TV and FM DXing was never so interesting!

THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: DOUG SMITH, GREG CONIGLIO, BRUCE HALL, KEITH MCGINNIS AND MIKE BUGAJ.

Editor and publisher: **Mike Bugaj**

Treasurer: **Keith McGinnis** wtfda.org Webmaster: **Tim McVey**

wtfda.info Site Administrator: **Chris Cervantez**

Editorial Staff: **Dave Williams, Jeff Kruszka, Keith McGinnis, Fred Nordquist, Nick Langan, Doug Smith, Peter Baskind, Bill Hale and John Zondlo,**

Our website: www.wtfda.org; Our forums: www.wtfda.info

JULY 2008

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

<http://fmdx.usclargo.com/join.html>

Dues are \$25 if paid to our Paypal account. But of course you can always renew by check or money order for the usual price of just \$24. Either way, it's still a bargain!

eVUD members please send \$10 for membership or renewal to mbugaj@snet.net.

SKIP SEASON 2008?

E skip started off with a bang this year with digital TV stations being logged on channels two through five and some highband TV and Weather radio DX also logged. But then, beginning in mid-June, skip took a nosedive. The openings were spotty with the MUF shooting up into FM for a few minutes and then dropping and dying out completely. We all know about the mid-June drop-off in E skip because it happens every year. Knowing about it doesn't make the experience any easier for most DXers since the season is short to begin with, but most of us understand that Es returns for the second half of the season eventually. Let's hope for a great second half of the season.

MEMBERS AND MORE!

From the period of May 18th through June 13th we had renewals from **John Griffiths** (ON), **Andrew MacKenzie** (NY), **Dan Oetting** (MD), **Steve Naetzker** (CA), **David Sinclair** (BC), **Mike Lapinski** (NY), **Rob Ross** (ON), **Dave Williams** (OR), **Dan Oglethorpe** (LA), **Sheryl Paskiewicz** (WI), **Randy Zerr** (FL), **Jeff Kruszka** (TX), **Bill Eckberg** (IL), **Rod O'Connor** (ME), **Fred Laun** (MD), **George Mileon** (MA), **William Lindsay** (WA), **Steven Ponder** (TX), **Al Tobia** (CA) and **Joseph Esser** (NJ).

Rod O'Connor wrote that this year marks his 31st year in the WTFDA. He writes "Dying to read up on that Sony F1 HD AM/FM tuner. Perfect candidate for my upcoming economic stimulus check...after gas, heating oil and hiking boots." Well, I can thoroughly understand about the gas and heating oil. We'll have a little more about that Sony HD tuner shortly.

One Friday evening a few weeks ago, **Jeff Rostron** and I met up with WTFDAer **Mark Casey** at the NEWS meeting at the old Harley Hotel in Enfield and had a pretty good time talking about DX and listening to an engineer from Vermont Public Radio tell us about the IBOC that he put on their FM stations. I really don't think he had much sympathy for us FM DXers. For him it's just a fact of life. They tell him to install it and he installs it.

By the way, I dropped around 20 VUDs on the table there and all of them were taken.

On June 19, **Bill Nollman**, **Russ Edmunds**

and I met at the Red Robin in Enfield after work and enjoyed their burgers and steak fries. It was nice to meet Russ for the first time and since he will be up this way again, with enough advance notice, I hope we can convince a few other WTFDA members to wander by and join us.

MORE ABOUT THE SONY XDR-F1HD

Jim Pizzi posted this on the tvfmdx list recently: "I got my Sony XDR-F1HD replacement today and spent a little time checking it out against HDT-1X. Sony is better with adjacent rejection (minor slop on 99.5 from 99.3 with HDT-1X and perfectly clean on the Sony--same with 97.3 into 97.1) . Using a quality Maspro splitter to give equal signal to both units. HD lock equal on strong signals but HDT-1X quicker with weaker stations, same with RDS. Sony does better cutting through HD side channel noise-hissy with the Sangean but nice and clean with the Sony with a moderate signal. Sangean sensitivity just a bit better (could be signal to noise ratio better)--very weak signals cleaner, more understandable. Signal meter a plus with the Sony.

Remote works well and large too compared to Sangean. Programmed Sony's 20 presets across the band so getting around fast during a big opening shouldn't be a problem. Display read out OK, icons a tad smaller on Sony but a lot of info to display on the slightly smaller screen. Over all I'm very impressed."

NRC CONVENTION 2008

Could you please print in your next bulletin that the National Radio Club is having its 75 anniversary/convention in Pittsburgh on August 29 - 31 at the Greentree Holiday Inn, 401 Holiday Drive, Pittsburgh 15220. Phone: 1-412-922-8100. Mention NRC RATE OF \$75 + TAX up to 3 in a room. Registration fee is \$45, check to National Radio Club. Mail to JOHN MALICKY, 995 Shadycrest Rd, Pittsburgh, PA 15216-3046 BY 8/15. Sunday PM WILL be a baseball game... the Pirates against the Milwaukee Brewers at 1:35. Tickets are \$14. Seats behind home plate. Let John know if you want to go. Airport transfer to hotel is free. Train station is 4 miles away. Taxi is \$25. ERNIE J. WESOLOWSKI

MADISON MILWAUKEE GTG 2008

Tim Noonan sends along word of the midwest's 15th annual DX event: "The 15th annual Madison-Milwaukee Radio Get-Together will take place on Saturday, August 16, beginning at 1 p.m., in Oak Creek WI. The event is open to all radio hobbyists, and is an informal gathering where radio fans and DXers can exchange ideas and make and renew friendships. This year's location is the home of Tim and Jill Noonan and their sons, 801 E Park Blvd in Oak Creek, and you can obtain directions and more information from Tim at DXing2@aol.com or 414 762-2702.

Here's the latest graph with membership as of June 1, 2008.

TURN UP THE IBOC!

Here's another story to make some FM Dxers very, very depressed.

FM IBOC Power Increase Sought

A group of broadcasters and equipment manufacturers now has formally asked the Federal Communications Commission to approve increasing the allowable FM IBOC digital operating power by up to 10 dB, from the current -20 dB to -10 dB.

That is the equivalent of an increase from 1% to 10% of a station's authorized analog power.

Radio World has reported this was a major topic during the spring NAB convention and that a request was likely; proponents say more such requests are expected and they hope the commission will put the proposal out for public comment in a rulemaking process.

Equipment manufacturers on the filing to the FCC include Harris, BE, Nautel and Continental.

Broadcasters making the request include American Public Media, Backyard Broadcasting, Beasley, Black Crow Media Group; Bonneville, CBS, Clear Channel, Commonwealth Broadcasting, Commonwealth Public Broadcasting, Cox, Emmis, Entercom, Greater Media, Journal, Lincoln Financial Media, NRG Media, Radio One and WNYC.

Ibiquity and CBS submitted studies to back up the request which they say demonstrate that the requested power increase will help improve radio's digital FM performance "with minimal risk of harmful interference to existing analog service."

LAST BUT NOT LEAST

Over at our website (<http://www.wtfda.org>) you will now find a complete set of 1980s VUDs and a complete set of 1990 VUDs. Once the year 2000 VUDs are scanned and uploaded and the first eight VUDs from 2001 are scanned and uploaded, we'll have every single VUD available there from January of 1980 to the present available to you for reading and research. And then maybe we'll start scanning the 1970s. Maybe.

That's about all we have for you this month. Enjoy what's left of the analog Es season. I took the cover pictures during strong Es openings in early June. I hope you took lots of pictures of analog skip stations. Someday you'll enjoy looking at them and remembering what analog TV skip once looked like.

(FC): Flash-cut from analog to DTV on same channel.

“T or C” = “Truth or Consequences”. (a town in New Mexico whose name is too long to fit in the columns!)

Thanks to Dennis Smith and Jim Thomas for information elsewhere in this column.

WGFL-53 is reportedly going dark on the 18th to open space in their transmitter building for a new DTV station on channel 9. (licensed to Gainesville, Fla.) WGFL's own DTV signal will remain on the air on channel 28. Reports suggest the new DTV-9 station will be a NBC affiliate.

Correspondence with a ham in New Mexico reports a number of DTVs on the air in Cd. Juarez, Chihuahua, Mexico. Further details are not yet available.

Jim reports that as of May 11th, four Denver DTV stations are on the air from their permanent Lookout Mountain site – on reduced power at that time but expected to increase probably well before you see this. AVS Forum reports reception is greatly improved even at low power.

As you may remember, these stations faced serious local zoning problems in their attempts to activate DTV facilities on the Lookout Mountain site. Even though their analog towers had been there long before most opponents moved into the area, and even though completion of the DTV plan would actually result in fewer towers on the mountain. Finally, Congress had to step in and preempt the local zoning board.

We're in the middle of the last summer Es season of the analog era. It's been a good one. And there's been plenty of DTV Es DX reported as well, even with all the analog interference still in place. I'm getting excited about what we'll see in next year's Es season, with the analog interference gone!

Good DX!

More WWL-4 and WBRZ-2 as seen in CT June 2008.

The Editor's Note

The E-Skip season has gotten cranking with several nice openings during the first half of June throughout the eastern half of the country, including events on May 29th and June 4th producing reports of E-Skip stations logged on TV Channel 7. Hopefully everyone by now has caught some. Let's cross our fingers that July brings some more worthwhile openings, and perhaps tropo will increase as well.

Says Robert: "1. Seeing a CBS on 2 quickly caught my attention as being something different (remember when almost all one saw on 2 were CBS affiliates?). I noticed as this faded out, and WJBK took control of the vertical sync, that this station had something it it's VBI. I switched to the Action 5" B&W (it has a vertical hold control) and caught "KTVQ 2" in the VBI. I had seen KTVQ with their ID in the VBI back in 1995 - while in Billings! Back then, the VBI had "KTVQ BILLINGS" instead of "KTVQ 2".

Says Robert (cont'd): "2. This very strong tropo broke out suddenly right after a line of severe thunderstorms passed through (thunderstorms are usually tropo-killers!). I had been watching WTOL to keep up with the weather, and noticed strong 20kHz CCI. Whilst this was going on, skip broke out again, but I had to leave, but while I was mobile, I did get two FMs from Wyoming. After a late start, Es suddenly got underway. Quantity has been fantastic, but, alas, Texas and Florida continue to dominate."

beansdad@bendcable.com (541) 420-4704

I was traveling most of the month, but came home to KTCA-2, WCCO-4, and KSTP-5 on June 15 in the evening – 36 hours after leaving Minneapolis by train.

I've included some screen captures from that trip of a few stations few DXers (or others, really) are likely to see. Enjoy.

Here's hoping there's more of the season left than has already passed!

June 7 Tr

0400	WHYY	90.9	Philadelphia	PA	BBC News (100 mi.)
0411	WJJZ	97.5	Trenton	NJ	Sung ID, fair signal (90)
0414	WFRE	99.9	Frederick	MD	ID, ads, very strong (135)
0423	WNNK	104.1	Harrisburg	PA	"Wink-104" very strong (100)
0433@	W282AP	104.3	Bloomsburg	PA	Relaying oldies on WHLM 930 AM, up fair and readable (35)
0449	WQXA	105.7	York	PA	"105.7, The X", local strength
0453	WMHX	106.7	Hershey	PA	"Get your Kicks on the Mix 106.7" local strength on a difficult frequency for me

Both Es openings detailed here featured signals of incredible strength. All but my strongest locals got clobbered, especially on 6/4. I was surprised to receive several signals, some in stereo, through many of my local IBOC sideband frequencies that I thought until now were beyond reach, all on my Bose without an amp. I also had a country station that I was not able to identify over WEZX-106.9 which is a pretty strong signal here. The tropo opening of June 7 also featured unusually strong signals.

Jeff Lehmann Hanson, MA

Wow. Who flipped the switch?

The Sporadic-E Season (“E_s”) finally arrived, a bit late but welcome, on May 13th here in Memphis. For three days, the MUF didn’t seem to peak too much above the 10 meter band (28 MHz), but by the 19th, we were off to the races on 6 meters.

The first few days of the Season were unremarkable – the East Coast, some Midwest, and a nice smattering of double-hops to the West Coast. I did stumble across someone operating in a very sparsely-populated grid in Ontario, EO40. Using only a Yaesu FT-100D (not my favorite radio) and a halo made by my almost neighbor, Phil, KU4AB, WB8BZK/VE3 aided a few lucky folks snag a really rare grid.

Doubtless, the biggest event of May Mid-continent was the opening of May 29th. Late in the evening UTC, 2 meters (144 MHz) opened wide to the Eastern Seaboard. The APRS map, which plots paths on 144.390 MHz, looked great:

I worked over a dozen stations on 2 meters in that opening, but *not one* new grid. That part of the country is pretty well picked over for me (though, I still need Delaware), but it was a fun opening, anyway. It also hinted of a great June to come (more on that next month, after I close out June).

* * *

What some hams consider the biggest “contest” of the year, Field Day, is almost upon us. Field Day, June 28-29, is the weekend when hams camp in parks, fields, parking lots, or even on mountain tops, to make as many contacts as they can, starting Saturday afternoon.

While, for many, Field Day means bug bites, sunburns, and feigning baths and sleep, many hams revel in the competitive spirit, or just fellowship and

cooking out (my friend Lance, N4GMT spends the weekend by the smoker. His BBQed corned beef is amazing – simply *amazing*).

Field Day is fun, and can be a useful way of picking up a new grid here and there. Many serious contest stations seem to ignore VHF. It's odd. Under the Rules, the "station" is almost free, and can yield valuable points. Whether 6m opens, though, is always anyone's guess.

Assuming I am able (knee surgery this week), I plan to ride my bicycle to a park for the event, and set up a small HF station run on solar-charged batteries. I am not going for points, just fun. I hope the weather is nice!

Loggings

Bill Smith, W1OW, 56 Locust St., Douglas, MA 01516 FN42

Not much to write about in May on 6m. I spent most of the month listening to not much, while other areas, at least from the cluster, had some good openings.

I did hear a few stations from the Caribbean: NP4A, HI3TEJ, 9Y4D, 9Z4BM, PJ2BVU, 8P9TS, and KP2BH. The one I needed for a new grid, PV8AZ (FJ92) was in for 30 seconds and vanished. Also spent a lot of time listening for FJ5DX (St. Maartin) for a new country, but it never made it up here, although spotted about once a day.

Nothing from Europe – although stations in Maine and the Maritimes did work into Europe.

Only one station worked on double-hop to the West – W6OMF in CM98. Everything else was either to the south or the north of me.

14th ANNUAL MADISON-MILWAUKEE DX GTG

The first Madison-Milwaukee DX Get-together took place on a cloudy day, but late in the afternoon the sun came out and the day turned beautiful. The same was true for the 13th annual event. It rained briefly during the fourth GTG, only to once again turn sunny late in the day. During the other 10 previous events the weather was beautiful! And then there was the 14th gathering which took place in Madison, Wisconsin on August 18, 2007---

For those of you not familiar with the Madison-Milwaukee, it is a one-day, regional, all-band event for DXers that has been held every third Saturday in August since 1994. The first ten GTGs were held in Madison, with Tim Noonan and Bill Dvorak alternating hosting duties. Following Tim's relocation to the Milwaukee area, the practice of alternating sites between Madison and Milwaukee began, and the first Milwaukee event, GTG #11, was held in 2004.

When 2007 rolled around, this rotation brought the 14th annual event back to Madison. The location was Bill and Nina Dvorak's "new" home, a house that Bill had grown up in and that had been in the Dvorak family for over 50 years. The home is in a residential area built on a drumlin (a glacier-carved elongated hill) within the city limits of Madison. The scenic, approximately 1/3-acre lot and two-story home provide plenty of space inside and out, and the newly-built attached two-car garage would serve as a nice staging area for the gathering. Days before the event, the tree-populated backyard became the site of a temporary antenna farm, with longwires, an EWE and an Eavesdropper featured, and an area within the garage became a space to demonstrate radios.

After weeks of preparation, August 18, 2007 arrived. As always, events like this are at the mercy of the weather. But, as an old Wisconsin saying goes: "If you don't like the weather, just wait 15 minutes and it will change." On this day, the weather was to change-- every 15 minutes it got worse! From threatening skies to steady rain to torrential downpour, all accompanied by lightning! Some guests arrived so soaked that Nina had to offer them a towel to dry off.

However, despite the weather, what soon became obvious was that attendees were settling in for a great time of DX camaraderie. The garage with its 16 X 7-foot screen covering the door opening (allowing the cool air in) was a pleasant gathering point, with its party decorations, refreshments and various display/handout items (including back issues of VUD and WTFDA fact sheets). The room was soon buzzing with DX talk.

By far the highlight of the day was a trip to Stan Broome's storefront antique radio museum in neighboring Sun Prairie. The many beautiful old receivers, accessories, and other radio-related items represent just the tip of the iceberg as far as Stan's lifelong collection goes. Our first trip to his museum was enjoyed by all who took it.

Because of the lightning, many receiver demonstrations had to be cancelled, leaving the antenna farm idle. We did have an HD receiver demonstration in the garage and a portable AM shootout on the porch, but that was about it for demonstration activity.

The GTG dinner once again was held at the Esquire Club, as it had been five other times in the past. As always, food and service were great, and attendees had a very enjoyable dinner. During the after-dinner program, Ed Dvorak, who had just turned 95 two weeks earlier (and whose accomplishments in fixing CB radios are legendary) was recognized as the oldest attendee to ever come to the Madison-Milwaukee. Also recognized were nine attendees who had made at least 10 Get-togethers (led by Jim Albrecht who has made all fourteen!). They were presented with a certificate which we called the "At-TEN-dance'Award." Door prizes this year were provided by Universal Radio, Clear Channel Madison, Rubber City Radio Group Inc. (Akron OH), and the WTFDA's own (and past attendee) Scott Fybush.

The night session back at the house featured Get-together cake and coffee and more DX camaraderie. Unfortunately, some of the worst weather came during this period, and many attendees left early (more than 5 inches of rain fell this day). The last attendees left at around 11:30. Thankfully, everyone reported reaching home safely.

So because the weather was so poor, how much of a drop of attendance occurred for the 14th event compared to the previous ones? The answer-- *we had another record high attendance!* There were 49 DXers at the 14th GTG, up from the record 41 two years previous. Add in the ten family members and friends of DXers in attendance, and the grand total was 59, also a record, up from 50 two years earlier.

The most impressive statistic—leading up to the event 45 DXers said they would attend, and despite the weather *all 45 attended!* One who said he might attend did, and three walk-ons brought the final total up to 49. Further good news--the addition of 21 DXers who attended for the first time bodes well for the future of this event.

Front row L-R: Curtis Sadowski, John Ebeling, George Greene, Dave Legler, John Lentz, Bill Dvorak.
Rear row L-R: Doug Smith, Frank Merrill, Bill Eckberg, Fred McCormack, Marv Shults

Once again this year, participation in this event by WTFDA members was outstanding! Eleven club members were present, and are shown in the accompanying photo. They are (front row l-r): Curtis Sadowski (IL), John Ebeling (MN), George Greene (OH), Dave Legler (MN), John Lentz (WI) and Bill Dvorak (WI); (back row l-r): Doug Smith (TN), Frank Merrill (IL), Bill Eckberg (IL), Fred McCormack (MN) and Marv Shults (IL). Other DXers attending (all from WI except where noted): Jim Albrecht, Pete Atkinson, Neil Bartlett, Erik Berntsen, Stan Broome, Bob Brossell, Dan Brouillette (IL), Paul Brouillette (IL), Rich D'Angelo (PA), Dave DeRosier, Gerry Dexter, Ed Dvorak, Pete Ferrand, Karl Forth (IL), Steve Gastreich, Jim Green, Clif Groth, Mark Heleniak, Mike Henke, Jim Hermanson, Robert Kramer (IL), Kevin McGill, Olaf Meding, Craig Menning, Tom Messer, Kevin Mikell (IL), Mike Nikolich (IL), Tim Noonan, Joe Olig, Mike Piering, Dave Rude, Glen Schroeder, Grant Steger, Mark Taylor, Bill Tilford (IL), Ernie Wesolowski (NE), Joe Wozniak (MO) and Dave Zantow.

Our list of those we would like to thank, as always, starts with those who attended. Our sincere thank-yous are even more so this time around, in recognition of attendees' above-and-beyond efforts to make this year's event. Special thank-yous go to Madison DXers Mark Taylor and Jim Green who constructed the antenna farm, among other things; to Ira and John Ebeling who helped in so many ways both before and during the GTG; to Stan Broome and Grant Steger for their graciousness in hosting the tour of Stan's museum, and to Dave Legler, official GTG photographer whose pictures appear on these pages.

The weather conditions of August 18, 2007 were trying for the attendees, hosts and organizers of the Madison-Milwaukee DX Get-together. The overwhelming success of the GTG is validation that we are, and have long been, on the right track. Above all, this is a social event, promoting camaraderie

among DXers. All feedback was positive, and already many have expressed their commitment to attend the 2008 edition.

The 15th annual Madison-Milwaukee Get-together for DXers and Radio Enthusiasts will be held on Saturday August 16, 2008. The event returns to the Milwaukee area with Tim and Jill Noonan as hosts, and will take part at their home in the south suburb of Oak Creek. For more information please e-mail Tim at dxing2@aol.com. We hope to see you next year!

- 30% TO 50% MORE EFFECTIVE gain and directivity than corner reflectors and stacked bowtie screen reflectors.
- INLINE SOLID ALUMINUM ROD construction for least wind resistance and iceloading.
- Designed according to the PATENTED LOG PERIODIC FORMULA of the Antenna Research Laboratories of the University of Illinois.

Model LPV-U21 List **\$28.95**

Range Fringe
Boom Lgth. 63"
Turning Radius 36"
Overall Width 33"
Carton Size 73"x2¾"x4½"

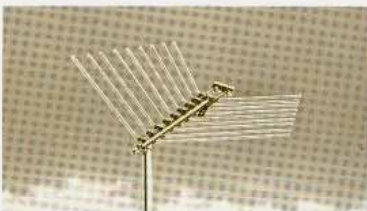

Median VSWR 2.4:1
Median F/B Ratio 26 db
Median ½ Power (E Plane) Beamwidth 26°

Model LPV-U15 List **\$19.95**

Range Near-Fringe
Boom Lgth. 35"
Turning Radius 41"
Overall Width 33"
Carton Size 45¼"x2¾"x4½"

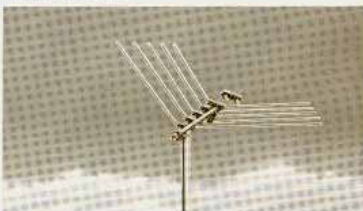

Median VSWR 2.4:1
Median F/B Ratio 28 db
Median ½ Power (E Plane) Beamwidth 27°

Model LPV-U9 List **\$12.95**

Range Suburban
Boom Lgth. 21"
Turning Radius 26"
Overall Width 33"
Carton Size 30½"x2¾"x4½"

Median VSWR 2.1
Median F/B Ratio 31 db
Median Power (E Plane) Beamwidth 28°

Model LPV-U5 List **\$7.25**

Range Metro
Boom Lgth. 13"
Turning Radius 21"
Overall Width 33"
Carton Size 45¼"x2¾"x4½"

Median VSWR 2.1
Median F/B Ratio 28 db
Median ½ Power (E Plane) Beamwidth 29°

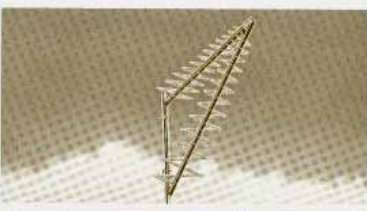

LPV-ZU

JFD UHF ZIG-A-LOG LOG PERIODIC UHF ANTENNAS where the "ultimate" in UHF color, and black and white reception is required.

Model LPV-ZU10 List **\$16.95**

1-Bay Zig-A-Log
31" H x 6" W x 43" D.

- Provides rotator-less reception of stations as far as 48° apart.
- Outperforms 8-bay bowtie screen reflector antennas.

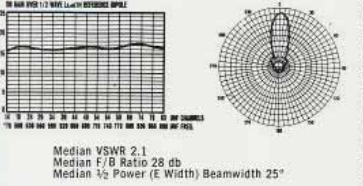

Median VSWR 1.8:1
Median F/B Ratio 35 db
Median ½ Power (E Width) Beamwidth 48°

Model LPV-ZU20 List **\$36.95**

"E" plane stacked Zig-A-Log
31" H x 29" W x 43" D.

- Most powerful UHF array of all. Matches gain of large parabolics—with a fraction of their wind, snow and iceloading problems.

Median VSWR 2.1
Median F/B Ratio 28 db
Median ½ Power (E Width) Beamwidth 25°
