THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: DOUG SMITH, GREG CONIGLIO, BRUCE HALL, KEITH MCGINNIS AND MIKE BUGAJ.

Editor and publisher: **Mike Bugaj**

Treasurer: **Keith McGinnis** wtfda.org Webmaster: **Tim McVey**

wtfda.info Site Administrator: **Chris Cervantez**

Editorial Staff: **Jeff Kruszka, Keith McGinnis,**

Fred Nordquist, Nick Langan, Doug Smith,

Peter Baskind, Bill Hale and John Zondlo,

Our website: www.wtfda.org; Our forums: www.wtfda.info

SEPTEMBER 2009

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

<http://www.wtfda.org/join.html>

You can now renew either paper VUD membership or your online eVUD membership at one convenient stop. Use the link above to either join the WTFDA or renew your membership in North America's only TV and DX organization.

MIKE BUGAJ MBUGAJ@SNET.NET

IT'S NOT FAIR!

No it's not fair. Es season is just too short, at least it is for us DXers up north. For us up here, skip seemed to wither away as the months slipped into August. But for people like Fred and Randy, it keeps on going like the Energizer bunny.

What skip there was, was very good and just whets our appetites for more. Unfortunately we have to wait until next year. Bummer.

So now we have to concentrate on tropo. So far the winners in the tropo search are Randy and Fred down south, Jeff Kadet and the Indianapolis area DXers (Steve, etc) and of course, Roy on Cape Cod. Did I miss anybody? Probably.

The rest of us get by the best we can. Gangbuster tropo openings don't happen often in my part of the world. I've had just one 400 mile DTV tropo catch so far this year. All the other predictions of good tropo openings fell apart before they got here. Hopefully we all will have two or three (or at least ONE) good tropo openings before the colder weather sets in.

MEMBERS AND MORE

It's been a good period for new WTFDA members. We welcome the following DXers into the WTFDA: **Anders Akerlind** (Sweden), **Richard McVicar** (NY), **Ed Phelps** (Ky), **Christian Ferlund** (QC), **Jeff Falconer** (ON) and **Vern Hines** (MO). And we also welcome **S.P. McGreevy** (CA) for another tour of duty with the WTFDA. Welcome everybody!

With all the new people joining the WTFDA, I should remind you that there's a membership list at our website at <http://www.wtfda.org>, but it's probably a little stale right now. I'll probably have to update it in a week or two. And as usual, you need a username and password to get into the site. If you don't have one, email me with the username and password of your choice and we'll add you.

Renewals during the period of July 18th through August 19th came from **John Callarman** (TX), **David Braun** (DE), **Peter Giacobelli** (NY), **Carlton Howington** (FL), **Steve French** (MN), **Nick Lombardi** (GA), **Bob Timmerman** (IN), **Roderick Jorgenson** (WI), **Curtis Sadowski** (IL), **Leslie Green** (LA), **Steve Rich** (IN), **Aaron Reed** (MA), **John Tudenham** (MO), **Howard Fountain** (GA),

Tommy Adair (TN), **William Hein** (TN), **F.J. Issard** (ON), **Wolfgang Schneider** (CA), **Jim Paige** (MI) and **Fred MacCormack** (MN). And once again we thank you all for your support of the WTFDA!

By the time you receive this (if by mail), the NRC/WTFDA convention will either be in progress or completely done. I had planned to attend and had the room booked for my wife and I. Then came a wedding invitation in the mail for that Saturday and our plans got changed. So unfortunately I can't be there. I hope you all have a great time and I hope somebody brings a camera and takes some pictures for the VUD.

TV IN NORTHERN MICHIGAN

Observations by **Karl Zuk** (NY) on his vacation: "I see a lot of Canadian television from my family's place in mid-Michigan.

One very interesting thing I've seen this summer: CTV has turned off many of their Ontario transmitters. We used to see a nearly equal amount of CBC and CTV across the lake. We now rarely see CTV at all. CBC comes in most frequently on 16, 20 and 45. There is also a station carrying religious Trinity Broadcasting on 18. We see the "A" channel on ch 8 sometimes. The QTH is Port Austin, MI at the tip of Michigan's thumb.

Another thing: Digital TV does not work. We used to see a good amount of over-the-air TV via tropo all summer long. It's now all gone. The DTV stations from the Midland-Bay City-Saginaw-Flint market can simply not be seen through the attenuation of trees and overall distance. The only DTV we see now is ch11 from across the lake in Alpena. It is very susceptible to noise and especially tropo. It's hard to watch a full show without interruption. Forget "granny boxes". A total waste of time here. All other TV is gone. All the stores that used to have TVs playing channel 11 are now off. People will only spend \$50 a month for their home sets, not ones casually placed for entertainment. It's a new world. Lots of people now depend on DVDs".

From **Rich McVicar**: "I was in the WTFDA in the early 80s, so it has been a while. I'm sure there are going to be a few of us who have TV DXing in their blood from years ago and are getting juiced up again now that the low band channels are gone". And that's all this month!

Thanks to Don Vogeles, Steve Rich, Fred Vobbe, and Bill Hale for information appearing elsewhere in this column.

Steve reports WOHL-CD in Lima, Ohio is carrying ABC on their 35-1 program and CBS on 35-2. They had been a Fox affiliate in analog – Fox is now on a subchannel of Lima station WLIO.

WOHL's coordinates are the same as those of WLIO, a full-power station whose old analog channel was 35. WOHL and WLIO are also co-owned. And their VP of Engineering, Fred Vobbe, is a Dxer. (probably well-known to AM Dxers as an active member of the National Radio Club)

Fred confirms WOHL is using the old WLIO analog antenna.

The Victoria *Times-Colonist* is reporting CHEK-6 there and CHCA-6 Red Deer, Alberta will go off the air at the end of August. Presumably this will include CHEK's three low-powered relay stations and CHCA's more powerful relays in Calgary and Edmonton. (the latter haven't been on for much more than a year!)

Last minute reports suggest an employee group is preparing an offer to purchase CHEK.

Often, a station "closing" in Canada really means that the local studio will be closed but the transmitter will remain in service rebroadcasting some other station. That does not appear to be the case here – there is no indication the transmitters will end up relaying something else.

WDJT-58/DT46 Milwaukee, WGVK-52/DT5 Kalamazoo, and WLFM-LP 6 Chicago all objected to WWAZ's proposal to move to channel 5 from a Milwaukee transmitter site. (it's the same tower as Milwaukee's PBS stations WMVS-10/DT8 and WMVT-36/DT35)

I'm not entirely sure why WLFM objects. WGVK, obviously, is concerned about cross-lake propagation on channel 5. WDJT may not appear to "have a dog in this hunt" but they're on channel 5 on cable throughout the Milwaukee area - and are likely concerned about "ingress" interference from an OTA channel 5 signal.

WWAZ claims the move is necessary because the existing tower would not support the additional weight of the channel 44 DTV antenna -- and the station cannot relocate because of WWRS-52's channel 43 DTV operation in the same area.

WDJT and WGVK claim WWAZ cannot abandon service to viewers in areas north and west of the authorized channel 44 facility to move their tower further southeast. WWAZ counters that two DTV Replacement Translators, located in Ripon and Columbus, will fill the loss area.

WGVK and WLFM-LP claim the proposed WWAZ facility exceeds the maximum ERP limit for low-VHF stations in Zone 1. They also claim the proposed antenna pattern is "too directional", with a 30dB spread between maximum and minimum radiation.

WWAZ and the FCC concur that while the proposed facility exceeds the normal limit, it does not exceed the coverage of the largest station in the (Green Bay) market, WBAY-2/DT23. The DTV rules have no limit on ERP when required to replicate the coverage of the largest station in the market. (a Columbus, Ohio UHF DTV station used these provisions to request a power increase to 1700kw, 70% in excess of the nominal 1000kw limit for all DTV stations.) They also concur that the 10dB limit on antenna directivity applies only to analog stations.

WGVK also claims that potential tropospheric ducting across Lake Michigan may result in serious interference to WGVK's existing signal. In my opinion, WGVK is quite right to be concerned! - but as a matter of policy the FCC does not consider DX propagation when assessing applications.

Finally, the FCC finds that allowing this move will free up channel 44 for assignment to WLS-TV in Chicago. WLS received an entire 4.75kw of digital power on channel 7, and is having difficulty reaching area viewers. The Commission has simultaneously released a proposal to move WLS from 7 to 44.

Assuming the FCC grants WLS permission to move their main DTV facility from channel 7 to channel 44, the channel 7 facility still won't go dark. WLS has also filed to keep channel 7 active as a DTV Replacement Translator, at the same power level as currently authorized.

This is more than 15 times the normal 300-watt power limit for VHF DTV translators.

As you may remember from last month, WTVF here in Nashville has filed for a 100kw DTV Replacement Translator on channel 50. 100kw is roughly 7 times the nominal 15kw limit for UHF digital translators. The FCC has not yet acted on WTVF's request for 100kw, though they have been approved at the nominal 15kw limit.

In Boston, WHDH-7 will be returning permanently to their pre-transition channel 42. They already hold Special Temporary Authority to do so. WSAH Bridgeport, Connecticut has agreed to accept some interference they will receive from the WHDH-42 facility.

WNJB-8 will remain at its existing site; it's giving up on moving to the Empire State Building.

Much of the Mexican information this month is fairly old. Jim Thomas passed along some excellent hints for Mexican information, which will take some time to sort through. In Mexico, often translators take the same call letters as their primary station. (just as DTV Replacement Translators do in the U.S..)

The two Sonora stations have been off the air for some time. These were translators; during a visit to the area, COFETEL personnel found no signals on these channels. The President of the Municipality of Guaymas told officials he wasn't aware of the stations' existence.

Good (DTV) DX!

- NEWS ITEMS -

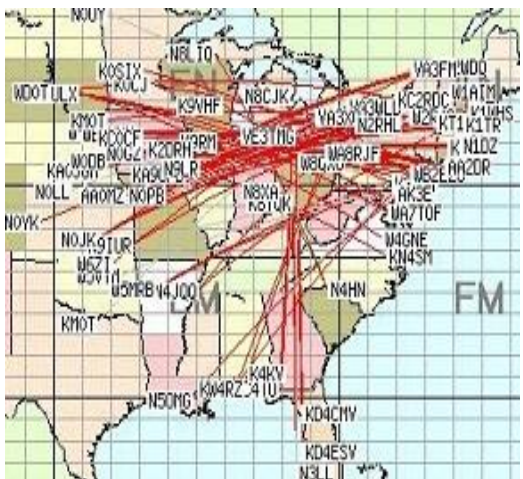

\$ No more "Radio Shack" - - The business built on sales of radios and radio-related gizmos, gadgets, parts and tubes, is now known simply as 'The Shack'. I guess they didn't want to be confused with (listed in my phone book) 'Book Shack', 'CD Shack', 'Copy Shack', 'Donut Shack', 'Fun Shack' (hmmmm), 'Game Shack' and on and on. And don't forget 'Sugar Shack', hi.

\$ The FCC has renewed the license of KSDZ-95.5 Gordon, Nebraska despite the objection from a local minister who contended the station handled obituaries in a manner unlike they were submitted, supposedly by that padre. The FCC ruled that since stations aren't required to broadcast such announcements, this petition didn't merit a license denial.

The Editor's Note

A satisfying E-Skip season for most has come to an end. The highlight opening for the eastern half of the U.S. had to have been on July 29, which featured several hours of Es into the 144 mhz. band and beyond from the east and gulf coasts to the Midwest. A few DXers logged VHF-low LPTVs during the opening. The amount of DTVs logged via e-skip continued to climb as well in July and early August, including a handful of successful decodes over 1400 miles. The double-hop pipeline into New England and the eastern Great Lakes continued as well until activity diminished. A lot of what was perceived as not possible heading into this DX season has been proven otherwise. Tropo meanwhile has not been so fluent yet, perhaps as we get into September things will pick up.

For a glimpse of what kind of DX was out there this e-skip season, look no farther than the reports in this month's column. Several of our reporters had 2000 mile+ double hop logs, including Jim Pizzi's 2806 mile reception of Colombia.

Says William: A new era of TV DXing began on Jul 13, 2009 when channels 2 and 4 became wide open after the remaining USA analogs left the airwaves. It started fast, with tentative Colombia and confirmed Venezuela received that day by double skip. A new country, the Dominican Republic later in the evening. On Jul 18, Euro audio on E-2. On Jul 22, my first confirmed logging from Mexico, followed by some double skip from Mexico on the 26th. Double skip has been seen on other days too, with signal strengths markedly lower than regular skip though some colour pix at times. These weaker signals have been hidden from me during the past 33 years of TV DXing – now they are visible. This is awesome!"

Robert Grant (N8NU)

231 E Temperance Rd. Temperance, MI 48182

Rq3d@yahoo.com

Temperance is in SE corner of MI. (EN81fs)

Primary System (Temperance): :

Sylvania (Funai) 6427GFF TV w/integral SDTV tuner.

Channel Master Advantage 3020 on chimney at about 33'

Manistique "East" is in Upper Michigan (EN65vx) – not the same Indian Lake QTH I've been DXing from in recent past years (about 5.6 miles east of that), so all DX is considered "new".

Primary Systems (Manistique East):

Unknown Make 4-bay UHF bowtie with RDX labs UA-900 preamp. Zenith DTT900 and Zinwell ZTA-970A CECBs. Action 5" B/W TV.

Some cities misspelled for space concerns.

All stations logged are ATSC digital unless marked with system identifier.

A → NTSC analog, Americas channels

No "DT" suffixes shown as they have been officially discarded.

 zw Zinwell, 6m magnet mount

Says Robert: "Of course, the long distance highlight was catching "Televiscentro 2" Managua by Es. I don't know their call sign for sure – they do not advertise any, and neither their classic callsign YNTC nor the YNFA302 callsign from DX Info Centre show up on databases today.

We rented a different "cabin" Up North this year, actually a lakefront house larger than our own, with a balcony facing the lake (where I could stand my 4-bay). Being about 300' from Lake Michigan (as opposed to about 3 miles) made a huge difference in Tropo (perhaps the Tropo was much stronger this year, but I doubt it).
 (contd. on right side...)"

(Robert continued): "Even low-power DTVs made the "tropo-trip" along the whole length of the lake. Most of the Chicago area stations were virtually "semi-locals", yet each one was a greater distance than ANY tropo on DTV from Temperance. WCCU in Urbana was the same station that had been the analog DX best from Indian Lake.

The tropo was great, the sporadic-E, less so. With the exception of the 7/29 opening, which saw me involved in other vacation activities, the greater part of the 2009 skip season ended after 7/23 as suddenly as it began on 6/12.

It can be hard to get a local ID from a Mexican TV, so it was really neat to see a wildly animated ID with huge letters from XHQRO (during kidvid). Not so neat was to discover Cancun was not even as far from Temperance as Lethbridge or Camagüey.

The Zinwell ZTA-970A is a relatively good performer, though not as DXer-friendly as the Zenith, I can use it portable with my 5" Action b/w and a homemade battery pack, handy when one finds a lighthouse where one just walks inside and climbs to the top, no fence, no museum, no entry fee (Peninsula Point Light, near Stonington)."

Says Jim: “Fantastic-amazing-the best-like a dream but just indescribable DX. The best I’ve ever seen in 50 years of DXing. I’m sorry to see the season end – can’t wait for some Es in December & January.
 Lot of video on 8mm tape – transcribing it to VHS and maybe to DVD if I can figure it out. If I do, I’ll edit it down to something manageable. I’ll ask if anyone knows how to, and send them a copy and maybe they’ll be able to put it on the club’s website. If anyone out there is interested, let me know. Tell me what I need to provide (non-computer) to make it work.
 Well, I hope everyone had a great season. There’s still Ms and maybe some tropo – none to speak of here for now.
 Good DX to all.”

The Editor's Note

The new TV DX landscape, depending on where you are, continues to entertain. The plains, gulf coast, and Texas saw more potent E-skip into early August, while a few nice openings occurred west of the Rockies and even to the Pacific Coast, though with less intensity. While the Es wraps up, the clashing of Summer & Fall is often a formula for tropo. Definitely keep an eye out for it east of the Rockies, and along the Pacific coastline as well.

Jeff Kadet checks in this month, along with reports from Dennis, Don, John, and William. Enjoy!

Jeff Kadet

Box 20, Macomb, IL 61455

Times 24-hour PDT

This report is for July 2009. Like other DXers, I have new tropo loggings on some channels freed up due to analogs gone off, at SBarb & Wasco. While in Wasco, high temps were 103F/39C. Hot temps inland in much of July (stable, no wind) gave good inversion layer boundary along coast resulting in improved & fairly steady tropo ducting. So-Calif coastal tropo SBarb to San Diego/Tijuana up to 200mi/320km:

Jun28-30	Fair+
Jul1	Poor (inversion getting higher)
Jul2-4	Out of town-WASCO
Jul4 aft	Good+
Jul4-nite 6	Variably fair
Jul7-13	Var. poor-fair (some inland cooling)
Jul14-16	Good+ (heating)
Jul17	Fair
Jul18-19	Poor
Jul20-28	Poor+, some stns fair+ (VERY hot inland & LOW layer)
Jul29-31	Very poor (inversion getting higher)

Analog stations observed off air:

Oxnard KBEH 63 "nightlight" went off Jul 1.
At Wasco Jul 2 (most prob off June) **Bakersfield** KGET 17 KERO 23 KBAK 29 KDBK-LP 41 KUVI 45
Fresno area KFTV 21 KSEE 24 KMPH 26 KFSN 30 KGMC 43 KGPE 47 KNXT 49 KNSO 51 KAIL 53
KFRE 59 KTFF 61 **Modesto** KUVS 19 **Los Angeles** KCBS 2 "nightlight" went off Jul 12.

About last month's SBarb tr Jun-30 analog "Ch 56 poss Tecate BN translator of XHUAA 57 Tijuana, new tentative": It may be better described as a

relay, with XEW-2 net pgms *ahead* (a few secs to a minute+) of XHUAA 57. 56 seen occasionally in July also. Hopefully more info soon.

Tropo loggings are Calif & Tijuana BN
New are underlined but note asterisks.*

Analog

KNET-CA 25 Los Angeles SS apx 90E
KSDX-LP 29 San Diego (inform, SS) 175
(KSDX-LP 29 is seen at my place also. It coexists with XHTIT-DT 29 Tijuana!!)

*Pending statistics clarification of some June & July loggings, for now I am not counting a new station that has immediately replaced another on the same channel in the same area, treating it as a "call-letter change" and not a "channel change". I could be persuaded otherwise, as they might be considered separate stations. Stay tuned.

July 24 Es 1115-1300 Don's place

Analog

Chs 2-4 mostly unstable jumble, Spanish, some Mexico network logos.

LAST CHANCE FOR WTFDA/NRC CONVENTION 2009!!

This years NRC/WTFDA Convention will be held in the Lehigh Valley of Pennsylvania, in Allentown. It will again be a joint convention. Besides the regular events such as the auction, banquet, and quiz, the AAA Lehigh Valley Ironpigs minor league baseball team will be in town, in their last home stand of the season. The convention will be held at the Rodeway Inn 1151 Bulldog Drive, Allentown, PA 18104. This hotel is conveniently located near Routes 22, 309, and the Northeast Extension of the PA Turnpike. It is also close to the Lehigh Valley International Airport.

1). To reserve your room call the Rodeway Inn at 1-888-395-5200. Make sure to mention you are with the National Radio Club for the \$69 rate (before Taxes). Up to 4 people can stay in the room. You can get 1 king bed or 2 double beds. The website for the motel is www.rodewayinnallentown.com. This motel was formerly known as the Days Inn Conference Center.

2). Convention registration is \$45. Make checks payable to "National Radio Club" and mail them to Bob Smolarek at 31 Mark Drive, High Bridge, NJ 08829. You can also send in your registration fee using Paypal from the NRC website at <http://www.nrcdxas.org>.

After a slow start '09 has turned into a good season, after all. The WGMF-107.7 Tunkhannock PA translator on 95.3 here went silent about a week ago. That's why I'm calling KXMO-95.3 an old friend, as well as everything else on this frequency. I note that the city of license of this translator changed from Wilkes-Barre to Mountaintop, PA which is a little berg about five miles from here that sits behind Penobscot Mountain. I hope that the tower for this was moved there and that this is gone for good. Total stations logged from NE PA is at 1224. Not impressive considering the fact that I've been keeping the log here since July '70; 39 years. Of course, for most of that time I have not been using very good equipment. The Sony XDR has provided many more open frequencies and my new stations log has been really growing. In the 13 months I had the Sony in service, I've added 88 new stations

July 28 Es

1240	KPLO	94.5	Reliance	SD	"94 Country KPLO"
1247	KGFX	92.7	Pierre	SD	"...in downtown Pierre"
1320	KLND	89.5	Little Eagle	SD	

All are new except the three underlined.

#1. I heard the station call "KJRT" on 94.9. Doing an internet search I came up with a KJRT translator in Tulia, TX, K235AR running 100 watts.

Harry Hayes, KUSO in NE is "US 92".

Not much of an Es season for FM or 6 meters here.

All loggings are new. Slow start to the Es season here in Southern Oregon.

Jim Pizzi

Very productive this reporting period--lots of decent openings with many new loggings, but did spend a lot of time on the TV with all that 2 Es coming to the northeast. Will try for some Ms in the off season with also some tropes tossed in. Hope everyone had a good season with more to come.

John Ebeling, Bloomington, MN

July 29, Es

all about 1830-1850 EDT

WEKS	92.5	Griffin	GA	'The Bear' Atlanta ads.
UnID	94.9			"Kicks 101.5" (yes, this was on 94.9)
KCBN	93.9	San Angelo	TX	"93.9, San Angelo's Christian Radio"
WCGQ	107.3	Columbus	GA	RDS calls
WSTH	106.1	Alexander City	AL	"La Grange Toyota" ad.
WZTH	105.7	Troy	AL	RDS calls, rap music.
WYAV	104.1	Myrtle Beach	SC	ad "Miss Myrtle Beach" contest.

All June 12th DX were heard while mobile in Detroit and Grosse Pointe Farms, MI, during my lunch break at work. The east side of Detroit is (very oddly) BETTER for FM DX than Temperance. There, most of the alternate channels (92.7, 93.5...every 800 KHZ...107.9) are clear (though those new Canadian FMs have closed a few of them), whereas in Temperance, the Detroit stations are somehow strong enough to lock all DX out, and every channel is covered.

This was a very strong opening. It takes a good FM signal to get through the hybrid drive electronics in the Prius (bizarre fact – AM DX is excellent in the Prius!)

The July 29th opening did not last long, but was one of the strongest and most widespread of the year. The VX-5 is a good radio for many things, but on the FM BCB, it is about the worst thing in the world for DXing. I was stuck away from the cabin on a family outing. The RDS came in very handy when I could get to the Prius.

Amusing thing happened when I looked up WZHT on the Internet to get their location.

Their webpage loaded up with the banner "HOT 105, THE STATION YOU HEAR EVERYWHERE".

Steve Solomon

My best FM DX catch ever occurred when I wasn't even DXing! Spanish scrolling RDS text caught the corner of my eye along with the ID "PRIMERA" on 88.1. This was part of a blockbuster FM DX day on Jul 29. FM ES past midnight the day before might have been a harbinger. FM ES was occurring in almost every direction during the day. The Primera station was from the Dominican Republic, my first Caribbean FM DX. Later in the day, in a completely different direction, I received state # 35 – Montana – for the first time. I thought that maybe this was going to be the summer of exotic TV DX, but I definitely wasn't expecting exotic DX on FM as well! The Dominican FM was just icing on the cake.

Digital TV switch still hitting bumps

By Jenny Lancour
POSTED: July 31, 2009

ESCANABA - The recent switchover from analog to digital television has left some people in the dark, especially for those who get stations over the air.

Many viewers do not know how to receive the channels they can pick up. Others are left out in the dark completely and cannot receive the channels they did in the past while others are receiving channels they didn't have before.

On June 12, full-power television stations across the nation switched over from the analog signal to a digital signal, as required by the Federal Communications Commission.

Before then and since then, retailers of electronic equipment have been selling converter boxes like hotcakes. Digital televisions have also been in high demand.

"Those have been (selling) steady since Black Friday," said Dan DeRouin who works at Pioneer TV and Appliance in Escanaba.

As is common with change, customers have been complaining about the switchover. When they visit the store, employees ask customers about the equipment they have and try to help with any signal issues from that standpoint, he said.

For channel issues that go beyond available equipment, the customers are recommended to call their local stations, DeRouin said.

"Basically, if you're in this area or south, you're not getting channel 6 anymore...over the air," he said.

Sonny Reschka, vice president of operations and chief engineer at WLUC-TV6, said the local station has been receiving several phone calls regarding the new digital system.

Reception of the local station over the air is related to several factors, he said. From the station's end, it involves tower height, type, power and frequency. From the customer's end, it can involve converter boxes, digital televisions, and the right antennas pointed in the right direction.

Another major factor in reception is the terrain, he added.

"We're learning...how this digital beast turns out," Reschka said. Land terrain, obstructions and distance are now playing a bigger role in whether or not viewers get channels, he said.

"Digital is an all or nothing process," he said, explaining reception will not ever be fuzzy like the analog system but will only be received or not received with digital. Common questions are answered on the station's Web site.

Reschka said the outlook is improving for increased viewer reception of the digital system. Satellite customers with Dish Network are now offered local stations. This has increased the TV6 audience 25-30 percent and includes customers who have never received the local station, he said. Direct TV is working to have local stations available to over-the-air customers by this fall or early winter, he added.

In an effort to increase its signal area, TV6 is looking to up its power from 63,000 watts to 83,000 watts and increase its tower height to 186 feet, Reschka said. Its tower is located southeast of Republic.

"With increases in power and height, that will certainly enhance our coverage area," Reschka said. Currently the viewership is more than 200,000 customers.

According to Craig Gierke, manager at Radio Shack in Escanaba, the local business has answered hundreds of customer questions and sold hundreds of converter boxes. Employees will assist with how to hook up boxes and antennas.

But for some households, no equipment is going to allow them to receive stations, the manager said.

"Some people are very upset," he said, explaining their frustration with the loss of some local channels. "There are huge areas that don't have television reception...It's all about where you live."

Gierke said the only current option for over-the-air reception of local channels is to subscribe to Dish Network which offers, as of July 8, the options to pick up local stations like WLUC and PBS.

"In the long term, digital will be a real good thing with multiple programs on one station. But in the short term, not," he said.

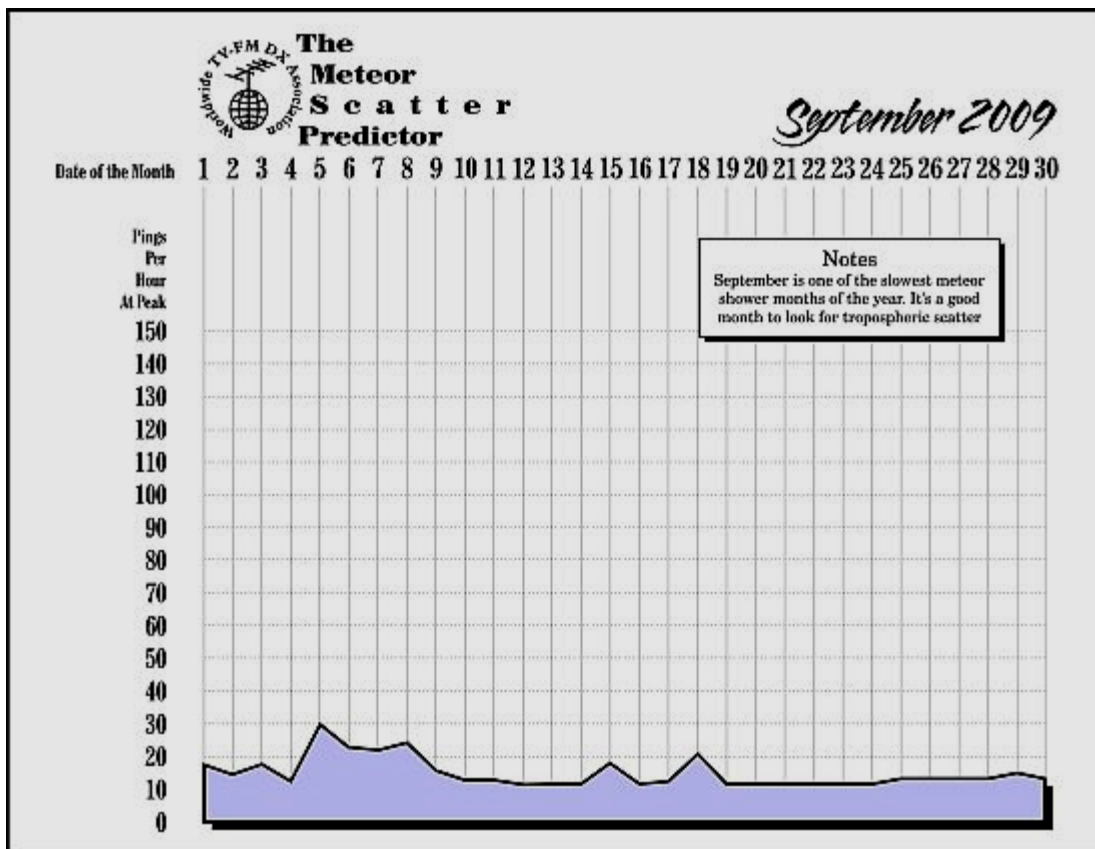

Escanaba's Walmart sold thousands of converter boxes before and after the transition and antenna sales were also high, said Marlene Poquette, manager of the electronics department.

Customers have also expressed concerns about reception with the digital switchover, she added, saying they have not hooked up their equipment correctly or they do not get the stations.

Area cable customers did not experience interruptions in their cable service except for maybe right when the switchover occurred, said Sandra Gottschalk, operations manager at Charter Communications which has an office in Escanaba.

"It was a seamless transition for Charter Communications customers," she said. "We did a lot of education before (the switchover). If you have Charter Communications, you're fine."

SEPTEMBER METEOR SCATTER CHART BY JIM THOMAS

DIGITAL CONVERSION HASN'T BEEN SUCCESSFUL

A post From Lohud.com (Lower Hudson Valley NY)

I agree with (name withheld) in White Plains ("Digital conversion isn't working for everyone," Aug. 1 letter). Just what is the FCC going to do about this mess it created? The only channel I get is NBC Channel 4. As far as I'm concerned, we better go back to the way we were. Refund us our money; this whole digital idea stinks. Converter boxes do not work, I can't get through on the hotline; no one is there. I can't write what I really feel, you would never print my letter.

If I didn't have my TV in my living room, I wouldn't have a thing to watch. I like to watch the news while having breakfast in my kitchen. But that's gone, just like my \$40 for the converter box. Both breakfast and money "gone with the wind." I even spent money on a new HD antenna. All for nothing. What did I get out of this? Nothing but aggravation. They got the money and I got the shaft.

So come on FCC, do the right thing, either fix the situation or let us go back to the way we were.

HUH?

Q and A from the New York Times. "Q" is Clueless.

Empire State Signals

Q. Now that there is no broadcasting of TV channels over the airwaves, what purpose do the antennas on top of the Empire State Building serve?

A. Television and radio signals, just as before. "The only change has been that analog has been shut off and replaced by digital," the building's management said in a statement. "There has been no other change."

Besides digital television, many radio stations use the building's 204-foot antenna structure, according to the Empire State Building Web site.

NEW! VHF & UHF-VHF  **OUTDOOR TV ANTENNA**
WITH "QUICK RIG" — "B" CONSTRUCTION

E-Z-BEE
Featuring the NEW, Matchless
"B" Construction

Designed for
HIGHEST GAIN
in Fringe Areas and
QUICK, EASY INSTALLATION

The SPICO E-Z-BEE outdoor antenna has proven itself, under rigorous testing conditions, that it will outperform and outlast all others.

Opens as easily as an umbrella—no screws, no tools needed!

E-Z-BEE
MODEL 904
VHF only

By the makers of the famous
"Super-Phantom" Indoor TV
Antennas

**The Only All-Channel
VHF Outdoor Antenna with ALL these features:**

Unique "B" construction	Quick-rig, pre-assembled foldaway for E-Z installation
Forward resonator section	Non-corrosive construction
Mid-band parasitic resonator	May be stacked in any number of bays
Narrow beam width eliminates interference and ghosts	Elements securely held and positioned
High gain throughout all channels	Uni-directional
All aluminum, eliminates electrolytic action	High front-to-back ratio

Model 904 (illustrated) for VHF and COLOR _____ List \$16.95
Model 904U—Available with attached bowtie for UHF, VHF and COLOR

Quick rig for permanent installation within minutes. Pre-assembled, foldaway, individually boxed.
