

# Vhf-Uhf DIGEST

The Official Publication of the Worldwide TV-FM DX Association

AUGUST 2008

The Magazine for TV and FM DXers

A GREAT E-SKIP SEASON WINDS DOWN  
So Long WPBT WBRZ KGAN and all the other  
lowbanders. We'll miss ya next summer!

**76 PAGES! THE MOST PAGES SINCE 2000!**  
**THANKS FOR YOUR SUPPORT!**

*TV and FM DXing was never so much fun!*

# The Mailbox

P.O. Box 501, Somersville, CT USA 06072  
MIKE BUGAJ MBUGAJ@SNET.NET

---

## IT HAS BEEN A GOOD SEASON!

You can say that one can never get enough e-skip but I think plenty of us did. Randy Zerr down in Florida sure did. Fred got his share down in South Carolina. The Philly/NJ DXers got their share including some FM Es from the Caribbean that we in New England can only dream about. Dave Williams did okay out in Oregon and even Seattle had a few openings. And of course the mid west region, Ontario and New England did good although some openings were just too far west for us to take advantage of here in the northeast.

DTV lowband loggings were much easier to find this season. Bill Hepburn had a total of five DTVs logged. Roy Barstow had one, your Mailbox editor had two and Jeff Rostron had too many to count, or so it seemed. The new Insignia/Zenith converter boxes did the trick this season.

Over on FM, the best logging of the year has to be a 2-hop loggings from one of our newest members, Steve Walko, who logged on 7/11 KTZA in Artesia, NM on 92.9 using a Sony XDR-F1HD tuner and a dipole for an antenna! Holy Cow, as Yogi would say. Amazing! Steve is in Philadelphia

So, this is the end of the road for analog TV E-skip, at least of the domestic variety. I almost hate to ask, but what are you going to be doing next summer? I'm afraid that most TV DXers will have a little more free time on their hands next season. One thing we can count on, though, is that any TV Es we do get will be different and possibly exotic.

## MEMBERS AND MORE

Thanks to Paypal we have five new WTFDA members this month. We welcome **Jay Novello** (NC), **Steve Walko** (PA), **Bob Rush** (MA), **Dave Braun** (DE) and **Steven Beesley** (Hong Kong) to the WTFDA. Glad to have you all aboard. Make yourselves at home.

This is a big month for renewals. During the period of 6/14 to 7/15 renewals were received from **Dave Bright** (FL), **Stan Weisbeck** (WA), **John Hourigan** (CO), **John Lochey** (MI), **Garrett Wollman** (MA), **Mike DeRoo** (KS), **James Montgomery** (IN), **Rick Lucas** (NY), **John Ebeling** (MN), **Steve French** (MN), **Tim Cronin** (IL), **Frank Aden** (ID), **Tim McVey** (VA), **John Williams** (MT), **Eric Sundius** (AZ), **David Austin** (SC), **Randy Miltier** (OR), **Roy Barstow** (MA), **Alan Michalek** (MA), **Benjamin Greenlaw** (MA), **Greg Coniglio** (NY), **William McGuire** (MD), **Pete Giacobelli** (NY), **Ron Purdue** (MN), **Ron Jorgenson** (WI), **Nick Lombardi** (GA), **Paul Swearingen** (KS), **Dennis Smith** (CA) and **Fred McCormack** (MN). Thank you all for continuing with us as we journey towards a new adventure in TV DXing.

Steve Walko (K3PHL) tells us how he started

FM Dxing: "Living in a large city like Philadelphia never afforded me the opportunity to do much FM DXing. There are just so many local frequencies in use. Add front end receiver overload and now IBOC/HD and well, you get the idea. I used to just enjoy the times I would hear skip on the car radio from May through July on the very few open channels, jot down the call letters or slogans I heard, then look the stations up on the internet to see how far away I was getting. Then in early June of this year, I stumbled across the a couple WTFDA member websites that discussed this new Sony radio that had just come out, the XDR-F1HD and XDR-S3HD. The reviews touting amazing selectivity and sensitivity with no modification along with a very reasonable price sounded great to me. I went down to my local Best Buy and found a returned S3 unit reduced to \$49.95 so I scooped it up and headed for the register.

After putting this thing on the included indoor dipole, I tuned around and was astounded that I just couldn't get the thing to overload on ANY frequency I tried. Plus any station not running IBOC allowed me to get the stations 200 KHz to the side of the locals with no trace of the local. I guess when they advertise that you can hear the stations between the stations; they also meant the analog stuff too.

So, it's June 15, 2008 and I start getting ideas for how I can record audio while I'm not home so I can catch skip unattended. An article on the net from Randy KW4RZ talking about how to use Total Recorder to record open channels in 1 hour MP3 files really got me thinking. So I purchased the software, configured it, set up my little dipole against a west facing window and let it record while I went to work the next day.

When I came home, I grabbed a beverage and headed to the PC. Boy was I amazed. After reviewing some of the early morning MP3 files, I got a clear reception on 94.9 of both KCMO in Kansas City and KCKS in Concordia, Kansas fighting it out for dominance that Sony, forever written to MP3. Now the wheels are turning.

Just one month has passed since then and at the time I write this column, I have logged several Es and Tr events which yielded over 200 stations in more than 22 states including my first double hop to New Mexico. I also have been able to post MP3 clips to a website I set up. Now I am a most recent new member of WTFDA and am able to network with others that enjoy this hobby as much as I do. Talk about jumping in with both feet. I think I did a cannonball.

This month 86 pages of material were submitted by you, the members. We had to work some magic to trim it down to 76 pages, but we did. If you submitted something and found it not published, this is the reason why. You may see your material next month. And we'll see you then!

## August 2008

### Abbreviations:

AF	Applied For (a new station)	NW	New station on the air
Aux	Auxiliary (backup) transmitter	PA	Proposed Amendment
CC	Callsign change	PC	Power (and/or tower height) change on the air
CL	City-of-license change	PG	Power change granted
DC	Converted to DTV	PR	Power change requested
DCC	Digital Companion Channel	RA	Returns to the air
NS DCC	Granted flash-cut to DTV	QC	Channel (frequency) change on the air
DE	License/permit deleted	QG	Channel change granted
DR	Requests flash-cut to DTV	QR	Channel change requested
FC	Programming (format) change	RE	Reinstated (previously-dismissed app.)
FTP	Failure to Prosecute	ROA	Request of Applicant
GA	Granted amendment (to table of channel allotments)	SI	Off the air (silent)
LC	License to Cover	STA	Special Temporary Authority
MX	Mutually Exclusive	XC	Transmitter site changed
NDA	Non-directional antenna	XG	Transmitter site change granted
NS	Permit granted for new station	XR	Transmitter site change requested

(FC): Flash-cut from analog to DTV on same channel.

Thanks to Glenn Hauser and Mike Bugaj for information elsewhere in this column.

Note also 14 pages (...) of DTV power increase and/or channel change applications elsewhere in this month's *VUD*.

The Medical Lake and Apalachicola DTV applications seem to have been approved before the FCC checked whether the auction bids had been paid. They appear to have then been rescinded pending payment of bids.

(I don't think Daystar is being slow in paying their bids, I just suspect the FCC processed the permits without checking with the bank that processes the fees.)

In Roanoke, Va., there are rumors to the effect that WBRA-DT's application to move to channel 26 was a contingency plan, in case the power increase and switch to non-directional operation on channel 3 was not approved.

That power increase has now been approved. This likely means WBRA-DT will remain on low-band channel 3 and will not move to UHF.

Twenty stations have shown the FCC they face "unique technical challenges" in implementing their full digital facilities. These

stations will be allowed to delay implementation of full-power digital facilities until after analog signals go off the air in February.

An AM station has been fined \$10,000 for failing to renew their license but continuing to operate, even after FCC inspectors personally informed the owner he hadn't had a valid license in over two years. The owner told the Commission he couldn't use the online tools on the FCC website, in part because the station doesn't have a computer.

(most broadcast applications, including renewals, must now be filed online)

The FCC didn't buy it. Firstly, because as they said in the Public Notice when the online requirement was set, computers are publicly available in many libraries and other sites. Secondly, because the same Public Notice indicated requests to waive the online filing requirement would be considered favorably. Thirdly, because they found no evidence the station had contacted Commission staff for help when they had trouble renewing.

As of the date of the release, the station was still operating unlicensed!

Good DX!

**WTFDA MEMBERSHIP  
AS OF JULY 1, 2008**  
Keep in mind that these figures rise as the month progresses.

Membership on July 25 stood at 258.

You can now easily join the club or pay your eVUD dues as well as your paper VUD dues in one convenient place:

<http://fmdx.usclargo.com/join.html>

Check it out!

### --TECHNICAL CHANGES --

#### - ACTIONS -

ON	Hawkesbury	107.7	CKHK	CP granted for 1.1 kw
ON	Peterborough	99.7	CKPT	On the air with 5.7 kw, moving from 99.3
ON	Sarnia	103.9	CHOK-FM	On the air with 615 w at 143 metres
QC	Acton Vale	103.7	CFID	CP granted for 2.647 kw
QC	Gatineau	104.7	CJRC	CP granted for 36 kw
QC	Senneterre	100.5	CIBO	CP granted for 2.55 kw

### --TECHNICAL CHANGES --

#### - GRANTS FOR NEW STATIONS -

				<u>CP granted for:</u>
BC	Vancouver	88.1	NEW	19.5 kw/567 m, 49-21-11/122-57-23, to relay CBU-690 (CBC Radio 1)
QC	Campement Rupert	91.7	NEW	1.05 kw-V/58 m, 51-47-53/75-23-07
QC	Campement Rupert	94.9	NEW	1.05 kw-V/58 m, 51-47-53/75-23-07
QC	Campement Rupert	97.5	NEW	1.05 kw-V/58 m, 51-47-53/75-23-07
QC	Campement Rupert	100.5	NEW	1.05 kw-V/58 m, 51-47-53/75-23-07

The four Quebec stations above are to relay CFQR-FM, CBF-FM, CKOI-FM, and CITE-FM, all Montreal. It's not clear, at this writing, which frequency is to relay which station.

### --TECHNICAL CHANGES --

#### - APPLICATIONS FROM EXISTING/PROPOSED FACILITIES -

				<u>Applies for:</u>
NS	Eastern Passage	94.7	CFEP	1.36 kw and move to 105.9
QC	Granby	104.9	CFXM-FM	Applies for 5.5 kw/356 m, 45-21-48/72-37-32
QC	Montmagny	102.1	CFEL-FM	78 kw/158 m; relocate to Quebec City
QC	Saguenay	103.3	CKGS	6 kw; previously approved, but frequency of 99.9 was not acceptable

### --TECHNICAL CHANGES --

#### - PROPOSALS FOR NEW STATIONS -

				<u>Applies for:</u>
AB	Chateh	96.9	NEW	14 w/120 m; to relay CIAM-FM 92.7 Fort Vermillion
AB	Cleardale	91.5	NEW	50 w/49 m; as above
AB	Fort Chipewyan	95.5	NEW	30 w/80 m; as above

August 2008

EVEN BETTER IN COLOR! CHECK OUT THE eVUD

And the final batch from Danny Oglethorpe of Shreveport, LA:

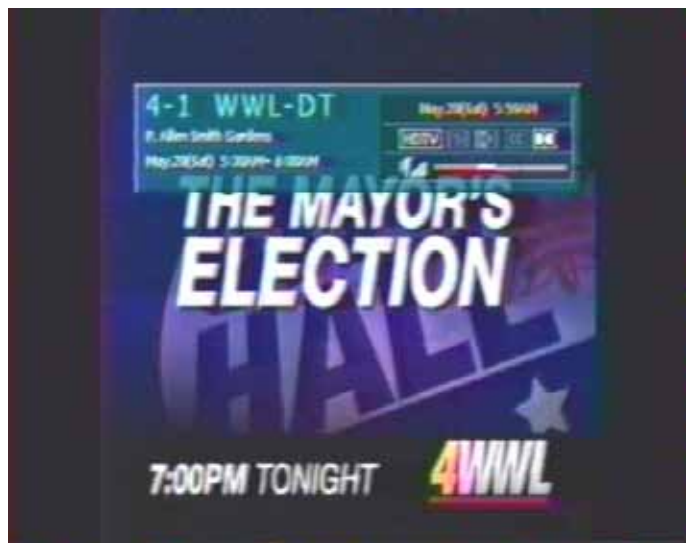

WDBD-DT Jackson, MS  
 199 mi Tr seen 8/06

WBUY-DT-41 Holly Springs, MS  
 293 mi Tr seen 2006  
*"Mexican-style" ID upper right*

WVUE-DT-29 New Orleans, LA  
 283 mi Tr seen 2/22/07

WWL-DT-36 New Orleans, LA  
 283 mi Tr seen 2/22/07

WFIQ-DT-22 Florence, AL  
 376 mi Tr seen 9/16/06

WFSG-56 Panama City, FL  
487 mi Tr seen 4/06  
"WFSU ID"

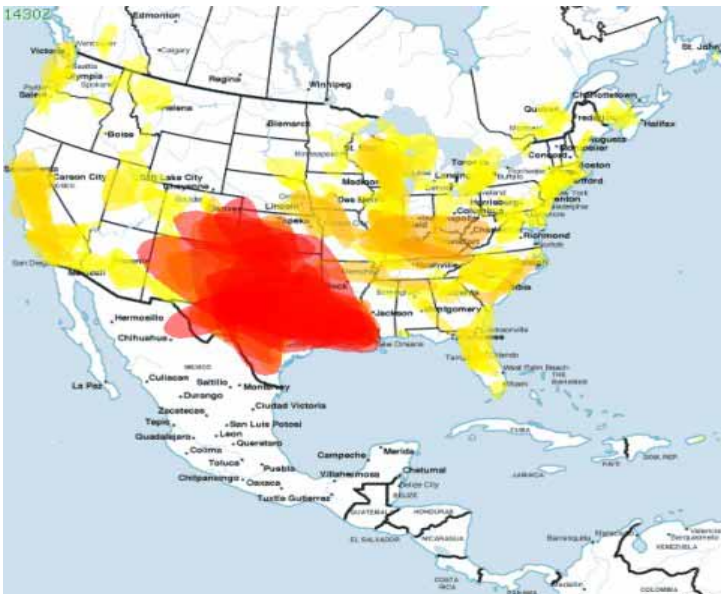

KNVO-DT-49 McAllen, TX  
508 mi Tr seen 4/24/06  
"XHRIO-2 subchannel"

And now one from Jim Thomas, of Milliken, CO. While the distances aren't quite as far as Danny's, the lack of moisture in that part of the country makes tropo DXing very rare there.  
Equipment: Zenith DT900 & CM 4228 @ 20'.

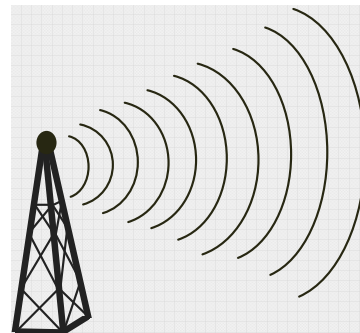

KKTV-DT-10 Colorado Springs, CO  
109 mi Tr seen 6/2/08

And here's what the VHF Propagation Map looked like at the time. Red means strong tropo. A very rare situation indeed! Website: <http://www.mountainlake.k12.mn.us/ham/aprs/path.cgi?map=na>

73's, Jeff

A great day to hang out with little to do, and there's a whole host of new FM's on the air in the Maritimes, and I think I got most of them thanks in large part to Doug Smith's site. Over 40 new ones bringing the total to 3133.

This opening closed up, even on Ch. 2, before noon.

Because of the publicity in the VUD I picked up the Sony XDR-F1HD. I cannot believe, even after 3 weeks of using it, how good it is. I keep pinching myself because I expect to wake up any second! No splatter on adjacents from my strong locals and absolutely no overload. I can see several FM towers from my house and I no longer have any problems from these. This receiver has opened up about 20 or more frequencies to searching for weak tropo and meteor scatter that were covered over by "local slop" on my old receiver. This receiver is so good, I feel like I'm cheating at the hobby of FM DXing! I recommend this receiver to anyone who is in an urban area and struggling with overload and the increasing proliferation of translator stations. For \$99.00, you can't go wrong. This season is falling below average for E skip and slightly above average for tropo. I am hoping for an above average tropo season this August and September.

---

## From the Editor

This is by far the biggest SFM in a long time! Glad to see Fred is getting some DX. Here in the heartland it's been way too quiet this season. Hopefully we'll get some late season Es like we've had the last few years to make up for it. See ya in August!

## LG 20LS7D HD TELEVISION

Review by Dennis Park Smith

Review of LG 20LS7D HD TV Receiver, with Some RS Accurian-box Comparisons This review is preliminary, not yet with more detailed use. My electronics knowledge is superficial, but hopefully this will make some sense as I have explored so far. In early May, I purchased a new TV: LG 20-inch LCD HD (capable of up to 1080 resolution) flat-screen receiver, Mode120LS7D, ATSC & NTSC tuners, antenna chs 2-69 & cable chs 2-135. Weight about 10 pounds. Apx \$400 at a local electronics store. Stereo sound, though its 2 tiny speakers by themselves are not high fidelity. Very handy remote control, with a number of functions also on the TV itself. It has many connections: (1) SD: S-video, RCA video, RCA stereo audio; (2) HD: HDMI jack; (3) HD: YRB, RCA red,green,blue video, RCA stereo audio; and (4) a jack for 15-pin computer cable. (Thanks to Doug Smith for clarifying details of these connections.) It has a scan mode though is somewhat slow (covering all digital and analog antenna and cable channels in succession but can be stopped at any time). It may be better just to add and delete analog and digital channels manually (with or without signals), as its add/delete-channel function seems quite easy to work with. Manually then, DT stns are added on the RF channel (including call-letter data), then on tuning after that goes to the re-manned channel (including subchannels). It displays a signal-strength bar somewhat similar in appearance to that from my Accurian box (manufactured Oct 2004), though is not quite as accessible as the Accurian's. Sensitivity on DTV so far seems about the same as the Accurian, or at the most perhaps only slightly better. Maybe, even though the LG is new (assembled Feb 2008), it might not have the 6~'-gen. chip? (This was *in trying it at Wasco CA on May 12-14 & 21-23. See report in Western TV-DX in Aug VUD.*) Analog sensitivity seems reasonably good, and a signal will be down to very poor before cutting out (an analog-only TV would still probably be preferable in this situation). Fortunately, it does not display a dreaded blue (or other color) screen. Analog selectivity is the best of any TV I have ever tried, with LPTVs seen nicely that are sandwiched between adjacent full-power analog UHF's, though this won't be an issue after Feb 2009. If indeed DTV sensitivity is not what I'd hoped, it is useful for watching HD pgms (its definition-detail on 1080 resolution is spectacular) and also useful as a monitor into which to connect DTV boxes and other video gear.

Things really heated up here this July with Es most days I was home, and many hitting the top of the dial on FM. Following is a selection of loggings from various days – I'm not the best about my TV logs as the second it hits FM, that's my primary mode.

Here is an assortment of loggings from the prop logger. All times Pacific. Note that KVBC-DT and KOTA-DT have both tickled the Insignia but just never quite decoded.

Note # 1 Although XHTV-4 ("4TV") is listed here, it is not added to my totals for the WTFDA Contest. A handful of low-band stations relay some programs from XHTV, and most of them do a good job of covering the 4TV logo upper right with local logos. However, a few stations are not covering the logo.

Note # 2 New logging WPVI-6 was in and out with others, over local KTAL-6 until about 1115 CT. That allowed me to see some of their noon local newscast.

Note # 3 A new logo was lower right on KWGN-2. The logo is a white circle, with the "2" pushed to the right side of the circle.

I was in Asia most of May and part of June and think I must have missed some pretty good DX. No DTV skip yet this summer. I would sure like to see WTWC-DT 2 before they go back to channel 40.

Dave

**Dennis Park Smith**  
 3605 San Remo Drive  
 Santa Barbara, CA 93105-2523  
 Telephone (805) 687-7803

This report is for May and June, 2008. Southern California coastal tropo (to San Diego/Tijuana, up to 200 mi/320 km) was hit-or-miss at first, but became more consistent as summer approached. All locations noted are in California, nothing outstanding.

May 1 am None (since Apr 29)  
 May 1 eve - 3 Variably poor to fair  
 May 4 - 12 am None (passing wx fronts)  
 May 12 - 22 OUT OF TOWN: WASCO, CHICO, GALT  
 May 22 eve - 31 None (unsettled, windy at times)  
 June 1 - 8 None? (observing was intermittent)  
 Jun 9 - 10 Poor to fair noted (observing was intermittent/family activities)  
 Jun 11 - 13 None (approaching stability, warmer)  
 Jun 14 - 30 Var. poor to fair

Es noted in Santa Barbara, indoor whip, no IDs (PDT):

1532 KPRC-2 Houston (MS?)

May 12, 2008

2147 WABM-68 in well. 525 mi

May 13, 2008

early am Most of the Huntsville and Birmingham analogs were in.  
WJSU-40 Anniston  
Ch. 33 Tuscaloosa  
WVTM-DT-52 525 mi  
Most of the southern and central WI DTVs were in also in up to Green Bay.

I'm using the DVICO HDTV5 USB adapter on a Dell laptop with the original software on the disc that came with it.

I tried updating to the current driver but it will not give PSIP IDs on random RF channels like the disc version does.

May 13, 2008

**KGPE-DT 34** Fresno CBS 100 mi N

KPMC-LP is a new on-air regular, #221 in re-constructed Wasco analog total (since apx 1950 on others' TVs and in our house since late 1953, chs 2-82). I don't know if these newly-seen Fresno-area DTs were due to weather condx (but there was no obvious tropo) or to higher ERPs (these stns have been on air for a few years). Wasco DTV total is now 13 with 3 new (chs 10-55).

May 14-19, CHICO, ground elev about 250 ft ASL (north of Sacramento) visiting relatives, staying at their 2<sup>nd</sup> floor apt (flat terrain and mtns E to N) with the new LG TV set, indoor antennas, in presumably normal condx:

Apx 29 analog stns (chs 2-58): Sac'to, Chico, Redding, 15-110 miles  
4 DTV stns (chs 20-43): Chico, Paradise, Redding, 15-75 miles

May 20: GALT, ground elev about 50 ft ASL (btw Sac'to and Stockton) in motel on 2<sup>nd</sup> fl (flat terrain & mtns E to S to W) with LG TV, indoor antennas:

Apx 31 analog (chs 3-66), Sac'to, Concord, S. Fran, S. Rosa, 12-75 miles  
12 DTV stns (chs 18-63): Sac'to, Concord, Santa Rosa, 12-60 miles.

Best of DX to all, Dennis

 Florence, NJ 08518  
 E-mail: nickl@wtfd.org

### The Editor's Note

As you can see from the healthy amount of reports in this month's column, while perhaps not an all-time earth-shattering year, this season's E-Skip activity has been solid and has provided the analog channels a nice means for a farewell tour. Tropo has had a few good flare-ups along the East Coast, and there also have been a handful of openings in the Great Lakes and Plains areas, though nothing long-haul yet. Let's hope that improves in August, and hopefully a few more late-season Es openings as well to boot.

**Says Robert:** "After an seven-day lull, E-skip came back as heavy as ever. Some days had more time with Es than without, but loafing around at channel 4 and below (I have not IDed a single Es above 4 this season!). This is reminiscent of the Es seasons of the early 1980's.

An unexpected Tuesday morning silent period from local WUPW-36 gave me two "unearned runs" in the digital column. I may never have logged WJRT-DT without this (it will be going to 12 when WUPW analog leaves 36)

One would not think that it should have taken so long to log WHIO-DT and WPTD-DT, both super-powered and less than 150 miles away. But both are co-channel with Detroit stations, and this was the first time they were strong enough to override the Detroit stations. This is an example of the biggest challenge to DTV DX. To ID a DTV station, it must be stronger than any other signal on the channel."

**1980s VUDs on CD**

Every VUD from January 1980 to December 1989 is on this disk. You'll need Adobe Reader to read them. Why have a box of old VUDs taking up space (and starting to disintegrate) when you can have this disk. **It's yours for just \$8.00 per disk.** Send your check or money order for \$8.00 to WTFDA, PO Box 501, Somersville CT 06072. Make it payable to WTFDA. Paypal is also accepted.

**2001 to 2005 eVUDs on CD**

All eVUDs from 9/2001 through 12/2005 (except 8/2002 which was not published). Follow the evolution of the eVUD from day one to the present form. **You can have it for just \$6.00** (\$5.00 plus a dollar shipping). Use the same procedure as above. Checks, money orders and Paypal are accepted.

Remember that the contents of these two CDs is also available on the WTFDA website <http://www.wtfda.org>

**If you want a userid and password to enter the site, just ask for one.**

## 6 Meter/2 Meter Amateur DX

50 Mhz  
The *Magic* Band

**Peter Baskind, N4LI**  
**3225 Forest Hill-Irene Rd**  
**Germantown, TN 38138**  
**N4LI@ARRL.net**

June is just a great month. Summer finally arrives, the kids are out of school but the boredom has yet to set in. It's warm, but not searing hot, and sporadic E (E<sub>s</sub>) hits its peak. On top of that, two huge contests of interest for VHF enthusiasts are on the calendar. Who doesn't love all that?

This June has been – to say the least – interesting. While some parts of the country have been slow to see the really big openings, for others, it has been a virtual feast.

Without a doubt, the big headline of June 2008 will be the ARRL VHF Contest. This is one we'll be talking about for years. The first of day of the contest – the 14<sup>th</sup> – was good, with E<sub>s</sub> covering much of the country. But Day 2, Sunday the 15<sup>th</sup>, was just jaw-dropping. More than one operator I talked to described 6 meters as sounding like 20 meters on Field Day – that's a strong statement! At its peak, the 6 meter band was full all the way to 50.300, with a few scattered signals even above that. One "big gun" contester in Florida I talked to late Sunday told me that he had done over 2000 QSOs, and he was concerned that his voice might not hold out. His grid count was approaching 200! Unfortunately for me, I missed much of the big event, as I work Sundays at Sirius (Rats!).

The bounty of the Contest was not limited to 6 meters. Mid-morning Sunday, 2m (144 MHz) opened up for some lucky contesters with sporadic-E. Paths were from the Rocky Mountain area to the country's midsection, and also across the extreme northern tier of states. A member of WTFDA was lucky enough to catch New Mexico from near Nashville (see Doug Smith's report below). I think I saw Randy Zerr, KW4RZ, in Northwest Florida also report a contact or two that day. Late Saturday evening into Sunday morning also brought in some tropo conditions with paths running through the middle of the country.

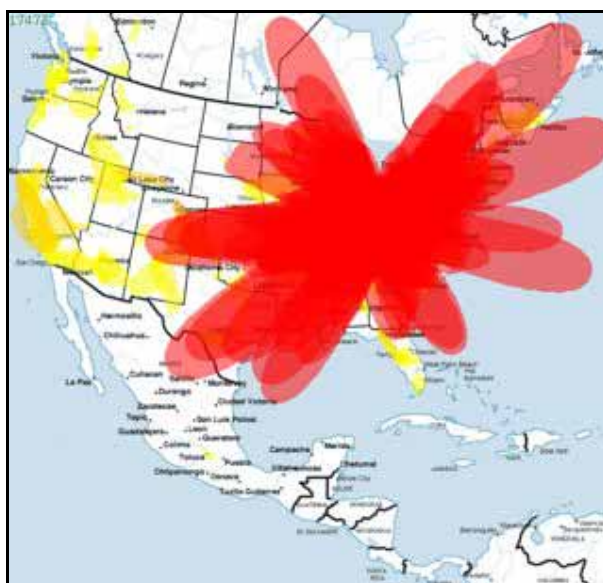

Sadly, the good fortune of the June VHF Contest did not continue into Field Day. While Field Day is really more of an HF event, VHF can play a big part in the contest – if conditions cooperate. Well, they didn't, and VHF stations during that weekend were not very busy at all. Maybe next year...

\* \* \*

Here in the MidSouth, June was certainly fun, though different from what I expect to see. Absent were the day-long openings to Florida and Texas. There was very little Caribbean, either.

On the 6m side, the month started with a nice taste of double-hop, including a 1600-mile contact (maybe a long single) to DN28, a new grid in extreme Northwestern Montana, worked at just 5 Watts. Also QRP during June, I worked K7SU, DN22, a new grid in Idaho, and I finally got Kansas in the log at 5W. On the full-power side, I knocked out a couple of new grids in Mexico, a couple Trans-Atlantic contacts (not new grids or countries), and CY0X/Sable Island for a new "country" on 6 meters. Domestically, I also worked a handful of new grids, including rare FM25 during the VHF contest. I am still waiting for that FM25 card. I missed the contest station in rarely-activated EL28 (though, I heard it, but couldn't get the op's attention). Bill Smith got them, though (see below).

On the 2 meters (144 MHz), June 2008 was fun, indeed. Midday June 4<sup>th</sup> brought a nice E<sub>s</sub> opening into Canada, with two very loud signals from around Toronto, and one not-so-loud signal from metro-Montreal. VE2JWH was both new grid (FN35), and my first contact with Québec on 2 meters. The “mountainlake” APRS map during the half-hour opening was simply a mess:

How did we ever live without such a powerful tool?

Another 144 MHz E<sub>s</sub> opening came on the morning of the 13<sup>th</sup> (UTC) with K0KE/DM79 in for about 60 seconds, up to S9. When his card came in, it confirmed my 100<sup>th</sup> grid on 2m, making me eligible for 144 MHz VUCC, something I have been working toward for over three years.

I added a few more new grids (most fairly close in) during the moderate tropo opening of the VHF contest. On the morning of the 15<sup>th</sup> (UTC) I worked the huge contest station of KBOHH/EM06 at 562 miles. That far surpassed my second-best 2m contact of the contest that only went as far as Kansas City.

---

### Loggings

---

**Bill Smith, W1OW, 56 Locust St., Douglas, MA 01516 FN42**

---

**June 2, 2008:** Mediocre opening to the South.

**June 4, 2008:** Fair opening to the Midwest with very short skip. Worked:

2254	VA3WLD	FN03	2308	VA3DX	FN03
2300	KC8AMH	EN83	2325	K3TLP	EN91
2307	WD8OST	EN76	2320	AK8A	EN62
2307	VA3TO	FN03	2329	N3MLX/m	EN92

**June 5, 2008:** Some short skip, and the first double-hop of the Season.

0032	KE0VI	DM78	0145	W7AQK	DM42
0055	N6EQ	DM13	0153	N7KD	DM08
0108	WA7NB	DM42			

**June 8, 2008:** Good opening to the Caribbean. Finally worked FJ5DX (French Guyana) **FK87** at 2338 for country # 93. Usual regulars plus VP2MDD heard.

**June 11, 2008:** More Caribbean/Central America. Worked HK3JRL/**FJ24** at 2250 and HP1AVS/**FJ08** at 1931.

**June 14, 2008:** First day of the Contest – a total bust.

**June 15, 2008:** Band open all over. Highlights of double-hops worked.

1630	AB5GU	EL18	1715	WB2FKO	DM65
1701	WA7JTM	DM53	1727	N2IC	DM52
1706	K5AM	DM54	2215	UT1FG/mm	<u>FL94</u>
1712	K7AED	DM33			

**June 16, 2008:** More contacts with Yuri Saga. (ed. note: Yuri, licensed in Ukraine, is on-board a ship in the merchant marine, traveling through water-only grids)

1114	UT1FG/mm	<u>GL06</u>	2302	UT1FG/mm	GL18
1408	UT1FG/mm	<u>GL07</u>		(Heard Only)	

**June 17, 2008:** More Yuri.

1557	UT1FG/mm	GM20	1607	UT1FG/mm	GM30
------	----------	------	------	----------	------

**June 18, 2008:**, First T/As.

2058	EA8BPX	IL18	1402	UT1FG/mm	GM53
				(Heard Only)	

**June 20, 2008:** Good double-hop to SW. Then, some brief T/A. Worked:

0115	W7XA	DM43	0215	K7NN	DM42
0124	W7RV	DM43	1155	EA8/DL6FAW	IL18
0125	K1IEB	DM43	1158	EA8AAW	IL28
0146	W7LFC	DM34	1209	UT1FG/mm	<u>HM09</u>

**June 21, 2008:** Brief T/A opening. Worked:

1147	CT3FQ	IM12	1403	VO1VCE/m	<u>GN36</u>
1234	VO1BC	GN38	1713	K7ICW	DM62
1334	VO1VCE/m	GN37	1714	W5NM	DM62

**June 27, 2008:** Opened to CT/EA, then shortened to the Maritimes.

1049	CT1HZE	IM57	2321	EA4UW	<u>IN80</u>
1111	CT1FJC	IM57	2336	VE4EAR	<u>EN19</u>

(Continued on page 54)

# DTV Permanent Facilities Changes

In June and July, the FCC opened a window for DTV stations to apply to increase the power of their post-transition DTV facilities. In a few cases, changes in transmitter site are involved - in a few cases, some pretty significant changes. Applications to move permanent DTV facilities to different channels were also accepted. The following pages are the result.

WBNS-DT's application to increase power to 1700kw is not a typo. The station argues that the FCC DTV regulations allow stations to increase power to more than 1000kw if necessary to replicate the coverage of the station with the best coverage in the market. WBNS argues that WSYX-13 is that station in the Columbus, Ohio market - and indeed, even at 1700kw WBNS would still have less coverage than WSYX. However, you should also note that WSYX has filed to move from channel 13 to channel 48 - will that reduce their coverage and short-circuit WBNS's application? Good question...

By the way, the way I read that regulation, there is no limit to how much power a DTV station can be authorized if it can show that power is necessary to replicate the coverage of the "biggest" station in the market. One could see well over 5000kw being necessary in some cases. What will probably end up limiting power in these cases is predicted interference to other DTV stations.

Figures are power in kilowatts unless otherwise noted. The Ontario station is not part of this FCC action, it just happened to file its application at the same time.

**Requests to change permanent DTV assignments:**

f:Proposes move closer to Phoenix.

g:Proposes move to Empire State Building, New York City.

h:And move to WKBD-50/WTVS-56 tower, Detroit.

n:New station, not yet on the air.

o:On KARE-11's tower in Shoreview.

p:Move to Mt. Washington.

q:And move to new site. Beats the heck out of currently authorized facilities of 15 watts at one meter!

s:1700kw is not a typo.

t:New station, not yet on the air but scheduled to sign on August 8th.

u:New site on Sharp's Ridge, Knoxville.

v:Site is in Nashville.

w:Move to 29-28-10N/99-56-29W, much closer to San Antonio.

y:Proposes to move off Mt. Spokane to Krell Ridge.

z:Call recently changed from KDEV.

# SIGN UP/Renewal form

Address \_\_\_\_\_ Apt # \_\_\_\_\_

City \_\_\_\_\_ State/Prov \_\_\_\_\_ Zip \_\_\_\_\_

Country \_\_\_\_\_ Interests: TV ( ) FM ( ) 30-50( ) Weather( )

email address \_\_\_\_\_

Sign me up/renew me for: 1 year ( ) 2 years ( ) More ( )

Yearly dues \$24 (US), \$26 to (CANADA), \$10 (Electronic VUD)  
(Students get a discounted rate of \$15 yearly for the paper VUD.)

**Mail your dues to: WTFDA, P.O. Box 501, Somersville, CT USA 06072**

**Make your checks/money orders payable to: WTFDA**

**And *thanks* for your support of the WTFDA!**

Return this form with your dues or make a copy of it and return that.

**CHANNEL MASTER**

model no. **410-2**

## DOUBLE BOW

### 2-bay Bow-Tie antenna on one screen

- Large screen area means high gain (up to 11½ dB) and high front-to-back ratio.
- Aluminum sheet dipoles.
- Harness connections are RIVETED to dipole for positive electrical contact.
- "Free-Space" terminals.
- Bow-Ties and connecting rods are fully preassembled in one simple unit which snaps onto screen.

up to **13½ dB**

model no. **410-4**

## MULTI-BOW

### 4-bay Bow-Tie and Screen antenna — covers channels 14-83

- Largest screen area of this type of antenna. Screens hinged for proper spacing — swing open for fast assembly!
- Aluminum Sheet Dipoles — mechanically superior to wire form dipoles. Provide better Broad Band coverage. "Free-Space" Terminals prevent dirt and moisture from shorting-out the signals.
- Harness connections are RIVETED to dipoles for positive electrical contact.
- High front-to-back ratio provides good rejection of "ghosts" and interference.
- Constant-Phase connecting harness: The only type of arrangement that insures equal current and phase distribution in each dipole over the entire UHF range. Assures you of maximum gain on every UHF channel.

model no. **410-8**

## TWIN MULTI-BOW

### 8-bay Bow-Tie and screen antenna for super-fringe UHF areas.

- Exceptionally large screen area — 1,640 square inches. Precision-space, hinged screens swing open for fast assembly!
- Aluminum sheet dipoles provide excellent Broad Band coverage.
- "Free-Space" terminals.
- Exclusive 2-stage impedance transformer produces higher stacking gain over a greater band width. Result: exceptionally flat, high gain level.
- Constant-phase connecting harness.
