WORLDWIDE TV-FM DX ASSOCIATION

SERVING THE VHF-UHF DX ENTHUSIAST

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION, DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCAST SIGNALS AT VHF AND UHF. W.T.F.D.A. IS GOVERNED BY A BOARD OF DIRECTORS: TOM BRYANT, GREG CONIGLIO, BRUCE HALL, DAVE JANOWIAK, AND BILL THOMPSON.

EDITOR/PUBLISHER: BILL THOMPSON **COMPTROLLER:** DAVE JANOWIAK
FM NEWS: GREG CONIGLIO **CONVENTION CO-ORDINATOR:** TOM BRYANT
TV NEWS: DOUG SMITH **PSB:** BILL HEPBURN **SATELLITES:** GEORGE JENSEN
CONTRIBUTING EDITORS: TOM BRYANT, DANNY BUNTING, GREG CONIGLIO, VICTOR FRANK, BILL HEPBURN, GEORGE W. JENSEN, JEFF KRUSZKA, TIM MCVEY, FRED NORDQUIST, MATT SITTEL, DOUG SMITH, STEPHEN WEST, THOMAS J. YINGLING, JR.
LAYOUT: BILL THOMPSON. **COVER DESIGN BY:** HARRY HAYES.

FROM THE STAFF:

APPOINTMENT: Ernest J. (Ernie) Wesolowski of Omaha, NE has accepted the position of WTFDA representative to the Association of North American Radio Clubs. Ernie is well known and highly respected in dx circles and we are fortunate to have a member of his stature as our ANARC spokesperson. Among other duties he will act as WTFDA goodwill ambassador at dx related functions sponsored by other clubs.

MEMBERSHIP SURVEY: Here's an up-front reminder to complete the questionnaire in this issue of the VUD. It needs to be in Matt Sittel's hands no later than December 1 for your input to be included in the final compilation. Matt also wanted you to know that "Mailbox" will return next month.

CONVENTION: Highlights of our recent Lake Placid convention are reported elsewhere in this issue. Many thanks to Peter George for putting together a fete described by many as one of the best in years. As noted below, we are still looking for a host for next year. As of 8/16 *NQ* bids had been received. C'mon gang...what are you waiting for?

REGRETS: News of the death of another WTFDA member comes from Gary Siegel of Toledo, OH, who reports that Ken Romstadt of Ottawa Lake, MI passed away recently. Our sympathy to his family, and especially his wife Cheryl. Ken was 39. Also, our condolences to WTFDA charter member Joe Gragg of Palestine, Texas, who learned of the death of his brother while attending the convention in upstate New York. Hopefully we won't have to devote many lines of copy to announcements of this nature for a long time.

BIDS FOR THE 1996 WTFDA CONVENTION ARE STILL BEING ACCEPTED.

All submissions should be mailed to convention coordinator Tom Bryant at 849 Todd Preis Dr., Nashville, TN, 37221. Deadline is September 30. Please include as much information as possible (even though it may be tentative) about the proposed location, facilities, field trip possibilities, your past convention attendance history, and any other pertinent information. For more information phone 615-646-2000 (no collect calls, please).

ATTENTION WTFDA MEMBERS!!

The Official WTFDA logo decal is here!!

ORDER YOURS TODAY!

(Details are found below.)

The Official WTFDA logo decal is now available in white, red, or light blue. All are 5.25" in diameter and are computer-cut in reverse to be applied to the inside of your favorite DX vehicle window. Are you a WTFDA member?

ADVERTISE IT!!

Send \$5.00 check or money order to:

Old West Graphics

CONVENTION '95 / WHITEFACE CHALET

SPECIAL REPORT:

(by Tom Bryant, convention coordinator)

Fog, drizzle and downpours didn't dampen the spirits of the 20 TV and FM dxers who made their way to the Lake Placid, NY area for the club's annual get-together on August 4, 5, and 6. In view of the sweltering heat engulfing most of the U. S. and Canada, the cooler climate at the convention site was a welcome relief...but most agreed we could have managed quite nicely without all the rain.

There was disappointment that the planned dx-pedition to the summit of Whiteface Mountain had to be scrubbed when the park service closed the road due to heavy fog, but the group managed to find plenty of other activities to fill the void. Our host Peter George had a dx monitoring station set up for both FM and TV...with FM reception providing the most interesting results. No E-skip was noted on TV, but the FM crew logged a couple of E-hoppers including WSM-FM (95.5) from Nashville. The Stereo Probe 9 performed nicely, with many of the loggings a direct result of signals reflected off Whiteface Mountain which was directly in front of our monitoring position.

During lulls in off-air monitoring, the VCR was kept busy playing videotapes of several members' dx catches.

Any lingering doubts about the convention being moved from Boston to the Lake Placid area were quickly dispelled upon arrival at the upstate NY locale.

The Whiteface Chalet was ideally suited to our group, and proprietors Madge and Chuck Randa made everyone feel welcome. Their unique brand of hospitality, along with the cozy atmosphere, added a distinctive 'homey' touch to the affair.

The Inn featured a large den-like room where several WTFDAers lounged and visited. The downstairs bar was the hot spot for talking dx (I think the tales got taller as the evenings progressed); and the adjacent room featured the monitoring setup. All three areas were popular and used extensively.

Saturday and Sunday breakfast was served as part of the room package. Since your reporter stayed up 'til the wee hours (and chose to sleep late), there is no report on that aspect of the gathering other than to note that the menu looked quite appetizing.

Daytime activity on Saturday centered on sightseeing. In spite of a steady drizzle, just about everyone headed out to take a look at the Olympic facilities. The winding roads, mountain scenery, cascading streams, and quaint villages got rave reviews. Some went into Lake Placid to shop, and a few drove up to Plattsburgh to check out studio and transmitter sites. Other side trips (before and after the convention) found club members exploring new territory throughout New England and into Quebec.

(Convention Special Report..page 2)

Following the Saturday evening banquet Peter George got the program underway with a "VUD Quiz" which had been prepared by Matt Sittel. Moans, groans, and grumbling accompanied the mind-boggling 20 questions. 'Einstein' Coniglio captured first prize with 14 correct answers. Eight correct seemed to be the average.

After the quiz, a brief open forum fielded discussion of several areas of club business. For the first time in several years, the Board of Directors was represented at the convention; with three of the five members present. It was announced that in the future, at least one member of the Board would attend each convention for the purpose of getting input on club affairs as well as to answer questions.

Appointment of Ernest J. (Ernie) Wesolowski of Omaha as WTFDA's ANARC representative was announced. His selection was based on many years of activity in the hobby, his rapport with members of several dx clubs, and his willingness and ability to represent the WTFDA as a goodwill ambassador at dxer conventions.

The need for a membership list was expressed, and steps are being taken to make such information available. Lack of communication with HQ was a bone of contention for some; and it was pointed out that corrections have been (and are continuing to be) made in that area.

Dr. Bruce Elving, editor/publisher of the "FM Atlas" and "FM Media" took the floor to offer some observations on the current dx season. He touched on the benefits of antenna phasing to increase loggings, and briefly discussed the availability of the products and services he offers for dxers.

Jim Thomas was recognized for his interest in providing club-related materials. He is currently marketing WTFDA decals and plans to venture into other areas including stationery and T-shirts.

The remainder of the evening was spent dxing, watching dx tapes, talking dx, and enjoying the company of fellow dxers. WFTDA member Scott Fybush of Boston, a producer at WBZ, supervised origination of a broadcast from Lake Placid.

By mid-day Sunday the crowd began to disperse. As good-byes were said, several commented on the excellence of the Whiteface Chalet facilities, and expressed interest in a possible return. Peter George (perhaps still in a convention-altered state of mind) even mentioned that he'd be interested in hosting again at the Inn.

Here's who attended: (by state & province) **IL** - Bill Eckberg, Neil Kazaross, Frank Merrill, Marv Shults **MA** - Scott Fybush (& fiancee), Peter George **MN** - Bruce (& Mrs.) Elving **NE** - Ernie Wesolowski **NJ** - Bill Burrows, Paul Mount **NY** - Greg Coniglio, Dave (& Mrs. Nieman), Fred Nordquist, Bob Seybold **OH** - George Greene **ON** - Phil Gebhardt, Roger (& Mrs.) Gravelle, D. Bruce Hall **TN** - Tom Bryant **TX** - Joe Gragg.

If your name was *not* on the list, you missed one heck of a good time at outstanding convention site. Whether large or small, WFTDA gatherings are always a lot of fun. If you've never attended a convention you need to seriously consider a trip to our 1996 funfest (*wherever it is*). If it's been a while since you've taken part in a club get together, how about getting re-acquainted next year?

APPLICATIONS TO CHANGE EXISTING STATIONS (contd.)

CALL LETTER CHANGES (contd.)

Was	Now	City, state
WAXA-40	WFBC-40	Anderson, SC
new-55	KHIM-55	Conroe, TX
new-62	KAKW-62	Killeen, TX
new-16	KPTB-16	Lubbock, TX
new-44	WFFF-44	Burlington, VT

Many of these changes are probably pretty old. I don't have a reliable source for call changes, so if you see any, please let me know! There have also been many -LP calls issued to LPTVs, too many to list here.

The WAXA=>WFBC, KWLB=>KSHV, and WNYC=>WBIS changes aren't yet official.

NETWORK CHANGES

Station	Was	Now
WBRC-6	Birmingham	ABC Fox
KWLB-45	Shreveport	ind UPN
KNLC-24	St. Louis	rel rel/FoxK
WNYC-31	New York	PBS ind
WAXA-40	Anderson, SC	ABC ind
WS1AU	Greeneville, TN	UPN

Fox had invested in both WBRC-6 and WNYC-13 in Birmingham; it was uncertain which would go Fox. Fox has now purchased WBRC outright, and announced it will switch to Fox by the time you read this, on September 1. I presume WTTO-21 will go ABC, but that hasn't yet been announced.

WNYC-TV has been sold to private interests; see Other Stuff. KNLC is picking up the Fox Kids Network, not carried by new Fox affiliate KTVI-2.

WAXA-40 had been a satellite of WLOS-13; it's going independent and becoming WFBC-TV. Those calls are currently used by an AM/FM radio station in Greenville, and they were the original calls of what's now WYFF-4.

W51AU had been relaying co-owned WKPT-19, an ABC affiliate. According to Matt Sittel, it's now relaying W30AP, a UPN affiliate in Kingsport. (W30AP is also owned by WKPT)

NEW STATIONS ON THE AIR

Wilson, NC: WRAY-TV-30:
1820kW/539m, 35°49'53"/78°08'50"
near the NC-42/I-95 junction west
of Wilson. Satellite of WFAY-62

Fayetteville; Fox affiliate. Seen by Eric Voytko in early August.

CHANGES ON THE AIR

WCCV-54 Arecibo, PR;
WMTV-15 Madison, WI;
WNTV-29 Greenville, SC;

OTHER STUFF

The two new stations in Nevada have the same licensee. These are indeed licensed as full-power stations, but I wouldn't expect big signals!

Channel 24 at Albion, Nebraska replaces KCAN-8, which is moving to Lincoln. 24 will be a satellite of KCAN. Interestingly, the tower coordinates approved are not those of the existing KCAN tower; indeed, they're over 60km northwest.

The new Windsor, Ontario station is owned by the CFPL/CKNX/CHWI network and will probably relay CHWI-16.

CKNX
RADIO 920-TV 8.FM 102

Canadian authorities have announced the receipt of two applications for new English-language stations at Ottawa, Ontario. Technical parameters aren't specified, though I suspect the ones I show above are correct. (if you write them in your Database, use a pencil!) Both applicants seem to be proposing the same technical facilities. One applicant proposed a full relay of another (unspecified) station; another proposed a partial relay, and some local programming. The announcement doesn't say who the applicants are.

Other applications are being solicited. Both in the U.S. and in Canada, applicants for new TV stations must show they have enough financial resources to build and operate the station. But in Canada, they also have to show that the market can generate enough adver-

(Other Stuff, contd.)
tising revenue to support not only the new station, but all existing stations. (this regulation also used to be on the books in the U.S. but was repealed several years ago)

The wording of the announcement suggests it will be very difficult for applicants to make this showing. Don't expect any construction permits to be issued here! It's also possible another applicant will propose a different channel (UHF channels 14, 19, and 65 are open at Ottawa) and the CRTC could (but probably won't) grant two new CPS.

Meredith Corp. has purchased WOGX-51 Ocala. It's too early to tell, but with Meredith already owning Fox affiliate WOFL-35 in adjacent Orlando, one might expect WOGX to become a WOFL satellite.

FOX35

WOFL • ORLANDO

FORUM

Danny Oglethorpe, Shreveport LA:

Danny has a few questions about his Mexican loggings. He asks, "What do you do with call letters that have no location?" One station he saw, XHVIZ-3, has also been reported seen by Pat Dyer, but no city is listed for this station.

Another question involves two stations (or are there two?) on channel 4. He's seeing a "TV 4 Guadalajara" and a "4 Vallarta". At scarcely 160km apart, Danny suggests these cities are too close to both have channel 4 stations.

And finally, he asks, which state is XHBS-4 in? The Worldwide Radic-TV Handbook lists both Sinaloa and Sonora.

I'm afraid Mexican information is rather lacking, except in border areas. As in Canada,

the process of licensing and building a new station seems to go much more quickly in Mexico than in the U.S.. The language barrier, and the lack of Mexican information in reliable references like the Factbook don't help.

Depending on the powers used, I'm not sure that Guadalajara and Vallarta are too close.

In the U.S., two channel 4 stations must be separated by enough distance to allow both stations to use 100kW power, even if one or both stations actually use much less than 100kW. However, in Mexico and Canada, station spacing seems to reflect the actual power used. And, it's not unusual for those countries to license stations for less than 100kW- such lower power licenses are rare in the U.S.

So, if one or both of these two Mexican stations is using relatively low power, they might be licensed at this close spacing.

Danny also forwarded an article from the July 29 Shreveport Times regarding his local channel 45. The station, built as KWLB by a religious organization, has been sold and will become a UPN affiliate. Along with the programming changes, comes a change in call letters, to KSHV. KSHV-45 will continue to carry Shreveport Pirates football and Shreveport Captains baseball.

The article also indicates the station will increase power and tower height in October.

Ernie Wesolowski, Omaha NE:

As you may remember, Ernie suffered a near total wipeout of UHF DX when new KXVO-15 signed on the air. He wrote KXVO, KPTM-42, and KYNE-26 asking if there might be any problems at the stations causing the severe crossmodulation. Ernie has now received a reply from Nebraska Educational Telecommunications Commission engineer William Ramsay.

Parts of Ramsay's letter are important reading for any DXer in an urban area considering adding a high gain preamplifier.

"What you describe would appear to be a classic case of intermodulation products generated in your high gain UHF antenna preamplifier. It is likely that the strongest UHF signals, possibly our channel 26 or channel 42 drive the

(Forum, Wesolowski, contd.)
preamplifier into a non-linear operating region and once this occurs, sum and difference products of virtually any of the visual or aural carriers can be generated. The arithmetic can be complex, but on a spectrum analyzer you would see a great many spurious signals, some of which fall in the channels you are trying to see... Such high gain UHF preamplifiers will only be able to produce output levels of about 10 to 20 dBm before overloading."

"Your description of the AM radio station intermodulation is accurate, but such mixing at the transmitter requires that the two carriers be present at one or the other transmitter at a high enough levels to generate intermodulation in the final amplifier of the transmitter. While it may be possible that channels 15 and 42, sharing the same tower could generate a transmitter intermodulation product, it is very unlikely due to the substantial difference in frequency between the two channels and the fact that UHF transmitters usually incorporate bandpass output filters that would prevent the undesired signal from reaching the amplifier in the other transmitter where the intermodulation products could be generated."

"At Nebraska ETV we receive channel 26 in Lincoln for off-air monitoring. Since we also use high gain UHF preamplifiers at our receive antennas, it has been necessary to add UHF single channel traps for both channels 15 and 42 to provide a clean monitoring signal for channels 26 from Omaha and 29 from Hastings... The only way to correct for this type of intermodulation is to use filters between the antenna and preamplifier (emphasis Ramsay's) that reduces the strength of the signals causing the overload so that the preamplifier can handle the weaker signal you are trying to receive, without distortion. Since the tuners in most TV sets have very good overload characteristics, you may be better off using a higher gain UHF antenna without a preamplifier, if you want to receive a wide variety of UHF stations at substantially different signal strengths."

This is an excellent discussion of intermod and spurious reception. I know several other members have experienced similar interference, as I have myself in the past.

On a different subject, Ernie advises both Omaha-area TBNS, K45CQ and K53EY, are now off.

Bill Draeb, Keweenaw WI:

Bill has a bunch of area LPTV information. First, he observes two new WGKI-33 (Fox) translators. W61CG Sault Ste. Marie and W64CR Pickford-Hessel (about 30mi. south of W61CG) are both on the air. Interestingly, W64CR doesn't appear in the FCC list as of August 3! (which means I can't really address Bill's observation that it appears to be 20kHz off frequency) Chances are, W64CR is licensed for N (no) offset; this relaxes the frequency tolerance requirements at the expense of greater distance separation requirements. Or, judging from its absence from the FCC database, it may not be licensed at all!

W43AN (which is IDing as W43AE - but they're still in the FCC list as W43AN) Iron Mountain is still carrying WBAY-2. Which must be confusing to the viewers of that area- as WLUK-11's IDs include this LPTV!

Bill has noted another Canadian station with an ID in the vertical interval. CJCB-4 Sydeny, NS has joined the CBAT stations in New Brunswick with this DX aid. Bill also saw this ID on CJCB-TV-6 (ch. 3) Port Hawkesbury.

Bob Delaney, Mount Vernon IL:

On the same LPTV subject, several new LPTVs have popped up in the southern Illinois area. K48ER St. Louis is now on, with Three Angels. In Evansville, Indiana, W67CB has appeared with All News Channel and other programming parallel to W52AZ. (one DXer asked on the internet whether this station replaces W52AZ. No; the towers are separated by quite some distance, and the stations cover different parts of the city.) Ed Phelps has also seen W67CB, as have I.

Finally, a new W48BM is on in Bowling Green, Kentucky with religion. I have yet to see this one, despite its relatively nearby location. The terrain up that way is rather hilly, and the full-power Bowling Green stations don't do all that well either.

Keith Short, Columbus OH:

Keith is just one of a number of correspondents to pass along word of the end of a tradition. After 47 years, WLWT-5 won't be carrying the Cincinnati Reds in 1996. WLWT was the first TV sta

(Forum, Short, contd.)
to broadcast a night game, and the first to air a game in color, and except for a brief loss of rights to WCPO-9 and a "war-time hiatus" (I assume the Korean War), WLWT has carried the games since 1948.

The Cincinnati Enquirer suggested three reasons for the end of Reds telecasts on channel 5:

- The games were losing lots of money—over \$1 million in 1995.
- WLWT had signed a new affiliation contract with NBC. In return for greater compensation payments for carriage of NBC programs, the station is expected to avoid pre-empting network programs as much as possible.
- The station was for sale. (and indeed did sell three days after the baseball announcement) The paper suggested potential new owners would be scared off by a large financial commitment to baseball.

Keith brings up another subject that's been in the news quite a bit lately. While most of the country is looking at the news of the sale of ABC to Disney, and of CBS to Westinghouse, in Ohio the news involves smaller groups.

Multimedia owned WLWT-5 and 51% of WKYC-3 Cleveland. (NBC owns the other 49% of WKYC) They also have three other stations—WBIR-10, WMAZ-13, and KSDK-5. All five have been sold to Gannett Co., which owns 10 other TV stations. For the most part, there is no overlap in signal coverage among the stations of these two groups, though WMAZ-13 overlaps with Gannett's WXIA-11 Atlanta.

The other notable sale was of Outlet Communications, to NBC. Outlet's Ohio operation is WCMH-4 Columbus. Outlet's other two TV stations are WJAR-10 Providence and WNCN-17 Goldsboro, NC.

Keith offers some observations about some of this news.. Regarding NBC's reluctance to allow WLWT to preempt prime-time for sports, he says "It seems to me that the networks are putting restriction clauses in their affiliation contracts concerning preempting network television shows for sports programming. I wonder if this will affect college sports programming such as SEC basketball games on Wednesday and Saturday nights? The independent and cable sports networks (ESPN, KBL, etc.) could well be the only stations offering sports coverage on non-network affiliated stations."

To a considerable degree, I think this is true. Though there's a growing move towards LMAs in television—Columbus's own WCMH has one, with WWHO-53. Such agreements give the controlling network affiliate the opportunity to spin off potentially profitable sports to their unaffiliated LMA partner without risking their own affiliation.

With regard to the Gannett/Multimedia deal, Keith asks whether they'll have to sell WLWT-5 because of the common ownership with the Cincinnati Enquirer. TV / newspaper co-ownership is generally not allowed by the FCC, though many combinations have been grandfathered in. My immediate inclination is to suggest the Enquirer would be sold instead; few cities are supporting two newspapers, and despite the relatively depressed state of the broadcasting industry, I believe it's in better shape than publishing.

Finally, a (very) brief excursion into the world of pay TV for Columbus' W13BN. After years of HSC, the LPTV decided to offer subscriptions to the History Channel, scrambled. Apparently it didn't work; after only one week, W13BN returned to HSC..

DX ETC.

August has been slow. Some decent enhancements and a little skip, but nothing exciting. Hope the tropo starts catching up soon!

RADIO

WEATHER - AIR - MARINE - PSB

BILL HEPBURN - 35 LOCKWOOD RD - BRAMPTON ON - L6Y 4T7

Some PSB DX reports (some 300-mile plus tropo and Airband ES) and Wx-Radio news have come this way..in time for a long-overdue column >>

Move over WXJ-62 Nome!... VBU-996 Inuvik. NWT has come on the air and now claims title as the world's most northern Weather Radio station (and the first above the Arctic Circle). It's 54 watts of power on 162.40 MHz serve the 3,200 residents of the town of Inuvik.

Those who can, have, or will DX the Canadian "Weatheradio Canada" will notice a number of changes recently. Most stations now broadcast a high-rate data burst lasting 2 - 5 seconds once a cycle. This data burst contains information to be detected and/or printed by specialized "Weathercopy" receivers. Unfortunately, the data mode is not a standarized one, and is a specialized non-standard Baud rate Packet-type signal. DXers will not be able to decode the broadcasts using decoders such as the Universal M-8000, etc. The receivers, costing around Cdn\$500, are used by various municipalities, companies, and other users that require routine or specialized forecasts and warnings. As well, data from stations such as VAD-320 Niagara are used to control large signs along the lakeshores and other waterways giving up-to-date marine forecasts and warnings electronically (sure beats the old "signals" flags used prior to 1989 to indicate gale warnings, etc.). A study is now underway to allocating unique frequencies to be used for data transmissions only, leaving the standard wx channels for voice only (there have been many complaints about the "loud screeches" on the radio, hi). I have also heard of the NWS in Washington testing with standard 1200 baud ASCII data transmissions in the 163 MHz area.

Another major change on the Canadian stations is voice automation. Most stations in the major centres are partially or fully automated. Your PSB editor is actually in charge of the automation project for South-Central and Southwestern Ontario. This system is not like the usual Elmer Fudd-type computer voice (like that used by the USCG Portsmouth on HF)...but instead uses digitized samplings of human-spoken words and phrases..including multiple intonations depending on where a word or phrase falls in a sentence. It sounds not that bad, though there are a few small bugs still to be worked out. During severe weather, the human "DJs" take over. To hear a sample..try tuning into Gander Volmet on HF (3485, 6604, 10051, 13270 kHz at 20 & 50 past) as this broadcast uses the same system. I was talking to a forecaster at NWS Chicago the other day, and he says that the NWS is also looking into automation.

Now, some new station news (mostly from Canada, as the network continues to rapidly expand; most wx offices will be closing within 3 years as wx-radio broadcasts become available in most areas for routine information, with 1-900 services from the remaining regional wx centres for specialized information)...

WEATHER RADIO**NEW STATIONS**

162.525	WX	WWF-35	OH	Bridgeport - relays WXJ-47 162.475 Cambridge.
AM	WX	?	AB	Banff - planned.
162.55	WX	VBX-254	AB	Crowsnest Pass - 98 W.
162.40	WX	VBU-827	AB	Edson - 100 W, relays VBU-829 162.475 Highvale.
162.475	WX	VBU-829	AB	Highvale (near Wabamun) - 74 W, from EC Edmonton.

VHF-UHF UTILITY DX...

NEW STATIONS

162.55	WX	VDA-280	AB	Limestone Mtn (SW of Rocky Mtn House) - 120 W, relays VBC-336 162.55 Red Deer.
162.475	WX	VBK-616	AB	Medicine Hat - 100 W.
162.475	WX	VBU-374	AB	Peace River - 123 W, relays VBA-557 162.40 Grande Prairie.
162.55	WX	VBU-828	AB	Whitecourt - 100 W, relays VBU-829 162.475 Highvale.
162.40	WX	?	BC	Campbell River - planned.
162.55	WX	?	BC	Castlegar.
162.40	WX	?	BC	Cranbrook - xmtr = Kimberley.
162.475	WX	?	BC	Penticton - xmtr = Summerland.
162.40	WX	?	BC	Prince George.
162.475	WX	?	BC	Vernon - xmtr = Commanage Mtn.
162.40	WX	VBL-854	MB	Portage - from EC Winnipeg.
162.40	WX	VBU-996	NT	Inuvik - 54 W.
162.475	WX	VDB-224	ON	Fort Frances - 21 W, from EC Thunder Bay.
162.55	WX	VBE-716	ON	Lavant (NW of Lanark) - 126 W, relays VBE-719 162.40 Ottawa (EE/FF), replaced former Almonte station.
162.55	WX	VBE-718	ON	Moose Creek - 126 W, relays VBE-719 162.40 Ottawa (EE/FF), xmtr = Sandrindham.
162.40	WX	VAW-217	ON	Omemee - 125 W, relays VEU-671 162.55 Peterborough.
FM 88.9	WX	CB?	ON	Parry Sound - 50 W, planned, to relay XMJ-316 162.475 Collingwood for drivers on Hwy. 69, xmtr = 45-23-24 80-02-21.
FM 90.7	WX	CBPS	ON	Tobermory (Bruce Peninsula Nat'l Pk) - 50 W, from EC London, opr jointly by Environment Canada & Parks Canada, xmtr = Cypress Lake 43-13-20 81-31-25.
?	WX	?	QC	Drummondville - info unkn, (FF).
?	WX	?	QC	La Tuque - info unkn, (FF).
162.40	WX	VBU-746	SK	Lanigan - from EC Saskatoon.
AM 810	WX	?	YT	Whitehorse.

CALL CHANGES

162.40	WX	VBE-719	ON	Ottawa - ex-XLJ-696, 126 W, xmtr in ON (former xmtr in QC), UHF link XLN-572 on 414.2375 MHz.
162.475	WX	VAZ-533	ON	Windsor - ex-XMJ-838.

FREQ CHANGES

162.55	WX	XLW-573	NS	Yarmouth - ex-162.475.
162.40	WX	XLT-839	ON	Goderich - ex-162.475.
162.40	WX	XJV-363	ON	Kingston - ex-162.475, 178 W.

STATUS CHANGES

162.475	WX	WXN-68	NY	Watertown - now originates programming (from either NWS Binghamton or Albany).	
162.475	WX	XLJ-892	ON	Beardmore - now relays XLJ-891 162.55 Red Rock.	
20	162.55	WX	XMJ-320	ON	Paisley - ex-Port Elgin, now (once again) relays XLT-839 162.40 Goderich.

VHF-UHF UTILITY DX...

STATUS CHANGES

162.55	WX	XLJ-891	ON	Red Rock - back on air, 170 W, from EC Thunder Bay.
162.40	WX	XMJ-373	ON	Sault Ste Marie - now uses VHF link VAT-342 on 173.955 MHz.

COLUMN DEFINITIONS: are as follows: Total = Total number of FM stations logged from DXer's location (All loggings should be received within 25 mile radius of this location to count.) Freq. changes count as a station, call letter changes DO NOT count. Also count a station only once regardless if logged by different propagation modes. 88-92 = All stations logged from 88.0 to 91.99 Mhz. ES=Total number of stations logged by E-skip. MS=Total by meteor scatter. AU=Total via Aurora. USA=Total number of states and the "+" = Washington, DC. CN=Number of Canadian provinces logged. MX=Number of Mexican states logged. PO=Number of foreign countries, but not Canada/Mexico. TPU (Total number of political units)=Sum of USA CN MX and FO. YB = The year you began DXing from this location. Other groundrules for computing log totals are included in VUD issue 2/95. Note: Some of you need to get current and submit your latest stats to keep on the Scoreboard. Also submit any distance records, states stats and personal best statistics. Send via E-mail if you have computer/modem. Laserjet printouts of personalized DX distances covering 5600+ FM/TV North/Central America and Caribbean cities, with choice of miles or kilometers, are available for only \$2.00 donation. Include your DX location and grid coordinates with your order. 73...Fred

WESTERN TV-DX

September 1995

Doug Smith, 7277.3143@compuserve.com (1385 Old Clarksville Pike, Pleasant View, TN 37146-8098)

Was just re-reading your notes about vertically-polarized antennas as local-QRM rejectors—and the results are indeed interesting. I think to some degree they reflect the severe terrain of the Bay Area.

Note that not all TV stations are horizontally polarized! While those using linear polarization are required to use horizontal, stations may voluntarily use circular polarization instead. If they choose to do so, they may double their ERP (maintaining the same ERP in the horizontal plane as they'd have if they weren't CP). It is possible to be licensed for a power in the vertical plane less than your horizontal power—elliptical polarization—but in practice very few stations do this, probably fewer than five in the U.S.)

CP is supposed to improve reception on rabbit ears & similar cheap antennas on sets near the transmitter. By my experience, using such antennas at sites within a mile of WISC-3 (not CP, though it will be in a few weeks!) and WSMV-4 and WTVF-5 (which have been CP for several years), I can tell you CP works, and works very well! At least from the station's, and the "sane" viewer's, point of view.

A quick scan of the 1991 Factbook shows KCRA and KCAL (L.A.) as the only two CP stations in California. To be honest, I strongly suspect several more stations are now CP. In any case, that may explain the roughly 4dB lower V/H ratio for KCRA as compared to KTVU and KRON. I would theorize the better V/H ratios for KPIX and KVIE are due to tighter antenna patterns at the higher frequencies. Maybe the most interesting factor is that you're seeing nearly 10dB V/H ratio on a station that's supposed to be transmitting a 0dB ratio!

Jeff Kruszka, 7706 N. Jefferson Place Circle #M, Baton Rouge, LA 70809

Notes:

1. Tearing through KETC on & off for about an hour or two.
2. Rush with footage of Al Gore & George Stephanopoulos.
3. "BBS Saskatchewan". Any ideas? I suspect CFSS... but it could be CFQCTV1 or CBCPTV3.

A strange phenomenon has struck my closed caption (cc) decoder—the captions have been known to turn red, purple, green, or even BLUE! Also, captions have turned up on promos such as for "Star Trek: The Next Generation", but not complete sentences. I guess local stations don't care about deaf viewers as much as I thought! (As for myself, I can hear very well, but the (cc) decoder came with the TV, so I might as well use it—should come in handy in case I come down with a headache while listening to the sound! Then all I have to do is press the MUTE button for peace & quiet, and watch the "subtitles". I don't have to miss a word of dialogue! Well, on most shows, that is...)

... and the DX just keeps on coming in! Two months. 25 stations. Look out Eric—I'm not near the airport anymore!!!

Notes:

1. Am I correct in assuming CBCP-3 is the satellite station for CJFB-5?
2. The program heard here was "Palo Alto Gateways" and they talked about Boulder Creek. Palo Alto and Boulder Creek are in the S.F. Bay Area. I called KRON-4, but they said it wasn't them.
3. Not CKKX anymore?
4. This station was due north and in French. CKPG? CBUT?

Those small TV dipole antennas work wonders. I can't tell you how many stations I logged using the dipole that I didn't see on the ch. 2-6 Yagi. July 19 here was a great E-skip day, many TV stations logged and many 6-meter stations logged.

Shortest TV skip goes to KTVX-4 at 567, longest to KSNW-3 at 1378. Many double-hoppers on 6 meters to the east coast.

Thanks to Doug Smith for the 1995 USA TV database; it is very well done and will help me in future DXing.

ERIC BUENEMAN (NOUIH), 631 Coachway Lane, Hazelwood, MO 63042-1347, (314) 839-9751 (Internet: EBSDJDX@aol.com).

Equipment: Alaron 12-inch (30 cm) black and white TV, Archer VU-110 VHF/UHF/FM antenna with Archerotor at 33 feet above ground level. Distances in miles and kilometers.

July 1995 CDT
19 Es 1220 KACB 3 TX San Angelo 755/1208
1245 KENW 3 NM Portales 785/1256
1259 XHY 3 YU Merida 1270/2032

E-skip was discovered at midday on 7/19, where not only local KTVI-2, but also local KMOV-4, was propagating. I checked Channel 3, and sure enough, there was DX in there! It was the first time this season I saw KENW-3 (two acquaintances of mine, Jason Balas and Matt Kerns, are news anchors there), and another reception of XHY (this time, with a telenovela, Spanish for "soap opera").

22 tr 1950 WAND 17 IL Decatur (in weaker than
WCIA-3) 110/176
1955 WCIA 3 IL Champaign/Urbania (/WCFN-
49), over WSIL 150/240
2010 WSIL 8 IL Carbondale 100/160
2011 KFVS 12 MO Cape Girardeau 115/184

This trop opening was rather strange, because these were the only TV stations in (no UHFs made it through except for WAND-17, but K18BT was nulled). FM stations did make it in from Champaign/Urbania, Decatur and Springfield. Maximum useable frequency for the trop hit only 104.5 MHz. Did have some E-skip the previous night, pointed ENE with an unID CBS on 3 (either KYW or WFSB).

2216 Columbia, MO 8, 17 105/168
2216 Jefferson City, MO 13, 25 100/160

Western TV DX Eric Bueneman's report concludes

More heat means more tropes, right? Two new stations made it through, including big surprise WEIU-51. It was a really strange opening, with the antenna pointed toward Terre Haute, Columbia/Jefferson City was coming in off the back side of the antenna, not only on TV, but also on FM.

John R. Tudenham (W0JRP), 2824 Missouri Av, Joplin, MO 64804

This is my first year of any serious TV DXing. Spend more time on FM or radio amateur 6 and 2 mtr DXing. July was much better than June, with better than average tropo and almost normal E skip conditions. Joplin is a good place to DX ch 2-6 with no local area stations. Channel 3 from Springfield at 70 miles and channel 2 and 6 from Tulsa at 100 miles do give me some problems. I may consider a vertical Yagi for E skip.

Walt Breville, 1149 Innsbrook Estates, Wright City, MO 63390-9801

Equipment:

RCA 20-inch stereo color TV, c. 1991, Archer VU-190 VHF/UHF antenna, 14' AGL, high location. No ant. amp. RCA 13-inch color TV digital tuning, c. 1984 using built-in rod & bowtie antenna indoors.

Note: All receptions on July 10-11 on the 13" TV with indoor antennas, except channels 11 & 6 from Iowa. A big thrill for me, as I have never experienced UHF TV reception beyond 62 miles before this!

Maybe one reason there are not more reporters

is people like me getting new word-processor typewriters & trying to use them! I have one I bought three months ago, & I'm still having a lot of trouble getting used to it—it STILL takes me longer to type a letter than using a plain old typewriter. I am very sorry I got it because of all the rigamaroll I've had to go through reading the 300 page manual & then screaming cusswords when it does all kinds of funny things & I have to try punching certain keys or go back & read the manual some more.

I fervently believe this world is in so much turmoil & so screwed up because of all the computers disrupting people's lives & causing more turmoil, more lost productivity than gained since computers invaded workplaces—maybe in future years common sense will prevail & these & *%\$#@# computers & this computer age will be phased out!!!

Editor—without the aid of computers, I would not be able to put this column together. I can, however, remember my frustration with this Sanyo MBC-550 computer and WordStar 3.3 back in 1983. We'll see what Walt has to say in a year or so, when he has overcome the learning curve.

Notes:
 1. gave both MCTV and CBC IDs
 2. call letters on screen all the time upper L
 3. Love Connection; 1400 Cosby Show
 4. Giving constant cw IDs over and over (about 3 a
 minute). Only 734 Watts, but in for at least 36
 straight hours at 395 miles.
 5. ABC; General Hospital; 1432 local Cadillac ad?
 6. Current Affairs; 2335 Real Stories of Highway
 Patrol; Northland Ford Dealer ad.
 7. Movie about a black woman with British accent
 recalling sexual incident to female interviewer
 8. this is the TBN around Omaha that has been
 reported, but is apparently unlicensed
 9. had an ID slide up with WGBA-26 in large letters
 and W22BW in small letters, but I do not think
 WGBA was on the air at the time
 10. cutting on and off with Shepherd's Chapel
 (KLGT-23?) and then a CBS (WIFR-23)?
 11. Fargo-Morehead weather station audio but direc-
 tion was too far north for that area
 12. same as the non-STV A&E logged here on 7/8?
 13. calls and prayer line ph # on screen
 14. Jerry Springer; 0153 Clorex & Bud Light ads
 15. probably either the NE or LA channel 22 xtrs
 16. completes all full power continental U.S. channel
 5's except for the four west coast stations and
 WDTV-5.
 17. ads for a store on "w side Wellington Square" and
 Sight and Sound Store

18. local promo for newscast with David and Barry
 Nelson, John Harris, and Greg Pendergraft.
 19. previously the "WAZ-TV" on ch. 52?
 20. Don Dupree "Making Money" infomercial
 21. STV X-rated movie, but with normal audio!!!

What a month! The 7/29-30 opening was every
 bit as good as the Thanksgiving 1986 opening in my
 opinion. Who knows how much further it would
 have got if the Rockies hadn't got in the way?
 KTVT-20 and KDVR-31 were practically snowfree
 at times.

LPTV/xlts that are underlined without QTHs, I
 am reasonably sure are new loggings. Have written
 to Fred McCormack and Doug Smith for help on
 these. Any help from members on these or the other
 unIDs will be greatly appreciated. Any station not
 eventually IDed will be deleted.

According to Fred, the LPTVs seen on 6/18 on
 chs 19,33,35,45,47,49,53,55,57,59, and 61 were from
 Iowa Falls.

Danny Oglethorpe, P.O. Box 6688, Shreveport, LA

Notes:
1. Monterrey 27th supered throughout much of morning show.
2. Called WCVB, and they verified what I saw. Local program, "Chronicle," with famous WCVB logo.
3. Tropo from Little Rock 2 and 4 ruined everything on those channels. Es was not quite as strong as Arkansas.

A few of my distances have been recalculated due to a previous error. I am also using only one atlas (Rand McNally), rather than whatever was handy.

I've decided to delete as much tropo from my reports as I can. Anything under 250 miles is not generally very interesting from here unless it is new or low-power. With the rotor, Dallas/Ft. Worth, Houston, Little Rock, Jackson, and such places are fairly easy catches; in other words, not newsworthy.

Note 1: The antenna was aimed southwest, with the rear to WWAY. At first I thought this was a signal from Mexico as Mexico was strong at the time. Floating on KTBS.

I have been blessed with flexible hours and much Es! The Es is not as plentiful as last year, and

the MUF is generally lower, with shorter openings above channel 2. However, I never expected this season to be very productive. Much to my surprise, I've seen most of the stations I saw last year—and then some.

The Es on July 18 and 19 was some of the strongest and strangest I've ever seen. It lasted all day on the 19th, with openings from two directions common on both days. The NE—SD—ND openings (1445 and 2310 UTC) were both fast-moving and intense. There were many more unIDs than listed above. In addition, channel 2 was hash for much of the day. If the all-day opening had been one day earlier or later, I wouldn't have been able to stay with it!

Comments:
Like the first day of July, the last one was heavily loaded with Es here on the FM band (though only approx 5-6 hrs this last time!) The heavy amount during the month really reminds one a lot of the 1986 season. We'll have to see if August will be just as active now. The number of Ch 6 ID's on Jul 19th ought to give a hint how wild that one was as well. I sometimes glance at the TV at the right time even when the FM is crammed full of Es!

The days of 100+F temps produced copious amounts of in-state tropo with only a little "spill" into Louisiana.

With the lack of TV stations running TP's with ID's in the prime meteor scatter time it sure isn't the productive adventure that it used to be. It's also so hard to find a really quiet FM channel anymore, and the August in-state tropo is usually enhanced for this shower! It becomes a case of aiming the FM antenna to minimize the Houston/Dallas stuff as anything closer (i.e., Austin) is not likely ever to be covered by an ms burst long enough to deduce an ID from.

EASTERN TV-DX

Stephen West
1077 Sandy Narrows Court
Virginia Beach, VA 23454

Deadline: 5th

The DX season has been good to most to most reporters.
Dates of skip and tropo openings varied depending on DXers QTH.
July 18th was one of the best skip openings.

Comments:
On June 6-7 I had first time tropo opening to Topeka-Kansas City area.
On July 2, I got Es skip opening to CUBA chs 2-5 during 3 hours with mostly stable signal.

In order to reduce the length of my DX report I won't report any tropo re-los under 700 miles (TX most of LA, south of OK and eastern MS)

Since I installed an UHF antenna in July of 1992 I'm getting tropo catches out 500-600 miles more than 25% of the time (7-8 days a month at least)

* means I wasn't at home I used a VCR for recording DX on ch 2.

 Equipment used this time: Sony Trinitron Color TV model KV-8AD11 8 inch color set
 VHF: Indoor Sony Rabbit-Ears with Winegard DA-8050 indoor preamp
 UHF: Channel Master 6 foot parabolic dish up 45 feet, with DX-Labs amp UA-900
 11-element yagi design antenna with Blonder-Tongue CMA-Uc (hurricane special)
 Note #1 New 6 foot Channel Master dish installed at last! With Quad-4 RG-6 coax cable & DX-Labs amp
 model UA-900
 Note #2 Off frequency, should be on 601.75mhz for audio, but center tuned on Icom IC-R7000 as
 601.725Mhz.
 Note #3 5-30-65 New Cushcraft A50-33 3-element 6 meter beam up below uhf-dish, & does not bother
 uhf tv dx at all!
 Note #4 Much 6 meters skip worked on my new Kenwood TV-60 ham radio. MUF was over 144mhz on
 7-19-95 with contacts in OK & AR. Much 6 meters skip worked on following dates: May
 7,10,11,19,20,21,22,25,28 June 6,7,8,10,11,12,13,18,20,22,24,28,30 & July
 1,3,4,6,7,8,9,12,14,18,19,20,21,22,28,31.
 Note #5 With all the Comcast Cablevision fiber optic upgrade project taking effect in my part of the
 county, I noticed my catv leakage tv to my tv dx has come and when! Thank God! Also my 6 meter tv
 problem with my next door neighbor has stopped too I hope.
 Note #6 I got for my Pentium computer at 90mhz the Hauppauge Win/TV-Celebrity card. I can watch tv
 on the computer while I use any other program, and video capture, and make AVI files

Eric Voytko (cont.)

Note #1-The strangest DX experience ever. From 7 to 9 am received only weak signal, a full colorbar with no logo and no audio. Shortly after 9, a film starting with a man pasting signs on a wall, looked like a cheezy video done in the studio; cut to a 747 in flight for 1 minute; cut to well produced commercial of beautiful people dining at posh eatery, interspersed with same persons changing in a locker room and featuring a naked man! All the while with audio of WFAE 98.7 FM in Charlotte and A.M. Jazz! At 9:06 back to gray scale TP then off again. At 9:15 a distorted picture with terrible audio sounds (like a jackhammer) as if the Xmitter was acting up, gone for good after two minutes of this. Except for the nudity, it is similar to the HDTV tests WRC-4 did a while back on channel 38 in Washington

Note #2-Regis & Kathy Lee, not Hancock, a stumper (on same bearing as Charlotte, NC)

Note #3-NEW ON AIR, WRAY-TV Wilson, NC: sat. of WFAY-62 Fayetteville (Fox). Dual ID of Fox 62 box in corner with '30' inset in NC map below it, or full screen w/big calls

David Austin, 9826 Fairfax Square #372, Fairfax VA 22031

Comments: It's good to be back in the WTFDA! I was a member in the early '80s but school, career, moving around (lost my logs!), etc. took me away from "organized" TV DX for a number of years. We have had some really good skip this summer and it's prompted me to begin keeping logs again. XYL, who finds this hobby too "abstract" for her tastes, and I have travel plans and other commitments here this summer, so I wasn't able to make Lake Placid. Next year I hope. A tip for those who have CompuServe: you can use BizFile to search for names of businesses you hear in local ads. You can search on the basis of likely target area (city and/or state) or entire US/Canada. If you hear two or three different names and they all have addresses in the same city or area, this ID is 99% as valuable as a straight call letter ID. Another computer tip: PC Globe has a utility for calculating great circle distances based on latitude/longitude. I used it here where I had exact coordinates. Very helpful. I collect TV Guides; anyone who wants to swap (mine is Washington-Baltimore) can contact me via CompuServe/internet.

Comments: Apologies to the editor for this rather large and somewhat dated report. I'll keep the remarks short. Overall the '95 Es season was above average. July 1 was one of the hottest openings in several years. In addition to the tv listings above, both Jamaica and Bahamas FM's were logged that day as well as an FM from Flagstaff, AZ; for a new state. Best surprises were CKLT-1 (3) NB [new province] on 7/17, and 'most wanted' KREZ-tv (6) from Durango, CO on 7/19. KREZ is now operated by KRQE (13) in Albuquerque and carries a portion of the "Q-13" newscast...inserting "Z-6" area news from Durango. This little guy only runs 6.1 kw visual erp! Massive Tr openings on 7/10 and 7/12 were also rewarding. NOTE: KTVS (3) in Sterling, CO is now promoting itself as "THE NEW" (KTVS) and seems to be carrying less break content from KGWN in Cheyenne. **NEW TOTAL STATION COUNT - 469.** 73's & gooDXing - Tom

Notes: Lots of ES this month! The opening on the 22nd was especially good...with my best ever Atlantic DX! Maine becomes state # 33. PEI heard on 113.8 MHz w/the Charlotte VOR Navigation Aid. The calls for the CBAT relays are unknown. Saint John may even have the calls CBDT, but I don't know for sure.

KLBY-4 KS has been seen with promos for both KUPK-13 Garden City and KAKE-10 Wichita at different times as well as with a "Kansas Television Network" ID. KPRY-4 SD has been seen with KSFY-13 Sioux Falls promos. An unid ch 3 seen on the 5th was // with the same KSFY promos. Who was this? as I thought that KOTA-3 originated it's own programming? Any other possibilities?
 Overall a great July! Better than June...

Doug Smith, 1385 Old Clarksville Pike, Pleasant View, TN 37146-8098

Equipment: Sears 19" color stereo TV; Archer VU-160 for VHF; RS corner-reflector for UHF, with CM-7475 preamp.

Russell Miller (cont.)

JULY 1991

Note #1 - Super strong Maine tropo may have contributed to the long distance. I saw no sign of double-hop Es.

Note #2 - Sounded like WABA instead of WABU

Note #3 - Not SRC (Charlottetown, PE) or RQ (Grand-Fonds), it seemed to be coming from Gaspe' peninsula.

Stephen West, 1077 Sandy Narrows Court, Virginia Beach, VA 23454-5516

NORTHERN FM-DX

For DXers in MA,NH,VT,CT,MA,RI,NY,PA,NJ,OH,MI,IN,IL,WI,MN,IA,NE,SD,ND,MT,WY,ID,WA,OR,AK,Canada
SEPTEMBER 1995 — DEADLINE: The 5th — LOG CUTOFF: 3 months from postmark

Conditions really picked up in July and early August, as evidenced by this huge column. A wide range of skip in July, with some excellent openings. July 22 was especially unusual-a widespread Maritimes opening for many in the Northeast US and Eastern Canada. Tropics were also excellent, with some super paths reported around July 30-August 1. Great to see so many new faces lately, thanks to everyone who reports! On with the DX ...

Good DX in July made up for a slow June. My sophomore year at UNL is fast approaching, and I may be making my home in Lincoln during upcoming summers as well. According to WTFDA "rules" for FM stats, loggings in Lincoln wouldn't count on my Omaha totals. By the way, I now stand at 1581 heard over about 4 years of FM DXing. Working much more and having to commute (1/2 hour drive, not too bad) cut down on DX time more than ever this year. Anyway, that's all for now. 73's. (Congrats on the great totals. Hope the 2nd year at UNL goes well, and you still have at least some time left over for DX-I know lately how that feels too, hi-gc)

Hello again. Once again we have moved. (5 times in the last 8 years!) Now we live in Phoenixville. DX to the north is not as good here as it was in Pottstown. We're not on a hill, nor are we in a valley, so DX is good but not great. The super New England tropo on June 28-29 was so intense that when local TV ch12 went off the air for the night, ch.12 in Providence was in crystal clear on the local cable service! Skip has been below average here this year, but that may be in part to me not checking as much as I should. (No, most people seem to agree with that opinion of this year, although it picked up in July a bit-gc). Talk to you later, Dan O.

WELCOME NEW REPORTER!

LENNY GOLDBERG - 343 E. MAIN STREET - ASHLAND, OREGON 97520

(503) 488-0066. Equipment: Crappy Toyota AM/FM radio with junky antenna. I bought a Grove antenna but couldn't get my car radio out to install it

unID	95.1	?? You're in the heart of the country, Y95 country" (KCGY-WY, I think-gc)	

I never thought I'd get any DX on this car radio. What a great surprise! It just kept coming, too, but I had to quit and get to work. Also received unID Spanish music on 104.3, 107.1, classical on 88.1, 89.5, 89.7, country on 94.9, 92.1, 98.1, 99.1, 101.1, 107.1, 99.9, folk on 91.9, rock on 98.1, 90.9, punk on 89.5, and a bunch more. If anyone can ID any of this, please let me know. Also note that there is a pirate here (Medford) on 107.7 rebroadcasting the dance channel from DMX cable, so there is no ID, but they never get caught! They're on all the time, for over a year, maybe two. (Welcome to Northern FM DX, Lenny! We look forward to hearing from you the next opening!-gc)

A BIG THANK YOU TO PETER GEORGE FOR A VERY SUCCESSFUL 1995 W.T.F.D.A.

CONVENTION AT THE WHITEFACE CHALET IN WILMINGTON, NEW YORK!!

Thanks for your dedication to the club!!

Comments; I missed that Toronto/Detroit trop opening, despite the many DX-alert calls I received. Really, I was sleeping. This has been a outstanding season for us here in the North East and personally it has been a all out great year with trops and the abundance of E-Skip. Plus I was able to get a new state & 2 political units.	GooDKing....Bill.

1995 hasn't been the greatest of seasons but things got going in July and I must say with more variety than 1994. We didn't have any Northern openings last year. My problems with the cable wire in front of the house have started up again as of yesterday, July 28th, this after a glorious 2 or 3 months of absolutely no sign of any cable radiation. Now I have slop on my VHF channels, as well as on FM. Once again, I have WDAC 94.5, WMBT 1530 AM on 103.7, Allentown on 104.1, Philly on 104.5, and numerous other annoying things, all courtesy of my cable company. I live 5 feet from an apartment building with 3 brand new neighbors, so I wouldn't be surprised if one of them is trying to get signal illegally. I can only hope it will again disappear. It was nice having a clean 104.5 while it lasted. No real tropes yet, but I guess this hot, humid, miserable weather will have to get out of here first.

COMMENTS: Will continue report next month. Although the '95 Season failed to produce as much skip as '94, I was satisfied with the results. I do feel this years skip was more diversified and perhaps more interesting. The next get together here will be November 4th. Write for information/details!

73, Joe

That's all folks. 43 new FMs. 19 new TVs. Totals up to 1227 FM, 324 TV. Thanks to everyone for help w/ID's.
NOTES:
 1) WDLA, 92.1 Walton NY; WIYN, 94.7 Deposit NY and WDHI 100.3 Delhi NY all sign off at 10 pm.
 2) The station on 93.3 I thought was Mexico was the one in Texas. Thanks to Fernando Garcia for help on this. Even though there was an ad for Sonora Rosa in Mexico City, there was also an ID for Estereo Latino on 93.3 and 104.9, referring to Rosenberg TX. That's it for the last month. Lots of short skip this year. Some of these Canadians are 500-600 miles. Will do mileages to see if I've broken my short skip record later.

Note #1 Heard Des Moines ads and Des Moines area news. Probably KBBM. There was no ID on this one.
Note #2 Heard very well in WMSE's null with the antenna directed to SE.

Hi, this is my first report to Northern FM-DX. I've been a avid WFTDA member for over 10 years. In all these years I've been depending upon rabbit ears and a GE Super radio. Since then I recently added a rooftop antenna and rotor and a better receiver to enhance my FM DX hobby and it sure is a big improvement. Finally after all these years I am finally reporting my FM loggings publicly! Being this my first, some of the loggings may be irregular. Thou I won't know that till I get used to my new antenna system. But most of the stations reported are over 100 miles away. I live 12 miles from Milwaukee, WI and pretty much know what goes on in the local FM scene. WEZW 103.7 is planning to change calls to WAMG, they call themselves "New Magic 103.7". On Sept. 1, a new station is expected on the air as WFMI-FM, 106.9 broadcasting from the same tower as WFMR 98.3 in Menomonee Falls. I suspect thou that WFMI will be licensed to Brookfield, a suburb west of Milwaukee. They plan on an all Jazz format. 73s, John Lenz
(Welcome to the column, John! Glad to see you report, looks great! Good to see that the new setup is working out for you. We hope to hear from you soon!-gc)

FM DX in the Midwest is picking up after a slow start in June. The hot, humid conditions in July have provided some excellent tropo openings, including loggings from Texas, South Dakota, Kansas, and Minnesota. St. Louis FM sat 143 miles are daily regular this summer. (Nice to hear from you, Steven. That was some opening at the end of July there! We hope to hear from you again-welcome to the column!-gc)

AN ACTIVE HURRICANE SEASON OFTEN BRINGS GREAT TROPO DX!
DON'T MISS THE NEXT DX OPENING;
IT MAY BE HAPPENING RIGHT NOW!

0815 99.7 unID NJ 50s white vocals and big bands, 103.1 Jukebox Radio
 (This is WXTM Monticello, NY-gc)

During this month, dozens of semi-fringe stations in PA/NJ/MD/VA have been added to the log during our 24-day stagnant air heat wave (11 July-4 Aug). Most of them aren't interesting enough to report here. Real disappointed that the big tropes didn't materialize; cx seemed ideal for formation of a duct out to OH/IL/IN.

SAUL CHERNOS' comments ...

A very brief tape loop identifies as the Huronia Tourism Association and says an interactive tourism information system can be reached by telephone at (705) 835-5438, or Pound-ONT for cellular telephones. No calls heard but looking into this. Lots of July Es, and two rare SuperTropo openings to the east coast. Makes up for a rather bland May-June. The rarely-heard Canadian Maritimes Es was particularly welcome, though signals weren't too strong. Interesting to get FL at same time, and to hear at least one New Englander had a wide range as well, from n.w. ON and MB to NF, plus AL and LA. Very interesting pattern. I'm looking forward to learning more about other catches that day. - 73s, Saul

GREG CONIGLIO - 5100 GLENWOOD DRIVE - WILLIAMSVILLE, NEW YORK 14221

Equipment: Pioneer TX-9100 tuner modified with 150khz and 180 khz filters, CM Stereo Probe 9 FM antenna - 20' AGL, CAC11 & RG6 coax. Phasing: Jerrold 10 element TV antenna at ~ 25' AGL, rotatable, into "two capacitors in a phase box", and switchable rabbit ears both into a 0-10-20 db Radio Shack amp.

It didn't turn out to be a bad season after all, despite the dismal start in May & June. A nice variety of skip in July and early August made up for that. I was away out in the U.S. Southwest and the Colorado Rockies for the last half of July. Some really beautiful country out there! DX in the mountains was terrible; hardly anything ever heard outside of the locals. The air is too dry, I guess, not to mention the terrain, hi. Heard some skip from New Mexico, and an excellent trop opening from Kansas, though, details of which to be sent to Danny Buntin. Sounds like I missed some great DX back east, namely the July 22 Maritime opening, and the July 30-31 super trop. Things have been active to the southeast here in August, perhaps partially due to the active tropical season this year. A couple of notes...thank you very much to Peter George for a GREAT convention at Lake Placid. I really enjoyed myself there, and it was great seeing everybody again! Hope we all can make it next year as well. Thanks, Pete! Also, pay special attention to Matt's MAILBOX column this month. The WTFDA survey initially was to be published in the August VUD, hence the October 1st deadline. That deadline may have been moved further up to give you more time to finish it and mail it in. Check MAILBOX and FROM THE STAFF for details. Be sure to fill it out and let us know what you think about the club! 73, Greg

SOUTHERN FM DX

SEPTEMBER 1995

SOUTHERN FM DX is for reporters from: AL, AR, AZ, CA, CO, DE, DC, FL, GA, HI, KS, KY, LA, MD, MO, MS, NC, NM, NV, OK, SC, TN, TX, UT & WV. REPORT!!

ES PICKS UP IN EARLY JULY; TROP STAYS WELL UNDER 520 mi.

Es activity for the 1st half of July increased to the point where one DXer called 7/1 the best Es day he ever had. Overall, the season is certainly no match for 1994's Es.

Walt Breville, 1149 Innsbrook Estates, Wright City, MO 63390

I found the Tulsa tr opening as I was driving near my street and found KNYD 90.5 blasting thru the '94 Ranger's radio. Drove home and fired up the tuner. Lately, I tried out a Terk "Pi" small dish amplified antenna, found it no good for even medium-strength semi-local reception, returned it to Crutchfield and got my refund. Crutchfield seems to be a good stereo equipment catalog firm to deal with, but they do no carry integrated amps or separate tuners. (They more like specialize in car stereo. DB)

On the dogma that lower frequencies require larger antennas for best performance, our AM BCB DXing brethren overturned this dogma years ago. For decades AM DXers used strictly 100 foot or longer straight wires until the late 1960s when NRC member Gordon Nelson invented a square loop just 40 inches or so per side with transistor amp that rivaled the 100 ft. wires in signal pickup and gave a tight figure-8 directional pattern to boot. A few years later smaller ferrite-rods just a foot long with RF amps became most AM BCB DXers' signal catchers.

Charles Kettering invented cash register motors and auto starters replacing the bad hand cranks in spite of scientists and experts telling him it could not be done by the laws of electricity. I hope this spurs one or more technical experts among us to invent a good tiny antenna--they are needed, as I noticed a trend when I moved out here last year: Restrictions/prohibitions against outdoor antenna and large dishes seem to be the rule in subdivisions and towns that are otherwise highly desirable, crime-free places to live. My subdivision of Innsbrook bans dishes over 18" plus any outdoor antenna visible from a neighbor's house or deemed as obnoxious-looking from the street by the trustees. Luckily, the thick trees on the average 2 acre lot hide a good many antennas. My next door neighbor's place is up for sale, hope the new owner is tolerant! Now my TV yagi on the porch deck is hidden by foliage, but when the leaves fall in Oct/Nov. I may have to take the TV yagi down until May, if my new neighbor turns out to be intolerant. 73.

 July Es got started with a bang! The 7/1 Es is the best skip day ever for me. Signals and MUF were rock solid. Wish I had checked TV ch 7 & up for possible MUFs there but couldn't leave the FM. The long duration of the opening allowed for adding many needed from normally common skip areas, but Oklahoma is somewhat rare with me in Oklahoma after 21 years of trying. 24 logged with 8 via Es. Last new one logged was on 8-1-82. DB) The only odd areas heard on 7/1 was the Ohio and DC stations peeking in ever so briefly. Hopefully, everyone DXed on July 1st.

SEPTEMBER 1995

SOUTHERN FM DX

Bueneman, cont.

First E-skip opening of the season made it into FL and southeastern Mexico, but only made it as high as channel 6. However, tropes made up for it on June 8, with three new stations logged. Was a bit surprised to receive KMXL 96.1 at equal level with WDZQ, TV stations from SW MO and SE KS were in at the same time, with Jefferson City TV stations in like locals! 100 degree heat also brought in four straight nights of tropes, into Kansas City and Topeka on July 10 (also received TV DX from Tulsa, Oklahoma City and Little Rock, Nashville, SW Indiana, Western Kentucky, southern Illinois and SE Missouri on the 11th and 12th, and into Iowa and Wisconsin on the 13th. TV DX on the last night was a mess, only pulling out the Quad Cities on channels 6 and 18, 73 and good DX from NOUH.

SEPTEMBER 1995

SOUTHERN FM DX

Notes:

- In his recent SFMDX report, Keith Pugh indicated that the Reynosa station on 93.1 may have changed calls to XHCPO. I heard no calls during this logging, only ads for Reynosa and a "93.1 Super Strong" slogan.
- Be careful with this station, which rebroadcasts KSBJ-89.3 Humble TX. A local announcer gave a call ID, then switched the feed back to KSBJ, which also gave call IDs (at stronger volume). It took several reviews of the tape to establish the difference between the two calls, and to verify that I was hearing one station, not two.

An additional note regarding uIDs: I only log stations from which I hear either 1) a clear call ID or 2) a combination of a distinctive slogan and specific references to location. The identity of some of the stations noted as unidentified above may be obvious to others, but I regard them as unconfirmed until I can verify that the station in question actually uses the slogan that I heard. The information provided by other DXers via e-mail and letters (thanks to John Combs and George Rogers, among others), as well as the FM DX reports in VUD and Greg Coniglio's column, have been very valuable in clearing up a number of these uIDs. Any additional help would be greatly appreciated.

Hank Holbrook, 407 Arundel Road, Fair Haven Cliffs, Dunkirk, MD 20754

(Return postage enclosed with all reports. U.S. & Canadian sent first class postage. Foreign addresses \$1.00.)

7/3 tr

0754 WSHV 98.9 VA South Hill Much easier than when on old freq. 105.5, no sign WSBY South strong versus normal SSE. 0800 WRSF 105.7 NC Columbia, under WQSR

No skip this summer as of 8/7. No benefit from Aug. FL hurricane. Interesting situation is DC area. Redskins new flagship station is WJFK-FM in Virginia which has reception problems in suburban MD, so games will be simulcast on Balto's WLIF-FM, but still leaves some areas with possible reception gaps, especially from moving vehicles where WJFK gets int. from adj. WMMX. Complaint letters should have been in Sunday papers by the time this is read.

PUBLISHER'S NOTES:

OOOPS!...We've had to hold a SOUTHERN FM DX report from John Jefferson, and a planned continuation of ANTENNANOTES, until the next issue. We're just about out of space for this month, and want to be able to fit the Membership Survey Form insert into this edition, which has turned out to be a real record-setter: the largest September VUD in club history! That's really something, when you consider that all the columns expected to appear had not arrived as of this month's deadline.

SEND IT IN!...Speaking of the Membership Survey, please take a few minutes to remove it from this issue and send it to: Matthew C. Sittel - Bear Creek Lane, Apt A-4 - Asheville NC 28806. We need to hear from you now, even if you never report to the VUD. The results of this survey will tell us what you want to see in the VHF-UHF DIGEST, provide us with better data on the demographics of WTFDA. WHAT are you waiting for? Fill it out and send it to Matt!

JUNKED MAIL?...If you have received a damaged VUD recently, or just "part" of a VUD, you're not alone. This happens sometimes, and it seems to happen more often in summer months, probably due to the humidity effect on automated postal sorting equipment. Never fear...we keep a few extra copies on hand for several weeks after each mailing, set aside to replace any that may go astray. If you have failed to receive an expected VUD issue, or if one arrives damaged, just drop us a line and we'll do our best to replace it for you. We do not, however, currently have back issues for sale, as the demand isn't quite there to support printing many extras, and we do also have commitments to ship samples to people requesting info on WTFDA, and to some hamfests and DX club conventions.

MANY THANKS to Greg Coniglio, Robert "apologies to Mike Judge" Twomey, The General Instrument Corporation, RF Systems Division, and Tom Bryant for providing recent VUD cover material.

--Bill Thompson
