VHF-UHF DIGEST

The Official Publication of the Worldwide TV-FM DX Association
DECEMBER 2013

Merry Christmas and a Very H appy N ew Y ear!

THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS:

DOUG SMITH, GREG CONIGLIO, KEITH McGINNIS AND MIKE BUGAJ.

Editor and publisher: Mike Bugaj reasurer: Keith McGinnis wtfda.org Webmaster: Tim McVey

Forum Site Administrator: Chris Cervantez Editorial Staff: Jeff Kruszka, Keith McGinnis, Fred Nordquist, Nick Langan, Doug Smith, Peter Baskind, Bill Hale and John Zondlo,

DECEMBER 2013

Welcome to the Digest for December. This is the time of year when TV and FM DXing takes a siesta for a few months and VUDs start shrinking to reflect that. Perhaps there will be some winter Es floating around in the next few weeks but if not, the hibernations will continue. Zzzzzz.

We have two new members this time around. David Latchum (W1VR) lives in Sanford, FL and his interests, besides ham radio, are FM and 30-50mhz. For equipment he uses an XDR-F1HD, a five element yagi at 30 feet and a Kenwood TS870 three element yagi for 6 meters. Welcome, David!

Our newest new member is Stephen Parker from London, ON. Stephen is interested in DTV DXing. He's got a CM-4221HD with a CMM-7777 preamp, a CM 9521A rotor and a 30 foot tower. You have plenty of TV DXing company there in London, Stephen. That entire area had plenty of TV & FM DX back in early October. I would suggest you join the club logger or the tvfmdx email list to come in contact with some active TV DXers in your area.

During the period from 10/14 through 11/15 we received renewals from Larry Weil (NH), Robert Klinger (WI), Steve Branch (IL), Greg Coniglio (NY), Karl Zuk (NY), Adam Rivers (CT), Gary Olson (FL) and John Vervoort (MI). Thanks everyone for supporting the WTFDA! We've heard from a few members about renewal checks not being cashed in a timely matter. That matter should be resolved and all checks received through the middle of December should now be cashed and your next bank statements should show it.

A few short weeks ago I was out looking for a 40" DTV to replace my older 4 year old 720p DTV in my living room. Without checking any reviews I purchased a 40" element 1080p DTV which was on sale at one of the big box stores for well below \$300. What a deal, I thought. Well, it was a great deal until all three HDMI inputs ceased working nine days later. I took it back and got a refund, then a very short time later, after receiving an email from Jim Thomas about DTVs, I purchased a 42" LG DTV. This time I checked the reviews first and found almost all models were rated good. Jim wrote me that these LG TVs have manual tuning. I'm here to report that yes they have! You can manually tune analog stations, digital channels as well as cable channels. The process used is just like that of the Zenith/Insignia STBs and you can view the signal meter as you tune channels with your remote. The sensitivity of the DTV is like that of the Zenith/Insignia boxes also.

So, if you're looking for a DTV that is very friendly towards TV DXers, check out the LG DTVs.

David Latchum is looking for a tuner with RDS capability for computer logging. What you can do is open up your tuner, find the RDS signal, tap into it and run wiring from there to a Conrad RDS Manager or a Ray Dees RDS Decoder, which connects to your computer where the PI code, etc gets decoded by software such as the Esslinger RDS software or RDS Spy. I realize this is a simplistic answer and not as easy as it sounds on paper, but it can be done. You can look for someone selling an RDS Manager on eBay or eBay DE/UK. I think the Europeans have also found a way to make an XDR-F1HD work with RDS Spy. So on that note, we'll end this for now. See you next month!

Thanks to John Zeis for information appearing elsewhere in this column -- the news of KJWP-2 having made the move Wyoming to Delaware.

Right now, it's just testing with color bars. Transmitter is in Philadelphia, on the same tower as WCAU and at least four other stations.

AK Port Li	ons 92.1		Allotment deleted for a Class C0 station
AK Yakuta	t 91.9	APP	Application submitted for new Class D 25 W-V at 56 m 'Full Service' FM

AZ Eloy	01 1	KVNG	station (Yakutat Tlingit Tribe) New Class C2 station signs on with 740 W/827 m DA (280°) at
AL LIOY	31.1	KVIIO	32-43-07/111-24-00
AZ Salome		KVGG	Is silent
AZ Wellton		KUKY	Fined \$8000 for failure to maintain a Public Inspection File at its main studio
AR Clarendon	104.1	KCON	New Class C3 station signs on with 25 kW/88 m at 34-37-24/91-24-39 [Clarendon is on US 79 about 60 miles east of Little Rock]
CA Alturas	103.3	СР	CP granted for a new Class C station with 60 kW/618 m at 41-32-29/120-16-35
CA Cartago		KWTY	Is silent
CA Johannesburg	98.5	KGIL	CP granted for a new Class A station with 340 W/417 m DA (circular with a
			slight null at 330°) at 35-28-38/117-41-58 [background (short story version per FCC files): a new station was granted on 98.3 in Ridgecrest in 2009, but the
			FAA interceded saying the combination of approved frequency, power and
			tower location would cause Glide Slope issues with nearby China Lake Naval
			Air Station. So, the applicant reapplied for this facility on 98.5 at Johannesburg (with studios still in Ridgecrest) which was granted; the
			pattern's null is directed toward the end of the runway that caused the
			problem]
CA Millers Ranch		KRBO	Returned to the air with Spanish Religious and then filed for a Silent STA
CA Modesto	104.9	KGIG-LP	CP dismissed to move to 93.3; applicant proposed to move the transmitter to alleviate interference from KNCI 105.1 Sacramento
CA Rock Creek	90.7	KRBP	Returned to the air with Spanish Religious and then filed for a Silent STA
CA Visalia	96.1		License cancelled; call deleted
CO De Beque			Allotment deleted for a Class C3 station here
CO Gunnison CO Pagosa Springs	88.7 106.1	KGNI KWUF-FM	New Class C3 station signs on with 6.5 kW-V/106 m at 38-31-41/106-54-14 CP granted for move from 106.3
CO Parachute, etc		KWOF-FWI	Application dismissed for move to 88.5
CO Parachute		KSBP-LP	Is silent
CO Rock Creek Park	107.1	_	City-of-License change (ex: Westcliffe) is now on
CO Trinidad FL East Tampa		K262BK WVVD-LP	CP cancelled for move to 100.5 Application dismissed to move to Seffner on 99.1
FL Jupiter		WJTW-LP	Frequency change is now on (ex: 100.3)
FL Key West	91.9	WKWJ	New Class A station signs on with 1.1 kW/45 m at 24-33-18/81-48-05
FL Key West		WKEY-FM	Frequency change is now on (ex: 93.5)
FL Orland Park	89.5	Pirate	The FCC has fined an individual \$10,000 for willful and repeated violations of operating an unlicensed transmitter on 89.5 MHz
FL West Deerfield Beach	91.9	W220DU	Frequency change is now on (ex: 91.7)
FL White Springs	88.7	WJLN	Program Test Authority for this new Class A station was denied on November
			20 after the application submitted on November 12 failed to provide any of the required directional antenna documentation (deadline is December 4 for the
			station's reply or the FCC will cancel the application) [this is the White
			Springs located near the intersection of I-10 and I-75, not the one located
	405.0		further west near Bristol in the Florida panhandle]
GA Milner	105.9	WFAL	CP granted for new Class A station with 4.9 kW/112 m at 33-09-21/84-05-40 [Milner is about 50 miles southeast of Atlanta]
GU Agana	90.1	KKGU	New Class A station signs on with 250 W-H/193 m at N13-29-22/E144-49-46
HI Honokaa		KJHI-LP	Licence cancelled; call deleted
HI Kula	97.3	_	License cancelled; call deleted
ID Caldwell ID Jerome	103.5	KSAS-FM KZNO	Frequency change is now on (ex: 103.3) [see KZMG comments below] Frequency change is now on (ex: 102.9) [see KZMG comments below]
ID Melba		KZMG	Is silent, per the FCC file: "The applicant has just completed construction of
			new facilities for KZMG (FM) at its new community of Melba, ID, and had been
			operating pursuant to program test authority before going silent on 11/11/2013. While the applicant awaits the issuance of its new license and
			undertakes the process of of hiring a staff to operate the station on a full
			time basis, it respectfully requests Special Temporary Authority to remain
			silent until January 15, 2014." [This is part of a swap of cities/frequencies in
ID Moscow	92.5	KRFP-LP	Caldwell, Jerome, Melba and Sun Valley, Idaho and Elko, Nevada] License cancelled; call deleted per licensee's request
IL Altamont		WJKG	New Class A station signs on with 3.6 kW/127 m DA (235°) at 39-06-26/88-33-
			44 [Altamont is on I-70 about 75 miles northeast of St. Louis]
IL Cuba IN Marengo	98.1 89 9	WBRO	CP granted for a new Class A 4.9/112 m station at 40-29-18/90-07-19 Fined \$1500 for failure to file for renewal in a timely manner
IN Warsaw		WQKV	Changes City-of-License (ex: Rochester) as they increase power to 13.9 kW at
			86 meters DA (circular w/null at 330°) at 43-08-20/85-53-31 [at Rochester,
			WQKV relayed KLVR 91.9 Middletown, California (EMF), but there is no
IN Wilkinson	89.1	WRFM-FM	mention of them relaying KLVR in the new applications] Fined \$8000 for transmitting from a location not specified on its license
KS Manhattan		Pirate	The FCC has fined an individual \$4000 for willful and repeated violations of
			operating an unlicensed transmitter on 89.3 MHz
LA Shreveport ME Portland	106.3	KBLK-LP WJZP-LP	CP cancelled for move to 95.1 CP cancelled for move to 105.1
ML Fortiand MI Mio	93.9	-	Is silent
MS Vardaman	99.5	CP	CP granted for a new Class A station with 1.8 kW/122 m at 33-49-10/89-16-00
MO Chillicothe	102.5		Frequency change is now on (ex: 98.5)
MT Plains NH Dover	90.5 103.5	KZNP WXGR-LP	Is silent Frequency change is now on (ex: 101.5)
NM Tohatchi	101.5		Allotment added for a Class C2 station (Navajo Nation)
NY New York		W292DV	Fined \$3000 for failure to comply with the FCC'S accessibility rule [too long
			to go into here, but you can read the details at:
			http://transition.fcc.gov/Daily_Releases/Daily_Business/2013/db1114/DA-13-2179A1.txt]
NC Boiling Springs	88.3	WGWG	Station is being sold to Columbia International University in
			Columbia; Gardner-Webb Junior College (the current
			licensee) and will operate their station as an online-only facility
NC New Bern	95.7	W239BC	CP granted to change City-of-License from Arapahoe
ND Dickinson	90.7	KSLS	Frequency change is now on the air (ex: 90.9)

	Dayton		W254BA	City-of-License change (ex: Riverside) is on

	Newport	94.3	KSHY-LP	License cancelled; call deleted per licensee's request
	Anasco	90.3	WVID	Fined \$6400 for failing to maintain operational EAS equipment
PR	Ceiba	101.7	WQML	Frequency and City-of-License change (ex: 102.1 at Culebra) is now on the air with 6 kW/70 m at 18-17-37/65-38-40
SC	Barnwell	99.1	WHBJ	New Class C3 station is on the air with 25 kW/99 m at 33-24-55/81-18-10 [this is a 'backfill' authorization for Barnwell after WBAW-FM applied to move to Pembroke, Georgia on 99.3 (WBAW-FM is silent and unbuilt at Pembroke)
SD	Rosebud	99.5	СР	CP granted for a new Class A 400 W/73 m station at 43-11-32/100-51-50 [the
OD	Nosebaa	33.3	O.	Rosebud Indian Reservation is located about 12 miles southeast of Antelope
				and 20 miles north of the South Dakota/Nebraska border]
TN	Brentwood	95 Q	W240CA	City-of-License change (ex: Reubensville) is now on
	Ace	104.7	KDLP-LP	License cancelled; call deleted
	Benjamin	95.3		Allotment deleted for a Class C3 station
	Brownwood	89.3		License cancelled; callsign deleted per licensee's request
	Cisco	100.1		Allotment deleted for a Class C3 station
	Hebbronville		KAZF	License cancelled; call deleted
	Premont	100.7	KMFM	License cancelled; call deleted
	Royce City	106.7	K295BF	CP granted to move from Greenville
	Uvalde Estates		KEWP	Filed for a Silent STA " because of an inability to staff the station on a
IA	Ovaide Estates	103.5	KEWP	full-time basis".
TX	Rule	105.5		Allotment deleted for a Class C2 station
ΤX	Shamrock	92.9		Allotment deleted for a Class C2 station
TX	Westbrook	102.3	KETY	Is silent
VI	Fredericksted	102.1	WEVI	Frequency change is now on (ex: 101.7)
WA	Freeland	89.9	KXIR	New Class A station signs on with 1.8 kW/167 m DA (circular with null at 015°) at 48-03-45/122-34-19
WI	Ashland	104.7	W284AN	Is replaced by new full-power WHWA Washburn
WI	Nekoosa	100.9	W266BA	CP granted to move from 101.1
WI	Waupaca	91.5	WAUP	CP cancelled for a new, unbuilt station

SURVEY RESULTS FROM LAST ISSUE . . .

QUESTION: 'Is the programming on HD2, HD3, etc signals of interest to the readership of this column? How about that of Translator stations?'

The results are in favor of Translator Stations, and overwhelmingly against that of HD signals (for a variety of reasons).

COMMENT:

NEWS ITEM: Radio Disney Sells Three

Radio Disney station KDIS-FM 99.5 in Little Rock, as well as KRDY-1160 in San Antonio have been sold to <u>Salem Communications</u>. Meanwhile WDDY-1460 in Albany, NY goes to <u>Pax et Bonum, Inc</u> which operates Catholic WOPG 89.9 Esperence on the fringes of the Albany market. WDDY will convert to non-commercial status and a simulcast of the FM. And look for call changes for all three.

NEWS ITEM: The FCC has "fined Richfield Electronics (China) Ltd. a manufacturer of wireless electronics products based in Hong Kong, for willfully and repeatedly violating . . . the Commission's rules. The noted violations involve Richfield's marketing of radio equipment in the United States that did not comply with the Commission's technical and labeling requirements." The device is identified as the 'WH Transmitter'. Apparently, the company initially received FCC certification for the device in 2002, they made a modification to the antenna which, they claimed, improved the sound quality. But, in so doing, rendered the device noncompliant with the FCC's Rules and its authorization. The device, which operates in the 106.7–107.9 MHz frequency band, substantially exceeded the emission limit set forth in FCC rules. So . . . if you have one of these later models of the WH Transmitter, it's quite possible you're operating it 'in violation' of FCC rules.

NEWS (TV) ITEM:

Turner Broadcasting System (TBS) has been fined \$25,000 for using "Attention Signals" (tones) similar to those used for the national Emergency Broadcast System (EBS) for a promotion of the 'Conan' show. Although the tones weren't the exact pitch and sequence of the actual EAS signal, it consisted of "a dual tone sound that is substantially similar to the dual-tone EAS Attention Signal".

Thanks to Shawn Axelrod, Tim Noonan, Ralph Strobel, Dan Sys, Radio Insight, Radio World Online, Upper Midwest Broadcasting, the FCC and the CRTC for news.

If you hear any changes occur on your FM dial, let's hear from you!

Oh, by the way . . . Merry Christmas and Happy New Year to all 73

FM FACILITIES

DECEMBER 2013

AF	Applied For (a new station)	PC	Power (and/or tower height) change on the air

December 2013

Here's some fantastic recent DX from Chris Lucas of Poughkeepsie, NY:

WNCT-10.1 Greenville, NC 460 mi Tr seen 5-5-13

WUNM-19.1 Jacksonville, NC 517 mi Tr seen 5-5-13

WATM-24.1 Altoona, PA 252 mi Tr seen 9-24-13

WJAC-34.1 Johnstown, PA 277 mi Tr seen 8-10-13

WPSU-15.1 Clearfield, PA 237 mi Tr seen 8-10-13

WTAE-51.2 Pittsburgh, PA 328 mi Tr seen 8-10-13

CBLFT-25 Toronto, ON 308 mi Tr seen 9-9-13 "1st Canadian DTV tropo"

WBZ-30 Boston, MA 152 mi Tr seen 9-21-13

WCBB-10.3 Augusta, ME 256 mi Tr seen 9-21-13 "No sound"

WCSH-44.2 Portland, ME 229 mi Tr seen 9-21-13

WDPX-40.5 Vineyard Haven, MA 171 mi Tr seen 9-21-13

WMTW-8.1 Poland Spring, ME 239 mi Tr seen 9-21-13

WSBE-21.3 Providence, RI 128 mi Tr seen 9-21-13

WTSD-CD 23.1 Philadelphia, PA 139 mi Tr seen 9-21-13

WMFP-18.2 Lawrence, MA 156 mi Tr seen 10-11-13

WFXT-31.1 Boston, MA 152 mi Tr seen 10-11-13

WJAC-22.1 Altoona, PA 252 mi Tr seen 9-24-13 "7.5 kW xltr"

73's, JEFF

Coast to Coast TV DX

Featuring reports from the entire United States and all of Canada.

Send reports by the 15th of each month to: Nick Langan 1040 Riverview Drive Florence, NJ 08518

E-mail: nickl@wtfda.org

The Editor's Note

Mum's the word with regards to DX across the U.S. and Canada throughout the month of November, as we did not note any reports of tropo, even across the Deep South. Weather-wise, the past two weeks have featured some volatile swings in terms of temperatures, but a winter-like pattern looks to grip much of the continent from the end of the month into December, ensuring conditions will stay in the doldrums for quite some time. In any event, we hope you and yours have a wonderful upcoming holiday season, and perhaps the Winter E-skip season will throw us a bone or two.

Roy Barstow sends in his usual impressive assortment of DX from the past few months on Cape Cod inside this edition of C2CTVDX, while Dennis Smith checks in from Southern California.

Dennis Park Smith

3605 San Remo Dr Santa Barbara, CA 93105-2523 Telephone (805) 687-7803 24-hour PDT

This report is for most of October 2013 through Nov 2 at the end of this year's Pacific Daylight-Shifted Time.

Tropo made attempts Oct 8-13 for very short periods which didn't last long enough to do much. Ocean temp steady 64F/18C, until Oct 28 down to 61F/16C. Oct 30, down to 58F/14C. Nov 2, up to

60F/16C. Air temp highs varied from cool at apx 65F/18C to 84F/29C. Distances are approximate. So-Calif tropo ducting to San Diego/Tijuana/Tecate from 175 mi/280 km up to 220 mi/350 km SE:

Oct 8 -	13	None	Coc	ol, showers Oct 9
Oct 14 -	- 21	Var.poor-fa	ir	Warming, stable, hi-
		press.		
Oct 22		Good		
Oct 23 ·	- 24	None	Coc	ol, unsettled, low
		press.		
Oct 25 ·	- 27	Var.poor-fa	ir	Calm, still cool
Oct 28 -	- 30	None	Low	press, showers 28-
		29		
Oct31-N	lov2	Var.poor-fa	ir	Warm, stable, hi-
		press.		

Oct 22 at Don Voegele's place with his big dish: Tropo was good overall. All of the San Diego/Tijuana/Tecate DTVs were seen, along with analogs K35DG 35 La Jolla ("UCSD-TV"), KZSD-LP 39 SDiego (Azt.Amer), XHDTV-49 Tecate (My), XHUAA-relay 56 Tecate (XEW2 network), and a new [?] one—XEW2-net on analog ch. 57. It was on XHUAA-57 (XEW2 net, off since mid July) Tijuana's old analog channel—but this one was much less signal strength. I don't know if it is in Tijuana, or is somewhere else in the region. I have been to Don's place a few times since then, with some tropo, but that one has not showed up again.

In spite of the land/mountain barriers, as discussed last month, could it possibly have been XHEBC-57 Ensenada (250 mi/400 km SE)??

Best of DX to All Dennis

AUSTRALIAN TROPO!

Ryan Leigh Donaldson, Brisbane

Recently, extreme heat waves & subsequent wild fires occurred near Sydney causing some welcome 'out of season' Spring Equinox tropo here in Brisbane, Australia. These fires made international news I believe. Since the mailing list is quiet at the moment, I thought I would take this opportunity to share some video I captured illustrating the recent FM ducting. Signal levels were amongst the best ever experienced.

25-26 September

The video stars Noumea stations 'NC 1ère' (that is, 'Premiere') with 5.3 kW ERP (919mi) from Mont Koghis & 'NRJ' from Mont Coffyn with a lower HAAT and power, FMscan data provides a 1 kW nominal figure. There is intermittent RDS decoding on the Sony ST-505ES. This is a water path. Due to the relatively low power, sadly three years or more can elapse before I hear this French Polynesian island again via tropo!

http://fmdx.au.com/doc/tropo_26092013_9-55pm.avi (16 MB, HD, camera mic audio)

Within the same two hour period, VK4OX and ZL3TY made CW and SSB contacts on 144.1008 MHz at 1,496 mi between Australia and New Zealand. ZL3TY and VK4CZ made JT65 digital contacts on 144.23 MHz. New Zealand amateur ZL3TY also heard ships out to 641 mi from his AIS node. The Noumea AIS node was tracking these ships over a 24 hour period:

http://fmdx.au.com/doc/noumea_26-27_september_plot.png

12-13th October

Cairns FM (2,451 ft ASL) was received at home for several non-consecutive hours, disappearing before midnight but back stronger from roughly 4:30 am. The distance is 829 mi. Cairns is a city in Far North Queensland. This is a coastal path but not entirely water, it is well sited and broadcasting frequencies are on the high end of the band which helps immensely.

Cairns was received on the newly added Akai AT-57 at the strongest levels ever heard at home. The video features IDs for nationally networked public broadcasters 4JJJ 107.5 'Triple J' and 4QCC 106.7 'ABC Local Radio' from Cairns. 4ABCRN 105.1 & 4ABCFM 105.9 are also featured briefly from the same site. None provide local programming, the feed is taken from Sydney.

http://fmdx.au.com/doc/cairnsAV588-6.avi

(37 MB, SD, line level MP3 audio)

Simultaneously, 144.1 MHz contacts on SSB were made at a distance of up to 862 mi between Brisbane-Atherton in Far North Queensland (2,625 ft ASL).

1598 MILE WSPR TROPO ACROSS THE BIGHT

Leigh Rainbird VK2RR

31.10.13 Morning -

This morning thought there could be a slim chance of a Bight Path to VK6 and when I got up out of bed indeed there was.

I had recorded a very weak -31dB WSPR report of Derek VK6DZ from Ellecker (west of Albany WA) at about 5am. This is 2664 km and is the current Australian record digital mode path for 2m band. The previous evening I had listened very hard for the Esperance VK6REP beacon on 144.568 MHz and heard nothing, but this morning, on initial switch over to that frequency, I could hear a tone, upon tuning up closer to where it had drifted to, it was the Esperance beacon. Very happy to hear this, and it got to 5/1 signal at 2314 km.

Later at about 8 am another signal made it through from Derek VK6DZ this time a -29dB. Other signals were heard around Adelaide area but nothing of great significance.

This morning I was the only station on the eastern side of the Great Australian Bight to hear anything from Western Australia. Even stations in Adelaide could not pick up this path.

03.11.13 Morning -

The night before I was relatively confident of a Bight path back to Western Australia, I even emailed Derek VK6DZ to let him know. Despite the Hepburn charts not indicating it would get here I was fairly sure that the low pressure trough that was present between myself and the Bight path and come past me and the barometer was rising again slightly.

In the early evening there was a small low pressure trough indicated on BoM MSLP maps and was some lightning and rain showing near Kangaroo Island, but I was fairly confident this would be pushed north enough and that the path from myself to Derek would actually run below that area.

I went to bed early so I would be OK with getting up early. I think I got out of bed at 6am, stumbled into the radio room. Tuned on computer screen and stopped my 160m WSPR station from TXing. Had a look at the 2m WSPR screen and there was some stuff recorded there, didn't really see what it was, probably VK5LA, minimised it; had a look at 162 MHz Marine tracking, only 2 signals recorded there from near Adelaide. Put 2m WSPR screen back up, theres all those signals again... look away .. look back.. focusing properly.. VK6DZ !!!!! on 2m WSPR! not VK5LA at all but about 13 signals on screen from Derek VK6DZ!! at 2664 Km! Couldn't believe I just minimised it the first glace lol. Wow then I got excited.

Brilliant, Derek had been getting his 10 Watt, 2m WSPR signal in here from 4am. It was now about 6.30 am and it was still getting stronger, but now it was really audible and up to -4dB. About 25dB stronger than on the 31st. This was awesome to see. Derek was also hearing my 10 Watts WSPR that I was sending back.

Then I had a listen for Esperance 2m beacon and could hear it again on 144.568 up to 5/1 at 2314 km. Awesome again.

I looked numerous times for the Albany beacons (not far from Derek) but they could not be heard here. Nor were they heard anywhere else. The Adelaide 2m beacon (764 km) only got to about 5/4 max signal that I noted. 70cm beacon got to 5/1. I had my 162 MHz Marine Tracking looking west, I heard a ship close to Ceduna SA, this was 1231 km. There was another on WSW of Port Lincoln about same distance. That was as far west as I could hear there. I got a number of other marine tracking signals from near Adelaide and up near Whyalla. It was strange around South Australia, the Adelaide beacon was only relatively weak, but some other areas were good.

Port Lincoln 2m repeater - 1019 km - 5/4 Cowell 2m repeater - 961 km - 5/7 Port Augusta 2m repeater - 913 km - 5/9+ Port Pirie 2m repeater - 867 km - off the scale at 5/9+60+ VK5KLV, Port Augusta, 2m FM simplex - 910 km - 5/7 VK5DMC, Port Pirie, 2m FM simplex - 866 km - 5/4 VK5PJ, Barossa Valley, 2m SSB - 735 km - 5/9+ VK5PJ, Barossa Valley, 70cm SSB - 735 km - 5/9+ VK5BC, Barossa Valley, 2m SSB - 764 km - 5/9+ VK5LA mobile 2m FM simplex - 725 km - 5/3

I could hear most of the 2m repeaters in South Australia and some 70cm repeaters. 70cm band (432 MHz) definitely was not influenced greatly by this duct, it was mostly 2m. I didn't bother with 1296 MHz.

I had 2m WSPR signals from Derek VK6DZ till 9am. But I heard from Derek this afternoon and he advised that there was a power outage about this time, so it may have gone on for a bit longer but his computers and radios went offline for a short while. Hepburn charts for tonight do not look that good. But they MSLP maps look ok, the weather at this end should be OK once the wind dies down. So I will definitely be looking out again this evening and in the morning for more DX.

I should acknowledge that I am now running 4×17 element, 40 ft (12m) long boom LFA yagis on 144 MHz. These are from Innovantennas, UK. While on semi local testing they would appear to have not as good a F/B ratio as I would have thought, they certainly seem to be working well with these tropo openings. Thanks Justin.

Regards Leigh VK2KRR

Poof!? Why are Low Power FM stations vanishing?

Posted on October 28, 2013 by Matthew Lasar

In our last post on the latest broadcast station statistics I noticed that while the number of FM radio stations is steadily increasing, the number of Low Power FM stations has been consistently declining.

Take a look at the Federal Communications Commission's broadcast station spreadsheet (excel download): over 860 LPFMs in March of 2010, down to 838 in December of 2011, down to 809 in December of 2012, down to 788 as of September of this year.

What is happening to these poor little LPFMs? I emailed Peter Doyle of the FCC's Media Bureau for an explanation.

"It's funny you mention this," Doyle responded. "I was roped into doing a NY/NJ license renewal webinar on Wednesday. There were two practitioners on the panel who were deep into the 'shock and awe' shtick, trying to convince broadcasters that their only hope of surviving the renewal process was to pay them BIG BUCKS to steer their renewal applications through treacherous waters. I tried to push back with some statistics showing that the vast majority of renewals are granted without conditions and in a timely way."

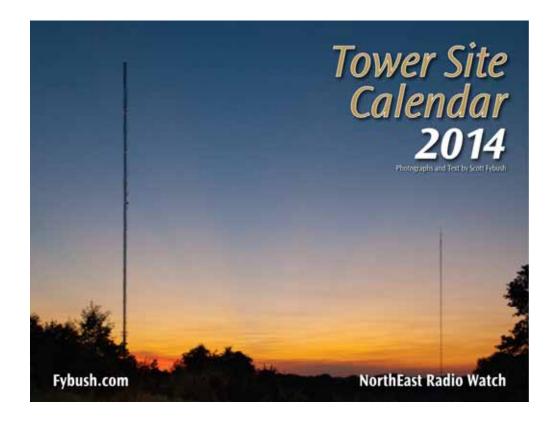

But LPFMs are the exception to this trend, Doyle noted:

"Although not required, we now have a very aggressive staff 'outreach' program in place when stations miss the renewal filing date for stations in their state. (This helps some of our most challenged customers while also reducing greatly the back end work in issuing \$3K to \$7K fines.) Anyway, we have found time and time again that LPFM licensees have simply disappeared, leaving no evidence of their whereabouts or of their former stations. The peak for LPFM licenses (864) is noted in the 12/31/10 station totals – a few months before the start of the 2011-2014 radio renewal cycle. The Wednesday webinar was the first time I commented publicly on this phenomenon. (As noted in your Radio Survivor post today, we've also seen a minor drop in AM licenses since 2002 as well and uncovered some 'abandoned' AM stations in the current renewal cycle as well. The AM numbers would be more dramatic except that we added hundreds of new AM licenses after 2002 through the 2000 and 2004 AM new station filing windows.)"

Since the radio renewal cycle runs through mid-2014, these LFPM trends could persist for a while. "Of course, I am hopeful that we will able to ADD to the inventory of LPFM licenses beginning next year based on filings in the current window," Doyle added.

One more thing:

"I used to also highlight the issue of LPFM station "attrition" by citing another statistic – the number of stations for which a construction permit was issues but for which no 'covering license' was filed, i.e., the station was not build and the CP [construction permits] expired by its own terms. We issued something like 1400 LPFM CPs – so something like one-third of these potential stations were never constructed. Just for fun, I asked an engineer to calculate the same statistic for the NCE [non-commercial educational] full power stations based on filings in the 2007 window. The 'fail' percentage turned out to be almost identical! Obviously, both snap shots straddle the 2008 economic collapse and that might have something to do with what seems to me to be a surprisingly high 'fail' rate."

POPULAR CALENDAR HIGHLIGHTS BROADCAST BEAUTIES Radio and TV people eagerly await thirteenth edition

ROCHESTER, NY – Every year, journalist/photographer Scott Fybush goes in search of the prettiest radio and television towers. Yes, you read that right. Prettiest towers.

When he finds them, he tries to get the most artistic photos, incorporating natural landscape, clouds and of course, the sun. He does this every year, and has for more than a decade.

The result? An annual wall calendar that showcases artistic photos of important and historic broadcast tower sites from coast to coast. The 2014 edition is hot off the press.

"Some people may think all radio towers look alike, but the Tower Site Calendar shows every year that that's not the case," says Fybush, who has worked in radio and television news for more than two decades. The calendar began in 2002 as an outgrowth of his weekly industry news column, NorthEast Radio Watch, and its offshoot, "Tower Site of the Week," a weekly feature at his fybush.com website.

"It has developed a passionate following in the broadcast engineering community," Fybush says. "Engineers are notoriously underappreciated for the hard work they do. The calendar is one way I can help show some recognition for their design and maintenance of the infrastructure that allows all of us to have easy access to radio, TV and cellphones."

The 2014 edition, now shipping from the Fybush Media store (<u>store.fybush.com/store</u>) features thematic page designs, durable coil binding and 13 new pictures taken from Fybush's travels all over North America and beyond. Some of the highlights this year:

- The former site of KBRT. This daytime-only AM station broadcast from southern California's Catalina Island until this year, inspiring the popular song "26 Miles."
- The home of Chicago's AM 1160. The four-tower array actually sits in Des Plaines, Illinois.
- WTAG, Worcester Massachusetts. The station, named for its former owner, the Worcester *Telegram* and *Gazette*, celebrates its 90th anniversary in May.
- A master antenna system in Crestwood, Missouri. Built in 1986, the combiner system houses 11 St. Louis stations.
- **KFAQ, Tulsa, Oklahoma.** The city's oldest surviving radio station (and the station that launched Tulsa native Paul Harvey) is near the old Route 66.

In addition to the photos, the calendar's monthly pages include significant dates in radio and television history, as well as civil and religious holidays.

The 2014 calendars cost \$18.50 each (\$19.98 including sales tax for New York State residents) plus \$3.50 shipping; and can be purchased by check (payable to "Fybush Media") or money order to 92 Bonnie Brae Avenue, Rochester NY 14618. Orders can also be placed with major credit cards, or online at www.fybush.com.
