

# The VHF-UHF Online Digest

The Worldwide TV-FM DX Association - PO Box 501, Somersville, CT 06072  
The online home of the WTFDA

THE WORLDWIDE TV-FM DX ASSOCIATION IS DEDICATED TO THE OBSERVATION AND STUDY OF LONG DISTANCE VHF AND UHF PROPAGATION AS IT APPLIES TO SIGNALS FROM 30MHZ THROUGH 600MHZ WITH EMPHASIS ON BROADCAST TELEVISION AND FM RADIO. The WTFDA Board of Directors are: Keith McGinnis ([longwave@comcast.net](mailto:longwave@comcast.net)), James Thomas ([jethomas1955@gmail.com](mailto:jethomas1955@gmail.com)), Nick Langan ([nickl@wtfda.org](mailto:nickl@wtfda.org)), Mike bugaj ([mike@wtfda.org](mailto:mike@wtfda.org)) and Jon Klingerman ([jon@wtfda.org](mailto:jon@wtfda.org)).

## JUNE 2024

### IT'S THE WTFDA 2024 SUMMER GIVEAWAY!

It's time for another giveaway and this time we will have TWO winners! That's right! Two of you are about to get lucky.

This time we are giving away two brand new XHDATA D109WB AM/FM/SW/LW/WB/Weather Radio/Shortwave Radios. This radio has received some very good reviews for its AM and FM performance. If you'd like to read a review of this radio just click on the SWLing Post graphic on the right side of the page.

Our summer giveaway lasts through the month of June. All you need to do is enter your email address by clicking the green box that says "use your email" on the form below. Once you do that, you are entered for the drawing at the end of the month. And since there are not "zero ways to enter", ignore that.

Our rules are simple. You must be a WTFDA member to enter. You can only enter the giveaway once under one email address. We will **not** enter your email address for you. You must log in to our site yourself and enter. We may also decide to end the giveaway a day or two early if necessary.

**The 2024 Madison-Milwaukee GTG.** This year marks the 30th annual Madison-Milwaukee GetTogether to be held in the Milwaukee area on Saturday, August 17th beginning at 1 p.m. The GTG is an all-band event, so all hobbyists are welcome. The address is 801 E. Park Blvd, Oak Creek, WI 53154. Your host for this DX event is Tim Noonan. You can email Tim for more information at [dxing2@aol.com](mailto:dxing2@aol.com) or call him at 414-813-7373.

**Colombia FM.** We recently received an email from one Rubin Medina. Rubin lives in Colombia and wanted us to be made aware of his blog about Colombian FM stations called [FM Colombia DX](#). Since our own FM

database doesn't have a database of Colombian radio stations, his site could be useful to DXers who receive stations from there via skip.

**CHCM 88.3 HEARD IN SPAIN.** On May 27th, Spanish FM DXer Mauricio Molano in Cecaes, in the western part of Spain, heard CHCM Marystown by double hop E skip at roughly 10:25am, EDT. Mauricio wrote this in the [E17GL blog](#): I have managed to fulfill another of my DX challenges: to catch an FM station from the other side of the pond! It was this afternoon, during the opening of Es, which had started around 1200Z and brought me several stations from the Azores Islands with good signals. A couple of hours later, our colleague Larry Horlick (Colley's Point, NL) began picking up Spanish and Portuguese stations.

In the first minutes of the opening was when I caught the CHCM-FM (Marystown) signal on 88.3 with VOCM programming. On 88.5 I have another signal but very weak. I assume it is CBN-1-FM CBC-R1 Saint John's, but it will be difficult for me to identify it 100%. Both frequencies are very difficult in my listening place (Aldea del Cano, Caceres) due to the presence of semi-local stations on 88.2, 88.4 and 88.6 MHz. This year the DX season has started late, but it has started very, very well!

**FM Boosters.** Effective May16h, limited locally originated programming is now allowed on FM booster stations. The public notice from the FCC is [here](#).

**Asymmetrical IBOC Sidebands.** WPBG-FM 93.3 Peoria, IL just completed its test of symmetrical vs. asymmetrical IBOC sideband transmission and their report to the FCC is [here](#). KINB 105.3 in Kingfisher, OK and WUSF 89.7 in Tampa have asked the FCC to give them one more year to test. KQAC 89.9 in Portland, OR had its request granted to use asymmetrical HD. KQAC was granted 5.9kw analog, 185 watts LSB and 120 watts USB.

### ADTH 3.0 BOX.

ADTH TV Box for ATSC 1.0 and ATSC 3.0  
NEXTGEN TV

ADTH NEXTGEN TV

Easy Set Up - Compact - Free TV - Future Proof.

**\$89.99** [LEARN MORE](#)

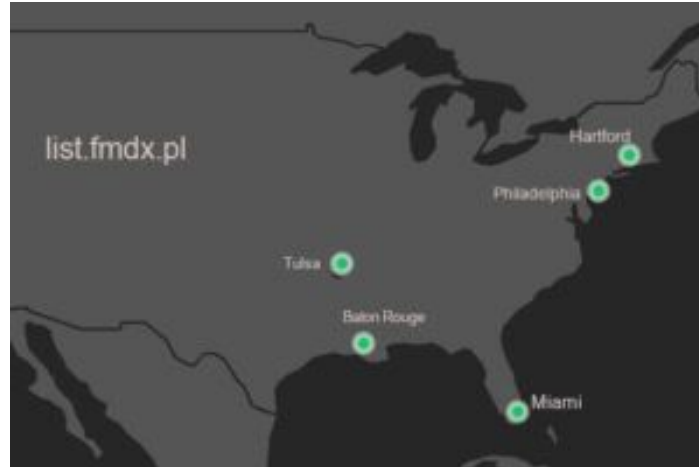

+ FREE Shipping!

The ADTH ATSC3.0 converter box is now available from the [ADTH website](#) as well as from [Solid Signal](#) at the introductory price of \$89.99. We thank Bill Hale for the heads-up on this lower price.

**DOMINICAN REPUBLIC UPDATE.** From Jim Thomas... I just wanted to pass on the note that I FINALLY got the ENTIRE DB of Dominican Republic FM stations updated in the WTFDA FM DB, all 300 stations. I had to manually

update each one – the transmitter power and the Lat/Lon for each tower location. It took me about 6 weeks to get it finished, squeezing in the updates as I had time.

**TEF WEBSERVER MAP.** This map of US TEF Webservers may help you ID a station if skip is arriving at your location from that area. Another webserver has been noticed in Toronto occasionally. Hartford, Tabernacle NJ and Miami are on 24/7.

## FORMAT FLIPS DURING MAY 2024

From [radioinsight.com](http://radioinsight.com)

Murfin Media's "My Country 100.5" KVWF Augusta/Wichita KS relaunched at noon today as "[100.5 The Twister](#)". (May2)

2351 KRBE 104.1 TX Houston, in HD over local KMGL, CHR 421

Enjoyed getting to meet fellow FM DXer Doug Speheger over lunch May 7. Nice to have someone nearby to swap alerts on openings in progress. As I suspected, I was the first other DXer he had met in person. It made me nostalgic for the club conventions in years past. As I recall, the last WTFDA-only convention was in Irving TX in 2005. There were only 9 of us there, so it was a rather intimate gathering. At least two of them have since passed. Not that I'm volunteering to host another one (2002 was my 2nd for WTFDA, also hosted IRCA in Hammond IN in 1973), but now I have the time and finances to attend one wherever it may be held (hint hint). All the other means of communicating we have now are fine, but there's nothing like conversing with someone face to face. I'm looking forward to all the reports of DX this season!
