO)**, **Randy Miltier(OR)**, **Ryan St. Arnold(MN)**, **Howard Fountain(GA)**, **John Hourigan(OH)**, **Al Tobia(CA)**, **Ken Bedley(ON)**, **Jeff**

Lehmann(MA), **Uli Onken(Germany)**, **Glen Boche(MN)** and **Michael Lazaro(NY)**. That's the list; thank you all and thank everyone who used Paypal.

One quick note about Paypal. Yes, you can buy a Station Guide with Paypal. You can join or renew at the \$15 student rate with Paypal. You can order a copy of Sports Radio with Paypal. BUT...you can't use the webpage for doing that. Email me first and I'll show you the way. It's extremely easy.

A short email from Garret Wollman pointing out that he is not in the radio biz and he is not an engineer. Well, that's two strikes on me; one more strike and I'm out for good. Sorry Garrett. I should have gone right to the source and asked YOU!

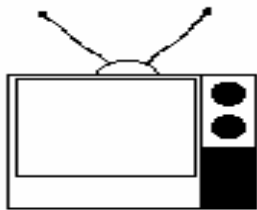

BRUCE ELVING AND RADIO WORLD

Here's a short note from Bruce: "I have an article in the current issue of "Radio World" newspaper, in which I mention the WTFDA and having attended their convention in Oklahoma City. The article is about meeting George Marti, Cleburne TX. We went to Cleburne last year after the WTFDA ended and stayed with friends a few days. I interviewed Marti, 83, who is well known in radio engineering circles. They printed a picture Carol took of Marti and me. Most radio stations get "Radio World," and the piece is on p. 45 of the Aug. 13 issue. Strange, but it took them over a year to print the article.

LAST BUT NOT LEAST

We read an item that appeared on the Skywaves reflector that reported the reception of audio from WCBF (2) in Charleston, SC in Portugal on August 11th by an amateur radio operator in that country. Time of the reception was about noon GMT. At least four audio files of this reception were posted on the internet. The quality of these clips was good. The clips included an ID, real estate spot, a Rob Fowler *Stormview 2* promo and a Ford spot. Amazing!!

That's it for this month. CU in 30.

NOTES:

I guess everybody is too busy DXing<grin>!

In early August Notice of Proposed Rulemaking #03-185 was opened seeking comments on changes to the LPTV rules for the digital transition. The docket is open for comments until early October.

Some proposals to be considered:

- ✍ Should DTV translators be allowed to alter the content or resolution format of DTV signals? (it would seem to be this would become a moot point if the translator switched to LPTV service)
- ✍ Should digital LPTVs be required to provide one free-to-air service of at least equal resolution to analog?
- ✍ Which channels should be available for digital LPTVs? The Commission proposes 2-59 but asks whether 60-69 might also be used during the DTV transition.
- ✍ Should the existing contour prediction method used to protect higher-priority stations from LPTV interference be replaced with the new DTV prediction method?
- ✍ Should existing LPTV, translator, and Class A TV licensees receive priority in filing for new digital LPTV permits?
- ✍ Does the Congressionally-mandated 2006 shutdown deadline for analog TV apply to LPTV, or only to full-power stations? If it doesn't apply to LPTV, should different triggering criteria be set for low-power stations?
- ✍ Should a digital TV (on-channel) booster service be created?

CHNM-1 calls are unofficial. The channel 34 application in Leamington only plans to originate roughly 40 hours a week of programming. It's unclear as to what will air

the other 120 hours – or will the station be off the air entirely? Most programming will be in English, but ethnic programming in a wide variety of languages is also planned.

The channel assignment changes I mentioned last month have appeared in the FCC Database. WCMV-DT 58 and WCMW-DT 17 in Cadillac and Manistee, Michigan have swapped assignments. In Laredo, Texas, KVTM-DT has changed assignments from channel 14 to channel 31. Channel 14 has had issues with front-end overload in two-way radio equipment near 470MHz.

Most of the call changes this month are the result of a corporate decision by Libco to remove the -TV suffixes from their stations. Why bother? Good question. This way, nobody can use those calls for a radio station. (for example, you couldn't have a KAIT-FM unless Libco changes their Arkansas station back to KAIT-TV) But anyone wishing to do so would have to have Libco's permission anyway. Maybe they're just trying to ensure against FCC errors? Hard to say.

The KBCA in Louisiana is not related to the one that recently existed in Elk City, Oklahoma. (and then moved to Borger, Texas) The Oklahoma/Texas station has changed calls to KEYU. Their old KBCA calls do still appear in some places, notably with regard to the move of the channel from Oklahoma to Texas.

KXJB-4 in North Dakota has signed a LMA with KVLV-11. It seems KVLV isn't interested in operating their LPTV station on channel 35 in Grand Forks; KXJC-LP's license has been returned to the FCC for cancellation.

We do have a new station this month, KCEB-54 in Longview, Texas. I haven't been able to find any programming information on this one. Best I can tell it's running full power, so someone (Danny? Jeff? Me?) is going to see it soon enough.

Also in North Texas, major programming changes coming to the Dallas market. Common Es target KDTN-2 (which has been calling itself "KERA-2" on the air, leading to considerable confusion...) has been sold to the owners of KMPX-29. The channel 2 station will switch to the Daystar religious network.

Their channel 29 will then be sold to Liberman Broadcasting, operators of KRCA-62 in the Los Angeles area, among other stations. KMPX will become an independent Spanish-language station. Note that KMPX has already filed for a

substantial power increase.

Another skip target will become more difficult to find. Note KCSG-4 in Utah has been granted permission to reduce power from 38kw to 980 watts, and tower height from 836m to 318m. This is listed as a reduction for their main transmitter but I really have to wonder if they really mean to create a new backup transmitter? (on the other hand, does anyone live in the area that will lose service if this is the main transmitter?)

Jefferson County, Colorado has approved zoning for a common tower for DTV on Lookout Mountain west of Denver. KCNC-4, KMGH-7, KUSA-9, and KTVD-20 plan to replace three main towers and several smaller ones with a single 730-foot facility to broadcast both analog and digital TV. Other stations will use a separate facility on nearby Mt. Morrison, which has already received zoning approval.

Area homeowners bitterly fought the Lookout Mountain facility. They fear interference to consumer electronic equipment, reduced property values due to aesthetic concerns, and health effects of the additional RF. The possibility of a lawsuit to overturn the zoning decision has not been ruled out.

(editorial comment: NIMBYism at its worst.)

The NYC blackout darkened stations throughout the affected area. In New York City, channels 5 and 9 were off completely while channels 7, 11, and 13 were on reduced power. Elsewhere, some stations operated on generator backup power while others were off entirely. In Detroit, analog stations continued to operate but backup power was insufficient to operate the DTVs. The situation was similar in Canada.

Out of space! - good DX & see you in 30...

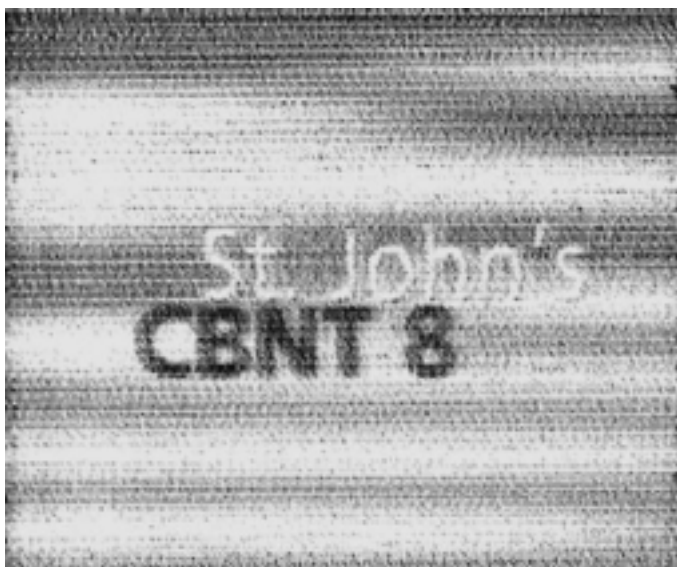

ON THIS MONTH'S COVER

This month's cover consists of a summer antenna project tackled by Greg Barker in Greensburg, IN. What you see in the front photo is the UHF horizontal stack(40" spacing) of the Televes Pro Range 75's fed to the high side of the CM 7777 preamp via a CM 0538 combiner and a Yaesu G-800SDX Rotor. Greg reports that this rotor is so much quieter than the CM9515 he's been using and the variable speed control plus 450deg rotation is just great.

September 2003

This month we welcome a new contributor, Charles Gauthier of St-Lambert, PQ. Bienvenu, Charles, and hope you continue to provide us with some of your great DX.

Equipment: JVC AV-20120 20" TV, JVC HR-S3800U S-VHS VCR, Antennacraft 32 element VHF-UHF-FM antenna at 30' AG, CM9510A rotor, RG6 coax, Un-named combined trap for channels 2 and 6, 25db indoor RS amp. for UHF.

How does that saying go: "Go west young man go west", for me it was, "go east old man go east", and that I did. On July 11 with MUF rising I loaded up the truck with a cut ch. 5-6 antenna, R-10 ICOM, and a small portable TV. I went east about 15 to 20 miles and caught some rare channel 6 TV Es out of the WLNE-6 shadow.

So far this season for tropo, April has been better for distance and quantity of DX signals. May, June and July have been way down and spotty. To my south always seems to be much instability with rain or showers, and when good down south our area in the northeast has been rainy. Hope for better DX in fall.

Charles Gauthier, St.-Lambert, PQ, Canada

Four more overnight openings in this report, keeping with this summer's general trend. Highlights would be my first ever ON station by E-skip, CBWFT7-2 in Kenora on the 18th and then on the 21st, the second one, CHFD-4 from Thunder Bay, an old target of mine. "TB Television" logo was very clear and seen a couple of times during the opening. Hope everyone is having a good DX summer!

I stopped putting down WPBT and WFOR, because I see them both at least twice a week. No reason to keep marking them down, in my opinion (at least in skip season). If it's October 8th and I'm getting WPBT... hey different story. Got a nice QSL from WPBT too. In my first year as a TV DXer I'd say I did pretty good... it's not over yet, either.

IDs of KDBC and KRGV were made possible by Ryan Grabow's logo gallery. WTVF-5 Nashville's logo used to be very similar to the current KRGV configuration until WTVF switched from "Eyewitness News" to "NewsChannel 5" and an entirely different logo was introduced with a swept white "5" on a squarish red background.

That's all for this month. Another 5-page column... nice to see! Keep those reports coming. 73s Matt.

KDHF 88.1 was noted off the air on the afternoon of June 12, enabling me to pull in WNLD and WPTH. Both are relatively low power, but it took a stroke of luck to pull those two in. I tried for KCOU Columbia MO, but came up empty. WDLJ 97.5 is officially in my logbook now; they're relatively strong at my QTH whenever my antenna is pointed toward southern Illinois.

The opening on June 22 was a combination Es and trop opening, where trop was masking the MUF. I did pull in KEPX Eagle Pass TX (across the Rio Grande from Piedras Negras CL) with Spanish language Christian programming. At the same time I was pulling in southern and western Missouri via trop. I also added a new trop catch in KLJC 88.5 in Kansas City. It turned out to be the only Kansas City station in, pulling it in through KUMR. I thought I had WGCA Quincy IL at first, but the legal ID for KLJC was a welcome surprise! The calls stand for **King and Lord Jesus Christ**.

July 17 also noted a new station in WNIJ 89.5 (their website lists WNIU as being on 90.5) with BBC World Service // KWMU 90.7. On the morning of July 19, though, the band really opened up. With South Dakota in on my television set and on the NOAA weather radio frequencies, I thought I'd try my luck on FM. Sure enough, KNBZ 97.7 made it in with semi-local KHCR nulled. The jingle ID clinched it for me. KISD was my only new Minnesota logging, noted with oldies from the '50s through the '70s (not common for FM, which has shed most pre-British Invasion hits). KUQL 98.3 was a major surprise, even with a local on 98.1! The mention of nearby Huron clinched that one. By 1100, the action had shifted into Nebraska and Kansas; after 1800, these two states were still in. Lincoln was even noted on my car radio while I was getting my dinner! One of the few excuses I had to keep the shortwave converter off! The 700th station at this QTH was noted in the form of KPOW 97.7 (again with KHCR nulled); could never get this one on 97.1 due to KFTK. Another station I got in my logbook was KJCK 97.5. I never logged it on 94.5 due to Kirksville being on the frequency, and a local on 94.7. This was also the first time I noted KFH on FM; the AM side (1330) had made it to this QTH on occasion. The show it was carrying, "Coast-to-Coast AM," now originates from KTRS (AM) in St. Louis. Also noted new calls on 93.1 in Pratt KS (they now rimshot Wichita). The final new station noted was KSKU 106.1 (KOQL was notably absent). I also worked an amateur radio operator in Coffeyville KS on 146.520 MHz; he was kind enough to "roger" me into a simplex net in Oklahoma! If you are looking for a reason why God made Oklahoma, then the DX could be it, hi! 73, Eric (N0UIH)

Looks like I really missed out on the May and June openings. Those I did DX all were a round mid-day and short-lived.

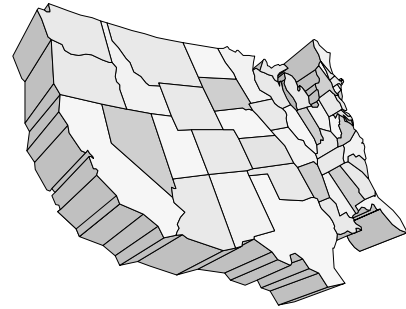

From the Editor

Great turnout! Thanks to all of you who sent along reports this month, and I'll be looking forward to hearing from the rest of you for the October column. Drop a line and let everyone know what you've heard this summer. See ya next month!

Too bad the season seems to have played itself out. Things were just starting to develop a bit of variety in the last week, in sharp contrast to the XHBC etc. show which dominated most of the season.

The 7/18-20 weekend was simply the best tropo I have ever experienced anywhere, period. Friday night alone was good, but conditions stayed in all day Saturday, and then in the evening things went nuts. I took a few breaks to sleep but made sure to check in the middle of the night when the local PBS stations were off to look for DTV signals. I had Chicago near snow-free, a first for me. The shockers for me were the increasing distance of my DTV record, with Chicago, Indianapolis, Dayton and Morehead, KY coming in that order. I hoped after Jeff Kruszka's big DTV loggings to break my 355 miles DTV record. I almost doubled its distance!

My all-time favorite tropo logging from any location is now WVNS-59 Lewisburg, WV. I couldn't believe my eyes! I never would have thought West Virginia possible by tropo out here, especially given the terrain over the last 100 or so miles. Ditto Virginia, courtesy WLMB-40 whose transmitter is a couple of miles into Virginia-another new tropo state. What a weekend! I look forward to reading about what others logged during this event; I've heard of some loggings of my area from Kentucky and Tennessee. Simply amazing! This makes up for a so-so skip season on TV! My log total is now 696 with 88 DTVs. 73s Matt.

Dennis Park Smith, 3605 San Remo Drive, Santa Barbara, CA 93105-2523 (805)687-7803

This report is for July 2003. Southern-CA tropo (to San Diego/Tijuana, up to 200mi/320km) again existed the entire month, though after July 20, I was distracted and was not very accurate after that.

June 30 eve – Jul 1: Fair
 Jul 2 – 9 am: Variably poor
 Jul 9 eve – 13: Good
 Jul 14 – 17: Very good (UHF good)
 Jul 18 am: Fair
 Jul 18 eve – 20 am: Poor (Hurricane Claudette residual tropical humidity patch)
 Jul 20 eve – 31 am: Variably good to fair (?)
 Jul 31 eve: Very good (VHF-UHF)

Wasco Report

Again, with distractions, I had forgotten to note some new regulars seen in Wasco in the recent past. Very quickly, here is a list of those overlooked signals with dates first seen.

2002: Sep 5, K27GT Mariposa (ex-ch. 28) 145 mi, tentative only, CCI under KFRE-CA 27 Bakersfield 35 mi.
 2003: Jan 18, KCSO-LP 33 Sacramento 240 mi (tropo), tentative only, CCI u/KJOI-LP Bakersfield 35 mi.
Apr 12, KSDI-LP 33 Fresno (MTV2) (ex-ch 34) 85-100 mi?.
May 5, Ch. 22 (KGMC-LP Coalinga?) (KGMC-43 Clovis translator), change from KGMC_LP Ch. 48? 85 mi?
May 5, KFAZ-CA 9 Visalia)Azteca America_ 40-60 mi)?

Jun 5, KJKZ-LP 27 Fresno (Shop at Home) (ex-ch. 28) 85-100 mi?

Jun 5, KJOI-LP 34 Bakersfield)A-C-N) (ex-ch. 33) 35 mi.

I was in Wasco July 25-27, and sighted the following stations:

July 25, KAZB-CA 19 (KVPT-18 Fresno translator) (ex-ch. 65) 45mi (new regular).

July 26, Es, chs. 2-4, noted briefly at 0845 PDT, no Ids.

Altogether at this point, not counting tentative signals and always subject to revision, my reconstructed Wasco total is 205.

Best of DX to All. Dennis

William Eckberg, 1032 Sterling Rd., Dixon, IL 61021

I've seen a mystery station and call letters on wrong channels this month. Several times, in a due easterly direction, I saw identical Chicago 66 programming on ch 61. A logo EDT-CDT was in the lower right. Reception was not Cleveland-61 according to other dxers. Is a new ch 61 xltr located in northern IN?

An internet search with another dxer on the evening of July 31 possibly solved the three other mysteries. Doug Smith's list of U.S. stations was down, so we looked elsewhere. I stand to be corrected on the following conclusions. KARE-11 on ch 41 is KPXM-41 St. Cloud, MN. KGWC on ch 5 is KGWN-5 Cheyenne. KFNB on ch. 5 is KGWL-5 Lander. Also a dxer informed me KTWO-2 Casper is now KCWY-2. Pix were taken of the assorted calls on the wrong channels.

Plattensburg, NY-5 was received July 21 after nearly 50 years. A tower of 900', a power of 2.5 kW, and a distance of 812 miles should not be difficult. WPTZ-5 is rarely reported as a mountain is rumored to block the signal to the west. Five excellent pictures were taken of the ID. Fourteen consecutive days of dx over 400 miles was logged in July, the longest string of dx ever.

Many times there were multi-layered signals and Jeff Kadet, K1MOD and myself suspected there was Es2 between us on ch 2, possibly on ch 3 as well. It's been 8 years at least since I've seen any TV Es from Iowa! Es from north-east Alberta usually happens only once a season—this is the second time this part of Canada has opened to here this summer.

Morris Sorensen, Winnipeg, MB

Ashland, OR 97520

Location, location, location is prime for great TV DXing and Southern Oregon is probably one of the worst locations in the country for Es. Living in the mountains and at the western edge of the country sure doesn't help. I had much more fun with Es when I lived in San Jose, California with locals on all channels! I guess Southern Oregon is just out of the "skip zone".

August 2003

6 0630 K51GC 51 Salina, KS
(KAKE-10) (switched from channel 22 a day earlier)

A nice opening in the middle of July. I apparently missed some good skip in June when I was in Albania. KMCI-38 moved to Kansas City, Missouri from Lawrence, Kansas although it is still licensed to Lawrence. Quality of the signal in Topeka is no longer local and I have seen a couple of DTVs on channel 38 since the move. I hope to pick up some new NTSC stations on 38 as well. There are only two more area DTVs to go on KSHB-42 and KPXE-51 in Kansas City. They will be on soon so I hope for a good tropo opening to pick up a few more stations before they go on.

Eric Bueneman (N0UIH), 631 Coachway Lane,
Hazelwood, MO 63042-1347

The E-skip openings seemed to be fairly routine, with no new surprises. Another new E-skip station was noted on July 7 in the form of KVBC-3; the mention of their Web site (www.kvbc.com) clinched it for me. They were running "Wheel of Fortune" around 7:00 p.m. local time (9:00 p.m. CDT). July 17's trop opening toward Chicago and Milwaukee finally brought WISN-12 into my logbook; it was tough copy with WILL and KFVS on the channel.

Imagine my surprise when I turned on my television set on the morning of July 19! My reception of KWWL-7 told me that something was going on, so I tuned around, and found KMEG-14 with CBS programming; they were a split second behind local affiliate KMOV-4. My relog of KSFY-13 confirmed that this was going to be a major trop event; the first one in nearly two years. The biggest surprise was KTSD-10, noted with South Dakota Public TV programming and ID. At 645 miles (1,038 km), this becomes my longest VHF-High band trop reception. Another record was shattered 30 minutes later when KPLO-6 was noted with it's "KELO-Land" slogan (//KELO-11) and CBS programming. It not only shattered my previous best (KMTV-3 Omaha, NE) by 260 miles, but was the second propagation mode in which I logged the station (I previously had KPLO via E-skip; my shortest E-skip reception at this QTH). KPWB is the third WB affiliate logged on channel 23 (after WBUI and KMWB); I also noted another station mixing at times on the channel (might have been the SDET TV station in Sioux Falls). I also noted my first UHF from South Dakota (KTTW-17), even KDLT-46 was ghosting under local WRBU. The action switched to Nebraska by 1100; I noted ABC's golf coverage on KLKN-8 and KHGI-13 (it was also noted on KTVO-3 and local KDNL-30). I even noted the KHAS call letters ghosting under local KSDK-5! By 1700, Omaha was still in; KXVO and KPTM had halfway decent video. Too bad I couldn't get 26; KPLR-DT has ruined that channel! I also noted a TBN on 17 //K18BT; Doug Smith's list notes K17ET with TBN. I finally snagged KWCV-33; I couldn't get it on the last opening into Wichita several years back. By the time everything quieted down, Kansas City was in with near-local strength signals, WIBW-13 had a

decent picture, while KTKA-49 was noted with an infomercial in K49FC's null. I even made a contact to Coffeyville, KS on 146.520 MHz simplex!

Danny Oglethorpe, P.O. Box 8025. Shreveport, LA 71148-0025 E-mail: doglethorpe@yahoo.com Mexico TV ID website:

Note # 1 XHGC-5 relay with 3-line ID LC. "TEHUACAN PUE" is on the first line. Calls are on second line and difficult to read, but I think they are XHHHN, the same as the XHGC-5 relay on channel 2 in Huajuapán de León OAX.

The July 4th weekend brought intense, long-lived Es from Mexico. (I fully understand why most DXers consider Mexico Es boring: It is difficult to ID. This skip, being on a July 4th weekend, also came at a particularly bad time.) Oddly, most of the Es was on a path from Las Lajas VER to Cerro Burro MICH. The skip did deviate from that path for short periods once in a while. Stations along that path were in-and-out for many hours on July 4-6. The following stations were IDed:

Note # 2 This XEW relay has the same calls as the channel 5 XEW relay in Leon OAX.
Note # 3 Many thanks to Jeff Kruszka for this logging! Jeff had showed me his tape of the pink "5" logo and shared information about this one. This is a new country for me.
Note # 4 Regional news from Monterrey, with temp above a globe that contains the time LR. Don't confuse this TV Azteca newscast with XEFB-2 Monterrey. Fernando told me about this situation a few years ago. It runs from early in the morning until 1330 CT weekdays. XHTAU-2 is seen here frequently during Es season with this newscast and two-line ID UR.

Note # 5 XHTFL-5 Tepic and XHPVE-4 Pto Vallarta (Canal Cinco/XHGC-5 relayers) were both

received this summer running programs during the midday hours that are not on the XHGC-5 schedule. Televisa network schedules can be found here:

http://www.esmas.com/televisa/programacion/programas/programacion_1.html

Concerning XHCH-2/XHIT-4 Chihuahua: For years XHCH-2 has been considered an independent/non-network station, but in reality it has mostly been relaying Azteca-13 // to XHIT-4. This year a major change took place in Chihuahua. XHCH-2 continues to carry the Azteca-13 network feed, which has Central Time noted on news programs, etc. XHIT-4, however, now runs Azteca-13 programs delayed by an hour, which is Mountain Time. Both stations continue to super two-line IDs UL at thirty minute intervals, in addition to "TV Azteca Chihuahua" and "Azteca-13 Chihuahua" IDs.

This has been the best Es season I can remember, especially to Cuba and Yucatan area. Really no big lulls to speak of the entire time. Saw 18 stations for the first time by Es. Usually I'm doing good if 5 new ones are seen.

~~~~~  
 \*Most common Es stations were:  
 (\*KBEJ-2 TX is probably way up there too but IDs are rare. Some UPNs could be XHHUPN.  
 \*XEFB-2 NL was probably seen many more times than listed but never IDed)  
 WPBT-2 FL 27 days  
 WESH-2 FL 23 days  
 WEDU-3 FL 22 days  
 \*XEFB-2 NL 16 days  
 KIII-3 TX 16 days  
 ~~~~~

Also added 39 new DTVs from July 16-20. A very nice opening. DTV total now at 180. Analog/DTV total at 2040. Worked 6Y5/YO3YB in Jamaica on 6M SSB on 7/29 @ 1526z for country #101.

F2 DXING FROM THE EAST COAST

BILL GRANT

Sudwestfunk(SWF). Ch E2

from easy (poor sync). I've attached digitized copies of a Polaroid print of Germany's Sudwestfunk (SWF) ID slide (E2, 48.25 MHz) (also seen by Jerry) and one of Russian or eastern European TV on R1 (49.75 MHz). These photos were taken 12-15-79 between 1500 and 1515 UTC. In the mid afternoons local time, I occasionally received weak video from New Zealand on 45.25 MHz. I still have the TV set in "cold" storage.

I would reference the August 1980 VUD article "Transatlantic F2 TV DX Tips" by Jerry Pulice for additional background material.

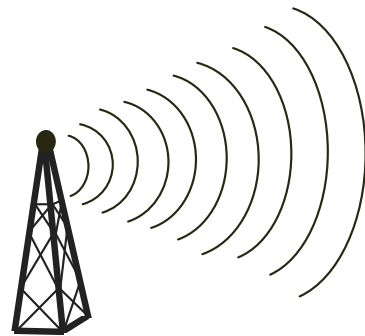

During the past sunspot peak, I did my "listening" on an Icom R7100 with 48 and 49 MHz in often. I had no luck with audio on 53.75 MHz or with Es TA reception this season

Back during the sunspot peak of 1979-80, Jerry Pulice (Staten Island, NY), Glenn Jacobs (Moscow, PA) and I were actively DXing the TAs from Europe. I recorded hours of British and French TV audio including all of the BBC regional outlets. In addition, with the assistance of Glenn, I purchased an RCA 12" B&W TV (Model AB 301 WCC) (manufactured January 1978, CCIR standard, 220V) from an exporter in NYC along with a step-down transformer. With a video camera aimed at the TV screen, I taped frequent F2 openings on 48.25 and 49.75 MHz using a Betamax VCR. The antenna was a Channel Master VHF fringe type. Unfortunately, no audio was noted. As you well know, recognizing images on a TV screen via F2 is far

Eastern European Ch R1

Commentary: I'm a new member, but I've been doing FM DX in my own private way for the past seven or eight years. As I live in a condo (and before that in a city apartment), I'm not able to put up outdoor antennas, so most of my DXing is in the car. This time, I pulled up in front of the ATM and noticed a multipath null of rimshot AAA WXRV; on my way back out I paused a few moments and I heard WYUU pop right up. A scan of the dial did not reveal any interesting catches besides the two I've mentioned. Back in June I had a couple of nice Es penings to Fargo -- 1305 mi -- but I didn't keep a log either time.

July 20 Tr

I went out to the car and did a complete bandscan on tape between 2325 and 2400 EDT, and conditions in the lower atmosphere were quite interesting. Full log is available on request (and might make an interesting VUD feature during a slow month as an example of what it's possible to hear in a suburban area with a modest receiver). This is the reason for the odd format.

*Well I still can't believe it. Three huge months of NFM. Once again thanks to everyone who sent it in a report. Also
apologies to anyone if I lost any formatting (underlines, etc) but with the past couple of reports it was unavoidable due to
the amount of time it took to put the reports together.*

Funny how those TX stations popped up every so often. With Es, one really never knows. It is also clear after the WA & MT opening, that RDS is a rare item with that part of the U.S. Very few stations were using it!

1835	#KARW	94.7	Luling	TX	1452 Austin's best mix

Notes

#1 Web site schedules are confusing. The program page says it is on WRAF at this time, but the station page says no. It is listed for a station affiliated with WAQV Crystal River on 104.3 during this time.

#2 A real stumper. Ad seems to say Don (Ron?, John?) Johnson's Cabin Critters (cruisers?), with locations in Manteo and Concord, NC, followed by an ad (possibly a second station) for Bahama House on the ocean shore. There is a Bahama House in the Bahamas and in Daytona Beach. Others reported hearing Bahamas 104.5 during this time.

#3 NS CBIB? NL CBTL Millertown? // 90.3

Other: WFBQ 94.7 reported last month was not confirmed by station. So where is Richardson Suzuki if not in Indianapolis?

This was my best opening in a very long time. It sure would have been nice to have had at least a little taste of this type of activity during the convention 2 weeks ago. FM was open to the top of the band for much of the time. I've got a few mysteries - any help with those would be greatly appreciated.

There was much more tropo between 07/18 and 07/21 than my loggings indicate...I unfortunately didn't have much time to spend by the radio. When I did check, tropo was extremely strong and in from so many directions that it was very difficult to ID stations. It was quite an event. 7/9 and 7/12 saw some "real" Es...a rarity this year. There have been a lot of openings, but most unstable and only touching FM once in awhile.

Mike Bugaj, 69 Sherman Rd., Enfield, CT 06082 Carver TX-11 and/or Sony ST-5130 with Bolin phase box and phase antenna, Conrad RDS unit w/PC software. APS-13. New underlined.

5/24 Es

1825 WCMQ -92.3 Hialeah, FL, Spanish
 1827 Unid -89.7 Rap music, stereo, partially in EE and partially in SS, with a religious edge. Would WMCU run this??
 1831 WEOU -92.7 Key West, wow 92.7. 1832 WKRY -93.5 Key West, super strong Keys FCU
 1900 and 1915 Spanish audio on ch6. At 1915 definitely a speech with Cuba mentioned multiple times. Heard only on the Sony 5130.
 1923 Unid -90.9 religious

NEXT MONTH!

**Read about the massive
tropo belting the eastern
United States in mid-
August.**

**Roy Barstow receives UHF
into the Midwest.**

**Rare tropo to northern
Quebec**

**In short, more fun than a
human being is supposed
to have.**

SATELLITE NEWS

GEORGE W. JENSEN
4604 ANTANNA AVE, Baltimore, MD 21206-4220
SCISATMAN@AOL.COM

Some interesting changes this month as follows.

Add to **Satcom C4** - 400 - ESPN Classics.
Delete from **Galaxy 1** - 603 - Goodlife TV Network and add to **Galaxy 4** 603 on KuBand and also add to the same bird ESPN News on 401.

Add to **C3** - 601 Bloomberg. Several changes with the Pay-Per-View on **Galaxy 10** are as follows:- Delete 324, 327 and 328. 329 is now Urban X, 331 - Pleasure, 332 - TeN, 333 - Tenclip, 334 - Hot Bodies 1.

A new and hopefully more stable carrier of foreign broadcasters is TARBS on **Galaxy 10** Ku. Globe Cast on **Telstar 5** Ku tends to be very changeable. The TARBS line-up is as follows.
1 - 11720V/28066 - 13 video channels with color bars and 13 open radio carriers

9 - 11880V/28066 - 12 video channels - Thai TV Global Network Ch 5 - Bangkok, Thailand and 12 radio channels open carriers
11 - 11920V/28066 - the following are on the air - Pink Plus - Serbia, Alpha International -

Greece, MKTV Sat - Macedonia, RTS Sat - Belgrade Serbia, INN Italian News Network, Marco Polo, Italian, Leon/Alice - Italian, V I T, ????, T V MODA, ????, Telepace - Vatican City, Syrian Satellite Channel, Damascus, Syria. 2 other channels are color bars. There are 13 radio channels all but 2 unused - the 2 in use are - Kanal Melodia unknown location and Radio Greece, Athens.

19 - 12080V/28066. There are 13 unused radio channels and 13 video most of which are currently color bars except the following - ERT - Athens, Greece, Mega Cosmos, Greece and NBN World from Manila, The Philippines.

New on **Galaxy 11** - Delete 604 and add 801 - T V Colombia - Bogota, Colombia, 800 and 802 remain Crawford Communications barker channels.

There remains a host of minor changes on the MPEG2 FTA side that may be looked at in a later column. That's all for now. see you in 30 and great DX. '73's

SIGN UP/Renewal form

Name _____

Address _____ Apt # _____

City _____ State/Prov _____ Zip _____

Country _____ Interests: TV () FM () 30-50() Weather()

COLUMN DEFINITIONS:

Total = Total number of TV stations logged from DXers location (All loggings should be received within 25 mile radius of this location to count.)

Freq. changes count as a station, call letter changes DO NOT count. Also count a station only once regardless if logged by different propagation modes.

UHF = All stations logged from CHANNELS 14 TO 83. LPTV=Low PowerTV/Translators logged.

HDTV=High Density TV stations logged.

Es=Total number of stations logged by E-skip. **MS**=Total by meteor scatter. **Au**=Total via Aurora.

USA=Total number of states and the "+" = Washington, DC.

CN=Number of Canadian provinces logged. **MX**=Number of Mexican states logged. **PO**=Number of foreign countries, but not Canada/Mexico.

TPU (Total number of political units)=Sum of USA CN MX and FO. **YB** = The year you began DXing from this location.

Note: Many contributors are current members in the WTFDA but some names on this list are those of former WTFDA members. Listings can also be for various addresses. Certain sections of this list have been removed due to space constraints. The entire document can be found of Fred's website.
