AND LOTS OF DX!

TV and FM DXing was never so much fun!

THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: DOUG SMITH, GREG CONIGLIO, BRUCE HALL, KEITH MCGINNIS AND MIKE BUGAJ.

Editor and publisher: **Mike Bugaj**

Treasurer: **Keith McGinnis** wtfda.org Webmaster: **Tim McVey**

wtfda.info Site Administrator: **Chris Cervantez**

Editorial Staff: **Dave Williams, Jeff Kruszka, Keith McGinnis, Fred Nordquist, Nick Langan, Doug Smith,**

Chris Kadlec, Peter Baskind and John Zondlo,

Our website: www.wtfda.org; Our forums: www.wtfda.info

SEPTEMBER 2007

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

<http://fmdx.usclargo.com/join.html>

Dues are \$25 if paid to our Paypal account. But of course you can always renew by check or money order for the usual price of just \$24. Either way, it's still a bargain!

eVUD members please send \$10 for membership or renewal to mbugaj@snet.net.

TROPO SEASON!

I think it's time to pull the plug on the 2007 E-skip season. There were a few openings in early August. Here in New England we had skip to Minnesota, the Dakotas and Iowa on the morning of the 12th and that seemed to be the end of it here. Tropo seems to have taken over especially in the upper Midwest, where a super tropo event took place from the 13th through the 15th and DXers like Mike Glass, Greg Barker, Steve Rich, Jacob Norlund, Bob Timmerman, Jim Renfrew and Rob Ross added new stations to their logs.

It was during this tropo event that Greg logged DTV station #301, which is quite an achievement and makes him Top Dog in the DTV Dxing world with Jeff Kadet now in second place.

MEMBERS AND MORE

We'd like to welcome two more DXers into the WTFDA this month. First we say hello to Russell Lay. Russell signs up for the eVUD. We also welcome Brandon Jordan into the club. Brandon lives in Memphis and has a nice website devoted to AM and SW DXing. Welcome to both of you! Hope you enjoy it here! Since both of you have internet access, take advantage of all we have to offer there.

Renewals were received from the period of 7/16 through 8/12 from **Curtis Sadowski** (IL), **William McGuire** (MD), **Fred MacCormack** (MN), Steve French (MN), **Robert Williams** (ID), **Guy Falsetti** (NY), **James Paige** (MI), **John Zondlo** (OK), **Roy Barstow** (MA), **Rick Lucas** (NY), **Dennis Smith** (CA), **Rich Wertman** (NY), **Steve Naetzker** (AZ), **Mike Hawkins** (CA), **Lee Freshwater** (FL), **James Snow** (GA), **John Callarman** (TX), **John Tudenham** (MO), **Bob Timmerman** (IA), **Jeff Kruszka** (TX), **Howard Fountain** (GA), **John Hourigan** (OH), **Bob Smolarek** (NJ), **Glen Boche** (MN) and **Calvin Glover** (MD). And once again, thanks for your support of WTFDA!

One last word on the *WTFDA TV Station Guide*. The guide is no longer available and because of the tepid response to that latest guide, we probably won't offer another one. If we decide to publish another one, it will be after transition. I don't think we broke even on the last one. Your best bet for looking up station info right now is at Doug Smith's site, otherwise known as <http://www.w9wi.com>. And

since 100000watts.com became a pay site, you can get an up-to-date listing of US and Canadian FM stations at the same site. It's not as complete as 100000watts.com, but it's Doug's site and it's free to use.

BERMUDA AND DX

Rick Shafan and his lovely wife spent some time in Bermuda this summer and of course Rick brought a radio. He checks in with this:

"Latest scan, from Paget, 2 miles to Hamilton.

89.1 ZBM-FM (pronounced Zed-B-M) FM 89 EZL/AC

94.9 ZFB-FM Power 95 UC

98.1 "KJAZ" Smooth Jazz. Actual calls unknown

100.1 Open Carrier. Could be a baby monitor but the signal is very strong here. Will see if it shows up elsewhere.

102.7 "Magic 102.7" new station on air March 2007. RDS MAGIC. Actual calls unknown.

105.1 "Bermuda Spirit" //ZFB-AM 1230. Not listed anywhere on any sites.

Religious programming. Actual calls unknown.

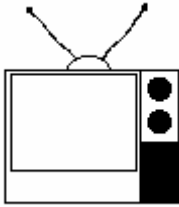

106.1 VSB-FM "Mix 106"

107.5 "WHT" Hott-FM R&B RDS HOTT 107.5. Actual calls unknown.

A lot of images at this location. If there is ever to be an FM DXpedition here, it should be at one end of the island or the other."

THE COVER

This month's cover is from **Bill Nollman**. Bill, **Steve Solomon** and a friend decided to get away from the IBOC and the transmitters in the backyard and do some serious DXing. They drove to Iowa and for five days had fun listening to lots of 350mi troposcatter. There were no real tropo openings but there was some E skip back to the east coast. I think they heard around 350 stations during those five days, which isn't bad, plus they had almost constant IBOC from up to 200 miles away! -m

Thanks to Joel Nelson, John Zeis, and Mike Glass for information elsewhere in this month's column.

John reports at least one of WTVE-DT's multiple Distributed Transmission System (DTS) transmitters is on the air.

"...turned my Samsung DTV box to Ch 25 to try and pickup PSIP from WTVE-DT during storms, never having seen more than a flash of signal from the flea power Reading transmitter. When I checked that evening I was surprised to find a strong signal which was coming from the direction of the Philadelphia antenna farm."

John believes this is WTVE-DT's DTS 7. Signal strength is similar to other Philadelphia DTVs and greater than that of WHYD-DT.

KCBU-3 has flash-cut to digital on channel 3, making their application for an analog power increase moot.

W46EB, Arbury Hills, Illinois was not built according to the permit before the permit expired. (a more powerful transmitter and lower gain antenna was used)

The Commission ruled the channel displacement permit should never have been granted in the first place. The Arbury Hills site – near Chicago – doesn't deliver a signal to any of the area covered by the original station, W52BR, Champaign.

It would have been granted anyway if W52BR could have shown no channel was available that would cover Champaign. But in fact, several channels are available.

The W52BR license for Champaign remains valid; the station can return to the air there. It can also file a new displacement application – but that application is going to have to cover Champaign.

In another legal proceeding, KLJB-18 Davenport, Iowa petitioned for the denial of Northwest Television's application for a new DTV station on channel 53 in nearby Galesburg, Illinois. (the channel assignment was originally analog on channel 67. Northwest had reached a settlement agreement with the other applicants and faced no competition for the channel.)

KLJB argued that Northwest Television had already constructed much of the new station's transmitting facilities before the permit was granted. An antenna had been hung on a tower, and transmitting and microwave gear had been installed. FCC regulations (somewhat confusing) seem to prohibit this practice.

KLJB also argues that Northwest had entered into a prohibited option agreement with Second Generation of Iowa. In return for a loan towards construction, Northwest had given Second Generation an option to acquire the station once the application was granted and a permit issued. (apparently Second Generation was quite interested in the station, as they were the party who built the transmitting facility)

With regard to the premature construction allegations, Northwest argued that the construction had not been completed to the point where the station would be operational. They also argued that it shouldn't count against them since it was Second Generation, not Northwest, who built the facility. The FCC held otherwise – that the premature construction was not permissible – but they simply admonished Northwest.

With regard to the option agreement, Northwest cited other option agreements the FCC had approved which they believed were similar to their case. Again, the Commission disagreed. The FCC's argument is that the approved options allowed acquisition of the station only after construction is complete and the station is on the air. The Northwest – Second Generation agreement allowed acquisition as soon as the permit is granted. The Commission ruled that option agreement may not be exercised. (I would presume that Second Generation could still acquire the station after Northwest gets it on the air.)

Good DX!

FM NEWS FOR SEPTEMBER 2007

From WTFDA.info and w9wi.com

INDEX OF ABBREVIATIONS

AF	applied for (a new station)	NS	new station granted
AFA	American Family Association	NW	new station signs on
aux	Auxiliary antenna (backup)	OSA	one step application granted for change

We are still looking for a permanent replacement for FM News editor. The editor should be able to login to the wtfda.info website and access the almost daily postings of changes placed in the Members-Only area by Doug Smith. The editor should be able to cut and paste each text tile into MS Excel, then sort the entries by alphabet, then replace the four and five letter state/province names with standard two letter postal codes (IA/MN/NJ, etc), then copy the Excel file into MS Word. The editor does not have to know what all the abbreviations mean. That is all explained in the index of abbreviations. If you are comfortable with MS Word and MS Excel, please consider doing this in your spare time once a month. This column took about 90 minutes to complete. The editor has control over this column and can make it as ornate or as plain as he sees fit. This is your chance to become famous (or infamous) and possibly wealthy (if you invest wisely, that is). At the minimum you'll be doing the club a big favor and that ought to make you feel good. And soon you'll be saying things like "Oh god, it's almost deadline time and I haven't even started the column yet" just like the rest of us.

END OF AN ERA?

Bruce Elving informs us that publication of *FMedia!* and *FM Atlas* has been suspended. *FMedia!* could possibly return in a few months but the *FM Atlas* may not return. This decision follows the failure of some computer equipment storing program files and FM Atlas maps.

Northern FM DX

Keith McGinnis
18 Newbridge St., Hingham, MA 02043
longwave@comcast.net 781-875-1944

For Dxers in the following states: CT IA ID IL IN MA ME MI MN MT ND NE NH NJ NY OH OR PA RI SD VT WA WI WY and all of Canada. Please submit by the 10th of each month. If possible please submit in the formats shown Below.

EDITORS NOTE: PLEASE NOTE THAT ANY TYPEWRITTEN OR HANDWRITTEN REPORTS MIGHT BE DELAYED TILL A LATER ISSUE AS TIME PERMITS. ALSO PLEASE KEEP REPORTS AS RECENT AS POSSIBLE (THE LAST 3 MONTHS SHOULD WORK FINE). THANK YOU.

Jim Renfrew, Holley NY

A good season overall, despite the quiet June. I would rate the July 26th opening the best skip opening of the season. What a finish! Still, non-stop work here means I'm still dxing while working which holds down the number of stations that I could hear. It could be worse, like working in a place with no radios. The W282BJ-104.3 translator mentioned above fooled me. I know that WGMF also has a translator on this frequency at Hughsville, about 45 miles west of here, and I thought it was it on tropes. Another quiet channel ruined by another needless repeater. Will it ever stop?

John Jefferson - Box 203 - Auburn, WA 98071-0203

The Auburn log is somewhat less than brief: 1 new local not worth listing for the year. So let's go straight to the good stuff, namely Radar Hill revisited. The Pioneer car radio accounted for almost all loggings, as things were really dead in the motel room. In the Honda Pilot, its performance was far better than last year when it was fighting the '94 Sentra's noisy ignition. And the weather was very

cooperative. No, I didn't beat Mike Cherry's incredible fall catches, but I gained on him! As he did, I'm including semilocals from Victoria & Vancouver because they were coming over the mountains and were sometimes harder to log than stations 2-3 times farther away!

RADAR HILL LOG:

1023	K205EU	88.9	Wheeler,	OR	Opera // 89.5 & 91.9	250

Notes: 1) KSND1, not KSND, assumed because KPPT, KSHL 97.5 Gleneden Beach, and KCRF 96.7 Lincoln City were incredibly strong most of 6/1 (& are in the same market), while inland Oregon stations faded in and out. Even KPPT's spurs on 100.3 & 101.1 were audible about the time KSND1 was received, which says a lot about both the tropics that day & KPPT's engineering, or lack thereof. 2) KDPM was weak, and faded right at ID time, but their signal was well synchronized with KNRQ & other Eugene stations which were booming in at the times KDPM was heard.

May 31 was probably a very normal day on Radar Hill. Those paths across the water do propagate signals well. June 1 was obviously an incredible day. Coos Bay was in for hours, including KBDN (which paralleled KCRF for hours, splitting off in the evening). June 2 was better than the log suggests, with 1 or 2 Coos Bay stations in most of the time (but never everybody at once, as on the 1st). I even heard KOOS 94.9's 95.7 xlator at one point (but KOOS was buried under KCBZ and/or KUOW all day). June 3 again featured Coos Bay, better than on the 2nd, but Eugene kind of stole its thunder. KNRQ was solid at times (never in continuously like KACW, KOOS, and KJCH on the 1st, though); KODZ was surprisingly weak by contrast, while KLCC – seemingly co-sited – was quite good at times. As for KTMT, it was in and out, but when in was like a local (except there're only two locals that have more than flea power – CBXZ 91.5 & CHMZ 90.1 Tofino; CIMM 99.5 Ucluelet is clear on Radar Hill, but not even heard in Tofino). Around noon, I had to start home, and listened to KMUN 91.9 Astoria from Radar Hill past the Ucluelet junction, though they were admittedly spotty. KJCH Coos Bay was noted at the national park center at the junction, even though that area is fairly low & seemingly blocked to the south by mountains.

CHINOOK PASS LOG:

Chinook Pass is 5432' ASL, with Washington State Highway 410 crossing it. That is the best link between South King County & North Pierce County with the Yakima Valley, but due to the height and terrain typically is closed from the first heavy snowfall until about the Memorial Day weekend. Thus the log starts on May 26 (all activity caught with the Pioneer car stereo in the Honda Pilot, making significant use of the Pilot's directional antenna (it's embedded in the left rear passenger window). All Oregon stuff logged on the south face of the pass, near 4500', except as noted. All Spokane-area stations, except as noted, and all skip were logged about 1 mile east of the summit

1000 KJKL 88.7 Selma, OR ID, K-Love for SW OR 330 (w of Tipsoo Lake, 5000'+)

Between 8 and 8:45, KJKL was booming in at the 4500' turnout where Oregon stations typically are heard. It was soon evident that it was NOT the much closer KLVP Cherryville OR, which is heard rarely and then barely (it's on the south side of Mt. Hood, so heavily blocked). The signal was too good, and there was no sign of either KPFR 89.5 Pine Grove or KZRI 90.3 Welches, which are co-sited on Mt. Hood. And KLOY Astoria was unlikely since I've never caught anything from that market at Chinook (something to do with being behind Mt. Rainier, most likely). Unfortunately, at 8:30 it gave an erroneous ID as KLOV Winchester, which is on 89.3, and then went silent for a half hour except for announcements of songs never heard. KLVU 107.1 Sweet Home was doing the same thing, so K-Love's SW Oregon studio, if not all of K-Love, was totally screwed up. By then KJKL was weakening, so I relocated to the higher elevation, where they were still pretty good. Alas, as I arrived there at 9:05 they were just announcing "K-Love for SW Oregon", presumably having just given the correct calls. They did persist, though fairly weakly, until the 10am ID. That gives me four tropes loggings of more than 300 miles in Washington, all this year from Chinook Pass. (Auburn's best for tropes are KACW 107.3 North Bend and KYSJ - then KYSG - 105.9 Coos Bay, both at 300.)

2100	KTDB	89.7	Pine Hill,	NM	ID		

I included the tentative Mexicali stations since they and KLJZ are the basis for concluding the classical came from KQVO. There is also the fact that they may be the only classical station on 97.7 this side of the Mississippi. That's it for Auburn – one productive opening to date. The opening caught at Chinook likely would have been useless here, if even heard.

Plenty of reports this month – very nice! Es has continued into August here with Es today (8/8) all the way up the dial into FM, with TV ranging from KCBS and XHFA to the South and KUSD to the East.

My first report from Texas. Unfortunately, I was out of town (and out of the country 3x, to Japan) several times this year due to my job, so I missed a lot of openings. A couple of strong, nice Es openings in late July put me over 100 stations for the year.

This report is for July, 2007. As usual all tropo and Es have been seen on indoor antennas of VHF whip and UHF bowtie.

Southern California coastal tropo (to San Diego-Tijuana, up to 200 mi/320 km) continued sort of steady with only some variation as noted below. The apparent low elevation of the inversion layer air boundary changed between July 5 and 9, perhaps getting higher, possibly eventually too high to be as productive as before. One unusual logging on July 5 eve – 6 morning was KVCR-24 (PBS) San Bernardino, fair at approximately 150 miles over land (somewhat mountainous).

6/17-7/4	VHF good to very good UHF poor to fair
7/5-7/6	VHF very good to excellent UHF fair to good
7/7-7/8	All down to very poor
7/9-7/31	VHF poor to good UHF poor to fair

Here is a quickie list of stations seen these days on So-CA Coastal Tropo (SD is San Diego and Tij is Tijuana, SD VHF approx 175 mi, SD UHF apx 185 mi, Baja stations apx 200 mi).

6 XETV (Fox) Tj – subject to FM interference	5/15/2007								
8 KFMB (CBS) SD (usually under local KZDF-LP offset CCI)	2022	ES	WUND	2	NC	Edenton	1116		
10 KGTV (ABC) SD						Daytona			
12 XEWT (Spanish Independent) Tik	2029	ES	WESH	2	FL	Beach	1176		
15 KPBS (PBS) SD (usually under local K15DB offset CCI)	2151	ES	WJXT	4	FL	Jacksonville	1098		
	2158	ES	WUFT	5	FL	Gainesville	1094		
29 KSDX-LP (Sp and Infomercial) SD									
33 XHAS (Telemundo) Tj	5/16/2007								
39 KNSD (NBC) SD									
45 XHBJ (XEQ9) Tj	0707	TR	KSFJ	27	MO	Springfield	314		
49 XHDTV (My) Tecate (usually u/local K49EK offset CCI)	0728	TR	KFJX	14	KS	Pittsburg	276		
51 KUSI (ind) SD (usually u/local KBAB-LP zero offset CCI)	5/22/2007								
57 XHUAA (XEW2) Tj (was offset CCI u/nearby KJLA-57 Ventura, but KJLA has been much weaker recently)	2103	ES	KTVN	2	NV	Reno	1260		
	2123	ES	XHRIO	2	TA	Matamoros	1056		
	2143	ES	KCWX	2	TX	Fredericksburg	773		
						Daytona			
69 KSWB (CW) SD	2204	ES	WESH	2	FL	Beach	1176		

There was a little Es on July 30. I got home at about 1740 PDT in time to catch only apx 10 minutes before it faded away, chs. 2-4. 2 had PBS Antiques Road Show, otherwise, no ID.

From last time, of the Wasco trip May 18-20, Doug Smith tells me that the new UNID channel 38 seen testing was most likely new KNXT-LP Bakersfield, probably change of KNXT-LP 57 Maricopa (different location) which appears to no longer be on. KNXT-LP has been and still will be a translator of KNXT 49 Visalia (noncom. religious-cultural-educational).

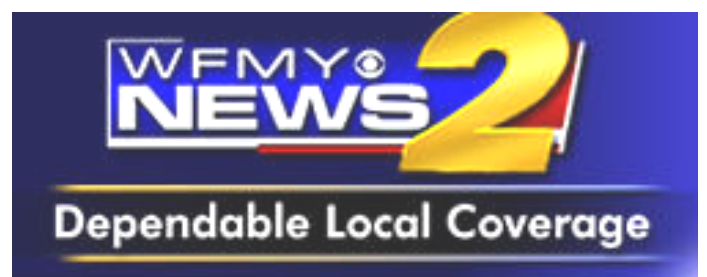

Best of DX to All, Dennis

Eastern U.S. TV DX

Featuring reports from AL, CT, DC, DE, FL, GA, IN, KY, MA, MD, ME, MI, NC, NH, NJ, NY, OH, PA, RI, SC, TN, VA, VT, and WV, along with the Canadian Provinces of NB, NF, NS, ON, PEI, and PQ.

Send reports by the 15th of each month to:

Nick Langan
 1040 Riverview Drive
 Florence, NJ 08518
 E-mail: nick.langan@gmail.com

The Editor's Note

Hopefully this E-Skip season was an enjoyable one for you, the second to last before the TV DX landscape obviously changes quite a bit. Tropo has been active in the Upper Midwest, and is showing signs of starting up in the East as well. Here's to a busy Autumn!

Robert Grant (N8NU) 231 E Temperance Rd. Temperance, MI 48182
 E-mail: Rg3d@yahoo.com (expect delays, no home Internet access)
 Temperance is in SE corner of MI. (EN81fs)
 Receiver: Sylvania (Funai) 6427GFF 27" color analog/digital SDTV.
 Antenna: Channel Master Advantage 3020 on chimney at about 33'
 Alternate receiver: Sanyo 21T63 12" B&W analog, antenna Winegard
 PR-7084 at about 15' on rear (South) deck.
 All times EDT

Says Robert: "Distances with an "e" are estimated.

The 2007 Es season was not as good as last year's, with many openings not reaching above channel 3 (only a single opening ever reaching the FM band), and "choppy" propagation most of the time, but did have its highlights.

It took lots of Internet search and telephone calls to eliminate all other suspects in the logging of K06JM. The first translator by Es was long sought, but, as a 3kw class A station, this hardly qualifies as a "true" translator (it repeats KOTA-3 and was carrying "Christian Worship Hour", KSVI and CWH both confirmed that CWH is no longer on KSVI, it has moved to KHMT-4 there).

Just as the Es season seemed to be dead, it made enough of a comeback to allow me to log my first Es stations on channels 3 and 5 from Manistique (ch 3 made difficult by the only local station in the area, WJMN at 33 miles). WFOR-4 was a nice surprise, as the longest DX from Manistique. Whereas Es was usually "choppy" this year, WFOR was fairly steady.

I was correct in my suspicion that I could use the clear path down the length of Lake Michigan to get DTV from Chicago with the set top box, though a little disappointing to get only two of the many stations from there. At 289 miles, this was greater distance than any DTV tropo logged at Temperance!

The bands went dead shortly after returning from vacation, but I did have trop to the North, and logged WFQX-DT for the first time (which becomes the only DTV common to both the Temperance and Manistique logs)."

Says Jim: "A good bit of activity this reporting period. No Es in August so far but good tropes. I'm thankful for any DX as time runs short. Looking for a hobby friendly DTV set top box, any suggestions?"

Says Ryan: "Dunno who pulled the plug on my DX, but I wish they'd put it back... '06 was an awesome year for me, now '07 is barely giving me a trickle. Tropo mostly Tampa, West Palm, and Miami... no Cuba so far. A few new e-skip stations. If WUND were IDed, it would be my shortest Es catch ever. I'm hoping '08 does a lot better than this, since it may be the last US analog season."

Germantown, TN 38138
N4LI@ARRL.net

Well, as I write it is late August. I think it's safe to say that the sporadic-E Season has come to an end. All that's left is just a few crumbs left on the 6 meter table.

I don't think too many people would disagree with my characterization of the Season as "slightly below average." Openings across the Atlantic were well below last year's numbers, and very, very few operators saw openings into the Pacific. Further, there were long, long periods between openings of any kind. Still, the Summer was not without it moments.

The high point of the last month, and in fact, the entire Summer, had to be the opening of Sunday, July 29th. Being Sunday, I was working at Sirius. Watching the band opening up to such an extent while I was unable to get on the bands was a bit disconcerting. Fortunately, I was able to sneak off to the parking lot, and scan FM broadcast, and even score a 6m FM contact while operating from EM45, the grid where Graceland is. As I left Graceland at 2pm Central time, the band was opening even more with FM broadcast to the top of the dial in full HD. That was fun driving. When I finally arrived home, 2m (144 MHz) was wide open – huge signals from all over Florida. I worked several grids, and even worked one operator in Georgia, a scant 500 miles out. The MUF was really, really high! The opening seemed to extend as far as Iowa, for some, and as far south as Cuba. Some lucky folks in Texas saw the 2m band opening for much of the day. Many commented that this was the most extensive 2m opening since July, 2004.

The last month has not been totally without tropo. The evening of August 8 and the morning of the 9th brought some nice paths into Texas. Most distant was W5UWB/EL17 at just under 700 miles, a relog. I did work one new 2m grid, with a contact into EL19.

* * *

The ARRL VHF (and up) Contest is just around the corner. The contest kicks off at 1800 UTC on September 8.

The September contest is one of the three big VHF contests through the year. Often, however, this one can be a bit slow. Sporadic-E is generally gone, and tropo is just hit-or-miss. Still, many contest groups travel to mountaintops and interesting grids for contacts. Our local group, NE5BO, will be travelling to Mount Nebo in Arkansas for the weekend. They hope conditions are better this year than the last couple of years. Look for them!

Full rules for the weekend's activities can be found at <http://www.arrl.org/contests/rules/2007/sepvhf.html>.

Good opening to Caribbean. Worked 8P6SH/GK03 @ 2345.

So far, at least here, Europe has not been as good as last year, but much better double-hop to the West.

JIM RENFREW'S HOLLEY N.Y. MINI CONVENTION

Here are some pictures of the Saturday, July 28th GTG at Jim Renfrew's house. The group picture, left to right:

Saul Chernos (ON), George Greene (OH), Greg Coniglio (NY), Scott Fybush (NY), Pablo the dog, Jim Renfrew (NY), Mike Ward (OH), Ariel Fybush (NY), Larry Herritt (NY), Jerry Bond (NY), Niel Wolfish (ON), Rick Lucas (NY).

The antennas are Jim's. The KOTV-6 Tulsa picture on the big-screen TV is off tape, not live DX. The Es being viewed on the little TV is live - I think that was WSIL on 3.

A fine time was had by all!
