The Official Publication of the Worldwide TV-FM DX Association

JULY 2005

The Magazine for TV and FM DXers

THE CHANGING FACE OF FM RADIO

DO YOU KNOW JACK?

Good bye WCBS-FM New York and WJMK Chicago
JACK TAKES OVER, BUT FOR HOW LONG?

THIS MONTH!
LOTS OF TV AND FM LOGGINGS...
PLUS TV AND FM CHANGES!
It's all here in 64 dx-packed pages!

TV and FM DXing was never so much fun!

THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: DOUG SMITH, GREG CONIGLIO, BRUCE HALL, KEITH MCGINNIS AND MIKE BUGAJ.

Editor and publisher: **Mike Bugaj**

Treasurer: **Keith McGinnis** *Webmaster:* **Tim McVey**

Editorial Staff: **Dave Williams, George W. Jensen, Jeff Kruszka**

Keith McGinnis, Fred Nordquist, Matt Sittel, Doug Smith,

Adam Rivers, Peter Baskind and John Zondlo,

Our website: www.anarc.org/wtfda

JULY 2005

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

<http://fmdx.usclargo.com/join.html>

Dues are \$25 if paid to our Paypal account. But of course you can always renew by check or money order for the usual price of just \$24. Either way, it's still a bargain!

VUDS ON A CD!

Every VUD from Jan 1980 to December 1989 is on this disk. You'll need Adobe Reader to read them. Why have a box of old VUDs taking up space when you can have this. **It's yours for just \$8.00 per disk.** Send your check or money order for \$8.00 to WTFDA, P.O. 501, Somersville, CT 06072. Make it payable to **WTFDA.**

Road Rage? A New Form of DX?	62
Editors/Submissions	63

For the first time in recent memory, we've had to hold a column over until next month. Bob Cooper's article on color TV will appear next month unless we are faced with a similar situation of lots of DX and not enough space.

We also haven't had a 64 page VUD since September 2004, so a big thank you to all the editors and to all the people who submitted reports and information for this VUD.

SKIP SEASON

In the beginning, this year's Es season seemed confined to the Midwest and west coasts. DXers in those areas of North America were blessed with some very good skip openings, with some MUFs even heading up to the 144mhz range. Then on June 17th the Es FINALLY arrived on the east coast bringing a few hours of FM Es for several DXers. So finally everybody has had a taste of summer Es. It will be interesting to see how this season turns out. We'll soon find out.

MEMBERS AND MORE

Here we go for the period of May 13th to June 15th. We've got some new WTFDAers and a big bunch of renewals.

First we say welcome to **Fritz Prentice, Jr.** Fritz lives in Star City, AR and has been busy on the WTFDA list along with another new member, **Randy Zerr** from Ft. Walton Beach, FL. Fritz is trying his hand at DTV DXing while Randy owns an Onkyo T450 with RDS plus a Denon tuner with RDS, so he's loaded for bear.

Also Les Prus is responsible for **Steve Sawyer's** membership in the WTFDA. Steve is a radio guy and works in Memphis, and if I don't have him confused with someone else, he's also a New England native (MA) and when he's not DXing or on the radio, he's a moderator on the Boston board of Radio-Info.

Glad to have all three of you here. The more the merrier!

Now, here we go with the renewals. Dues are received from Dave Williams (OR), **Robert Ross** (ON), **Ken Onyschuk** (IL), **Harry Helms** (TX), **Matt Sittel** (NE), **Pete Giacopelli** (NY), **Garret Wollman** (MA), **Kermit Reid** (GA), **Randall Trapp** (MN), **John Griffiths** (ON), **Bill Grant** (MA), **Gray Fulk** (NC), **Kevin Redding** (AZ), **David Austin** (SC), **Mike Hawk** (NE), **Stephen Ponder** (TX), **Edward Ritchie** (WI), **Tim McVey** (VA), **David Sinclair** (BC), **Joe Veldhuis** (MI), **Jason Koralja** (NJ), **Rick Lucas** (NY), **Fred Laun** (MD), **Stan Weisbeck** (WA), **Frank Aden** (ID), **Jeff Kruszka** (LA) and **James Paige** (MI). Any dues received after 6/15 will be in next months VUD. I think I counted 28 members renewing for another year. Thank you all!

Anybody out there familiar with blogs? Blogs are little animals that are digging holes in my backyard. Well no, they aren't. Blog is shorthand for weblog, and a blog is what we would call a journal, or a diary in pre-computer days. You'll find many blogs on the internet. Some are excellent (Powerline comes to mind) and some just plain stink. My reason for mentioning blogs is that our own **Harry Helms** has created one of the finest radio-related blogs on the internet. He's got his finger on the pulse of DTV, IBOC, WI-FI, and a bunch of other cutting-edge inventions I still can't figure out. If you want to keep up with technology, check out **The Future of Radio** at <http://futureofradio.typepad.com/>.

Ken Onyschuk sent in an article from his local paper about his old high school and its radio station, WHFH 88.5. WHFH, started as a radio club, now reaches as many as 2.5 million people and just marked its 40th anniversary! The station is managed by students and supervised by teachers and many decisions are made by students, a true hands-on learning experience. The station's website is <http://www.whfh.org/>, and if you ever hear this station via tropo or Es, just think of Ken.

Ken also sent a letter regarding the changes at WCBS 101.1 NY and WJMK 104.3 Chicago. Little did Ken know that I had been toying with doing a cover about the same thing. While not strictly DX, there were plenty of us DXers who aimed our fringe antennas at both stations and listened to the oldies because we grew up with the music and the DJs. The flip to "Jack" just shows us how much older (and irrelevant) many of us have become.

MADISON GET-TOGETHER 2005

The 12th annual Madison-Milwaukee Get-together for DXers and Radio Enthusiasts returns to Madison this year, after a highly successful gathering in Milwaukee last year. This year's event will be held on Saturday August 20, beginning at 1 PM CDT. The location will be Burrows Park, 25 Burrows Road, Madison WI, on the edge of beautiful Lake Mendota. This year's hosts are the WTFDA's Bill and Nina Dvorak, 501 Algoma Street Madison WI 53704-4812, telephone 608-244-5497. This all-band event

has for the past several years been a popular destination for Upper Midwest WTFDA members (see last October's VUD for a picture-and-text summary of last year's event). For more information, e-mail Bill at <dxerak@aol.com> (please include "Madison DX GTG" in the subject line) or reach me at the above address or phone number. Hope to see you in Madison!

GOOD STUFF CHEAP

This is a reminder that John Lentz still has a good amount of DX related equipment given to us by the estate of Dave Janowiak and he's dying to get rid of it. This is what's left.

2 - "Beyond Shortwave" pamphlets.
VUDs from 1960's, 1970's, 1980's, 1990's, and 2000's.

TV - VHF/UHF 122" Boom
FM - FM 101" boom
FM - FM 110" boom

If any of this looks interesting to you, get in touch with John and offer him a buck or two. We never ever mentioned this before, but John is vaguely related to Crazy Eddie, the man with the insane prices. Don't be shy. Contact John at dxer@wi.rr.com or mail him at 13421 Loomis Dr #100, Muskego, WI 53150-5217. This stuff has to go, one way or another.

IS THERE A CONVENTION THIS YEAR?

Yes, Matilda, there is and John Callarman has more on it: "I did confirm with Tom Cusic of TM Century that he would be happy to repeat the tour he gave NRC'ers in 2003, one of the most entertaining and outstanding

radio-related tours I've seen. This will be at 2:30 p.m. Friday afternoon, and WTFDA'ers will see some outstanding production facilities and electronic gadgetry that makes Dallas the nation's jingle headquarters.

Since I haven't had little specific input from anyone on tour ideas, I'm working on another that is sort of out of left field, but will be surprisingly impressive. When Scot Fybush was here two years ago to take pictures and do interviews for his four-part tour of DFW stations, we visited a surprisingly neat FM outfit, operated by Mesquite High School. It's a 61 kw. oldies station ... playing music of the '70s (for parents of the high school kids!!) with lots of production, top equipment, etc. KEOM may not sound like a romantic tour, but this old broadcaster was extremely impressed ... and when I talk with Dr. Griffin, the manager, on Monday, I'll see if it might be possible to climb their unique tower. There's an office suite about halfway up the tower, adjacent to the MHS football stadium. (See Fybush's website for a picture.) I'm also angling for a tour of WFAA Channel 8, with DX'er Wally Wawro, but haven't finalized that yet.

I will take out my own hotel room for Thursday night and be on hand for any kind of informal gathering, ad lib, of early arrivals ... there are a couple of potential attendees who've talked about coming in on Thursday.

I have drawn a map of the Cedar Hill tower site, but having had no enthusiasm raised about an organized drive in that direction, I'll leave it to individual visitors to meander that way on their own time, if interested.

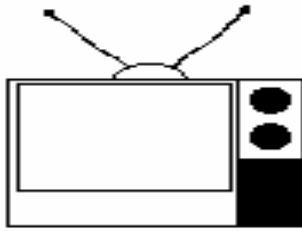

I have confirmed a second tour for the WTFDA convention with Dr. James Griffin, who oversees operations at KEOM-88.5. It will be at 10 a.m. Saturday, July 23. Don't let the idea that we'll be touring a high school station turn you off ... this is a highly professionally operated station, where students get a good hands-on learning opportunity.

Explore the KEOM website at www.keom.fm<<http://www.keom.fm/>>

The TMCentury tour is set for 2:30 p.m. Friday, July 22. TMCentury is more than a jingle mill, as you can see when you explore its website at www.tmcentury.com/home.asp. The TMCentury tour was one of the highlights of the NRC convention in 2003."

LAST BUT NOT LEAST

A short time ago one of our senior members told me he paid no attention whatsoever to those red "last issue" stamps I put on your last VUDs, so I tried something different and it seems to be getting your attention better. So I think the stamp will be retired. That's all for July. Take care and see you next month!

Thanks to Richard Lucas and Tom Bryant for information appearing elsewhere in this month's column...

Yep, six watts for KGFE-2... Tom's contacts in North Dakota say the KGFE antenna on the WDAZ-8 tower was destroyed by ice falling from the WDAZ antenna; falling ice also destroyed the KGFE transmitter.

With the pending closure of analog TV, Prairie Public TV didn't see much sense in rebuilding the channel 2 facility from scratch. KCGE-DT channel 16 in Crookston, Minnesota, a bit east of Grand

Forks, is already on the air and should be in a position to feed Prairie's programming to area cable systems. Reportedly KMDE-DT channel 25 in Devils Lake is also near completion and will fill in the gap west of the city.

In the meantime, a directional channel 2 antenna has been hung from a microwave tower west of Grand Forks and a one-watt transmitter connected. One might presume this operation has a special temporary authority from the FCC; normally, the lowest power permissible for a "full-power" TV station is 100 watts...

In the first round of DTV permanent channel elections, many stations filed "negotiated channel arrangements". In these arrangements, one station agreed to make a specific choice from its analog and digital channels, and make the other channel available to some other station.

Probably the best-known example involves Chicago stations WBBM and WTTW. WBBM drew DTV channel 3, which has proven quite unacceptable for DTV service. Their analog channel – 2 – isn't any better. WTTW drew DTV channel 47; their analog channel is 11. Both channels are decent for DTV use. WTTW reached an agreement to select channel 47 for their permanent DTV operation, and allow WBBM to use channel 11.

The FCC must pass judgement on these agreements. They now have. Most were granted, but twelve were denied.

Denied:

Station	Location	Req. chan	Asn. chan	Other station
WBRC-50	Birmingham, AL	21	50	WTTO
KVTN-24	Pine Bluff, AR	7	24	KATV
KRON-57	San Fran., CA	30	Rnd 2	KQED-DT
KBDI-38	Broomfield, CO	13	?	?
WKMG-58	Orlando, FL	15	Rnd 2	WCEU
WSYX-13	Cols., OH	36	13	WTTE
WCAU-67	Phila., PA	34	Rnd 2	WYBE-DT
KTXA-18	Ft. Worth, TX	19	18	KTVT-DT
WVTV-61	Milw., WI	25	18	WCGV-DT

Three Pax stations requested new assignments for DTV; all were denied:

- Ⓢ KFPX-39 Newton, IA requested 29
- Ⓢ WEPX-38 Greenville, NC requested 51
- Ⓢ KGPX-34 Spokane, WA requested 43

However, WEPX appears to have been assigned DTV channel 51 anyway as the result of an agreement with WRAL and WUNC. I think.

WNJU-DT 36 was somehow part of the agreement that would have sent WCAU-DT to 34 if approved.

Approved:

Stn.	Location	New Ch.	From
KCBS-60	LA, CA	43	KCAL-DT
KNSO-5	Merced, CA	11	KNTV
KWQC-56	Davenport, IA	36	KQIN
WBBM-3	Chicago, IL	11	WTTW

KFWD-51	Ft. Worth, TX	9	WFAA-DT
KLDT-54	Lake Dallas, TX	39	KXTX
KNWS-52	Katy, TX	47	KTMD
KHQ-15	Spokane, WA	7	KSPS
KPDX-48	Vancouver, WA	30	KPTV-DT

In addition, WSCV-DT 52's application to move to channel 30 was approved.

In North Carolina, a complicated arrangement involving five co-owned stations would put:

Station	Location	To
WUNC-59	Chapel Hill	25
WUNK-23	Greenville	to stay on 23, no return to 25
WUNU-25	Lumberton	31
WUNF-25	Asheville	to stay on 25, no return to 33
WUNL-32	Winston-Salem	26

Also on the DTV front... The FCC is moving up the deadline for installing DTV tuners in TV sets.

All TVs 36" or larger are to have DTV tuners by July 1st. By the same date, half of sets between 25 and 36" are to be DTV-capable. In a year, all sets larger than 25" will require DTV tuners, and in two years all sets larger than 13", and all VCRs and other "non-display" TV receiving devices, must receive DTV signals.

Setmakers had requested two changes in the rules: an elimination of the 7/1/2005 requirement for half of 25-36" sets to be DTV-capable, and a move of the date for all such sets from July 2006 to March.

The FCC granted the latter request but denied the former. They have also proposed to move up the date for all 13" or larger sets from July 2007 to the end of 2006. And, there is a proposal to extend this requirement to all TVs, even those smaller than 13".

Richard took a trip across NY State and noted the following LPTVs and translators off the air:

- Ⓢ W54AK & W48AO Auburn
- Ⓢ W60AJ Cuba
- Ⓢ W62AQ Fillmore
- Ⓢ WDTB-LP (39) Hamburg
- Ⓢ W56AI Hammondsport
- Ⓢ W20AB Olean
- Ⓢ W30AJ & WNDR-LP (18) Syracuse
- Ⓢ W69AN Union Springs
- Ⓢ W56AU Wellsville & Scio
- Ⓢ W64AJ Whitesville

WDTB-LP was bumped by WIVB-DT. Richard says they have special temporary authority for 4 watts (gee, even less than KGFE<grin>!) on channel 40 from the HSBC tower in downtown Buffalo, but that signal was not on when Richard visited in early June.

Most of the rest of these stations carried WCNY-24 or WNED-17. Richard says WNED only has five translators left in Allegany County; all the translators they "inherited" in Cattaraugus County in the early 1980s are now gone. The WCNY translators were all within the primary station's Grade A contour.

Richard also noted WHSU-CA (51) Syracuse now with "America Shops", formerly Cornerstone religion.

Good DX!

FCC to Change How it Allocates FMs

The FCC is considering several changes to FM allocation rules in response to a petition by First Broadcasting.

Some broadcasters have characterized certain rules as cumbersome. One of the most significant changes would classify a change of community of license as a minor change in an application filing.

Susquehanna Radio Corp. supports the move; it told the FCC that such changes take an inordinate amount of time to process, up to 6 years in one case for Susquehanna.

The commission votes on these and other proposals, including streamlining the process of downgrading a Class C station to a Class C0, on Thursday. (Thanks to Bob Cooper)

Some news and notes:

- Jim Thomas is now providing monthly FM News updates from Mexico. It is appreciated. To go along with his Mexico FM Directory, which can be purchased. See this month's VUD for info.
- The am/fm leader in México, Grupo ACIR, Cd. México DF (with 160 radio stations in 2000), in 1999, entered into a partnership with Clear Channel, where CC engineers are now implementing RDS as part of the Grupo ACIR stations and thus resulting in changes down the line. Grupo ACIR 'Satélite' news stations recently flipped to 'Digital' with modern rock. This is part of the realignment of their partnership with CC.
- The following are now 'Digital' affiliates:
 - 89.5 JAL Puerto Vallarta XHME
 - 90.1 PUE Puebla XHRS
 - 91.7 COL Colima XHCIA
 - 93.9 MICH Morelia XHMO
 - 95.3 SLP San Luis Potosí XHNB
 - 97.5 GTO León XHPQ
 - 100.1 SIN Culiacán XHCNA
- Due to space restrictions because of this month's large VUD, FM news for the states Oklahoma thru Wyoming will appear as scheduled in next month's FM news...
- I am deeply sorry for the prior absence, thus the backup in information in this column.. there's a lot of it.
- As I did not enter format changes due to space restrictions, here are some notable ones.. (they will be entered in their usual spots next month)
- WCDV/Baton Rouge - to Dance AC "Diva 103.3"
 WCBS/New York - to adult hits "Jack FM"
 WJMK/Chicago - to adult hits "Jack FM"
- The format changes of WCBS/New York and WJMK/Chicago are two of the most controversial in recent memory throughout the country...as both stations WERE getting decent ratings and making decent revenue, all sources agree. No one has yet picked up the oldies format in either market, and many wonder if this is the demise of the oldies format nationwide.
- My column will come next month from the road in Galveston, Texas.

-Adam

beansdad at bendcable.com (541) 420-4704

Please note that handwritten or typed reports may be delayed to a future release. If I have time, I'll get them in right away. Thanks!

Dave Williams

May 20 – MUF to top of FM, lasted 3+ hours

1810 XHI 2 Distinctive logo
1835 KPHO 5 Local News, Logo match
1850 KRGV 5 (t), won't count it, with
"5 on your side" promo
1859 KUAT 6 ID out of McNeil-Lehrer
1910 XH??? 6 XEW-2 relay; either
XHDED Cd. Delicias or
XHNCG Nu. Casas Grandes CHIH

Also unconfirmed in this opening: XEFE Tam and XHAQ BC, logo matches, but no recordings or other identifying info. XEFE would be 2xEs.

May 23 – MUF only to 3

1410 KNOP 2 Jane Pauley. Western NE
mention in promo, news promo
1620 CKCK 2 Wheel, then Jeopardy at 1630
2110 CKND2 2 Sports report (AHL playoffs from
MTS Mobility Centre)

May 24 – MUF to FM, very little TV noted!

0740 KUSD 2 Barney, w/SDPB and PBS bugs LR
In off/on for next 90 minutes
0810 UNID 2 News, looked like CTV/CKCK

May 27 – MUF to FM with a lot of TV as well

1320 XHI 2 Animated logo, seagull
flying into circle 2
1358 XEJ 5 Logo on several promos,
match from Danny's site
1400 KDBC 4 Inside Edition
1415 UNID 2 SS versions of Millionaire and
Family Feud, is this Juarez?
1530 KNME 5 Postcards from Buster, Logo
1600 KASA 2 Ads
1600 KACV 2 PBS Kids into Clifford
1610 KOCT 6 KOAT 7 News
1620 KAMR 4 News, 4 on your side
1745 KSNC 2 Dateline, local car dealer ad

May 31 – MUF to 107.9 3 times – abbreviated report!

Stations noted here during the day. I was DXing FM all day and most are by program match, local ads, and bugs.

0700-0900:

KACV 2, KWGN 2, KFDX 3, KAMR 4, KOAA 5
KAUZ 6

KFDX – Floater under/over local KOAB with logo, ad for Atwood's Ranch and Home Supply.
KOAA – Today Show drop-ins and NBC 5/30 logos.
KAUZ – People's Court, logos.

0900-1100:

KUSD 2, KLBY 4, KDLV 5, KHAS 5, WOWT 6

KHAS – in for about 2 hours, News Channel 5 logo.

1100-1300:

KGAN 2, CKND2 2, KIMT 3, KPRY 4, KHAS 5,
WOWT 6

KGAN – ID match from Ryan's + CT programming

1800-2100:

KNOP 2, KLBY 4, KTIV 4, KHAS 5, WOWT 6

KTIV – Local sportscast, bug LR at 2030 PT

2300-2359:

KNOP 2, KLBY 4

June 1 – Very brief opening

0815 KNOP 2 People's Court noted 'til 0845

June 4 – Very brief opening, into FM as well

1830 KSNC 2 KS Propane Ad, KSN logo
1840 KASA 2 Cops, FOX bug LR

June 6 – Very brief opening, MUF 2

1045 KASA 2 Texas Justice, KASA 2 bug LL
UNID 2 US Soap
UNID 2 MX cartoons

June 9 – Nice TV opening, never hit FM

1238 KACV 2 George Shrinks, KACV text bug
1305 KAMR 4 Fighting through local xltr, (t)
1330 KSNC 2 Severe Weather update, crawl,
Jeopardy
1340 UNID 3 Crawl under KOAB, not KSN
1345 KLBY 4 Severe Weather update
1420 KSNB 4 Fear Factor, ads
1430 KQTV 2 News drop-in during Oprah,

KQ2 bug lower left

June 10 – MUF 2, very brief

2020 XHI 2 Noticieros Noroeste

June 13 – High MUF Short Hop event

1545 KTVU 2 Maury Povich, then Montell
Also news update w/2 bug at 1630
1625 KRON 4 News, many KRON4 logos, bugs
1700 KPIX 5 News, logos

All 3 are 447 miles from my location. See my FM report next month. Could not wrangle KCRA or KVIE out of this opening – drat! Not even a hint of CCI to KOAB-3 while KTVU and KRON were blasting in.

June 14 – MUF into FM briefly – boatload of 2’s

1045 KTCA 2 TPT2 Bug. 1370 miles, rare.
1115 CBWYT 2 This Hour has 22 Minutes, cbc.ca match (Central). 1092 miles.
1210 CKBQ 2 “Balance for Living”, CTV bug LR. Not CKCK; only logical choice. 961 miles.
1315 KNOP 2 Judge Judy

June 15 – Boatload of 2’s again! 6 hour opening

Started at Noon, ended around 6 PM.

2’s - KACV, XEPM, KWGN, KSNC, KNAZ, XHI, XHCH(t), KNOP, KUSD
3 – KTVK
4 – KCNC, KLBY

XEPM: Juarez ads into Novela at 1220. 1040 miles.
XHCH (t): Azteca 13 + XH**H mentions on ad at 1340, Danny has convinced me that while this probably was XHCH, there’s really not enough to go on.

KTVK: Blasts through KOAB-3 at 1430 while KNAZ in. 892 miles.

June 17 – Low MUF again.... argh!

1900 KMID 2 ID, in/out for 90 minutes w/20-20, News, Nightline
2010 KACV 2 Charlie Rose
2035 KASA 2 “Fox 2 News”, Bug

June 18 – Top-of-FM Opening – Little TV DX’ed

0650 KSNC 2 KSN bug
KLBY 4 KAKE logo bug
0830 KBSD 6 ID into CBS Kids programming
0835 KRMA 6 Art shows, Rocky Mountain bug
0900 KOAA 5 In for the next hour

June 19 – Brief Opening into FM

1800 KASA 2 Simpsons, in for an hour.
KENW 3 (t), zero offset to KOAB; had KENW 89.5 at same time
1900 KACV 2 Very common this season. Also
KAMR 4 had Amarillo FMs during opening.

TV: Zenith black & white
Antenna: Handheld dipole

June 13, 2005 Es

1550 KEYT 3 Santa Barbara, CA 567
1556 KTVU 2 Oakland, CA 310
1602 KRON 4 San Francisco, CA 311
1612 KCRA 3 Sacramento, CA 264
1630 KCBS 2 Los Angeles, CA 619

Unusual short skip into California. First sign was Victor Frank's K6FV 6 meter beacon in here strong. Ham contacts from Sacramento to Los Angeles.

June 18, 2005 Es

0940 CFQC 3 Saskatoon, SK 935
1001 CFCN 4 Calgary, AB 735
1015 CICT 2 Calgary, AB 735
1020 CBUT 2 Vancouver, BC 482

Another "short" E opening, this time to the north. While into Saskatchewan on TV at 0947, worked Ohio on 6 meters at 2059 miles using a Buddipole antenna which is similar to a handheld dipole but bigger and mounted outside on a short mast. Besides the source WTFDA uses for distances, I found another that is very good and gives you a map:

http://www.matesupover.com/Main/Find_People/distance.php

Morris Sorensen Winnipeg, MB

1983 RCA black and white portable with Channel Master indoor antenna from mid 1950's

Not much for sure.

May 14 Es - CDT

1556 WDTN 2 OH Dayton NBC Lacrosse. ID with large call letters at 1600.

1620 WFMY 2 NC Greensboro with CBS and golf

That’s it! Nothing since that I could ID!

Jeff Kadet

Macomb, IL

Thanks very much to Victor Frank, the fastest typist in the West, for doing Western DX, also to Dave taking over.

It has been a while since sending in a report. In November, 2003 I earned 6 meter DXCC certificate #699.

Due to a heavy workload during the 2004 Es season, I couldn't be in front of TVs all the time, so about 50% of DX was recorded on a JVC camcorder set in front of the 5 skip TVs during hot openings. I've only gone through 1 of the 5 cassettes so far, so there still may be some goodies on them. All the tapes have a date and time stamp so it's easy to know when what was recorded. I play the tapes back on a 60" HDTV monitor, so they are almost the original size when viewed, but a bit blurrier than the originals.

This is what has been reconstructed from 2004 so far from the tapes, and also from submissions to <http://dxworld.com/tvfmlog.html>. All 2004 times are UTC. There are two new Es loggings listed.

One is a "Tele-Rebelde" from Cuba on ch. 2 on July 17 which, because of conditions, I am almost certain had to come from extreme western Cuba. I'm counting it as the 6KW in Babinay, Pinar del Rio unless anyone has information otherwise.

The other was K06JM, Gillette, WY, a 3KW translator of KOTA-3, seen on June 24.

So far in 2005, one new Es station has been seen. I had two ch. 6's from Cuba in on May 31 with different programming. One has to be new by default, as only one ch. 6 in Cuba (Habana?) has been previously seen.

2004 Loggings (all times UTC)

May 28, 2004

22:54 color bar TP on ch. 2 to SW. an odd time
22:58 XE ch. 6

**Dennis Park Smith, 3605 San Remo Drive,
 Santa Barbara, CA 93105-2523 Telephone
 (805) 687-7803**

This report is for May 2005. It started to warm
 up mid-month but then seemed to stall out,
 even with stable conditions in the second half.
 Southern-California coastal tropo to San
 Diego/Tijuana (up to 200mi/320km) didn't do
 much this time.

May 1-11:	None since Apr 22 eve	(Rain May 5)
May 12 AM:	Poor	(Rain May 9 AM)
May 12 Eve:	Fair	(Windy May 10 and warming)
May 13:	Poor	(Stable and moderate warmth to month's end)
May 14-23:	Variably poor-very poor, peaking May 20 eve with fair signals	
May 24-31:	None	

I don't know quite why there was no tropo at end
 of the month when the weather was still stable. It
 has not yet gotten very hot inland with some
 warmth there ought to have been at least some
 tropo but there wasn't.

In addition, there was Es noted on May 20 eve,
 apx. 1800-1930 PDT, with signals up to at least ch.

5. No IDs/ I don't see much skip here in Santa Barbara with minimal equipment; it was probably a good skip session.

Best of DX to all Dennis

Jeff Kruszka, 5024 S. Braxton Ave. Baton Rouge, LA 70817

	1851	unid SS 3, 4, 5		
	2014	KENW	3 NM	760

Note 1 – A note from Steven Wiseblood confirms that XHMTA-11 Matamoros is on the air, but with reduced power (estimated at 3 kW!), allowing this other station with XEW programming to come in.

A decent month of E-skip with a little bit of TX tropo mixed in. Some nice openings to Honduras brought the familiar "pink 5" in (you'll see it in an upcoming Photo News).

William Draeb, 1314 Ellis St. Kewaunee, WI 54216-1802

KVBC was accompanied by rapid fading. Most of the time they were the only channel 3 coming in. No signs of anything unusual on channel 2 (just local WBAY). My second Nevada station. It was mostly gone by 2030.

No DX in April. The Es this month (May) was mostly weak but some openings did make it to channel 6. Hope to have more in June.

An absolutely fantastic start to the skip season! May 26 and May 31 stole the show, especially the latter. The late morning session I heard in the car in the parking lot at work, but was fortunate enough to be home for the evening event, which was hampered by thunderstorms rolling overhead. FM was open for 4 hours on the evening of the 31st! Log total has really jumped, now up to 1,070.

I have a new tuner, the Denon TU-1500RD, and a new FM antenna to go with it. I mounted the APS-9B on the back porch atop a 10-foot mast. It's only about half as high as the TV antennas on the roof but does a great job. The directionality of the APS-9B has really opened up some frequencies. I plan to do a lot more FM DXing this season. 73s Matt.

Dave Williams, 3525 SW Timber Av, Redmond, OR
Denon TU1500RD, FM6, Total Recorder, Power Audio Editor 2005
Many thanks to Jim Thomas, Steven Wiseblood, Scott Fybush, and others for ID help. I apologize that this data isn't consistent across the openings; I need a better system!

Highlights: A decent May for Es. Logged WY for new meteor scatter state and NE for a new Auroral DX state. However, the prize goes to my May 26 reception of WVPS via Es, the first time ever that I've logged VA via Es. I started DXing FM in 1977, so it's been awhile coming!

June 19 Es

1113	WHSB	89.9	Brule	WI	RDS 68F8
------	------	------	-------	----	----------

The opening of June 18 was a very good but strange opening. Very unstable at first with either a very wide footprint or several smaller ones. Short (IN, VA and TN) and long (NE, MO and AR). 93.5 and 94.9 were very active frequencies.

The opening on the morning of June 19th produced very little even though it seemed to be up to at least 93.9.

NOTES

- (1) Noted with what sounded like CBC mono English playing a Jimmie Rodgers song from the 1920's. I had nothing to parallel it with at the time. I kept this reception in mind and exactly an hour later I heard the same song on CBKM-98.5.
- (2) Tape loop talking about Foam Lake, Quill Lake, a gift shop in Wynyard, and several other public accommodations. "You're listening to 103.5 FM, Wadena Radio" about every three minutes. This 48 watter was there for almost 15 minutes! No calls listed in the FM Atlas. I found these calls on the net.
- (3) "Fox Forecast" giving a high of 24 degrees on HD radio. Interesting that I had another shot a this one less than a fortnight after blowing it the first time. I called them and played the tape and they were pretty surprised when I told them where this faint taping was made. They confirmed it was them. As far as any more U.S. or Canadian states and territories for me to log "Stick a fork in me...I'm done." With only AK, HI, NF and the other territories unlogged, I don't expect to add to that total.
- (4) Very weird opening. Nothing very strong at all. A brief 96.7 audible only on the "tower". Possible west coaster? I noted that right around this time Ralph Strobel logged Henderson NV 94.1.
- (5) This opening was top-of-the-dial MUF most of the time but I got nailed by strong regional tropo even on the skip antenna.
- (6) I'm pretty sure I heard this station in March when I was in West Palm Beach. Same one?

Rick Shaftan

SCISATMAN@AOL.COM

Another month a few changes, but lots of rumors abound. The biggest forwarded to me from a major programmer concerned the movement of the Starz/Encore plex from C Band to KuBand - particularly the Small Dish market. Will that be available to the big dish owner - ??? - The push seems to be for DirectTV. More when available. At this writing there has been no change.

On NSS at 40 west - Tele Caribe had been replaced by Canal TRO at 754 - El Canal Del Gran Santander in Santander which is somewhat south of Bogota. The cluster of digicipher channels on Pan An Sat at 43 west - 750 to 760 appears to have had its beam redirected somewhat in this direction. On one of the channels, there has been a promo for a premium channel and is currently color bars. The others are indicating a "subscription required" notice. Signal is great and hopefully when I get my MPEG2 DVB receiver back on line I will see a greatly improved signal from those channels as well. On AMC 10 at 135 west - channel 610 is the new home of History Channel West, A short column this month - which is better than no news and hopefully a much bigger column next month. See you in 30 - Good DX and skip and Tropo to all and "73"s

FCC Proposes to Streamline FM Allotment Rules; Adds a Freeze

Noting that its FM allocation rules haven't changed much since their 1963 inception, the FCC is proposing significant changes to streamline the allotment rulemaking process and weed out arcane rules.

At the same time, the commissioners announced a freeze on new FM allocations, saying the agency would not accept applications for new FMs until this procedure is completed.

Nearly 300 commercial FM allotment applications are pending; for them there will be a one-time settlement window, with no limit on monetary settlement amounts.

By requiring applicants to file a completed technical application (Form 301) and pay a filing fee at the same time as the new FM allotment is sought, the agency hopes to ensure those who participate in the auction process would be the same parties that seek new FM allotments.

It has also proposed changing AM mod rules. The proposed changes stemmed from a petition filed by First Broadcasting Investment Partners, LLC this spring (RM-10960).

Public comments (Docket 05-210) are due 60 days upon publication in the Federal Register. (via Bob Cooper)

The Sporadic-E Seasons continues, with varying results, depending on where one lives. Here in the Country's mid-section, conditions have been OK, but far from stellar. Guys in the Northern Tier of states have gotten very little, and are complaining about it. But, if you live in the far West, conditions have been very good.

Recent highlights I have seen reported include some brief 144 MHz Es in the West – one member of the e-mail group made a contact from British Columbia into Colorado. On the 6 meter side, Jeff Kadet worked Mauritania from Illinois.

The *ARRL VHF QSO Party* has come and gone, and, sadly, conditions were pretty quiet. I made some contacts to the West, but operators on the East Coast got even less. Let's hope *Field Day* will be better this year. I will be working with the W4EM group here in Memphis, operating from an interesting location – the tower site hosting WKNO-TV, WLMT-TV, and a bunch of local FMs. My group will be up on 6m, with a halo at about 100 feet; 2 meters will be vertical even higher! We'll see...

Loggings

Bill Smith, WA1NYV, 56 Locust Street, Douglas, MA 01516 FN42

8 May '05

Opening to the Northeast to Newfoundland, Maritimes, and Prince Edward Island. Most of it skipped over my location. Heard VO1PJM/GN38, VY2JR/FN76, and VY2GIG. Worked VO1BHK/**GN08** @ 2359. Skip then extended to the Midwest, but no new stations were heard. I am trying this Season not to work stations previously worked [I guess that leaves me out! -ed.]. I am also trying to computerize my 6m contacts.

11 May '05

Opening started to EL96 and EL98, directly South. New stations worked include K4TFY/EL97 @ 2014, W4PY/EL96 @ EL96, and K7NEJ/EL98 @ 2035. Skip then extended to EL59. No new stations heard.

12 May '05

Opening directly south again. Worked K2STO/EL88 @ 2130, K5RQ/EL98 @ 2130, and KI4EPN/EL88 @ 2131.

13 May '05

Opening to the southeast. Worked:

1933	N4UXY	EM50	1954	AC5TM	EM40
1940	K5TF	EM73	1957	K4ZGB	EM63
1947	AG4MS	EM63	1959	WJ5P	EM52

VP5VAC in the Turks and Caicos was also heard. It was weak and gone quickly.

14 May '05

Brief opening to the northeast. Worked VO1KVT/GN29 @ 2032. Then, the first opening to the Caribbean. Worked KP4TB/FK78 @ 2230, HI8ROX (Dom. Republic)/FK58 @ 2312, and KP3A/FK68 @ 2345.

15 May '05

Brief opening to Caribbean brought FM5JC (Martinique)/FK94 @ 2216 and FM1BY at 2244.

16 May '05

Opening to Midwest brought KI4FZR/EM77 @ 0242, N9VTJ/EM69 @ 0242, WB8DNO/EM79 @ 0243, and N9OI/EM69 @ 0248.

17 May '05

Opening to South America brought YV4YC (Venezuela)/FK60 @ 2208, YV4DDK/FK60 @ 2239, YY5PER/FK60 @ 2253, and PJ2BVU (Neth. Antilles)/FK52 at 2256.

18 May '05

Spotty opening to Caribbean brought P43E (Aruba)/FK42 @ 0007, N1TKK/KP4 FK68 at 2243.

19 May '05

More Caribbean. WP4KJJ/FK68 @ 0008, HI3TEJ/FK49 @ 0026.

20 May '05

Opening to South, which spread Southwest:

Year of the Vet special callsign

On the 18th, W9ZR was the only East Coast station heard, and I was able to work him on the Buddipole antenna on the second call [the Buddipole is a portable dipole-derivative antenna. –ed.]. The band was going away and it was a nice snag. I understand the band was open earlier on the 18th, but I got up too late.

Let's welcome another new contributor, sending us a cool QSL. Alfred Laun, K3ZO, in Maryland shares an F2 contact QSL from 2001.

ROAD RAGE – A NEW LEVEL AND PERHAPS A NEW SOURCE OF FM DX?

Developed by a group of current and former master's students at the Human Computer Interaction Institute, the Roadcasting project would allow drivers to stream their MP3 music collections by Wi-Fi or similar technology to any other vehicle within range that is equipped with compatible hardware and software.

The system -- still largely theoretical -- will also feature a collaborative-filtering mechanism that compares music in a recipients' collection to that of the broadcaster. The filter will pump out a mix of songs matching the listener's tastes.

"What's really cool about this is that while you're busy (driving), Roadcasting will just pick songs that you enjoy," said Mathilde Pignol, one of the Roadcasting developers, "and then it will let you influence the songs with your music taste without you having to do anything."

Roadcasting was commissioned by a "major automaker" looking for applications to make use of mobile ad hoc networks that will be included in production cars in the next few years. Pignol would not say which company the team had worked for, but Carnegie Mellon researchers have a history of working for General Motors on so-called cars of the future.

According to Dan Benjamin, senior analyst with ABI Research, several automakers and the Department of Transportation may implement mobile ad hoc networks as early as 2007.

Using 802.11p technology, a Wi-Fi variant designed for vehicles, mobile ad hoc networks would serve two important purposes, Benjamin said. First, vehicles with built-in 802.11p could serve as nodes in mesh networks and send each other safety notifications in case of accidents, or potential accidents. Acting as nodes in a mesh, each car would extend the network's signal a mile at a time.

Secondly, Benjamin said, vehicles with such technology could serve as nodes and pass on traffic information that would help drivers choose the most efficient routes to their destinations.

"It definitely has a societal benefit," Benjamin said.

Some auto industry experts think that while the technology is a ways off, car companies will be eager to adopt projects like Roadcasting.

"I definitely can see a carmaker jump in, just like General Motors jumped in with XM Radio," said Walter Keegan, the author of

Autoblog. "Just to tout the next big thing or to have something different.... That would be a big selling point."

Roadcasting has been compared to two similar personal-audio projects: SoundPryer, which lets people create mobile ad hoc networks for eavesdropping on music being played on nearby MP3 players, and tunA, a similar system employing Wi-Fi to jack into nearby music gadgets.

Of course, given that Roadcasting calls for a nontraditional approach to broadcasting, some worry it will cross legal boundaries; after all, broadcasters must pay licensing fees to The American Society of Composers, Authors and Publishers.

But Pignol and her four teammates on the project think Roadcasting is on solid legal ground.

"We've noticed a lot of people blogging about it calling it pirate radio," Pignol said. "But there's no reason it has to be illegal. It's your own music that you're broadcasting."

Jason Schultz, a staff attorney at the Electronic Frontier Foundation, agreed, but said the Roadcasting team might want to prepare itself for being contacted by the recording industry's lawyers.

"I'm sure the RIAA is going to have problems with this," Schultz said. "But that doesn't mean it's illegal."

In fact, he explained, because Roadcasting uses streaming technology to broadcast songs and doesn't result in the permanent transfer of music files, it is probably safe from infringing behavior.

"It's quite similar to how (Apple Computer's) iTunes works, with its subnet sharing," Schultz explained, "in that they can stream the music and listen to it, but as soon as they log off, it all disappears. Many people consider that to be fair use, because of the ephemeral nature of the music."

In fact, he said, Roadcasting is at the forefront of what he called "me-to-me" technology, in which small networks of dozens of users utilize new broadcasting media instead of massive networks of millions of users.

"This is the next big challenge for the RIAA," said Schultz. "If they thought file sharing over P2P networks was a threat to their business model, then this is a whole different challenge that they have to adapt to, because there's no way they can police this."
