July 2015

SEEING RED

After a very slow start to the 2015 skip season, Es exploded after the middle of June and literally left some FM Dxers seeing red. The red I'm talking about is XHRED 88.1 in Mexico City. I've seen at least two loggings of this station, one by Jim Renfrew near Rochester, NY and the other by a DXer in New Jersey. And Red FM wasn't the only station from Mexico City making its way through the airwaves to the northeastern US. I've never seen so much Mexican double hop reported before...stations around or over 2,000 miles away.

One log that to me is completely mind-boggling is that of HJVC 93.9 in Bogota, Colombia heard (and RDS captured) by Fred Nordquist in SC. Who would have ever thought any of us in North America would DX an FM station that deep into South America, not me for sure.

And speaking again of Mexico City, we have Steve Walko's logging of XEQR 107.3 from PA. Has anyone

ever encountered double hop FM DX up at 108mhz? I don't think so.

I'd suggest taking a peek at the loggings posted on the WTFDA Bulletin Board (<http://wtfdadxb.vci.net>) to catch even more double hop FM DX loggings and one great TVDX logging by Andrew Knafel in Ohio of Guatemala on TV ch3, which is simply amazing.

So what is going on here? The answer may be a combination of exceptional propagation, better equipment and communication between DXers. Whatever it is, I hope it continues.

MEMBERS AND MORE

This month we welcome in two new WTFDA members, Paul Snider in ON and Brett Saylor in PA. Welcome, guys!

During the period from May 31st through June 25th we received renewals from Mike Hunter (NJ), Mike Lazaro (NY), Randy Zerr (FL), David Austin (SC), John Johnson (AZ), Fred Laun (MD), Gray Fulk (NC), Al Tobia (CA), Stephen Ponder (TX), Tim McVey (VA) and Jeff Kruszka (TX). Thank you all for your support of the WTFDA!

Ryan Grabow sent along this note: "There was excellent e-skip from here to Ohio/Pennsylvania this afternoon (the 20th). MUF to the top of FM for at least three hours. I eventually started posting my IDs live to the Facebook group and Andrew Knafel in Ohio joined in. We were posting each others' locals! I thought it

would be good to mention. It's a fun way to use our Facebook group and I'll start doing it regularly.

I need to go through the recordings, but it looks like I broke my short-hop record with 107.9 in Charlotte NC with HD lock. But shouldn't shorter hops be on lower frequencies? I figured the MUF was still shooting up and started monitoring TV channels 7,8 and 9. Nothing there, though."

CRASH

June 23rd was not a good day for Lee Molineux or for the town of Brookhaven, PA. June 23rd was the day that his Antennacraft C490 TV antenna and two Antennacraft FM6s were destroyed when high winds broke a limb off a neighbor's tree, sending it slamming into a shed in his backyard. Unfortunately the antennas were on top of that shed.

This is photo from Lee's Facebook page showing the damage to the antennas.

This event was similar to one I experienced this past spring when high winds pulled the lag bolts out of one leg of the tripod supporting my TV antennas on my roof, leaving them hanging precariously over the edge of my garage. Fortunately for me, though, neither antenna was damaged and I was able to remove them two days later.

The antennas were completely totaled. A tripod supporting an APS13 was partially ripped off the roof of the shed but the FM antenna survived.

A line of severe thunderstorms was moving through the area at the time and there is the possibility that this damage was tornado related.

— OTHERNEWS —

QC Alma	95.7	CKYK-FM	The CRTC has approved CKYK-FM's request to amend their licence to allow it to devote more than 50% of the broadcast week to spoken word programming for the purpose of broadcasting Montréal Canadiens and Chicoutimi Saguenéens hockey games during any broadcast week where it owns the broadcast rights for these games. [also affects CKYK-FM1 96.3 Alma]
QC Victoriaville	103.5	CKYQ-FM1	Will go silent in this summer due to common ownership policy associated with ownership change approval between Radio Megantic and Attraction Media

NEWS ITEMS:

! **June 25, 2015 – Ottawa–Gatineau** — The Canadian Radio-television and Telecommunications Commission (CRTC) issued a decision today to help improve radio service for urban Aboriginal listeners. The CRTC revokes the broadcasting licences of Aboriginal Voices Radio (AVR), which operated stations in Toronto, Vancouver, Calgary, Edmonton and Ottawa under radio call sign CKAV. AVR has held these licences since the early 2000s. Since then, at each renewal, the CRTC has found numerous, repeated and serious instances of non-compliance with several sections of the Radio Regulations and with conditions of licence.

These non-compliances have accumulated over the years, despite the CRTC's flexibility and measures taken. For example, several short-term licence renewals were granted to give AVR the opportunity to rectify the situation.

Furthermore, it is clear that over the years, AVR has not honoured its commitments as set out in its original applications and, as a result, has not fulfilled its mandate to reflect the distinctive place of the Aboriginal community in Canadian society. For example, the Ottawa station has not broadcast anything since fall 2014; as such that market has not been receiving the music and spoken word programming that ought to have been offered by AVR.

Also contrary to its commitments, AVR was not providing the local programming or news required and relevant to the Aboriginal communities in the other four urban centers. [This action affects: CKAV-FM 106.5 Toronto, Ontario; CKAV-FM2 106.3 Vancouver, British Columbia; CKAV-FM3 88.1 Calgary, Alberta; CKAV-FM4 89.3 Edmonton, Alberta and CKAV-FM9 95.7 Ottawa, Ontario.]

“JENNiRADIO is a music format specifically for tweens and teens, but younger kids and parents will like it too! JENNiRADIO is the original For Kids... By Kids® radio format, founded and programmed by 16-year-old Jennifer Smart. It includes not only fun popular music, but also content you will find nowhere else, like Jennifer’s interviews with Miley Cyrus and tons of Disney and Nickelodeon stars.” [from their web site]

Coast to Coast TV DX

Featuring reports from the entire United States and all of Canada.

Send reports by the 15th of each month to:

Nick Langan
42 Holly Park Drive
Tabernacle, NJ 08088
E-mail: nickl@wtfda.org

The Editor's Note

After a slow start, and obviously, your mileage may vary depending on location - but June turned into much more like, well, June. A high uptick in E-Skip action unveiled between the 17th and 23rd of the month, including 144 MHz. Es with a wide-scale opening on the 23rd. All it takes is a week-long cycle to turn around a skip season and for many, this past stretch did just that. Obviously, the campaign should be far from over – we hope for many more logs to come in July.

On the 23rd, Danny Oglethorpe in LA had a staggering 10 DTV Es decodes, in one day! Check out the WTFDA online forums for more on these receptions - we feature his reports, along with contributions from Glenn Hauser, Doug Smith, and Bill Draeb.

Danny Oglethorpe

P.O. Box 8025
Shreveport, LA 71148-8025

TV DX Photographs: <http://www.TVDXExpo.com>
Mexico/Latin America TV DX ID Tips and Logos:
<http://www.TVDXTips.com>

Time used is Central Time.

Only the *first* logging of each station via each propagation mode per report period is listed. No unIDs listed unless there is something significant about the station.

Mexico relay text IDs are generally displayed about five seconds at thirty minute intervals. The time listed for log entry is the time text ID was superimposed.

Did no DXing at all from January to early May 2014, and there was no serious attempt at UHF in 2014 and early 2015.

Glenn Hauser
Enid, OK

** MEXICO. After a sporadic E opening earlier in
the day, fades in again later May 28, all times UT:

2245 on 2, fade-in Es with illegible bug in upper
right corner, but seems to fit for a clock and +v =
XEWO Guadalajara. Also algo on 4

2253 on 2, large FERRUSQUILLA across screen,
and narration mentions Guadalajara. Wikipedia
defines:

`` José Ángel Espinoza - Wikipedia, the free
encyclopedia
en.wikipedia.org/wiki/José_Ángel_Espinoza Cached
José Ángel Espinoza Aragón (born August 2, 1922
in Mazatlán, Sinaloa), also known as Ferrusquilla,
is a Mexican film actor and songwriter.``

2256 on 2, short guy in a body suit with large CH
on his chest, i.e. Chespirito, a.k.a. Chapulín
Colorado --- can't be sure if it's this recently
deceased beloved character or someone wearing a
copysuit: [http://en.wikipedia.org/wiki/El_Chapul
%C3%ADn_Colorado](http://en.wikipedia.org/wiki/El_Chapul%C3%ADn_Colorado)

2310 on 2, `Simpsons` dubbed

2322 on 2, fade-in Spanish ads, CCI

UT Friday May 29:

0018 on 2, heavier CCI, also algo on 4

0025 on 2, still `Simpsons`

[unproductive opening continues, but I've got to
mow before it rains again]

0159 on 2, still CCI including some silly sports
game involving a pelota, mentions Querétaro (as
one of the teams?)

0313 on 2, still weak CCI, and at 0335, and at 0408
and trace when I quit at 0422. I had kept an eye on
the 6m Es map but MUF (over USA) rarely reached
FM and nothing heard on 88.1 pilot (Glenn Hauser,
OK, DX LISTENING DIGEST)

** MEXICO. Sporadic E TV DX, June 2, after leaving analog monitor on all UT day:

2243 on 2, fade in CCI weak: I see on 6m map there is a major opening between eastern USA and Portugal/West Africa, apparently a little leaking out this way. But anything analog is very likely Mexico here

2252 on 2, scenes of glaciers calving, cut to guy in studio holding a ball or balloon

2305 on 2, another brief fade-in of algo

UT June 3:

0127 on 2, brief fade in with Azteca 7 bug in UR, Simpsons; XHTAU Tampico?

Here at peak(?) of Es season, continues to be unrewarding; yet to see a channel 2-6 + FM MUF opening.

1420 on 2, a bit of Spanish audio peaks in and out

1501 on 2, f bug in LR, i.e. Foro TV Televisa net-4

1505 on 2, glimpse of SIPSE logo full screen, i.e. XHY-TV Mérida, Yuc
(Glenn Hauser, OK, DX LISTENING DIGEST)

** MEXICO. Sporadic E opening the morning of June 5: I turned on the analog ch 2 snow around 1415 UT. Finally:

1520 on 2, fade-in algo with Gala bug in LR, presumably XHY Mérida

1526 on 2, bug in LR of MTY tv and below it 26 degrees and 10:-- clock, edges partly off-screen. So this is XHCNL, Saltillo, Coahuila, which relays ch 34 from Monterrey; talk show with YLs

1529 on 2, something else stronger with wild studio show including guy in costume reciting poetry; news crawler abottom including Tarek Aziz falleció. 1534 to full-screen news titled MATUTINO EXPRESS with YL anchoress, circular bug in LR can't make out; 1538 fades. Search finds this program is M-F starting at 8:30 am [HCMV = 1330 UT], on Televisa's foroTV network (so not XHY which is Gala with Calle 60)

Here how Televisa describes the show:
<http://www.televisa.com/programas/en...utino-express/>

``ENTRETENIMIENTO --- Matutino Express --- Es un concepto informativo con una visión diferente de ver la noticia, serio pero con un toque que arranca la sonrisa. Lunes a Viernes 8:30 de la mañana por FOROtv

Inicia tu día con un buen Matutino Express, con un concepto informativo, divertido y una visión diferente de enfrentar la noticia. Los conductores Esteban Arce, Adriana Riveramelo, José Ramón San Cristóbal, Lalo Salazar y un gran equipo de colaboradores están dispuestos [para] informarte y entretenerte con todo lo que necesitas para despertar de buen humor.

Matutino Express está cargado de Noticias, Deportes, Espectáculos, Clima, Historias de Ciudad, Lo más Insólito de la información y mucha diversión. Matutino Express, se saborea muy temprano de lunes a viernes 8:30 de la mañana.

Elenco: El "Rudo" Rivera (Deportes), Helena Guerrero, David Ramos "El Reporñero" [sic, made-up word?], Quique Muñoz, Érika Holstein (Clima), Armando Ramírez y San Martín``

¿Hasta cuándo? The online program schedule only displays the future for the day in progress, and assumes México is on UT like my computer! Their accentuation is sporadic, so I have inserted them where correct.

At this time 6m Es map shows heavy opening centered over Kentucky but one sole XE involved, XE2OR, who is in Nava, Coahuila, and often the only 6m activity in the whole country

1541 on 2, weak video, looks like TELEACTIVA bug UR = XEFB Monterrey

1546 on 2, MTY tv fade-in again, talk show, with LR bug as before, again at 1556

1607 on 2, fade-in infomercial for Rocket Hose! Yes, still in Spanish. 3-for-one-offer, etc., phone 1-800-120-6214. Still same going past 1612. Maybe it's still with MTY bug, not sure. Please move it further in from corner! (in USA toll-free numbers, can the one after 800 be a 1 now? Looks odd.)

1612 on 4, algo video with MUF spike, nothing further

1616 on 2, PLAN B on backdrop of talk or commercial show; soon fades and nothing further in next sesquihour.

BTW, Raymie reports that the next analog cutoff will be July 14, when lowband DXers must say goodbye to Ciudad Juárez` XEPM, Tu Canal 2, and XEJ-TV on 5. However, after the imminent election, things may move along quicker. Also see this NY Times story via Mike Cooper:

Free TVs in Mexico Are Seen as Having Political Strings Attached --- The government is vowing to give away 10 million digital televisions.
<http://mobile.nytimes.com/2015/06/05...ena-nieto.html>
(Glenn Hauser, OK, DX LISTENING DIGEST)

** MEXICO. I keep the analog monitor running on ch 2 most of the day June 15 so the snow keeps me cool? But no sporadic E, until

2319 UT on 2, Televisa-2 net fade-in with novela, star bug in LR. Looks like it`s the head-on version, rather than the tilted-angle `3-D` version. Fades 2325 by when I have looked up the schedule and find `La Vecina` on it. As usual, 6m Es map shows heavy activity over USA, mainly southeast, as far as TX, but only one border Mexican in the northwest. Are there no 6m active hams in the massive DF?

2331 on 2, fade-in something else, and audible lo het video CCI

2336 on 2, fade-in net-2 again, video only

2351 on 2, fade-in stronger, net-2 and color burst attained this time confirming bug is red and white

2352 on 2, LA VECINA in lower left, then switch to Televisa URL

2356 on 4, MUF up to here, f bug in LR = Foro TV, Televisa net-4, feature about archaeology by UNAM at a Maya temple

UT June 16:

0003 on 5, MUF surges higher, for less than a minute a fútbol game, surely the big deal Copa América, live México vs Chile, q.v., as sked on Televisa net-5. Makes almost zero-beat bars with analog cable radiation of KOCO-5. [WORLD OF RADIO 1778]

These nets on ch 2, 4, and 5 match up with the originating stations in México DF itself: XEW-2, XHTV-4, XHGC-5. Soon it all fades out (Glenn Hauser, OK, DX LISTENING DIGEST)

** MEXICO. Sporadic E TVDX, June 16, all analog, all times UT:

1500 on 2, fade-in Televisa 5 net bug in LR with animation dubbed into Spanish; still/again at 1519

1524 on 2, Televisa Deportes promo for Copa on Canal 5 net

1559 on 2, fade in again, still animation, net-5 bug LR

1629 on 2, amid CCI, f bug in LR, which is Televisa net-4

1650 on 2, still CCI

1651 on 2, talk show, f bug in LR

1653 on 2, +v MAS VISION full screen animated logo, and fútbol promo, i.e. XEWO-TV Guadalajara

1727 on 2, algo, one guy on screen

1729 on 2, +v MAS VISION ID again

1730 on 2, U bug in LR, i.e. UNIVISION, but probably via some Televisa station in Mexico rather than LPTV from Florida or double-hop from Nicaragua

1800 on 2, AZTECA full screen, unknown whether net-7 or 13

1817 on 2, unknown bug in LR, perhaps with clock and temp. Nothing more this afternoon until 0046 June 17 when for a change I`m getting CANADA, q.v.

June 17:

2220 on 2, tune-in, algo in Spanish, also on 4 (CANADA, q.v., had been in earlier today before I paused for WORLD OF RADIO producion)

2225 on 4, swirl bug in LR; in LL EXCLUSIVA / GALA TV

2239 on 4, 5 bug in LR

2305 on 2, film drama, dubbed Spanish

2321 on 2, Simpsons amid CCI

June 18 UT:

0117 on 2, Simpsons, still! Nothing more tonight
(Glenn Hauser, OK, DX LISTENING DIGEST)

** CANADA. My first sporadic-E TVDX this season from the north, despite my antenna being stuck toward the SSE and thus favoring Mexico (which I was getting earlier June 16), all analog, all times UT June 17:

0046 on 2, fade-in football game, with ads in English for Tim Horton, Coca-Cola supporting women in sports, so Canada instead of Mexico. Then half-time show during a FIFA game with clips featuring Nigerian players. Local.ca website which leads to TV skeds all over Canada, reveals this is on the CTV network as in Ontario, current game Nigeria vs USA in women's soccer; 0057 SPORTCHEX ad; 0100 game resumes with women players, from Vancouver. 0135 another fade in and traces of video around 0200. 6m map shows MUF 94 MHz centered over Illinois. This is presumed CHBX in Sault Ste Marie Ont., altho there are three other further lower-powered CTVs allegedly still not DTV in Sask and Alta.

After 3.5 hours of FM DX mostly from South and North Carolina, later UT June 17:

1811 on 2, fade-in algo in English; 1819 ads in English mention Canada; 1822 ``celebrate Elliott Lake's 60th anniversary``, i.e. Ontario town halfway between Sudbury and Sault Ste Marie, but off the main drag of the Trans-Canada Highway (I figured it would be older than that; it once had a low-band CKSO Sudbury TV repeater of its own. One website reveals: ``The City's modern story began in 1953 when the famous Backdoor Staking Bee that rivalled the Klondike Gold Rush put Elliot Lake on the worldwide map with the discovery of a massive, rich uranium ore body``. Now E.L. is being promoted as a retirement community and vacation destination). So I conclude this is again CHBX SSM.

Followed at 1822 by the ``Channel 590 community calendar`` --- assuming that refers to a MW frequency, the closest Canadian would be CJCL in Toronto, but it's SportsNet and hardly likely to stray into a small-town-like community calendar (a closer but not close enough 590 is in Ironwood MI, but at

the very western tip of the UP). There are two much further 590 Canadians: CJCW, Sussex NB ``Your Community, Your Radio Station``, and VOXM, St John's NL, but no likely analog 2s around there which would require double-hop Es.

1825 on 2, Dr Oz, which chex for CHBX at 2-3 pm EDT. After this for a few hours I am producing WORLD OF RADIO 1778, and by 2220 retune, it's back to TVDX from MEXICO, q.v. (Glenn Hauser, OK, DX LISTENING DIGEST)

1935 2-4; 5+6 briefly then gone. Ch. 2 two stations; one English, one Spanish; SSW; no IDs

Ch. 3 not as strong as Ch. 2 or 4 but suspect TGV-3; logo in lower right but no positive ID.

Ch. 4 the strongest of the stations. Two stations on; Spanish audio. There was a logo in upper right but no ID.

Signals faded by 2100 and I ceased watching.

At least May wasn't a completer dud. Hope June is better.
