# THE WORLDWIDE TV-FM DX ASSOCIATION

*Serving the UHF-VHF Enthusiast*

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: DOUG SMITH, GREG CONIGLIO, BRUCE HALL, KEITH MCGINNIS AND MIKE BUGAJ.

*Editor and publisher:* **Mike Bugaj**

*Treasurer:* **Keith McGinnis** wtfda.org Webmaster: **Tim McVey**

wtfda.info Site Administrator: **Chris Cervantez**

*Editorial Staff:* **Jeff Kruszka, Keith McGinnis,**

**Fred Nordquist, Nick Langan, Doug Smith,**

**Peter Baskind, Bill Hale and John Zondlo,**

Our website: [www.wtfda.org](http://www.wtfda.org); Our forums: [www.wtfda.info](http://www.wtfda.info)

MAY 2010

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

<http://www.wtfda.org/join.html>

You can now renew either paper VUD membership or your online eVUD membership at one convenient stop. Use the link above to either join the WTFDA or renew your membership in North America's only TV and DX organization.

## TROPO AND A BIT OF ES

April began with a bang with some long distance Gulf tropo on the first of the month. Steven Wiseblood (TX) went over 900 miles with his FM tropo catches to Tampa. And then on April 4<sup>th</sup>, Jeff Lehmann and Keith McGinnis, both in the Boston area, heard FM tropo from Florida! Jeff's reception of WMNF 88.5 works out to about 1173 miles. On April 6<sup>th</sup> Steve heard Orlando by tropo at 998 miles. E skip made a lowband TV appearance from Florida to the northeast on the 7<sup>th</sup>. Chris Dunne in FL saw Es from Central America on the 21<sup>st</sup>. So, for some people, April was a pretty good month!

## MEMBERS AND MORE!

This month we welcome **Roger Windsor** (IN), **Ray Dees** (GA) and **Adam Ebel** (VA) to the WTFDA. Roger has been DXing for decades and we're glad to see him here. Ray Dees has been active on the WTFDA discussion boards discussing RDS and hopefully a new RDS decoder that will show you call letters and a PI code at the same time. Adam has been interested in the WTFDA for a few years now and finally took the plunge. Welcome to all three of you!

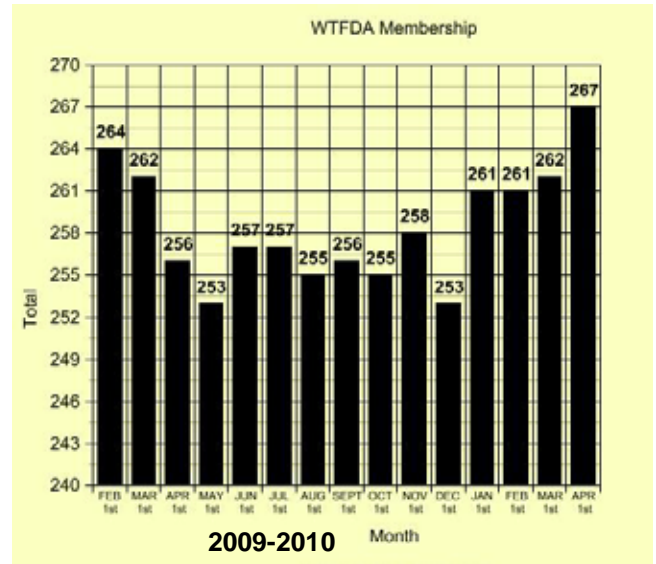

Renewals were received during the period from March 15 to April 14 from **Chris Dunne** (FL), **Luis Franceschi** (PR), **Fred Newlin** (NY), **Jon Petricoin** (PA), **Tim Katlic** (CA), **Joe Perge** (OH), **Ivan Silva** (Brazil), **David Cox** (AL), **Pat Dyer** (TX), **Paul Crego** (NY), **Don Voegele** (WA), **Jacob Norlund** (MN), **Dan Novotny** (WI), **Aaron Mitterling** (IN), **Jason Hustedt** (NJ), **Frank Merrill** (IL), **John Cereghin** (MD), **Larry Weisberg** (NH), **Gary Hickerson** (OK), **Roger Gravelle** (ON), **Saul Chernos** (ON), **Gray Fulk** (NC) and **Fritze Prentice** (AR). And so far we have four members who have sent in \$10 to unlock their download of Emisoras de FM. If you live in an area where the eBook would be useful to you, download it and send in your ten bucks for the password to open it. You won't regret it. Remember, for most of us, E skip season is right around the corner.

## CONVENTION 2010

Speaking of things around the corner, this is another biggie. Check out the info on this

summer's WTFDA/NRC convention in Rochester and make note of the dates. This one is a week *before* Labor Day.

## THIS CANNOT BE RIGHT

I see it but I don't believe it.

## IN THE MAIL TODAY

This in from **Bill Draeb** (WI) who writes: "With the DX season about to start, I have this comment. Instead of hanging on to DX loggings for months or even a year before they're sent in, I would like to see reports sent in monthly. It's difficult to relate to reports that are a year old. I have difficulty remembering what happened last week, let alone a year ago. Something that old really isn't news anymore. I hope DX is plentiful."

Thank you for your comments, Bill. For me, usually by the time January rolls around, the previous summer is just a blur. I can't even remember what dates were good for Es or tropo. If the reports were more timely, then I might be able to make a connection.

Also I would encourage those of you who only post your loggings to the wtfda.info boards to also send a copy of them to your respective VUD editor (John Z., Keith or Nick). Not everyone reads the posts on the discussion boards but everyone in the WTFDA gets a VUD every month and sees them. These days none of our top notch editors is very busy, especially John, so throw some loggings his way. Thanks!

That's all for May. Look out for Es and we will see you next month! –Mike

“Boewowe”, Nevada should be “Beowawe”. It's bizarre either way!

Looks like the end of the road for new analog low-power stations. The FCC has announced that those with applications on file for analog - LP stations have until May 24<sup>th</sup> to amend their applications to specify digital operations. Applications that have not been amended by then will be dismissed. I count 806 such applications on file.

The new-station applications in Alabama were filed by the Alabama Educational Television Commission, (AETC) licensee of nine existing PBS stations in the state. Except for Mobile, each of the new stations is to be at the site of the existing station. (and they indicated they intended to file an application to move existing Mobile station WEIQ to the site of the new station)

The stations were to be used for the Alabama Digital Emergency/Education Network. Information to be transmitted would include:

- Voice, video, and data communications to first responders, including in emergency situations.
- Preparedness training for first responders.
- Public safety communications to the general public.
- Educational and instructional programming to the general public.

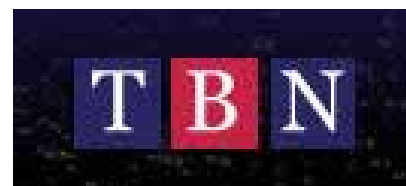

AETC notes Section 337(c) of the Communications Act requires the FCC to waive rules if necessary to allow an entity seeking to provide public safety services to operate on spectrum assigned to other purposes, if the FCC makes five specific findings:

1. No other spectrum, assigned to public safety services, is immediately available.
2. The use is technically feasible without causing interference.
3. The spectrum requested is consistent with other allocations for public safety services in the area.
4. The frequency was allocated for its present service at least two years before the request.
5. Grant of the application is in the public interest.

The FCC dismissed AETC's request. They found, first, that AETC proposes to use only part of the spectrum in question to provide public safety services. The Commission cannot determine, based on the application, whether the principal use of the requested spectrum would be public safety.

Second, they conclude AETC has failed to demonstrate the spectrum in question has been available for its current use -- digital TV -- for at least two years. AETC argues that the channel 14-51 spectrum has been allocated for TV use for more than fifty years. The Commission, however, regards that the specific channels requested have not been available. They specifically cite the Birmingham, Huntsville, and Mobile channels, which were occupied by analog stations until last June.

TBN LPTV W51CW Wilmington, NC has been transferred to "TV Band Service LLC". This firm seems to be in the business of promoting "white space devices". I suspect W51CW will cease to operate as a TV station -- or TVBS LLC will obtain an experimental permit to operate their devices on channel 50 & prove they don't interfere with ch. 51?

The proposed move of WSPF-CA St. Petersburg, Florida to channel 38 is a bit ironic. This LPTV station is municipally owned. Back in the early days of UHF TV, there was also a municipally-owned TV station in St. Petersburg. At the time, the call letters were WSUN-TV. And the station was on... channel 38.

Good DX!

#### — TECHNICAL CHANGES —

##### PROPOSALS FOR NEW STATIONS

BC Campbell River 88.7 NEW Applies for: 26 w/ (Christian) (Total Change Ministries)  
BC Hornby Island 96.5 NEW 5 w/ (Community) (Hornby Community Radio Society) (this application was originally approved in 2007 with the CP expiring on June 26, 2010. It is unclear why they didn't apply for an extension rather than submitting a new application)  
ON Iroquois Falls 104.7 NEW 50 w/ (Community) (Country Rock mix)

#### — DISMISSALS —

BC Saltspring Island 98.5 CIOC-FM-1 Application denied for 3.5 kw; would have been a co-channel translator of CIOC-FM Victoria

QC Mont-Laurier 98.3 ----- Application for new station with 50 w/33 m; was to relay CFOR-FM Maniwaki.

— OTHERNEWS —

NEWS ITEM: The CRTC will be holding a hearing on May 12, 2010 to deal with several repeat offenders who have allegedly continued to breach the Broadcast Act despite earlier directives from that agency to clean up their act. The stations involved are CHSC (1220) St. Catharines, CKLN (88.1) Toronto, CFAR (590) Flin Flon, and the AVR Network which consists of: CKAV (106.5) Toronto, CKAV-2 (106.3) Vancouver, CKAV-3 (88.1) Calgary, CKAV-4 (89.3) Edmonton, and CKAV-9 (95.7) Ottawa. Non-compliance of regulations could possibly result in suspension or revocation of their licenses.

WI Kenosha	88.5	"WIPZ"	The FCC has ordered UW-Parkside in Kenosha to turn off an unlicensed radio station operating on 88.5. The station uses the "WIPZ" callsign and has a range of about five miles. FCC inspectors found the station far exceeded the power output allowed for unlicensed Part 15 stations.
WI Union Grove	95.1	WIIL	Has changed its community of license from Kenosha (Kenosha County) to Union Grove (Racine County), although the station's transmitter location and facilities remain unaltered. This legally moves WIIL from the Chicago market to the Milwaukee-Racine market, helping owner Nextmedia comply with ownership caps. The company previously owned eleven stations in the Chicago market -- three more than allowed under current law.

\*\*\*\*\*  
**NEWS ITEM: From Oregon's Salem StatesmanJournal via Ralph Stroebe!** — (April 1, 2010) [Station Translator Source of FM Radio Issues](#) - Interference heard in downtown Salem for two days fixed, officials say - The pulsating static interrupting FM radio stations in downtown Salem is gone — and no, it wasn't just your radio. After two days, the source of the problem was identified: a translator — a device used to re-broadcast another signal — on top of the Equitable Center at High and Center streets NE. The *StatesmanJournal* received nearly 100 e-mails and phone calls, with most reporting problems with stations in the 90 megahertz range — the stations with numbers in the 90s — and most problems being downtown. The translator belongs to Bicoastal Media, and it is used to broadcast Albany country station KRKT on the 96.3 frequency to the Salem area. The translator had "electronically drifted," Bicoastal officials said. Although it did not appear to be damaged, it was broadcasting into other stations as well as its own, known as "spurious emission."

City of Salem engineers contacted Bicoastal's Tiburon, Calif., headquarters about 10:30 a.m. Wednesday, said Kevin Mostyn, the media company's vice president and director of technology. It was the first he had heard of the problem, Mostyn said. Eugene-based engineers were sent to fix the translator, and Mostyn said the problem was corrected by 1:10 p.m., although he was short on details. "We were able to get somebody . . . to go in and make an adjustment, so now everything appears to be OK," he said. "It appears not to have been damaged, but it appears to have drifted slightly," he said. "It was an electrical drift."

It wasn't clear how long the problem had been going on, but those who contacted the Statesman Journal said it had been noticeably worse in the past few days. Ken Lewetag, the general manager of Northwest Television, said that broken antennas can often cause "splatter," when instead of broadcasting on the correct frequency, small bits of the station spread across the spectrum and interfere with other stations. Mike Gotterba, a spokesman for the city of Salem, said his radio engineers started investigating Tuesday morning after several complaints of pulsating interference. Engineers used city equipment to detect the frequency that was causing the troubles and contacted Bicoastal Media, he said.

Although it is possible for the FCC to fine radio stations for broadcast interference, there's many mitigating factors, spokesperson Jessica Almond said. "A lot of translators are not manned, so we don't hold the licenses to a very high standard of knowing something's gone wrong right away," she said, adding that weather is often the culprit. "They need to look at the totality of the circumstances — was it totally a mistake? Is it weather related? Is it something the station could have prevented?" Mostyn said he's pleased the problem has been fixed, and wished that he had known about it earlier. "Had anyone called us earlier, we would have fixed it right away, but we didn't know about it," he said. And, most of the people who contacted the Statesman Journal spoke of being relieved, having thought it was just them. "I was just about to call the dealership to see if I needed a new radio," wrote Sarah Nash.

**NEWS ITEM: The CRTC will be holding a hearing on May 12, 2010 to deal with several repeat offenders who have allegedly continued to breach the Broadcast Act despite earlier directives from that agency to clean up their act. The stations involved are: CHSC (1220) St. Catharines; CKLN (88.1) Toronto; CFAR (590) Flin Flon; and the AVR Network which consists of CKAV (106.5) Toronto; CKAV-2 (106.3) Vancouver; CKAV-3 (88.1) Calgary; CKAV-4 (89.3) Edmonton; and CKAV-9 (95.7) Ottawa. Non-compliance of regulations could possibly result in suspension or revocation of their licenses.**

**NEWS ITEM: May 10 Seems a 'Go' for FM IBOC Power Hike** – Is May 10 the day stations can implement their FM IBOC power increase without first applying for an STA from the commission? Theoretically, yes.

Of some debate among engineers at this show is the recent Federal Register publication of the FCC's order allowing most FMs to effect a 6 dB digital power increase within 30 days, which would be May 10. The order also establishes application procedures for those stations that are eligible to implement the full 10 dB increase.

Federal Register publication on April 8 triggered a window in which those who oppose the increase can ask the commissioners themselves to review the Media Bureau order allowing the increase. The agency recently dismissed two such requests, saying they were filed too soon.

One of those petitioners, Jonathan E. Hardis, has re-filed for review, saying the bureau exceeded its authority and that the decision was premature. Other groups may now come out of the woodwork and protest the decision.

If such requests don't result in the order being overturned, that's one hurdle overcome for those stations wanting to implement the power increase. It would also make transmission gear companies happy; the less regulatory paperwork their customers have to file to accomplish the better, they believe.

Aside from possible protests, the other wrinkle to getting the increase accomplished without an STA is a publication requirement the Office of Management and Budget has to fulfill; a legal eagle from one of the big broadcast groups told his clients, "OMB approval is still pending on the procedures by which stations will inform the commission they have increased power to -14 dBc and request to increase to -10 dBc. Until that approval is granted, stations will need to continue to request an STA to increase power. Our experience has been that the FCC is readily granting such requests."

## The Editor's Note

The early part of April wasn't anything like most Aprils for those on the east coast. Significant tropo flared up, starting from the Carolinas southward into Florida on the 1<sup>st</sup> of the month. By the 2<sup>nd</sup>, the activity stretched into the mid-Atlantic, and reached New England by the 4<sup>th</sup>. Incredible tropo paths on FM from Massachusetts and New Jersey to Florida were reported on the 3<sup>rd</sup> and 4<sup>th</sup>. On TV, no such lengths were reported, making one ponder if this opening could have been a casualty of the DTV transition. On the other hand, good consistent DTV decodes from South Carolina to Florida and within the mid-Atlantic and New England states were reported throughout the first week of the month.

After the first week, tropo conditions became like more one would expect in April, except near the Gulf coast and southeast Atlantic seaboard, where ducting was still frequent. Meanwhile, there were even flare-ups of e-skip, once on the 8<sup>th</sup>, as well as on the 24<sup>th</sup>. Let's hope an entertaining April means an even better May!

### Thomas Yingling

Baltimore, MD

Hi all: Much tropo south and north seen here in Baltimore MD...the April Fools Day opening that seemed to last for days! The weather was in 80's, above normal temps. TV is HDTV flast screen 15" Dynex, Antenna the new Channel Master 8 Bay, Preamp BTB CMA-UB CH's 14-69, Channel Master 6 Foot Dish, and the digital stream box that I got new at a hamfest for \$22. It works better than I thought it would...it decodes the picture faster than my Samsung. Check out my website at:

## The Editor's Note

Gulf of Mexico tropo continued to shine in the south, especially during the first week of April, before tailing off a bit. Take a look at Jeff Kruszka's report for some TX-FL trans-gulf tropo. There were a few brief flare-ups of e-skip at various points of the month, otherwise it has been a quiet period across the west coast, Rockies, and plains. But, May is here, as is the promise of a new and exciting e-skip season. We keep our fingers crossed that some of the exotic DX seen last season, especially in the east, makes it way throughout the west this year.

### Dennis Park Smith

3605 Sam Remo Drive  
 Santa Barbara, CA 93105-2523  
 Tel: (805)687-7803  
 Times 24-hour PDT

This report is for March 2010. My SBarb sightings are at my and Don Voegeles' places. My antennas are inside, 2<sup>nd</sup> floor—bowties & ears. Don's outside ants feature a Finco UHF 5-foot dish. The very hilly path to Los Angeles (90-130 mi E) is no better than 'good' on outside ants (very little with inside ants), regular/consistent but rarely with signal change. In contrast, tropo-ducting condx on a nearly all-ocean path along so-Calif coast to San Diego/Tijuana (175-200 mi SE) vary from nothing all the way to excellent, so can be 'good+' on inside ants. These signal strengths ("poor, fair, good, excellent") that I have been reporting over these years are seen on my inside ants, so our coastal tropo appears less good than with a good outside antenna. This is in general, as different areas vary in hilly SBarb. SE tropo was not much better than last month, but Mar 23 was somewhat different.

Feb27-Mar10	None (rainy, windy)
Mar 11-12	Poor (clear & calm)
Mar 13 – 14aft	None (wx front, wind)
Mar 14eve-19	Poor+ (clear-calm, warmer)
Mar 19 night	Fair
Mar 20-22	Poor+
Mar 23 morn	NONE (not sure why)
Mar 23 aft	<u>Good</u> (quickly-interesting)
Mar 23 eve	Fair (o-o-kay...)
Mar 24	Variably poor-very poor
Mar 25	None (windy)
Mar 26-29	Var. very poor-poor

Mar 30-31 None (windy, cooler)  
**Mar 1** 1102+ at Don's place (Ex-ch d59)  
KCET d28 "28" Los Angeles PBS 90 mi E  
 Don saw this d28 in January, now my turn.  
 Local analog K28GY 28 temporarily off air.  
 KCET may be regular but marginal. My SBarb DTV total is now 49 (1 new).

Don & Julia V completed SBarb stay for this year, leaving Mar 31 to return to NW Washington state.

Best of DX to All Dennis

Nice to see some trans-gulf tropo again. WFTS Tampa I think is pretty lucky since New Orleans 29 is along a similar azimuth. Got some nice photos for a future Photo News! Oh, and by the way, my CM4228 antenna height is 6 feet off the ground, in my office. Yes, that's correct!

73's, Jeff

**From the Editor**

Thanks to all for their reports this month. Looks like the season is off to a good start. At the same time Fritze was getting stations down toward Texas I was getting into Louisiana, Mississippi and Florida from here in central Oklahoma. Let's have a few more openings like that!

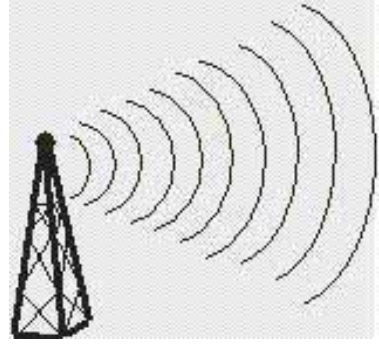

**THE 2010  
 EMISORAS DE FM  
 BY JIM THOMAS**

This 100 page book is available as a PDF file ONLY and is free to anyone who has ever bought a book in the past. For new users the 2010 Emisoras is just \$10. Send \$10 via Paypal to [sales@wtfda.org](mailto:sales@wtfda.org). Mention Emisoras de FM when you send money. In return you will receive a password to unlock the publication after you download it at <http://www.wtfda.info>. Checks/money orders also accepted to the club address. **Sorry, but no hard copy of this publication is available.**

Return this form with your dues or make a copy of it and return that.

# NRC/WTFDA Convention 2010

The National Radio Club and the Worldwide TV/FM DX Association are coming to Rochester, New York for their joint 2010 convention!

The convention takes place Friday, August 27-Sunday, August 29 at the Brookwood Inn in Bushnell's Basin, a quaint village along the Erie Canal just east of Rochester.

For early arrivals Thursday night, we'll have an informal dinner and perhaps a Rochester Red Wings baseball game.

On Friday, it's a day full of station tours around Rochester, followed by a cookout at the home of club member Jim Renfrew - and a chance to play with his elaborate DX setup!

On Saturday, we'll have more station tours, followed by dinner, a speaker and the world-famous club auction. (Note: please - no children during the business meeting or speaker's presentation; hold all questions until after the speaker has finished.)

And on Sunday, it's the Quiz before we all go our separate ways.

If you're thinking of a family vacation this summer, Lisa Fybush is organizing family activities for non-radio-geek spouses and children.

Please e-mail [scott@fybush.com](mailto:scott@fybush.com) if you want more details.

--LODGING - Our host hotel is the Brookwood Inn, conveniently located just off I-490 and adjacent to the historic Erie Canal. Rooms are just \$65/night for up to four people, and breakfast is included.

To make your reservation, please call (585) 249-6000 and mention you're with the National Radio Club.

--REGISTRATION - Convention registration information will be announced in May ... for now, save the date, and please let your convention hosts know if you're thinking of attending so we can start to get a head count. Drop Scott a line at [scott@fybush.com](mailto:scott@fybush.com) or 92 Bonnie Brae Ave, Rochester NY 14618. We'll have much more information as the convention gets closer...stay tuned!

Your 2010 Convention Committee: Scott and Lisa Fybush, Jerry Bond, Greg Coniglio, Rick Lucas, and Jim Renfrew
