

VHF-UHF DIGEST

The Official Publication of the Worldwide TV-FM DX Association

NOVEMBER 2022

Hello News WINS-FM

And goodbye to
WNYL Alternative
Rock in the Big
Apple!

ICYMI...the WTFDA Forums Are Back!

THE VHF-UHF DIGEST

The Worldwide TV-FM DX Association

Serving the TV, FM, 30-50mhz Utility and Weather Radio DXer since 1968

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: KEITH MCGINNIS, JAMES THOMAS, NICK LANGAN, MIKE BUGAJ AND JON KLINGERMAN

*Treasurer: Keith McGinnis | wtfda.org/info Webmaster: Tim McVey
Forums Admin: Chris Cervantez | Statistician: Fred Nordquist
Graphics & Marketing: Jim Thomas | Publisher: Mike Bugaj
Editorial Staff: Keith McGinnis, Nick Langan, Doug Smith and John Zondlo*

The WTFDA Board of Directors Email Addresses

James Thomas Jim-t@wtfda.org	Keith McGinnis nfmdx@wtfda.org	Mike Bugaj mikeb@wtfda.org	Nick Langan nickl@wtfda.org	Jon Klingerman jon@wtfda.org
--	--	--	---	--

Renewals by mail: Send to WTFDA, P.O. Box 501, Somersville, CT 06072. Check or MO for \$10 payable to WTFDA.

Renewals by Paypal: Send your dues (\$10USD) from the Paypal website to sales@wtfda.org or go to <https://www.paypal.me/WTFDA> and type 10.00 (1yr) or 20.00 (2yrs) in the box.

Our WTFDA.org website webmaster is Tim McVey, webmaster@wtfda.org. Our WTFDA Forums webmaster is Chris Cervantez, Chriscervantez@gmail.com.

Fred Nordquist is in charge of club statistics at nordquis@homesc.com

Our email reflector is on Googlegroups. To join, send an email to WTFDA+subscribe@googlegroups.com
Visit our club website at <http://www.wtfda.org> . Participate in our forums at <http://forums.wtfda.org>.

Our real-time prop logger is located at <http://logger.wtfda.org>. This logger is private for WTFDA members.

The free & public WTFDA FM Radio Station Database is administered and updated daily by your fellow WTFDA members.

Our new social media site is at Weme.com. <https://mewe.com/join/tvandfmradiodx>. Register and join the group of over 70 club members. This group is private for WTFDA members.

Mike Bugaj mikeb@wtfda.org

NOVEMBER 2022

With Thanksgiving coming up on November 24th, we'd like to wish all of our US members a very Happy Thanksgiving!

Renewals were received from Mike Bugaj, Scott Levitt, Andy Bolin, Greg Coniglio, Mauna Ritola, Ron Cesarek, Karl Zuk and Chris Kadlec. Thanks to all of you for your support of the WTFDA!

This arrived from Rick Lewis in WA: "In addition to what I sent Friday, here are more corrections for Lewiston Idaho, which I believe I have submitted before. 103.9 K280FQ: Alternative (since June 2021.) Slogan: Big New Rock.) They are not country, and haven't been in at least the past four years; don't know their history prior to 2018. 105.1 KVTY: AC. Slogan is now The River, also since an ownership change in June 2021. I'll also repeat here what I mentioned Friday. Starting 10-12-22, KLCZ-88.9 Lewiston is now carrying Boise State Public Radio's news service, whose originating station is KBSX-91.5 Boise ID. KLCZ is no longer airing student-run Adult Alternative programming on their broadcast signal."

And here is more from Bob Cooper regarding James Gould: "Gould was unique, driven by his huge skills and opportunity offered by his employment at GM's DELCO (Remy) plant near Kokomo. He had selected the 28 tube super chassis from Mattison (Silver Rocket 630 chassi featuring Syncromatic Tuning) and proceeded to give the receiver a special few features. The 4 IF stage (plus switchable in/out cascade design booster) in the original design became switch selectable 5 or 6 IF stages with user tuneable IF bandwidth. His testing room used 312 mile distant KFVS (Cape Girardeau, Mo) which led to a thorough appreciation for TV DXing. He kept detailed logs of new circuits against reception quality and when his highly modified receiver could tune in KFVS 24/7 he knew he was onto something. This possibly explains the VUD cover with the stacked quad of yagis. He quickly rose from tech at Delco to full engineer in charge of product development. On my visits to Kokomo over the early 60s I knew if I wanted sleep it would have to precede arrival! On one trip I was going onto Syracuse to be the guest of TACO antennas - Bob Seybold's arrays of choice. The regional airline had oversold (yes common then too) and believe it or not I and perhaps 5 others STOOD in the aisleway to get to Pittsburgh! Ah me - rest in peace James." By the way, if you were looking for Jim Gould's antennas setup, it was on the cover of the paper VUD only, not the ezine. The photo on the right is from my own collection. And with that, I say see you next month.

THE MONTHLY DX ROUNDUP

November 2022 - Nick Langan, Tabernacle, NJ - nickl@wtfda.org (717)685-9785

5 DX LOGS WE SALUTE

10/25 Tr: 97.1 WASH
Washington, DC (Jon Hamilton, St. Catharines, ON @ 316 mi.)

10/25 Tr: 104.1 WPRS
Waldorf, MD (Jerry Bond, Rochester, NY @ 316 mi.)

10/27 Tr: WAPT-DT-21
Jackson, MS (Steve Rich, Milford, IL @ 596 mi.)

10/23 Tr: WPXU-DT-16
Jacksonville, NC (Scott Levitt, Bethlehem, PA @ 440 mi.)

10/23 Tr: 106.5 WSFL
New Bern, NC (Chris Lucas, Poughkeepsie, NY @ 501 mi.)

If you have a suggestion for inclusion in the Monthly DX Roundup, please email me at nickl@wtfda.org.

TV DX HIGHLIGHTS

How is it November already? We're not entirely sure. Soon, the leaves will have fallen off the trees in a lot of places, if they haven't already. But that doesn't mean tropo chances are over. In fact, we've seen a real nice resurgence in the eastern part of the continent as October concluded. The first half of November weather-wise looks to stay relatively mild, perhaps suitable for more chances.

Some of the best activity occurred on the 27th of October, as Steve Rich's Milford autologger site and Jeff Rostron in Doylestown, OH logged WAPT-DT-21 Jackson, MS at distances close to 600 mi.

FM DX HIGHLIGHTS

The distances weren't historic, but one of our favorite openings to see happen this year was on the evening of the 25th. Tropo was reported from the Niagara/Toronto and Buffalo/Western New York areas into the DMV region (DC/MD/VA). This, in my time observing such things, is an exceptionally rare path over the Appalachians. Even more fascinating is the signals reported, including by Bill Hepburn and Jon Hamilton in ON and Jerry Bond in NY, were strong! There were a couple reports of the path in reverse, including by David Pierce and Lee Costic in VA.

LOOKING AHEAD

Eventually, maybe around mid-month, the weather will turn, and, unless you're blessed with the band conditions to take advantage of meteor scatter, there won't be much to DX at the northern latitudes for a while. For now though, during these dry, pleasant early November days, keep an eye or ear to the dials.

MERCHANDISE STORE

NOW OPEN

It's here! Now you can show off your club pride by ordering a WTFDA logo shirt from the brand new WTFDA Merchandise Store. We're proud to launch the store with a variety of 125 different shirt styles, notebooks for your logs, and unique wall clocks for your DX shack!

Even more products will be arriving soon, so make sure to check back often to see what's new. You will also be helping support the club as a portion of sales goes to the WTFDA.

The store can be found at <https://www.redbubble.com/people/wtfda/shop?artistUserName=wtfda>

Any questions, comments, or feedback can be directed to store@wtfda.org

FM Facility Changes for November 2022

Material supplied by Doug Smith

- CC: Call letters changed. Sometimes we learn of a call change a week or two before it actually happens.
- CX: License or permit canceled. Digits are the date on which it was canceled. (CX03 = canceled on the 3rd.)
- NS: Permit granted for new station.
- NW: New station on the air.
- OFF: Station is temporarily off the air.
- PC: Coverage changed. (change in antenna height and/or power) PC> =increase; PC< =decrease; just PC =negligible
- PG: Granted change in coverage.
- QC: Frequency/channel changed.
- QG: Frequency/channel change granted.
- RA: Station returned to the air after a period OFF.
- XC: Site changed.
- XG: Granted change in site.

Seeing is Believing..

Inside and out, Farnsworth quality is evident. When you see today's television on a Farnsworth — you see it at its best.

Television is no longer in rehearsal. It is here, now! And when you see the clear, bright, highly defined pictures of modern day television as received on one of Farnsworth's table or console models, you know that today's television is outstanding.

For two decades Farnsworth has pioneered in advancing television from a promise to a fact. The technical accomplishments of Farnsworth engineers—from the original development of the electronic television system to practical television as we know it today—have made history.

Superb modern designs characterize Farnsworth's current line of television receivers that, in addition to television sight and sound reception, include standard radio and/or frequency modulation. Some models also combine the deluxe Farnsworth record changer for complete television, radio and phonograph service in one instrument.

These instruments offer the same superior performance that has become synonymous with the Farnsworth name in every branch of its electronics activity. Farnsworth Television & Radio Corporation, Fort Wayne 1, Indiana.

SIGN UP & Renewal Form

YEARLY DUES \$10.00 USD For Monthly VUD E-ZINE

Print this form and send it with your dues.

Name _____

Address _____ Apt # _____

City _____ State/Prov _____ Zip _____

Country _____ Interests: DTV () FM () 30-50 () Weather ()

Email Address _____

I enclose \$ _____ for _____ years membership.

Mail your dues to: WTFDA, P.O. Box 501, Somersville, CT USA 06072

Make your checks or money orders payable to WTFDA

Note: Memberships cannot be processed without a valid email address.

Thanks for your support of the WTFDA!

The Forums are BACK!

In case you missed it...

The WTFDA Forums are up and running at <https://forums.wtfda.org>. After three months of downtime, our forums webmaster Chris Cervantez has completely re-installed the forum software, fixing the problems we had in the months prior to July. If your last visit to the forums was less than two years ago, we emailed you a new password that you can use to log into the site. If you didn't receive one, you'll need to register yourself and get access to post and go into the WTFDA members area. If you know someone who wasn't a WTFDA member but posted in the forums, have them re-register. (Please note that the VUDs are no longer available at the WTFDA website.)

The WTFDA forums will play a bigger role in the WTFDA as the month go by. Right now you can access all of the 2022 VUDs and a current membership list in the Members Only area.

Note: The format/slogans column does not appear this month. It will return next month. TV News may NOT return next month, which may also affect the FM Facilities column.
