7/22/2018	Steve Naetzker	AZ	7/19

Thanks to everyone for your support of the WTFDA and welcome to Melvin Murray (WA4CFT) from Leigh Acres, Florida! Glad to have you with us.

As we head into the month of August, we close the books on the 2018 skip season. A few DXers made out very well this summer while others who live in newly congested FM areas of North America didn't.

### NEW DISTANCE RECORD!

Chris Lucas in Poughkeepsie, NY claimed a new DTV distance record of 1591 miles when he logged KCWX-5 Fredericksburg, TX at 1145am. Chris posted on Facebook that "A couple of real nice long-haul E-skip logs this morning. On DTV, KCWX 5/2 Fredericksburg, TX decoded at about 11:45am, for DTV #329, and a new personal distance record of 1591 miles, beating my old best by over 100 miles!!! I missed a screenshot, but the resulting PSIP display is shown below." See Figure 1.

### ANOTHER TA RECEPTION

Another unusual skip reception occurred in Northern Ireland on July by veteran FM DXer Paul Logan. He posted the following on

Facebook: "88.5 CBC Radio 1 from Canada received 1030 pm tonight here in the north of Ireland. Not sure which outlet (NL or 2 x QC). Was there for about 15 minutes - recorded the bottom of the FM band as it happened. Detective work and file listening in coming days. It's late here. Now to try to calm down." His estimated distance is 1993 miles.

Figure 1 Chris's screengrab of KCWX

### NOTES FROM RALPH

Ralph Strobel (IN) sent in his renewal and along with it were a few items of interest. Ralph writes "Es this summer has been pitiful compared to others. Only two new so far – 6/19 – 88.5 KVFE Del Rio, TX and today 6/28 KLFT 90.5 Kaplan, LA. I now have 977 FMs from the Ed. Band – 88.1-91.9. I'm hoping for 1,000+ one of these years.

I still have no FMs from NV, CA or WA. My farthest FM is 91.9 KMVN Astoria, OR by double hop at 1981 miles. So glad I have it on tape. I phoned the station and played the tape for the DJ. It was him with a perfect legal ID! Best states: TX (367), IN (367), OH (303), IL (287, MI (210) and FL (205). Have heard 8 Canadian provinces (nothing from BC or NF), Mexico, the Bahamas, Cuba and Bermuda."

And a couple of notes on Ralph's notes...May was a bust for Es and the season, in my opinion, didn't even begin get serious until the end of June, so I hope you did well in July.

Ralph also mentioned going to Nassau on a cruise and not finding much to see there. I

would agree...if you were there on a Sunday because downtown Nassau is almost completely closed on Sunday except for one or two restaurants. The cruise ships dock around a mile west of downtown and you'd need to take a local taxi (a mini-van that the locals use to get around for roughly \$2 one way) to get there. But my wife and I have been there four times and Nassau is anything but boring!

### 1977 WTFDA CONVENTION PHOTOS

These were posted on Facebook by Frank Aden. This one was held in Portland, OR.

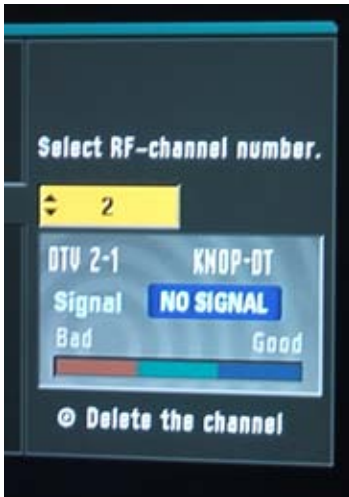

Figure 2 Who are these people?

That's all for now and we'll see you next month! -Mike

Utica	11	WPNY-LP	Requests conversion to digital, 94 watts; granted

### **North Carolina**

Bat Cave	29	W41DI	Requests STA for this channel, 4.6kw, 35-25-24/82-15-34. Reason unknown but probably T-Mobile.
Lumberton	26	WHEH-LD	From 41, 10kw, 35-15-05/80-41-11; site is in the eastern suburbs of Charlotte
Ogden	35	WTMV-LD	Moved from 39
<b>Raleigh</b>	<b>49</b>	<b>WRTD-CD</b>	<b>Moved from 44, 1000kw/607m, 35-40-29/78-31-39; sharing on WRAZ from July 20<sup>th</sup>. Call changed from WZGS-CD</b>

### **Ohio**

<b>Chillicothe</b>	<b>23</b>	<b>WWHO</b>	<b>From 46, 885kw/286m, 39-56-14/83-01-16; granted. Moves from a site near Williamsport to one in Columbus.</b>
Cincinnati	20	WBQC-LD	Requests STA for this channel until October 18, 2019 when channel 28 becomes available. (and channel 20 is lost to WLWT)

<b>Location</b>	<b>RF Ch</b>	<b>Callsign</b>	<b>Notes</b>
Lima	27	WLQP-LD	Granted digital conversion from analog ch. 18, 15kw, 41-08-12/83-54-24. Same site as WBGU-TV Bowling Green, which is leaving ch. 27 in the repack. Presumably will use the old WBGU antenna?
Lima	29	WLMO-LD	From 38, 15kw; granted
Millersburg	27	W27DG	Site changed to 40-53-55/81-12-36; new site is on the other side of Canton, near Alliance

### Oklahoma

Altus	29	K29LJ	Moved from K43KS
Elk City	22, 26	K22MA, K26NC	Moved from K43KT/ K47LR
Hollis	22, 26	K22LZ, K26ND	Moved from K47Is/ K44IW
McAlester	15	K15LM	From K16KR; granted
Oklahoma City	18	KOPX-TV	<b>From 50, 104kw/480m; granted</b>
Oklahoma City	23	KSBI	<b>Operating at (unspecified) reduced power from June 13<sup>th</sup> pending antenna replacement</b>
Oklahoma City	39	KWTV-DT	<b>Application for new auxiliary facility, 1000kw/331m; pre-repack antenna about 140m lower than main</b>
Sayre	23	K23ND	Moved from K40JP
Strong City	18, 33, 36	K18LS, K33NV, K36NV	Moved from K39JH/ K42AG/ K22IC
Tulsa	12	KGEB	<b>From 49, 21.5kw/182m; granted. STA to transition early, by September 1<sup>st</sup>, instead of Phase 2 by April 12, 2019; T-Mobile</b>
Tulsa	14	KXAP-LD	From 38, 15kw; granted
Tulsa	34	KMYT-TV	<b>STA to transition from 42 early, by September 1<sup>st</sup>, instead of Phase 2 by April 12, 2019; T-Mobile; requests amendment to September 4<sup>th</sup>. (the 1<sup>st</sup> is Labor Day weekend &amp; techs may not be available to adjust cable equipment)</b>
Woodward	35	KUOK	<b>OFF July 18<sup>th</sup>, transmitter failure</b>

### Oregon

Coos Bay	22	KMCB	<b>Returned to full power July 9<sup>th</sup></b>
Corvallis	16	K16ML	From K48MP, 2.2kw; granted
Hood River	26	K26NQ	From K50CE; granted; STA dismissed, unnecessary
Lincoln City	23	K23OC	From K38CZ, 15kw; granted
Madras	26	K38NM	Special Temporary Authority for this channel, 630 watts, land-mobile; dismissed
Madras	28	K28OV	From K40MP;; granted; STA dismissed, unnecessary
Port Orford	16	K16LI	Moved from K47KH
Portland	28	KOPB-DRT	From 48, 3kw; granted
Portland	45	KNMT	<b>Requests STA 500kw/455m to operate pre-repack transmitter at reduced power while post-repack transmitter is installed</b>
Portland	46	KGWZ-LD	OFF July 27 <sup>th</sup> , T-Mobile; application for ch. 23 pending
Prineville	19	K19LT	From K46AK, 15kw; granted. Requested Special Temporary Authority for this channel but no longer necessary.
Rockaway Beach	23	K47CD	STA dismissed, unnecessary

### Pennsylvania

Brookville	45	W45BT	OFF August 9 <sup>th</sup> , T-Mobile
Pittsburgh	12	WBPA-LP	Granted conversion from analog ch. 30, 3kw, 40-26-46/79-57-50
Pittsburgh	22	WTAE-DRT	Requests power increase to 15kw
Pittsburgh	51	WTAE-TV	<b>Requests STA 596kw/241m, for interim antenna while permanent ch. 27 post-repack antenna is installed</b>

<b>Location</b>	<b>RF Ch</b>	<b>Callsign</b>	<b>Notes</b>
Willow Grove	50	WTVE	Moved from 25, 5.55kw, 40-04-24/75-11-27; sharing on WPHY-CD Trenton, N.J.; CL from Reading
<b>Puerto Rico</b>			
<b>Aguada</b>	<b>25</b>	<b>WQHA</b>	<b>Returned to the air July 1<sup>st</sup> at reduced power of 11kw/328m</b>
Aquadilla (sic)	14	WSJP-LD	From 18, 450 watts; granted after amendment to 4.5kw on ch. 26 was denied.
<b>Arecibo</b>	<b>35</b>	<b>WCCV-TV</b>	<b>Requests STA for post-repack channel, 26kw</b>
<b>Caguas</b>	<b>24</b>	<b>WUJA</b>	<b>Special Temporary Authority 10kw/310m, 18-16-41/66-06-32, for reduced-power interim antenna pending construction of permanent post-repack facility; granted</b>
Carolina	4	WVDO-LD	From 22, 3kw; granted
<b>Fajardo</b>	<b>16</b>	<b>WRUA</b>	<b>Special Temporary Authority 18kw/567m, 18-16-41/65-51-12, for reduced-power interim antenna pending construction of permanent post-repack facility; granted</b>
<b>Guayama</b>	<b>34</b>	<b>WIDP</b>	<b>Requests STA for post-repack channel, 23.4kw</b>

Roanoke	32	W32EW	Moved from W44CL
Strasburg	24	WHSV-DRT	From 42, 15kw; granted
<b>Washington</b>			
Bellingham	18	K24IC	From 24, 10.6kw; amendment to reduce power
East Wenatchee	28	K28PA	From K42IH; granted; STA dismissed, unnecessary
<i>Monitor</i>	17	<i>K51AE</i>	<i>STA dismissed, 190 watts, analog</i>
Moses Lake	19	KUMN-LD	From 43, 2kw, 46-48-23/119-33-23; granted & moved
Seattle	20	K20NF	From K23KI; granted
Seattle	24	KRUM-LD	OFF June 8 <sup>th</sup> due to transmitter failure
Spokane	33	KWSU-DRT	From 17; granted
Wenatchee	25	KWCC-LD	From 47; granted; STA dismissed, unnecessary
<b>West Virginia</b>			
<b>Charleston</b>	<b>29</b>	<b>WCHS-TV</b>	<b>Special Temporary Authority to move early from ch. 41, by September 1<sup>st</sup>, vs. scheduled October 2019; granted</b>
Keyser	16	W16DT	From W41DK, 15kw; granted
Parkersburg	8	WVMY-LD	OFF June 20 <sup>th</sup> pending location of new site
Parkersburg	20	WOVA-LD	From 22; granted
Weirton	30	WBPA-LP	License canceled (analog. WBPA-LD digital in Pittsburgh remains valid.)

**Wisconsin**

Eau Claire	25	WQOW	Granted Special Temporary Authority to move early, by Sept. 7 <sup>th</sup> , rather than in Phase 2. (by Apr. 12 <sup>th</sup> , 2019) To allow nearby WHLA-TV to move early.
Green Bay	14	WGBA-TV	Granted STA 500kw/369m to test post-repack facility pending resolution of any 460-470MHz land-mobile interference. DXers have seen these tests.
Green Bay	25	WPNE-TV	Moved from 42, 400kw/375m
La Crosse	28	WXOW	Moved from 48, 96.7kw/335m under Special Temporary Authority. Will eventually increase to 251kw/348m.
La Crosse	34	W34FC	From W50DR, 15kw; granted
La Crosse	50	W50DR	Granted Special Temporary Authority 14.5kw pending completion of the post-repack facility of WXOW.
Milwaukee	16	WYTU-LD	From 17, 5kw; granted
Minocqua	35	W35DM	From W39CV; granted
River Falls	19	W19EN	From W47CO, 6kw; granted; STA for this channel dismissed as unnecessary

**Wyoming**

Casper	18	K18JQ	Returned to the air July 3 <sup>rd</sup>
Casper	36	KGWC-LD	Call changed from KSBF-LD
Evanston	32	K32DS	License canceled
Gillette	26	K26NL	From K43KW, 5.8kw; granted & moved
Little America	34	K34OG	From K45GO; granted
Mountain View	36	K36OU	From K47MB, 300 watts, 41-06-19/110-12-38; granted
Rock Springs	45	K45IA	License cancelled

Thanks Raymie for the information about XHTDMX-TDT. “CDMX” is the new abbreviation for what was once known as the “Distrito Federal”. The city is transitioning from a federal district similar to Washington, D.C. into a “federal entity”, something similar to a state. Mexico’s constitution doesn’t allow it to actually become a state.

Several applications for Special Temporary Authority for post-repack channels have been dismissed as unnecessary. They were filed presuming stations would be forced off their pre-repack channels before the FCC could act on their displacement applications. In a number of cases the Commission has acted sooner than expected and the stations have been able to move before being displaced. W19EN River Falls, Wisconsin is a good example.

WBNZ(FM) Frankfort, MI has been fined \$18,000 for operating at variance from the terms of their license without authorization; failing to file for STA to operate with non-conforming facilities; and willfully failing to disclose material information.

The station went silent Jan. 21, 2015. After being contacted by FCC staff in May 2016 they told the officials WBNZ had returned to the air Feb. 15, 2015. On Sept. 12, 2016 WBNZ filed for Special Temporary Authority to operate at 1.4kW ERP. (WBNZ's authorized ERP is 50kW) FM stations are required to obtain authority to operate at less than 90% of authorized power – in WBNZ’s case, 45kW.

WBNZ should have informed the FCC of the reduced power immediately in April 2015. Not only did they not do so; they made two further filings without disclosing the reduced power operation.

## The VHF-UHF Digest needs a new editor!

Your humble VUD editor is getting busy on the weekends and is looking for another WTFDA member to take over publishing duties next year. Our new publisher should be organized and familiar with word processing programs like Word and OpenOffice. Could it be you?

E-Mail Ryan Grabow if you're interested: [ryang@wtfda.org](mailto:ryang@wtfda.org)

# Coast to Coast TV DX

Featuring reports from the entire United States and all of Canada.

Send reports by the 15<sup>th</sup> of each month to:

Nick Langan  
42 Holly Park Drive  
Tabernacle, NJ 08088

## *The Editor's Note*

As we head toward the waning moments of the 2018 E-Skip season (though as previously noted, Es openings have routinely occurred into August each of the last three seasons), we take a look at what has transpired. As always, with any summation of a DX period, the usual disclaimer: Your mileage may vary at your own particular location. But, with yours truly observing Es on the east coast and absorbing reports on the various online sources, after a slow start, the period from June 15 – July 10 was, in my opinion, as good as it can get for sporadic-E. The stretch featured almost daily openings, some spawning high MUF, perhaps most notably into the 162 MHz. NWR band on June 20, with an intense cloud over the Ohio Valley. We very much hope you were able to take advantage.

July as a whole, understandably, has not featured quite the same ferocity of openings, but we tip our hat to Chris Lucas in Poughkeepsie, NY, who on July 20 logged KCWX-DT-5 from Fredericksburg, TX via an Es decode. Far as we can tell, at 1595 miles approximately, this is the longest DTV decode anyone has ever achieved. Congratulations to Chris! (Chris also deserves mention for his phenomenal tropo reception of WYZZ-DT-28 Bloomington, IL on July 9, at 798 miles!)

---

## Teleantillas would leave channel 2; will move to 10

Indotel authorizes the executives of the Corripio Group television station to carry out tests

Written for *Diario Libre* [Jun 27, 2018]; **translated from Spanish by Google**

Source: <https://www.diariolibre.com/revista/cultura/teleantillas-dejaria-canal-2-se-mudara-al-10-LA10233459>

SANTO DOMINGO. The Dominican Institute of Telecommunications (Indotel) confirmed that it authorized the Corripio Group "to conduct tests provisionally for the use of frequencies included in the 192 MHz - 198 MHz segment (Channel 10)" to migrate to these the Channel 2 VHF, of Teleantillas.

The Executive and Technical Directorate of Indotel informed that they authorized said tests in order to evaluate the origin of a migration of the mentioned frequency segment 54 MHz - 60 MHz (Channel 2).

Teleantillas broadcasts its signal 39 years ago on channel 2 of open and cable television.

Valentín Báez, vice president of the Corripio Group, confirmed to DL that they are working to start the tests.

### The Indotel press release:

The Dominican Telecommunications Institute (Indotel) confirmed this afternoon that it authorized the Corripio Group "to carry out provisional tests for the use of frequencies included in the 192 MHz - 198 MHz segment (Channel 10)" to migrate Canal 2 to these VHF, of Teleantillas.

The Executive and Technical Directorate of Indotel informed that they authorized said tests in order to evaluate the origin of a migration of the mentioned frequency segment 54 MHz - 60 MHz (Channel 2).

They indicated that before the request made by TELEANTILLAS, SA (CHANNEL 2 VHF) on December 27, 2017, they issued the communication identified with the number DE-0004530-17, by means of which they provisionally authorized to carry out tests, pointing out that They are not definitive.

In this communication it was established that the tests would be performed for a period of 72 hours, and that they would be approved only if compliance with the transmitter installation conditions was verified, which tests must be carried out in coordination with the Indotel. "To date, these tests have not been carried out," said the Executive and Technical Directorates of Indotel.

They also indicated that the provisional authorization is subject to strict compliance with the specific technical parameters and conditions established in the protocol sent together with the communication sent to Teleantillas.

They stressed that the requirements contained in the technical protocol of the Indotel, are also adopted to "guarantee and protect the operation of the adjacent channels".

"In the same way, it is necessary to indicate that the authorization granted does not constitute a final or binding authorization" to any decision to be taken by the regulatory body on the migration process to be carried out, "they stated.

They argued that INDOTEL, as guarantor and administrator of the efficient use of the radioelectric spectrum, if deemed necessary, may revoke said authorization without having completed said term, for which it will send the corresponding notification.

*I started seriously TV DXing back in 1970. I had seen TV DX before but didn't really understand it at that time. That was about the time when I first joined the WTFDA and became friends with Idaho's senior TV DXer Robert Williams.*

*I began showing friends some of the TV DX photos I had taken and heard stories of what they had seen. Almost always they were just common Es reception. But a couple of people had some unusual reports which could have been right out of the paranormal "Dx Files" and unfortunately not believable.*

*Story and pictures*  
*by Frank Aden*

*One story did come from someone whom I felt was a reliable person. He worked for my father and had relatives in Glens Ferry, about half way to Twin Falls. He would go there on the weekends and would watch KMVT-11 from Twin Falls. He had*

been watching them when they signed off for the night or early morning and was about to turn the TV off when he noticed another station coming in, as it was fading in and out and running an old English movie. They ran some ads for businesses he never heard of and got the impression the station might have been Canadian.

The nearest two channel 11's were KCBY in Coos Bay, Oregon and KBYU in Provo, Utah. KBYU was the closer of the two, but would not be running ads as they are a public television station. Tropo TV DX is rare out here as mountains break up the ducts. I sure wish he had gotten a city name as there was no explanation for this DX.

About the same time another person who lived in Eagles just northwest of Boise told me he got KPTV-12 from Portland a lot. He said he never saw any of the other Portland stations. That meant tropo would have to be getting over the Blue Mountains which was doubtful and if he could see KPTV once in a while I should have too, so I felt his story just did not work.

When I first started DXing I got in touch with Morris Foote, a former AIPA member who lived in Middleton. I never met him in person, but he sent me some of his early 1950s logs. He had been dxing before our locals signed on and he had logged almost every low VHF station on the East coast. I think this showed that double hop was more common than we thought but with locals and new stations coming on the air in the Midwest in the 1950s, the chance for seeing double hop was very difficult.

# WTFDA Member Spotlight

**WTFDA member Frank Aden**

I dxed up to and just after the digital television conversion. It was interesting to see the Los Angeles station via Es running their announcement they had moved to the digital channels.

My TV antennas were getting pretty old and began to fall apart so I stopped DXing for some time. I am now in the process of putting up a VHF 2-6 antenna, a VHF 7-13 antenna and a UHF antenna. Once I get these up I will be back into TV DXing.

I am the Vice President of the History of Idaho Broadcasting Foundation. We publish a newsletter every 2 months and just bought the old KFXD Building in Nampa where we plan to have a museum and education center. - *Frank Aden*

## THE HISTORY OF IDAHO BROADCASTING FOUNDATION, INC.

Our mission is....

To provide as an independent, non partisan organization, a permanent and living repository, for the preservation of the history of radio and television broadcasting within the State of Idaho, from inception, to and including, the present.

To bring to the community at large a broader knowledge of how pioneers in Idaho Broadcasting created enormous impact on the evolution of society.

To stimulate in people of all ages, especially the young, a recognition of the practical and real contributions to our quality of life that radio and television broadcasting has provided, and continues to provide, to the citizens of Idaho.

*The History of Idaho Broadcasting Foundation Inc., is pleased to announce the purchase of the former KFXD AM & FM Studios and Office Building located on 12th Avenue South in Nampa, Idaho!*

# Finally! Yes, I'm Shouting

Doug Allen

Reposted from the TV&FM Facebook Group

My geriatric DXing is mostly passive scanning of DTV channels, and I've been using a HD Homerun tuner and Rabbit Ears for 3 years with thanks to Trip and MikeG for the software and assistance in setting it up. This spring, I thought I'd concentrate on low band channels, especially ch 2 which I'll loose to local LOS WGGG in a little over a year. Using a Raspberry Pi and Ascan software for it, I'm able to scan groups of channels. One group I choose was channels 2,3,4 with the hope and expectation of DTV E-skip there. Nada! I also want to concentrate on those channels for DTV meteor scatter in the August Perseids shower. Earlier this week I hauled an Antennacraft ch 3 antenna up to the top of my 66' tower. I dropped the HDP-269 preamp, and it crashed to the ground, so I'm feeding the ch 3 antenna with 100' of RG-6 coax to the preamp and then 50' of RG-6 to the tuner. I also, by mistake, mounted the antenna 180 degrees off the other antennas- duh- which you see in the photo below. The recently erected 10 el ch 7-13 is at the top and the HDB-4X below it with the RCA dual feed preamp. The ch 3 antenna is as high as I could reach standing on the top of the tower and is above my M2 5 el beam. This morning tropo conditions were poor to fair, but when I pointed the ch 3 antenna northeast- there is WBRA on the map, the

first and only decode in over 3 months of scanning ch 2.3.4 first with the MXV-5100, and then the last couple days with the ch 3 antenna. This ch 2.3.4 scanning is with my original HD Homerun tuner which scanned ch 61 -2 the previous two years and shows, ALL TIME, most of the first two years of DTV decodes, but not the seven Wash DC and one NJ station which were lost when Rabbit Ears went down earlier this year.

I'm on a hilltop and decode 300 miles most mornings in the warmer months, but am blocked from west to NNE by the high peaks of the Appalachians which start 12 miles from my QTH. WBRA is not semi-local, but 183 miles with the edge of the Appalachians blocking a direct signal. My chimney mounted MXV-5100 at 25' did not decode WBRA-5 or WCYB-5 in thousands of hours pointed toward them, so that was the meaning of FINALLY YES, I'M SHOUTING!!!. I don't know if I'll ever decode anything on the other side of the Appalachians. Hoping!

# **25TH ANNUAL MADISON-MILWAUKEE DX GET-TOGETHER**

It's almost here again-- the Madison-Milwaukee Get-together for DXers and Radio Enthusiasts, a summer tradition on the DX calendar, is only a month away! This year's edition is a special one for us as we reach a milestone-- our 25th consecutive year we have held this event. We would be very happy if you could join us.

The 25th Annual Madison-Milwaukee DX Get-together returns to Madison this year, after the highly successful gathering in Oak Creek WI last year. This year's event will be held on Saturday, August 18 from 1:00 to 9:30 PM. Bill Dvorak and Mark Taylor are the co-hosts. The location, as it was two years ago, will be in Lake Farm County Park in Madison WI..

This all-band event has become a popular destination for Upper Midwest (and even farther environs) DXers. Each year we have between 30 and 40 DXers participate in this event, and this year will be no exception. The gathering itself is very informal, and you are invited to stay all day or only those parts of the day that are convenient to you (come when you can and leave when you must).

Here's what's planned for this year: Attendees can expect an afternoon of good fellowship and lots of DX talk in an informal atmosphere. There are opportunities to DX during the event, and a few informal demonstrations are being lined up. The optional but highly recommended dinner is being catered in the park at a price to be determined (two years ago it was \$18.00 per person). After dinner will be a short program and door prizes, then more camaraderie until 9:30's "byes" and "see-you-next-years."

For a detailed invitation or more information, please e-mail Bill at [dxerak@gmail.com](mailto:dxerak@gmail.com) or Mark at [markokpik@gmail.com](mailto:markokpik@gmail.com) (please include "Madison DX GTG" in the subject line). We hope to hear from you, and hope to see you in Madison on August 18!

## **UPCOMING METEOR SHOWERS**

### **Perseids**

Active from July 13th to August 26th , 2018

Peak night: **Aug 11-12, 2018**

Radiant: 03:12 +57.6° - ZHR: 100 - Velocity: 37 miles/sec (swift - 60km/sec) - Parent Object: 109P/Swift-Tuttle

### **Orionids**

Active from September 23rd to November 27th , 2018

Peak night: **Oct 21-22, 2018**

Radiant: 06:20 +15.5° - ZHR: 25 - Velocity: 41 miles/sec (swift - 67km/sec) - Parent Object: 1P/Halley
