

Vhi-UhiDIGEST

The Official Publication of the Worldwide TV-FM DX Association

DECEMBER 2005

The Magazine for TV and FM DXers

IT'S THAT TIME OF YEAR!
On the watch for Winter E Skip!
Look for it!

"Hey...nice antenna you got up there! What's it for? Will it pick up XM?"

NOVEMBER ON CAPE COD →

WHO'S HERE...WHO'S NOT

LOWBAND DTV STATIONS

TV and FM DXing was never so much fun!

THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: DOUG SMITH, GREG CONIGLIO, BRUCE HALL, KEITH MCGINNIS AND MIKE BUGAJ.

Editor and publisher: **Mike Bugaj**
Treasurer: **Keith McGinnis** *Webmaster:* **Tim McVey**
Editorial Staff: **Dave Williams, George W. Jensen, Jeff Kruszka**
Keith McGinnis, Fred Nordquist, Matt Sittel, Doug Smith,
Chris Kadlec, Peter Baskind and John Zondlo,
Our website: www.anarc.org/wtfda Our forums: www.wtfda.info

DECEMBER 2005

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

<http://fmdx.usclargo.com/join.html>

Dues are \$25 if paid to our Paypal account. But of course you can always renew by check or money order for the usual price of just \$24. Either way, it's still a bargain!

VUDS ON A CD!

Every VUD from Jan 1980 to December 1989 is on this disk. You'll need Adobe Reader to read them. Why have a box of old VUDs taking up space when you can have this. **It's yours for just \$8.00 per disk.** Send your check or money order for \$8.00 to WTFDA, P.O. 501, Somersville, CT 06072. Make it payable to **WTFDA.**

The Membership List	34
Cape Cod GTG Photos	37
Editors/Submissions	39

This month we welcome back FM News, this time edited by Chris Kadlec. Chris appears to be a perfect fit for this job and I know he'll follow in the footsteps of Greg Coniglio and Adam Rivers.

Also this month we publish the WTFDA membership list, which you also can find anytime you want it at the WTFDA Forums in the "Members-Only" Section. For those of you who want to read it in places where you can't fit a computer, well here it is!

THE WTFDA FORUMS AT

<http://www.wtfda.info>

This is the newest addition to WTFDA on the internet. The forums consist of a series of public forums for all TV and FM Dxers *plus* two forums just for WTFDA members; the eVUD forum and the Members-Only Forum. Register yourself and go take a look. It costs you **nothing more!**

THE WTFDA EMAIL LIST AT WTFDA.INFO

Due to popular demand, we've moved the list from Topica to the forums. The emails fly faster and you get subscribed faster! Just send an email to tvfmdx-subscribe@wtfda.info to be added to the list quickly. If you've had problems with Topica before, try us now and come onboard. Read on the web or by emails. Your choice!

The Mailbox

P.O. Box 501, Somersville, CT USA 06072
MIKE BUGAJ MBUGAJ@SNET.NET

A CHRISTMAS WISH!

May all those dreaded IBOC sidebands disappear from your FM dial in 2005, and may you find yourself awash in new DTV loggings! May you find the ultimate DTV STB (with a signal meter and a remote that works) and may somebody up there finally draw the conclusion that IBOC is just not going to work and toss the whole plan into the dumpster of unworkable schemes. And by the way, Merry Christmas, Happy Chanukah and enjoy the holidays!

MEMBERS AND MORE

This month we welcome **René Tetro** of Lansdale, PA and **J.P.Jones** from Columbia, SC to the club. René is the CE for WFIL and WNTP in Philadelphia. Welcome, guys, and we hope you enjoy it here.

Our renewals cover the time period of 10/18 through 11/15. Renewals are received from **Steve Branch** (IL), **Keith Short** (OH), **Jeff Kitsko** (PA), **George Hamer** (NY), **Bill Nollman** (CT), **John Adams** (OR), **Karl Zuk** (NY), **John Rieger** (WI), **Paul LaFreniere** (MN), **Brian May** (CT) and **Robert Delaney** (IL). Anything received after 11/15 will appear on next month's list. Thanks everyone for being here one more year!

LOWBAND DTV STATIONS

Karl Zuk asks the question: I've heard noise from my peers and ham radio buddies that when analog TV finally goes off that DTVs will migrate back to VHF. I can't believe that would be true. It would not be worth the expense. Many stations now consider themselves distributed primarily by cable via fiber or microwave feeds. TV is now looking at Internet distribution on demand. I really don't think that stations would spend the huge amounts of money to build yet another expensive transmission plant and antenna system just to be on VHF.

What really breaks my heart is to see HDTV signals severely compressed by cable systems. I saw this problem in the Detroit area a few months ago. Comcast compressed the CBS HDTV feed to the point where it was riddled with snowy clumps of pixels. Switch to rabbit ears and the difference was amazing!

What a waste of technology and receiving equipment! So much for "High" Def digital.

It would be an amazing situation if all American TV stations were off on VHF. Wow! Could we have fun! It would be like finding religion. When the NYC area experienced the once in a lifetime experience of losing the World Trade Center facilities, it proved to me just how far TV signals can go. I was watching Baltimore and Washington DC every morning. Even better...Just think what it might be like if all domestic AM radio stations signed off.

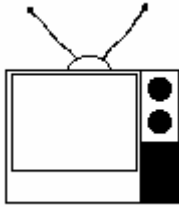

Doug Smith replies: - In how many places will a transmitter continue to be the most effective way to distribute signal to cable operators? (I suppose in markets where one or two cable firms are dominant, fiber and/or microwave feeds may make sense. If you have many systems might it still make the most sense to operate a terrestrial transmitter? Or will Internet transmission become fast and reliable enough to supplant it?)- If you can take the channel election process at face value, roughly 80% of stations whose analog channels are low-band are moving to high-band or UHF.

CAPE COD GTG 2005

Chris Black hosted his first all-band get-together at his home in W. Yarmouth, MA on Saturday November 19th, and the WTFDA was well represented by Keith McGinnis, Jeff Lehmann, Chris Black, Mike Bugaj, Steve Solomon, Bill Nollman, Roy Barstow and Craig Healy. Keith brought his T-85 and the Icom R7000 and we spent considerable time doing a FM bandscan from the cape. Steve attempted a filter mod on Chris' NAD tuner and was assisted by Bill until the job was completed. The NAD tuner fared very closely to the selectivity of the T85. Mike brought an FM Atlas for Roy, but either Roy left early or Mike arrived late (or both) and each missed the other. Bill and Steve left early because they were under orders to report home to go out to dinner.

Mike also brought ten copies each of the last three VUDs to distribute. Most of them ended up in Keith's possession to be given out to Boston area DXers at a later date.

That's all. See you next year. -Mike

Thanks to Glenn Hauser, Bill Draeb, Ralph Strobel, and Brian of KLKT-LP for information appearing elsewhere in this month's column...

The CFJC stations in British Columbia had been operating as CBC affiliates. They've entered a joint sales agreement with Global's CHBC-TV, and claim they need to disaffiliate from the CBC in order to implement that agreement.

The CBC has indicated financial considerations will prevent them from implementing new transmitters in these communities to replace CFJC's over-the-air coverage. However, they've filed in favour of the CFJC application. With CFJC disaffiliated, CBUT Vancouver will be added to cable in these areas, so cable and satellite subscribers will continue to receive the CBC. In fact, they'll receive more CBC programs. CFJC, as a privately-owned affiliate, was free to preempt much of the CBC schedule for more lucrative material; with CFJC disaffiliated, cable & satellite viewers in the Kamloops area will receive the complete CBC schedule.

A number of Entravision stations (mostly Univision affiliates) have been fined \$3,000 for failing to fully implement the PSIP protocol by the deadline. This is the protocol that provides program guide data, among other information, on DTV stations. Fines against several other Entravision stations were rescinded after the licensee showed they had in fact implemented the protocol in time and their late requests for waivers were moot.

I received email from Brian at KLKT-LP in Kansas, filling in a gap in the records on my website. He notes that the station hopes to convert to digital operation in the near future. They'd continue to carry America One on one subchannel, adding another network on a second subchannel.

Bill notes WFRV-DT's snow has disappeared from channel 56, as of late September. There appears to be a digital station on their new channel, 39, about the same time. Bill doesn't yet have a DTV receiver so it's hard to know for certain. WFRV-DT's power/antenna are the same on both channels.

And in a similar vein, Ralph forwarded an item from the November 1st Muncie *Star-Press* noting the premiere of WIPB-DT. Their new transmitter in Monroe Township

was fired up on the 34th anniversary of their first analog transmissions. Analog transmissions will continue on channel 49 from their old tower, a few miles northeast of the DTV tower, until the FCC requires the closure of analog TV.

The FCC has moved up the deadline for including DTV tuners in new TV sets, and has extended the rules to smaller receivers.

Under the old schedule, DTV tuners were required in:

- ✂ *by 1 July 2004*: 50% of sets larger than 36"
- ✂ *by 1 July 2005*: all sets larger than 36"; half of sets 25-36"
- ✂ *by 1 March 2006*: all sets larger than 25"
- ✂ *by 1 July 2007*: all sets larger than 13"; all "TV reception devices"¹

In their early-November decision, the Commission moved up the last deadline to 1 March 2007. They also extended the requirement to all TV sets, not just those larger than 13".

In their decision, the Commission indicated "This action is intended to further the Commission's efforts to ensure that consumers are able to receive off-the-air digital broadcast television services as soon as possible."

With regard to smaller TVs, they also noted "In this regard, the Commission noted the particular value of these portable, typically battery-powered products for enabling the reception of news and public safety information in times of emergency."

Also, the Commission has issued a Notice of Proposed Rulemaking on "Distributed Transmission System Technologies", or "DTS". DTS means the replacement of a single DTV transmitter with several transmitters on the same channel. It's similar to the "booster" service currently offered to analog stations, except that it's felt DTS will work in situations where one receiver can "see" more than one transmitter. In analog, such a situation results in severe ghosting.

WPSU-15 State College, Penna. is probably the leading advocate of DTS. They've been experimenting with the mode. Others commenting in favor of the proposal include KDOC-56 Anaheim, Cal.; WSTE-7 Ponce, PR; (which has experimented with distributed analog transmission) Tribune Broadcasting; and Harris Corp., an equipment maker.

Firstly, the FCC issued a clarification of their existing interim policy towards DTS. Stations testing with DTS are expected to install enough transmitters of adequate power to completely cover the same area they'd cover with a single traditional transmitter as authorized under their current permit. If a station fails to provide DTS coverage in part of their currently authorized service area, their signal will not be protected from interference in that area. The Commission seemed to fear stations would "cherry pick" – would build DTS transmitters to serve rich areas containing desirable consumers, while ignoring less well-to-do portions of the audience.

The clarification also reminded stations that they will not be allowed to extend their coverage area through DTS. DTS transmitters will not be authorized if their coverage area would extend past that of the single transmitter authorized by their existing permit. Finally, it reminded stations that construction deadlines will not be extended to accommodate DTS. Stations are expected to complete a transmission system adequate to cover their authorized service area by the appropriate deadline.

Now, on to the proposed rulemaking for permanent

IVCRs, DVD recorders, etc. - devices that receive TV signals but don't include a display screen.

authority to use DTS. Analog boosters are a secondary service; they are not protected from interference from newly-authorized full-power and Class A stations. The FCC, however, proposes primary service protection for DTS transmitters.

They propose to limit the area a station can serve through DTS to the same area covered by the currently-authorized single transmitter. One commenter suggested DTS coverage be permitted through the station's entire DMA. In large DMAs (like Salt Lake City, whose DMA covers the entire state of Utah) this would greatly expand the coverage of a single station.

This proposal would not permit the use of a channel that would interfere with another station. For example, KUEN-DT channel 9 Ogden, Utah would not be allowed to establish a DTS transmitter in St. George, even though that city is in the same DMA. The transmitter would interfere with KUSG-DT there on the same channel.

In any case, the Commission seems concerned about the legal aspects (regarding exclusive programming contracts) and the effects on localism in allowing stations to extend their coverage to that extent.

The Commission proposes to establish a circle, around the station's authorized single transmitter (its "reference coordinates") and restrict DTS transmitters to coverage within this circle. In Zone 1 and for UHF stations, this circle is roughly 105km (65mi.) in diameter; for VHF stations outside the Northeast in Zones 2 and 3, the circle is roughly 125km (80mi.).

To prevent "cherry-picking", the FCC proposes to require a DTS system to provide the minimum necessary predicted signal to every viewer predicted to be served by the existing analog transmitter.

No separate limits are proposed for power and antenna height. Each DTS transmitter will be allowed the same maximum power/tower height as is permitted for a main transmitter. Of course, the requirement that DTS not extend the served area will in almost all cases force a lower limit on power.

All DTS transmitters are proposed to be licensed as a single group, covered by a single construction permit and license. The minor change procedure would be used to add transmitters to a group. At least one transmitter in the group must provide a city-grade signal across the station's city of license.

Why would a station want DTS?

I might imagine the Charleston-Huntington, West Virginia market to be a good place for DTS. There are two major cities in this market, about 25 miles apart. Each city lies mostly within a deep river valley. Right now, the TV transmitters are located on high ground midway between the two cities. This provides good predicted coverage of both cities, and in practice I'm sure signals are good on the ridges overlooking Charleston and Huntington. I'd imagine they aren't nearly as good down in the cities themselves.

WSAZ-23 is licensed to Huntington. A DTS system for WSAZ might involve three transmitters. One transmitter might run 30-40kw from the top of an office building in the middle of Huntington. Another might run similar power from a similar site in downtown Charleston. And the third might be their existing 724kw transmitter, located between the two cities.

Each low-power transmitter would provide a strong line-of-sight signal to viewers within its respective city. Viewers on the hilltops would receive the high-powered rig.

I would presume DTS transmitters will be reported in the FCC Database and Daily Digest in the same way backup transmitters are currently reported. You'll see them in the pages of *TV News* as soon as they begin to appear in the official documents.

DEC 2005

Welcome to the new and improved FM News for the month of December 2005! I am striving to bring a more diverse selection of FM-related information to this section from this day forward and would appreciate the input and even any station changes that are noted in your areas as I may not receive the information myself. With your help, I can make the FM News even more accurate and up-to-date.

For a bit of a change and a little extra this month, I'd like to offer the most recent FM station ratings in major U.S. markets (top three in each market) as provided by **Arbitron**. Hopefully by next month I can do much the same for the few major Canadian markets as well.

- **TORONTO** – BBM Canada notified me in November that the Board of Directors recently revised their policy on releasing radio data to the general public and therefore will begin notifying the public of its station ratings beginning with the release of *Survey 4 2005* to be published this December 5th.
- **WASHINGTON** – President Bush has nominated Republican Deborah Tate and renominated Michael Copps to the FCC. Republican Commissioner Kathleen Abernathy steps down when Congress adjourns later this year, leaving an equal number of Democrats and Republicans in the FCC.
- **TORONTO** – Broadcasters, including CHUM Ltd. and Corus Entertainment, are aiming to overturn a federal ruling that increased station license/royalty fees by 30%. More than 15 network groups met November 6 seeking a review of the ruling.
- **BILOXI** – Tim Lee of WPMP Pascagoula has kept his station afloat after Katrina on a one-man staff – himself – for 10 weeks broadcasting about hurricane relief. He bought WZZJ in May and returned it to its old name of WPMP.
- Christmas music spreads through radio markets as the long holiday season approaches. Various online sources list the up-to-date temporary seasonal format changes for the month of December.
- **NOTE**: Both this and next month will include some previously unmentioned CRTC decisions (see asterisks).

Arbitron Major Market FM Ratings: Summer 2005

INDEX OF ABBREVIATIONS

AF applied for (a new station)
AFA American Family Association
CC call letter change
CL city of license change
CX a construction permit has been cancelled
C1-C5 change in status to that FM license class
DA directional antenna
DE station has been deleted
FC format change
GA granted amendment to table of FM allocations
GE granted extension of construction permit
GX granted replacement of expired permit
LC license to cover filed (ready to come on air)
MC multiple-city ID
NC no change yet on a reported change or permit
ND non-directional antenna
NO not on the air

NS new station granted
NW new station signs on
OSA one step application granted for change
PA proposed amendment change to FM allocation table
PC power change on the air (> = increase, < = decrease)
PG power change granted (> = increase, < = decrease)
PR power change requested
QC frequency change occurred
QG frequency change granted
QR frequency change requested
RA silent station returns to the air
RE station requests an extension on permit
RX station requests replacement of expired permit
SC slogan change or update
SI station is silent
SOA signed on the air
XA dismissed amendment to FM allocations
XC transmitter site change occurred
XG transmitter site change granted

Notes:

1. Been trying for this on Es and MS and wouldn't you know it, it shows up on tr.
2. Now that 17 DTV WPXQ RI on the air not much downcoast unless strong tr on analog – no W17CT Manteo, NC. Last time W17CT came in was April, in 6 times that month.
3. 2 AM-15 WPDE-SC in along with +15 selling, most likely PA and 1 more on z offset w/ICOM selling gems. I wonder who that might be?
4. With the R/S box DTV 49 WEKW-NH up to 89 on meter. Now with 24 DTV WVTA-VT, they still had a picture with the meter on 25. Which means 24 WVTA could be the best choice for VT.

August was slow but overall a good tr season. Old Roy.

The DTVs were DXed by my Humax STB-it sat unattended for several weeks so I don't know when these came in...

SATELLITE NEWS

GEORGE W. JENSEN
4604 ANTANNA AVE, Baltimore, MD 21206-4220
SCISATMAN@AOL.COM

A very short column this month - at least there are a few new services that are now available to those who want to view them.

Satcom C4 (now AMC 10 =
 NEW -Channel 605 - Horse TV
 NEW - Channel 700 - EyeNet - Rap and Hip
 Hop Music Videos

Galaxy 4
 NEW - Channel 422 - Outdoor Life National
 NEW - Channel 580 - Bloomberg Business
 News
 These above are on KuBand

Galaxy 11
 NEW - Channel 600 - Arts and Entertainment
 East

And that's all for this month - I expect more changes in the new year.

See you in 30 - In the meantime have a Merry Christmas, Happy 2006, Joyous Kwanzaa and a very festive Chanukah.

'73's -

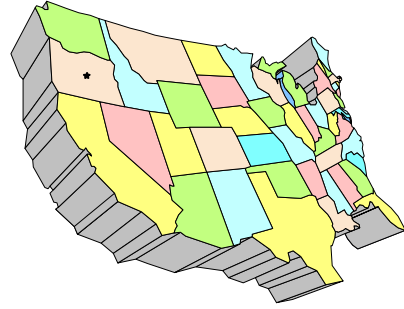

WESTERN TV DX

3525 SW Timber Ave

REDMOND, OR 97756

beansdad@bendcable.com (541) 420-4704

Please note that handwritten or typed reports *may* be delayed to a future release. If I have time, I'll get them in right away. Thanks.

One new TV Logging here:

KVOS 12 Bellingham WA, 356 miles, popped up with an ad for CJJR FM on October 16. Heavy CCI was also noted on 6, which was probably CHEK. Nice to see at least something new; TV has been very quiet.

73's, and let's hope for some Winter Solstice Es!

Dave

Dennis Park Smith

3605 San Remo Drive

Santa Barbara, CA 93105-2523

Telephone (805) 687-7803

This report is for October, 2005. Ordinarily around here, coastal tropo (to Santa Barbara to San Diego/Tijuana, up to 200 mi/320 km) is best in mid-Summer, but this year, October has been better than preceding months – maybe not terrific, but better at least.

Oct 1: Very Good
Oct 2 – 4 (am): Variably poor-fair, as usual.
Oct 4 (eve): Good
Oct 5-6: Poor
Oct 7: Good
Oct 8: Fair
Oct 9-10: Good
Oct 11-12: Fair
Oct 13-14 (am): Good
Oct 14 (eve) – 28 (am): None (mostly unsettled wx)
Oct 28 (eve) – 30 (eve): in Wasco
Oct 31: Poor

Wasco Report:

While in Wasco Sept 15-16 & 18-19, there was another new one seen that was eventually tracked down, with some slight tropo I wasn't sure of at the time. KZMM-CA 22 Fresno (north, Mas Musica, 100 mi), along with approx. equal strength (offset CCI) from KGMC-LP 22 Fresno (NW, xmtr Coalinga, Azteca, 80 mi). These two are 60+ miles apart from each other.

Well, on the basis of the October VUD article, I got a Radio Shack Accurian DTV set-top box. This is my first experience with DTV signals beyond seeing DTV snow on an analog set. No Santa Barbara RS had one, but they called around and found one at

the Arroyo Grande RS, 88 miles away. On Oct 12, I drove there from SB to purchase is (\$20 in gasoline). I tried it in SB but the two local DTs didn't materialize in any fashion on the indoor bowtie. I took it to Wasco where I have an outdoor 4-Bay UHF conical at 16 feet above ground. This was the first-time result, with these nine local and semi-local regulars (there was no tropo or other DX, with even flatter conditions than mid-September).

October 29:

<u>10 KERO-DT</u>	Bakersfield	ABC	45 miles
<u>20 KFTV-DT</u>	Hanford/Fresno	UNI	100 miles
<u>25 KGET-DT</u>	Bakersfield	NBC	35 miles
<u>28 KMPH-DT</u>	Visalia	FOX	80 miles
<u>33 KBAK-DT</u>	Bakersfield	CBS	45 miles

Equipment: at his cabin in Alborn (Prosit) MN, an RCA 19" set, (KCS 175 chassis) about 5 years old, with an outdoor antenna fixed SSE toward Duluth, MN and a 5 element antenna in the attic pointed south. A knife switch selects the antennas.

August 26, 2005

This past summer season was below average in my opinion. Times are CDT, and I don't bother with distances, as my main interest is in FM.

LOWBAND DTV ELECTIONS

Except where noted, these channel elections are approved by the FCC and would appear to be final. It is possible other stations will yet find themselves in the same position as KPXB -- having their elections of high-band or UHF channels disallowed and forced to remain on low-band. WOAY's election of DTV channel 4 was disapproved by the FCC; WOAY has not yet filed a new election. -Doug Smith

Thanks to all of you who sent reports in during the
past year. All of them are most welcome, and I hope
you'll continue to report in 2006. Have a Merry
Christmas and a Happy New Year!

John 3:16 "For God so
loved the world that he gave
his one and only Son, that
whoever believes in him
shall not perish but have
eternal life.

*Merry Christmas from the Zondlo family

N4LI@ARRL.net

It's late Fall. As such, VHF conditions, especially those related to the ionospheric state of affairs, remain quiet. Those who follow long trends of Sporadic-E (E_s) often discuss a small autumnal peak of propagation that seemingly has no corresponding peak in the Spring. We have seen that again this year with a few minor E_s openings in October. Here in Memphis, paths were noted into the upper Plains, and even to the West Coast via double-hop. Still, this was the kind of opening that would have brought little more than a yawn during June or July.

The good news is that the Holidays are just around the corner. Besides the good cheer brought by the festive time of year, we get treated to a nice Sporadic-E peak around and especially following the Winter Solstice. Last year's Winter Season was typical, with the peak popping up between Christmas and New Year. December 26th was especially busy. Hopefully, we'll once again see some fun conditions while we are all home celebrating!

In times of high solar flux, near the top of the Solar Cycle, this is the time of year that F2 conditions begin to roll in earnest. Don't expect much this year, though. The Sun is about as quiet right now as you will ever see it. In late October, the sunspot number was ZERO! The Sun was just a giant, solidly orange disk. The Solar Flux Index (SFI) was down in the seventies. While numbers rebounded just a bit in November, that is very quiet, indeed. Have we reached the bottom of the Cycle? It's too soon to tell; the true bottom can only be determined retrospectively and is not forecasted until some time in 2006. But, in any event, if we are not at the bottom, we will be soon. In the next couple of years, we should expect to see solar activity really ramp up, and hopefully, exotic 50 MHz contacts coming along with it.

Tropo has been seen in the past month, but nothing extraordinary made it here, mid-Continent. I did have a fun contact on 2m (144 MHz) with WTFDA member, Randy, KW4RZ, in the Florida Panhandle. While it was not that far, it was, surprisingly, my first Florida contact on the band. There were also paths into Michigan and Texas during the month, but the pickings were pretty thin.

Loggings

Bill Smith, WA1NYV, 56 Locust Street, Douglas, MA 01516 FN42

Just one unexpected opening Beginning on 10/19 and extending into 10/20:

Worked K8EB (en63) @ 2323; W8IF (em79) @ 2325; KC8VRR (en71) @ 2330; KC9GDE (en61) @ 2340; N9SZV (en52) @ 2352; WA0RXR (en42) @ 0008; KG4YUY (em74); KK4NO (em84) @ 0032; W0MTW (en24) @ 0035; AA0ZP (en21) @ 0043; N9NDI (en51) @ 0048; K0IS (en41) @ 0100.

Stations 60-100 miles to the south of me worked some double hop, but nothing here. Still a lot of TE stuff on the internet.

I received a couple of QSLs from WTFDA members in the past few weeks. It's a lot of fun to get cards from folks you know! Since their names are familiar to those here, I thought I would include them. One comes from Fritze Prentice in Arkansas, and the two-sided card comes from the Florida home of Randy Zerr, KW4RZ.

I still have many contributed cards to get in over the coming months. But, as always, if you have something interesting, please send it in!

Pictures from the Cape Cod GTG 11/19/05
Upper left--Bill Nollman helps Steve change filters on Chris' tuner.
Upper Right---From left to right, Keith McGinnis, Jeff Lehmann, Steve Solomon, Mike Bugaj and Bill Nollman. Not shown--- Roy Barstow, Craig Healy and Chris Black.
Bottom left--Keith wonders what station he's picking up on that T-85.
THANK YOU CHRIS FOR HOSTING!!

A GREAT COMBINATION FOR 2005 AND BEYOND!

WTFDA TV STATION GUIDE

To order your copy of the 2005 WTFDA TV Station Guide, send a check or a money order for **\$25.00** payable to WTFDA and send it to John Ebeling, 9209 Vincent Avenue S., Bloomington, MN 55431-2157

(Yes, you can use Paypal. From the Paypal website, click on *send money* and send \$25 to mbugaj@snet.net. Use the comment box on that page.)

WTFDA MEXICAN FM RADIO DIRECTORY

To order your copy of the 2005 WTFDA Mexican FM Directory, send a check or money order for **\$7.00** payable to WTFDA and send it to Jim Thomas, 280 Katsura Avenue, Milliken, CO 80543. For more information email Jim at mrradiohead@wdeail.com

(Yes, you can use Paypal. From the Paypal website, click on *send money* and send \$7 to mbugaj@snet.net. Use the comment box on that page.)

FOR YOUR TV AND FM DXING PLEASURE!

WTFDA EMAIL REFLECTORS

Enhance your DXing experience! Entertaining and informational.

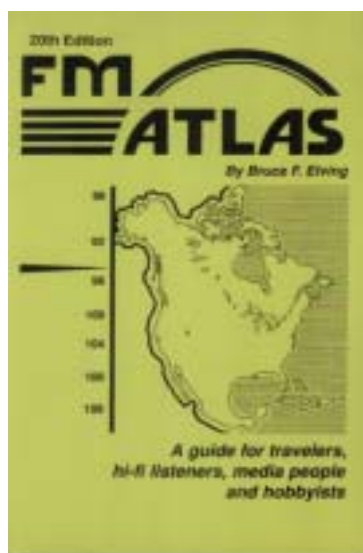

For WTFDA members and guests on the wtfda.info server

The WTFDA list...send an email to tvfmdx-subscribe@wtfda.info

175 subs

The WTFDA AM DX list...send to amdx-subscribe@wtfda.info

80 subs

BRUCE ELVING'S FM ATLAS NUMBER 20

is just
\$22.00

Order yours today! Send your check or money order
Payable to FM Atlas and sent to **FM Atlas, P.O. Box
3367, Esko, MN 55733-0336**

Order Your Copy Today!

SIGN UP/Renewal form

Name _____

Address _____ Apt # _____

City _____ State/Prov _____ Zip _____

Country _____ Interests: TV () FM () 30-50() Weather()

email address _____

Sign me up/renew me for: 1 year () 2 years () More ()

Yearly dues \$24 (US), \$26 to (CANADA), \$10 (Electronic VUD)
(Students get a discounted rate of \$15 yearly for the paper VUD.)

Mail your dues to: WTFDA, P.O. Box 501, Somersville, CT USA 06072

Make your checks/money orders payable to: WTFDA

And *thanks* for your support of the WTFDA!

Return this form with your dues or make a copy of it and return that.
