DECEMBER 2014

WHAT A MONTH!

What a month, indeed! Cold temperatures descended from the north covering much of North America. Areas to the south and east of the city of Buffalo got hit with up to five feet of snow in a two day lake effect event while other areas of town received almost nothing. Then a few short days later much of it disappeared due to temperatures rising to the 60s!

Veteran TV Dyer Roy Barstow reported on the WTFDA email list that "Since TV DXing was started when age 14 (60 yrs. of DXing) this season still the worst I can remember."

You can find a few November Es and tropo loggings from our Bulletin Board elsewhere in this issue.

SAD NEWS

For those that don't know, we're sad to report the passing of veteran TV Dyer Jeff Kadet. Jeff passed away on the evening of November 22nd from septic shock. He

was 67 years old.

Frank Merrill posted the news on the WTFDA Forums (<http://forums.wtfda.org>) and the news was also posted on the WTFDA Facebook Page www.facebook.com/groups/wtfda/ (aka TV and FM DXing) where tributes poured in from other WTFDA members.

A service is planned for December 1st at 1pm in McComb, IL. Please see Jeff's Facebook page for more info.

He left much too soon and he will be missed by more people than he ever realized.

MEMBERS AND MORE

During the period from Oct 19th through Nov 19th we received renewals from Steve Solomon (MA), Rich McVicar (NY), Steve Branch (IL), Bryce Foster (TN), Bill Mitchell (OH), Greg Coniglio (NY), Jacob Norlund (MN), Adam Rivers (CT) and Bill Nollman (CT). Thank you all for your support of the club!

MORE MEXICAN SHUT-OFF INFO

Posted on the WTFDA Forums by forum member Raymie:

"So what does it take to conduct an analog shutoff in an area under new policy?"

There is no established date except the national deadline of December 31, 2015, when all analog transmissions will cease.

However, an analog shutoff can be done ahead of time in an area given that these two conditions are met:

#1. Digital transmissions must be already operating. (I suspect that there will also be cases where cities like Chihuahua, Chih. will not go until the final day because Azteca has not built its digital facilities there.)

#2. 90% of low-resource homes—under the definition of SEDESOL (state welfare agency)—can receive digital broadcasts. (This is verified using a field survey.)

Once these conditions exist, the IFT will set the date (which will be a working day), which must be at least 4 weeks after notice is served

to the stations. From that date, regular advisories will be made on the stations, and at peak hours stations will be obligated to run two warnings an hour.

I do not expect any shutoffs from April to June 2015. Mexico has midterm elections. You may recall that Tijuana's transition got entangled in ongoing elections at the time and ultimately had to be pushed back until after the election. It's also worth noting (and, given Mexican politics, more than probable) that a lot of TV distributions are being brought closer to the midterm elections for political reasons. (Getting a 24/26" TV from the government probably encourages more people to vote for the establishment, you think?) The policy allows the IFT to take elections into account.

Industry people are estimating January for Nuevo Laredo, Reynosa and Matamoros and March for Monterrey.

SDRs

I think it's a given that software defined radios, better known as SDRs, are the future of DXing. The performance of these radios can equal or surpass that of conventional receivers for a fraction of the cost.

For FM DXing, the leader of the pack is the Elad FDMS2. This radio had good sensitivity from 88-108mhz and is supported by it's own native software and SDR Console.

Right behind the FDMS2 we find the RSP (radio spectrum processor) from a company in the UK called SDRPlay. This radio is supported by SDR Sharp (SDR#) and SDR Console. Rather than duplicate the review of SDRPlay in the VUD, I invite you to look at my review on the WTFDA Website (www.wtfda.org). It's easy to find on the main page and is chock full of information.

One more new SDR is now being offered. It's called Airspy and is the least expensive of the three (\$199). At least one WTFDA member has purchased one. When we get a review on this SDR we'll either put it here or give you the link to the article.

These are exciting times for FM Dxers!

SET TOP BOX TIME-OUT ISSUE SOLVED!

Mike Glass has figured out a way to keep your Zenith/Insignia set top box from timing out...

"I have used the Zenith DTT900/901 STB since 2008. It is a great DX tuner, especially the manual tuning feature. However, like most devices all menu options will time out if you let it sit too long without pushing a remote button. The Zenith will go 60 seconds, which is not bad, but it still would time out unexpectedly during a DX event. I discovered that if you periodically pushed the RIGHT or SIGNAL button on the remote it would restart the timer without losing anything. This helped but I still would forget or get distracted. I began to wonder if there was an easy way to automatically push a remote button every 50 seconds or so to accomplish this.

Well, I finally found a solution. I bought a low cost (\$50) device that would learn remote codes and send them back out on a timer. The device I purchased was a USB-UIRT (www.usbuirt.com) and I control it with a free program called EventGhost. Long story short I set it up to send out the remote code for the SIGNAL button every 50 seconds. It works fantastically! I can tune up and down the dial or just leave it on a channel without it timing out. To stop it I can block the IR device or shut down the program. Also, one unit can control any STB in its sight, so you can have several tuners locked into the manual tune mode at the same time.

If anyone is interested I would be glad to help them set this up. I'm sure it would work with the Insignia STB as well as the Zenith. I would bet it could be done with most tuners that have a remote.

END OF THE MAILBOX?

As you've read, Ryan has some changes coming beginning in January and I've been thinking about the Mailbox. I think the word "Mailbox" is becoming dated.

I get very little mail at PO Box 501 these days. Many of your renewals come in via Paypal now and only one or two trips to the post office in Somersville a week is all I need.

So I'm looking to possibly change the column name beginning in January. I think I could have a replacement title but if YOU can think of a better name for this column please email me.

If you can think of something really, really good and I use it, you get a free years membership. Did I say Free? Sure did!

Have a great holiday season and we will see you again around the first of January.

-Mike

Eight applications for a new full-power station at Sacramento have been pending for some time. The Commission has finally dismissed them. The applicants:

- La Dov Educational Outreach
- Calvary Christian Center
- ESP Technology Community Broadcasters
- Rising Tide of Sacramento
- Family Stations
- KVIE
- Amazing Facts
- Grant Educational Foundation
- LeSea Educational Broadcasting of Sacramento

Similar applications were on file for new stations at Hobbs, New Mexico and Tulsa, Oklahoma. Two applications have been dismissed in each city.

WARD'S TROMBONE

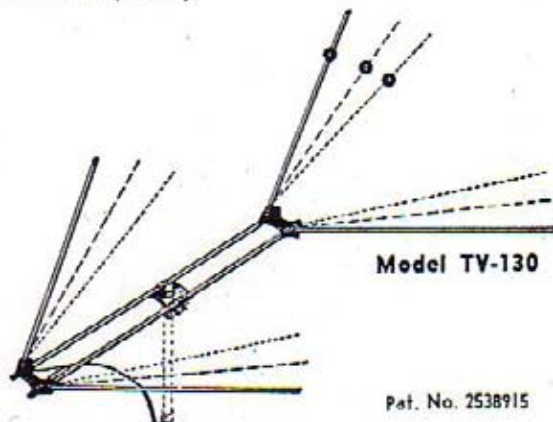

Designed for high gain on all channels—UHF and VHF. 8 elements properly spaced and streamline in design. Engineered for sharp directivity, 300 ohm impedance match and low VSWR. Completely preassembled.

- Model TV-132**—Single Bay . . . individually packed . . . shipping wgt. 5 lbs. ea. . . . 6 units standard quantity.
- Model TVS-142**—Double Bay . . . individually packed . . . shipping wgt. 11 lbs. ea. . . . 3 units standard quantity.
- Model TVS-161**—Triple Bay . . . individually packed . . . shipping wgt. 16½ lbs. ea. . . . 3 units standard quantity.

WARD'S U-VEE

Designed to permit elements to be assembled at 3 different angles, as indicated, depending on areas in which located and channels desired. All aluminum construction, light, rugged. Completely preassembled.

- Model TV-130**—Single Bay . . . individually packed . . . shipping wgt. 3 lbs. ea. . . . 6 units standard quantity.
- Model TVS-141**—Stacked Model . . . shipping wgt. 7 lbs. ea. . . . 3 units standard quantity.

APPLICATIONS FROM EXISTING/PROPOSED FACILITIES

			<u>Applies for:</u>
AB Spruce Grove	98.5	CFWE-FM4	< 9.3 kW/< 162 m, XL to 53-38-45/114-00-14; (to) Class B1; \$
ON Bolton	105.5	CJFP-FM	4 kW-H (drops V)/> (-) 22 m (to) DA, 43-52-46/79-44-18; (to) Class A; \$; move to 102.7
ON Tillsonburg	88.7	CBCL-FM1	> 1.32 kW/> 3.5 m (to non-DA), XL to 45-52-18/80-44-08; (to) Class A; Mono

APPLICATIONS FOR NEW FACILITIES

			<u>Applies for:</u>
BC Vancouver	99.7	APP	6 kW/75 m DA, 49-17-02/123-07-09; Class A; \$; would be a nested repeater for CKNW-980 Vancouver
NS Sydney	92.1	APP	10.65 kW/123 m DA, 46-05-40/60-08-52; Class B1; Mono [would be a nested repeater for the CBC's CBI-1140 Sydney, which applied for a license to move to 97.1 several years ago. If this repeater is approved, that application would be voided]
ON Manitoulin Island	103.1	CHAW-FM	35.2 kW/178 m, 45-57-07/81-56-42; Class B; \$; would be Country [Craig Timmerman]
ON Markham	105.9	CFMS-FM	2.5 kW/9 m (altered DA), XL to 43-53-52/79-20-27; Class A; \$
ON Milton	101.3	APP	950 W/(-) 8 m DA, 43-30-31/79-51-38; Class A; \$; would be AC/Oldies [My Broadcasting Corp.]

DENIALS AND DISMISSALS

AB Sylvan Lake	88.5	[CKLK-FM]	Application for new Commercial station with 1.5 kW/150 m with a Modern AC format deleted at the request of the applicant (Clear Sky Radio)
ON Orangeville	89.1	-----	Application for a 50-Watt station here deleted, which would have rebroadcast CHES-FM 88.1 Erin
ON Scarborough	102.7	CJVF-FM	Application for an increase in power and antenna height, as well as other changes, denied in favor of the new station noted in Grants for New Stations; thus CJVF-FM (a Class LP unprotected station) will have to apply for a new frequency
ON Scarborough	102.7	-----	Three competing applications for this frequency denied in favor of the new station noted in Grants for New Stations [MBC; World Band Media; Intercity Broadcasting]
ON Stouffville	102.7	CIWS-FM	Application for an increase in power and antenna height, as well as other changes, denied favor of the new station noted in Grants for New Stations

— OTHERNEWS —

AB Sylvan Lake	88.5	NEW	Application for a new station has been withdrawn by the applicant, Clear Sky Radio
MB Winnipeg	101.5	CJUM-FM	Granted change in ownership from the University of Manitoba Student Union to UMFM Campus Radio Incorporated
QC Gatineau	97.1	CHLX-FM	Applies to operate under a local sales agreement with Cogeco's CKOF-FM 104.7
QC Gatineau	104.7	CKOF-FM	Applies to operate under a local sales agreement with RNC Media's CHLX 97.1

NEWS ITEMS:

- ! CIUX-FM 105.5 Uxbridge, Ontario now has until April 3, 2016 to get their new 900 Watt Classic Hits station on the air. The delay is blamed on the slow pace of negotiations with the tower operator.
- ! International Harvesters for Christ has applied to change the status of CITA-FM 105.1 in Moncton, New Brunswick from non-commercial to commercial. This will put CITA in line with sister stations CJLU-FM 93.9 in Halifax and CIOG-FM 91.3 in Charlottetown which currently have commercial licenses.

NEWS ITEMS:

- ! A 'base jumper' may face trespassing charges after his attempt to leap from a 1,064 ft tower in St. Louis County, Missouri went wrong on October 30. His parachute got caught up in one of the tower's guy wires leaving him dangling 120 feet off the ground. The unidentified man eventually helped rescuers free him by cutting himself free from the parachute after more than two hours. The tower is used by WIL-FM 92.3 St. Louis and WXOS 101.1 East St. Louis, Illinois which both switched to their backup site during the rescue.
- ! The Wall Street Journal Radio Network will cease operating the end of this year. This includes their WSJ Business Report hosted by Gordon Deal, but a similar program will debut on the Compass Media Network. The program serves as an intro to morning drive on more than 250 mostly news and talk stations, with many affiliates also airing a weekend edition.
- ! Tribune Media will pull the plug on sports WGWG-LP 87.7 Chicago ('The Game 87.7') on December 31. Launched in February, the station failed to catch fire in the ratings against two 50,000 Watt AMers with similar sports talk formats.

Thanks to Shawn Axelrod, Tim Noonan, Ralph Strobel, Dan Sys, Radio Insight, and Upper Midwest Broadcasting for news.
If you hear any changes occur on your FM dial, share the news! 73, and Merry Christmas and Happy New Year

Your VUD is changing in 2015!

Thank you for your feedback. It's not too late to join the conversation on the WTFDA Forums!

<http://forums.wtfda.org>

Next month we're making the VHF-UHF Digest look better on your computer, tablet, and even letter-sized paper (if you print it out at home). Let us know how you read the VUD each month so we can serve you better!

Ryan, your humble editor, can also be reached directly at egrabow4@comcast.net.

December 2014

Here's a few from the current king of DTV DX, Ed Phelps of Benton/Otis, KY:

KOTA-2 Rapid City, SD
 922 mi Es seen 5-26-14

WHA-20 Madison, WI
 434 mi Tr seen 8-25-14

KSMO-47 Kansas City, MO
 362 mi Tr seen 9-17-14

WCKV-LD-30 Clarksville, TN
 61 mi Tr seen 10-1-14

WGNM-45 Macon, GA
 395 mi Tr seen 10-27-14

And here's a couple of photos of Ed's DX equipment. With 725 DTVs and counting, this must be the place to be.

In the first photo is a Channel Master P7 UHF parabolic and an Antennacraft CS-1100 VHF antenna on a 40 ft. tower.

Next, inside the shack we see a Sanyo PP19241 TV/Monitor (with WMC-5 displayed on the screen), a Zenith DTT-901 DTV box, and an Alliance HD73 rotor box.

Hope you all have a Merry Christmas!

73's, JEFF

The Editor's Note

We lost one of the DX legends in November with the passing of K1MOD, Jeff Kadet. If there was a Mt. Rushmore of DXers, Jeff would most certainly be amongst it. There is only so much "credit" one can take for DX they receive – after all, it is the equipment that is pulling in the signals, and there is all sorts of luck and variance that come into producing favorable conditions. Of course a factor above all is one's location. But as any seasoned DX'er will tell you, there are exponentially more days in a calendar year where no DX is observed versus anything notable (see the year 2014 for evidence), and a high level of determination is needed to actually be in place to receive the stations that keep us coming back for more. In that category, Jeff was second to none.

Being an admitted degenerate, I often like to peruse through old WTFDA VUDs and note some of the more obscure loggings. A couple of my favorites from Jeff's catalog include seeing multiple UHF stations from Denver via tropo on 7/30/95 (an unheard of path with Denver's usually arid climate), along with receiving WLVI-56 from Boston in tropo on 9/4/90 (1015 miles, difficult enough getting tropo over the Appalachians, let alone well into New England). The latter must have been a thrill for Jeff, being originally from the Bay State.

Bob Seybold

Nick:

It has been awhile since I sent in a report so here is one. As for the season it had its ups and downs but E-skip was scarce. Tropo was generally good in September especially in late September when it was great. During the last week of September tropo was close to non-stop out to 400 miles and making into Ohio, Michigan, Indiana, Illinois, Wisconsin. On one occasion I went to a hilltop spot and DXed from my vehicle with an RCA 7 inch monitor TV using car battery with small antenna on an 8 foot pole with all night amazing results. Band was full with some stations in for 12 hours non-stop. Also there is a new digital station out of Buffalo (low power) WBXZ-56 (also ID'ing as COZT 56 with sub channels 56-2, 56-3-4-5-6 decoding down to 17-1 17-2-3-4-5-6). Also WDTB-39 (Daystar) is on from Hamburg, NY which I receive daily. Now to my report:

5/11/14 E-skip

XEFE-2, XEFB-2, WDVZ-2, CMBA-2

5/26/14 E-skip

Florida, Alabama, Georgia

6/1/14 E-skip

Canadian analogs

6/9/14 E-skip

Florida, Cuba

6/20/14 E-skip

Canadian analogs

7/5/14 E-skip

CKSA-2, CHVD-2, Cuba, Mexico E-skip

7/11/14 E-skip

Florida, Alabama (channel 2 only)

9/1/14 to 9/20/14

Good tropo on several days mostly Toledo, Michigan (central, western), many Canadians (Ontario)

9/20/14 to 9/30/14

Tropo daily non-stop, also all night – Toledo 11, 13, 30; Detroit 7, 21, 44, 45, 62; Lansing; Jackson; CIII2-9 (new); CKWL7-6 (new); Canadians 22, 28, 31, 35, 36, 40, 41, 42, 47, 48, 51, 57, 69, also Canadian analogs 2, 5, 6, 8 (2), 11, 42; WEYI-25; Flint 12, 28; WNEM-22; WLFI-11 (new); WLUK-11 (new); WDTV-20; WLAJ-51; WHRM-24 (new); WSBT-22; WKAR-40; WSMH-16 (new); WCMV-17 (new); CITO-3 (new); CKVR-3; WNIT-35; also Chicago DTVs, Milwaukee, Kalamazoo DTV breaking in at hills location only but was difficult as band was full of stations with high level signal

strengths at times. There were 50 or more stations with signal levels at 80 to 90 on meter holding for hours. Also seeing Canadian analogs lately on channels 6, 11, 22 on daily basis but all weak. Seemed to be CTV network, one on 6 has CTV Ottawa news. They must be low power. Any idea who they are? Batavia, Peterborough 12 & 27 peaked in recent openings in September. That's all for now.

This report is from October 13 to November 12, 2014.

At the start of this time period, I was once again at the Wasco motel Oct 13-14, with a third-floor room on the accustomed north side, 30ft/9m above ground, with my LG flat-screen TV & carry-around antennas of UHF 4-bay conical & VHF bunny ears. This time, a bit of tropo DX was seen. However, it was barely fair, with no new loggings.

Oct 14 tropo, 0600-0930, DTV, 215mi/345km NW
These were all from the xmtr-antenna farm on 2000ft/610m height-above-ground towers at Walnut Grove, between Sacramento and Stockton.
21 "31" KMAX-TV Sacramento (CW)
26 "64" KTFK-DT Stockton (UniMás)
35 "3" KCRA-TV Sacramento (NBC)
46 "58" KQCA Stockton (My)

Back in Santa Barbara, air temps here along the coast have cooled some, and are now in the 70sF/low20sC. Ocean water temp continues in the high 60sF/apx20C. We have had only ONE rain in the region, on eve of Oct 31. Still too dry.

Distances are approximate. So-Calif tropo ducting to San Diego/Tijuana/Tecate from 175 mi/280 km up to 220 mi/350 km SE:

Oct 13 – 25	Out of town, to WASCO and other places
Oct 25 – 26	None Calm, very warm
Oct26eve-31aft	Var. fair-poor Same
Oct31eve-Nov4	None RAIN Oct 31 eve, then windy at times
Nov 5 – 7	Poor Calm, warming
Nov 8 – 10	Var. poor-fair
Nov 11 -	None Cooler, unsettled

Best of DX to All Dennis

1031@ CHMY 96.1 Renfrew ON "96.1 & 104.7 MY FM" into local news/ments of Renfrew

It was a so-so season with July 6th the best Es day July 1st good and June 12th OK. Tropo a bit weak hear with eastern Ohio Sw Pennsylvania northern WV and once into NH. Hopefully more by years end.

**Keith McGinnis
Hingham MA**

Equipment: ELAD FDM-S2 SDR (capable of recording 6 mhz of bandwidth for playback later)
2 Innov 11 element Antennas @ 25 Ft/ Bolin Phase Box / Studio SDR software

This past spring I upgraded to the ELAD FDM-S2 SDR from the combination of the Perseus SDR w/ FM+ Downconverter. The main reason for the switch was the ability to record and playback 6 mhz of bandwidth vs 2 mhz for the Perseus. The price of the ELAD is about half of that of the Perseus alone (without the FM+). The overall performance of the ELAD even without the additional bandwidth is better than the Perseus on FM and at the least the equal to the Perseus on MW and HF.

I'm still in the process of reviewing my Eskip recordings from this summer. I have about 20% of the overall recordings to review but here are my logs to date. I have not reviewed the list for new catches but an early guess would be 30-40% listed are new.
