# WORLDWIDE TV-FM DX ASSOCIATION

SERVING THE VHF-UHF DX ENTHUSIAST

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION, DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCAST SIGNALS AT VHF AND UHF. W.T.F.D.A. IS GOVERNED BY A BOARD OF DIRECTORS: TOM BRYANT, GREG CONIGLIO, BRUCE HALL, DAVE JANOWIAK, AND BILL THOMPSON.

COMPTROLLER: DAVE JANOWIAK EDITOR/PUBLISHER: BILL THOMPSON  
FM NEWS: GREG CONIGLIO CONVENTION CO-ORDINATOR: TOM BRYANT  
TV NEWS: DOUG SMITH PSB: BILL HEPBURN SATELLITES: GEORGE JENSEN  
CONTRIBUTING EDITORS: TOM BRYANT, DANNY BUNTIN, GREG CONIGLIO, VICTOR  
FRANK, BILL HEPBURN, GEORGE W. JENSEN, JEFF KRUSZKA, TIM MCVEY, FRED  
NORDQUIST, MATT SITTEL, DOUG SMITH, STEPHEN WEST, THOMAS J. YINGLING, JR.  
LAYOUT: BILL THOMPSON. COVER DESIGN BY: HARRY HAYES.

## FROM THE STAFF:

**WANT A BETTER VUD?** A great deal of what you see in this publication is the direct result of contributions by WTFDA members. In addition to your reception reports, column editors are almost always in need of information. For example, with all the network affiliation changes there are a lot of new logos in use, and Tom Yingling would appreciate copies for the "QSL CORNERLOGOS RUN" feature. Jeff Kruszka needs pictures of your dx catches for "TV PHOTO NEWS". Doug Smith and Greg Coniglio are in search of info regarding new stations and/or changes at existing facilities. "MAILBOX" editor Matt Sittel is the man to contact when you're looking for a place to make your views known. Those are just a few areas where you can be helpful in keeping everyone well informed. Other feature writers are also interested in new material. It's an easy way to make a contribution to the club without taking on a lot of responsibility. Check this (and previous editions) for mailing addresses.

**SURVEY:** As of mid-September Matt Sittel reports that about 50 completed survey forms have been returned by club members. The response thus far is well above expectations. If you have not completed and mailed your copy, please take time to do it right now...while it's on your mind. The form was the centerfold of last month's VUD, and the deadline for submissions is December 1.

**NICE GOING, BILL!** A tip of the hat to WTFDA's long-time editor/publisher Bill Thompson for on-time delivery of last month's monster VUD. His addition of well-designed 'filler' material contributed to an exceptionally good looking, dx-filled issue.

**CONVENTION VIDEO:** The camcorders were rolling at our August convention at the Whiteface Chalet, and highlights of the weekend will be available for a nominal fee. Ernie Wesolowski and Tom Bryant handled the taping, and Tom is in charge of editing and narration. Be watching for specifics in an upcoming "FROM THE STAFF".

**NO BIDS YET:** As this report is being prepared (September 16) no bids for a convention site or host have been received. *In view of the lack of response, the deadline is being extended ONE MONTH to October 31.* Of the 300+ members in the WTFDA there must be at least one willing to stage our only annual organized club-wide event. This is not a 'killer' job, and help is available. For more information write or call convention co-ordinator Tom Bryant, 849 Todd Preis Drive, Nashville, TN 37221; 615-646-2000. (You can also E-mail questions or bids to INTERNET:102037.452@compuserve.com).

# YOUR \$ & THE WTFDA

By Dave Janowiak, Comptroller

## INTRODUCTION

As a member of the Worldwide TV-FM DXers Association, you are entitled to information regarding the club's financial affairs and status. A detailed statement will be prepared at year's end and published in the February VUD. This interim report is presented primarily to familiarize you with operational aspects of the club treasury.

By way of introduction, I assumed the Comptroller role a few years ago when veteran DXer Gary Olson gave up the job. Through agreement with Editor/Publisher Bill Thompson, I continued to use the procedures implemented by Gary.

## HOW WTFDA FUNDS ARE HANDLED

Financial matters originate with Bill Thompson at the Buffalo headquarters address. Bill collects various checks, recording the amounts and updating the membership list as he collects money. Most money is for membership, with some income from samples, etc.

Periodically, Bill forwards checks to me with a detailed accounting of his expenses (invoices for stamps and printing). He, therefore, indicates money spent plus money received, and he requests a check based on enclosed invoices. Bill pays for publishing with money from his personal account, and does not ask for compensation from WTFDA for his loss of interest. Because of Bill's heavy work schedule, I may receive more than one month's worth of checks and requests for reimbursement for printing/postage costs. These costs have run as low as about \$500 to almost \$1000 per month depending on the size of the VUD.

When I receive the checks and invoices, I double-check Bill's math, count and stamp all checks, calculate what the bank balance should be, and head for the bank. As a convenience to me, the WTFDA savings account is kept at First Financial Bank in Greenfield, WI; where I do much of my personal banking. The club savings account is in the name of Worldwide TV FM DX Association and Dave Janowiak.

A normal transaction involves depositing checks, getting Bill's check for publishing, getting any other checks for members who paid for club expenses, and seeing that the numbers come out right. I send Bill his check with a copy of the account book balance and a letter discussing anything pertinent.

I usually only withdraw a few checks in a year, most to reimburse Bill, but a few for photo bills or other miscellaneous items.

(COMPTROLLER'S REPORT, continued)

The year-end WTFDA balance since 1990 follows:

|          |         |
|----------|---------|
| 1990 --- | \$2,058 |
| 1991 --- | \$1,879 |
| 1992 --- | \$1,639 |
| 1993 --- | \$1,862 |
| 1994 --- | \$2,026 |

The balance as of 8/12/95 is \$2,968. The reason for the higher current balance is that many members took advantage of renewing for two years when it became apparent that publishing costs would rise dramatically in the future, and the club's annual membership dues were raised.

Historically, WTFDA got certain revenues from supplies. This partially subsidized the operation and kept dues increases in check. However, in the last few years, income from supplies has diminished to a small portion of total income. Dues increases, therefore, are inevitable, serving as the only way to keep supplying a quality monthly digest.

What is considered a reasonable account balance? Some present and many past members of the Board of Directors feel that about \$2,000 is an acceptable minimum balance which would allow us to 'ride through' any emergency. We would, therefore, seem to be OK now. But remember, without revenues from other sources to offset postage and printing increases, perhaps a higher balance is needed.

If anyone has any questions concerning financial matters, please contact me. Anyone who wishes to see all account entries from 1990 to the present, please send a SASE with two ounces of postage to me; I'll send you copies of the complete bank account book.

Dave Janowiak  
5023 South 65 Street  
Greenfield, WI 53220

---

John Ebeling, 9209 Vincent Ave. S., Bloomington, MN 55431  
(forwarded with permission from Tom Bryant)

I have a gripe. Seems any communication from HQ has been very poor. Back in 1990 or so, I volunteered to be back issue "distributor". I was sent 3 boxes of back issue VUD's. Publicity in the VUD brought some orders.

Since September 1991 there has been no activity! My space requirements prompted me to write HQ several years ago suggesting tossing many of the old issues, retaining about 5 for each month. No response from HQ, and since I put a deadline on my request, I dumped them.

Many times I have sent requests to HQ to publicize the fact that older issues are available---never a word! For the record, I have the following back issues: December 1989 through August 1991 (five copies each). That's it. Don't know how things are handled now for any back issue requests. Appreciate the opportunity to bring this matter up, as if nobody cares, I should maybe dump the rest of them and quit.

---

William J. Draeb, 1304 Ellis St., Kewaunee, WI 54216-1802

As a member of the WTFDA from almost the beginning (I joined with the second issue after some prodding by Ferdie Dombrowski) I've seen a lot of changes. I also was editor of more than one column at various times in the club's history. The club has been run pretty smoothly and I don't have any complaints there.

In the August issue, Mike Hawk shows some concern over rising subscription rates, as do I. What I would like to see is an annual accounting showing monetary income (from what sources), expenditures (to what entities, specifically) and what monies, if any, are left over at the end of each year. Perhaps one of our benevolent board members could address this question and why it hasn't been done in the past. I'm sure someone has records because without them one wouldn't know the status of the club.

I will be looking for an answer in future months.

---

Eric Bueneman (N0UIH), 631 Coachway Lane, Hazelwood, MO 63042-1347 (314) 839-9751  
Internet E-mail: EBSJDIX@aol.com

It's so nice that something as great as WTFDA Mailbox has come to pass! It's nice to hear from our members, as well as those in our club's upper class. I've been a member of WTFDA from 1985 to 1988, and since 1993, and I've seen my dues go from \$15 to \$24. However, I paid for two years before the latest dues increase took effect.

An introduction is in order: I'm 28 (will be 29 in October), just retired from KCFV-89.5 after spending two three-year stints (1985-88 and 1992-95) and have been involved in the DX hobby since 1981, and in addition to FM and TV, I also DX AM, SW, and the HF Ham bands. I'm also a code-free Technician Class Amateur Radio Operator (call sign N0UIH), licensed since October 1992, and work the 2-meter ham bands (mostly on 146.85 MHz, negative offset). In addition to WTFDA, I also belong to IRCA, NASWA, ARRL, and two local Amateur Radio clubs, Suburban Radio Club (which runs the 146.85 MHz repeater in St. Louis) and the Sacred Heart-Gateway To Ham Radio Club, out of Sacred Heart School in Valley Park, MO. I've also DXed from Woodstock and Marietta, GA, in addition to two locations in Hazelwood, MO, two blocks apart.

My current location is a great DX location, especially for FM and TV DX. I was lucky to move into a house (with my parents and 82-year-old grandmother) that already had an antenna mast, so I placed my Archer VU-110 (which I purchased in 1988, after moving to Woodstock, GA) on the roof of my current QTH, and bought a rotor in 1994, allowing me to use my antenna's directional capabilities. That allowed me to experience the big trop openings December 26-27, 1994, January 15-16-17 and July 10-11-12-13, 1995. It allowed me to balloon my TV totals from 78 stations at this time last year to about 170 now.

Again, it's nice to have a forum for the members. 73 from Eric-N0UIH

David Austin, 9826 Fairfax Square #372, Fairfax, VA 22031 75313.43@Compuserve.com

Hello to all in the WTFDA My specialty is TV DX, however, since we live in an apartment I am very limited as to what I can do with antennas So at present my DX hobby has to remain as much theoretical as practical I did see, though, a good portion of this summer's hot sporadic-E, logging new stations in Texas, Nebraska, Minnesota, and South Dakota among others I was a member of WTFDA in the early '80s and I appreciate Matthew Sittel's and Tom Bryant's encouragement in getting back active. I'm 34, married two years, and am a computer systems/LAN administrator (MBA '92 American University). I collect TV Guides and will be happy to exchange with others — I especially need areas west of the Mississippi, the mid-South (including Texas), and New England. I am also a language hobbyist and have varying degrees of ability in French, Spanish, Polish and German. Any tips on apartment dweller's DX very much appreciated!

Robert E. Schweitzer, 5367 Sundance Rd., Salem, VA 24153

Welcome back WTFDA Mailbox! I have been a WTFDA member since April 1980. I moved to scenic Salem, Virginia in May 1991 (from central New Jersey) at the expense of DX results. Ten years of DXing in New Jersey yielded 250 FM and 150 TV stations. Four years in the Virginia mountains has not been "DX ready" - only 120 FM and 8 TV stations. I still enjoy the hobby, making a DX "catch" the more rewarding. My home is nestled between two mountains with one of them home to about 30 transmitters - resulting in "images" all over the FM band. Imagine that for frustration!

I really enjoy the VHF-UHF Digest front covers with cartoons. My all time favorites are November 1984, October 1981, June 1988, March 1993, July 1990, December 1990, and April 1995. The March 1985 cover really sums up my DX problems! Regards to all in the club!

Gary Siegel, 2955-115th Street, Toledo, OH 43611

Normally when I send in to these columns I have good news to report with new loggings or some local change on the radio scene in the Toledo area. This time however is different. Perhaps by the time you read this you will have learned of the sad news involving the passing of one of the DX fields most accomplished DXers. On August 7th very good friend and spirited DXer Ken Romstadt of nearby Ottawa Lake, MI (suburban Toledo-Ken was a native Toledoan having grown up in my neighborhood in the Point Place section of Toledo) died of natural causes at age 39. He leaves behind wife Cheryl and son Kevin along with a host of memories that we as DXers shared. I knew Ken for some 35 years, even before either of us got into the DX hobby. When I got interested in the hobby in the mid-60s, Ken became interested soon after and took the hobby up seriously after 1970. While I may have been the catalyst for getting him started DXing he took the hobby to very accomplished heights. Many of you may not be familiar with Ken (although some of you met him at the 1971 IRCA, 1974 NRC, and 1984 IRCA Toledo conventions) he did have a way of carving out friendships in the hobby while not being widely traveled. It was through Ken that my own DX horizons and some of my best friendships developed in the hobby were forged and expanded. Had it not been for Ken I might not have heard or known about the DX clubs such as IRCA, NRC or WTFDA. Some of my earliest introductions to other DXers such as Dan Myers, Frank Merrill, George Greene among many others were through Ken, so many like Dan, Frank, and George have proven to be lasting friendships that I owe quite a debt to him that can never be repaid but through these pages you will come to know Kenny a little better than you might have. Ken was not a bragger when it came to DX or in life. He went about his business as best as he could. While we were competitors on the DX field we were also friends as I mentioned and we often exchanged notes on catches, tips, and conditions. We both greatly expanded each others logs, interest in the hobby and in a myriad of other non DX related areas. I considered Ken to be my key eyes and ears in the western end of Lucas County (he lived just yards over the Ohio line in Michigan) and I'm sure he saw me the same way in the eastern portion of Toledo's county. While I haven't been able to assemble Ken's final DX totals I can pass along that by my best estimate he heard over 2500 AMers, over 500 FMers, and saw about 500 TVs. On AM he easily had me beat in countries with some 70 some heard. I will as time goes by submit some of his best catches to these pages to give each of you a picture of just how good a DXer Ken was. And for as good a DXer as he was, he was an ever better person. He will be sorely missed here. On a happy side note perhaps my best TV catch ch 3 from Venezuela being IDed as such goes to his credit-he first suggested that was who we were seeing and on video tape stop action later I was able to confirm his suspicions. It was this ability that made him so valuable to me DX wise. The fact that I know so many of you and appear in these pages to share his accomplishments with you is to his credit also and stands as a testimonial to him. Ken we'll all miss you.

Don't forget to send in your WTFDA membership survey, we need YOUR input! ..... 73s Matt

 WI WGMO 95.3 Shell Lake (1pm-4pm)

\* - your editor noted WXTK carrying that program on celeat night while travelling through Southeast Massachusetts.

\*\* - This station has changed format to country, so they may no longer carry the program. Thanks, Richard!

•• Dave Markson, of Merrimack, New Hampshire writes to note that WHRL 103.1 Albany, while still jazz, was more contemporary sounding during a trip through there on July 16th. The new slogan is "Smooth FM". He also mentioned some Internet "World Wide Web" sites that he recommends:

BOSTON RADIO ARCHIVES:  
 ftp://radio.ics.mit.edu/radio/bostonradio.html  
 "Up to date happenings in the Boston Metro area. Also tons of info on TV/FM/AM stations, histories, powers, towerpix, audiostationIDs, etc. within a 75 mile radius of Boston. All cities should be lucky to

have such a site!" (I believe WTFDA member Scott Fybus is involved in the maintenance of that site. I have tried it myself, and also give it an excellent rating!-gc)

BOSTON RADIO WATCH - INDEX:  
<http://www.utopia.com/mailings/BostonRW/>  
 "Up to Date broadcast happenings of the Boston Metro area"

RADIO STATIONS ON THE NET:  
<http://www.mit.edu:8001/activities/wmbr/otherstations.html>

"List of radio stations on the net (updates as info is sent to them)" I have also used this frequently to find radio station web pages. This is the most comprehensive list that I have been able to find so far, listing over 500 U.S. stations with "web pages" as of 8/31/95. This one is highly recommended. I will try to compile sometime soon a list of my most useful Internet resources on the Internet. This, and the Boston Radio Archives will certainly be on that list! Thanks for the update, Dave!

•• Doug Smith writes, via Internet, to let us know that Broadcasting and Cable reported the death of Simon Geller, at age 75, on July 11th in Rockville, Maryland. Simon is known to WTFDA members as the former owner and sole employee at WVCA 104.9 in Gloucester, Massachusetts. The station didn't make much on ads, so relied on listener contributions. A few years ago, Simon sold the station, since he was getting tired to run WVCA enough to satisfy minimum requirements, and the station remained classical, but became WBOQ, "W-Bach".

•• John Ebeling writes with a list of stations on Minnesota Public Radio. The whole network has been known to use the slogan "Classical 99", referring to KSJN 99.5 Minneapolis, so some confusion is possible! Here is the listing of the classical music network:

ID KWRV 91.1 Sun Valley (100 watts)  
 IA KLCD 89.5 Decorah (100 watts)  
 MN KCRB 88.5 Bemidji  
 WSCD 92.9 Duluth  
 KSJN 99.5 Minneapolis/St. Paul  
 KCCM 91.1 Morehead  
 KLSE 91.7 Rochester  
 KSJR 90.1 St. Cloud  
 KGAC 90.5 St. Peter  
 KQMN 91.5 Thief River Falls  
 KRWS 89.3 Worthington  
 SD KRSD 88.1 Sioux Falls  
 Classical music and news stations include:  
 MN KRSU 91.3 Appleton  
 KBPR 90.7 Brainerd  
 WIRR 90.9 Virginia  
 MI WGGL 91.1 Houghton

**FMNEWS**

Translators in Alexandria (90.9), Austin (94.3), Ely (101.7), Fergus Falls (89.7), Grand Rapids (104.1), International Falls (97.7), Roseau (90.9), Winona (101.9), all in Minnesota. Also 92.7 in Houghton, Michigan (why??), and La Crosse, Wisc. on 88.1. So, anyone hearing classical music and the "Classical 99" phrase has a MN Public Radio station. The only problem during a skip opening is, which one? Thanks for the information, John!

•• Mike Bugaj sends an article from the *Journal Inquirer* about Hartford morning radio. The Spring Arbitron ratings show the perennial leader, WTIC 1080, relinquishing the 25-54 category to "Sebastian", on WZMX 93.7, a station specializing in 70's oldies. WZMX scored a 12.4 from 6 to 10am. WTIC was still up, but trailed at 11.2. WRCH 100.5 (soft a/c) was third with 9.6. WZMX obtained Sebastian from cross-town rival WCCC 106.9, and has seen its morning show audience grow markedly. WRCH 100.5 leads at other times of the day, with 12.5 from 10am-3pm, followed by WZMX 93.7 (9.9), and country WWYZ 92.5 (9.6). From 3 to 7pm, WRCH at 11.2, followed by WWYZ 92.5 (10), and WTIC 1080 (9.5). At night, WRCH was 1st once again, followed by WWYZ and WTIC-AM.

•• Saul Chernos checks in with some items of interest. The 5/23/95 *Toronto Globe & Mail* features an article dealing with Mega Wave Corp of Boylston, MA developing an antenna "that can pick up a wide range of frequencies, from the VHF band to the UHF, without moving. A processor inside the antenna scans the air waves and makes the magical adjustments necessary for the best reception." Wouldn't that be nice, hi. They claim this will be a major improvement because "TV viewers won't have to get up and adjust the antenna to change channels." People are quite skeptical, obviously. An article in the 6/12/95 *New York Times* talks about the increasing amount of traditionally AM-style programming found on FM. For example, WFAN 660 has sometimes used FM station WXRK 92.3 to broadcast sports events where there is a conflict (such as when games of New York Mets and Rangers coincide). Other recent developments are mentioned, such as WLUP 97.9 Chicago going to all talk and humor. "They had a great, very popular morning show, so they decided to do it all day." KPIX 95.7 San Francisco recently debuted with an all news/talk format, albeit somewhat non-traditional, more conversational style than the hard delivery seen in more news stations, like WINS 1010 or KYW 1060. KSYG 103.7 Little Rock, Ark. also recently debuted with news/talk. The article also mentions increased sports coverage on FM, such as the Tampa Bay Buccaneers, Dallas Cowboys on KVIL 103.7, and New England Patriots on WBCN

**OCTOBER 1995**

104.1. The article doesn't mention it, but I believe KSD 93.7 was also to carry the St. Louis Rams, and KLSX 97.1 was going to carry the Los Angeles Raiders, before they moved back to Oakland! Saul also sends an article mentioning a humorous spot run by "new country" station CISS 92.5 Toronto. The ad features the pro-separation premier of Quebec, Jacques Parizeau. His picture is seen, along with a voiceover saying "It seems everybody loves new country" .... "This guy would love a new country". The ad goes on to show country music fans enjoying a "new country" concert, and an obscured view of nudists, that love, yeah, "nude country." Saul also mentioned that he got a fortune cookie that read "Your TV set will be trouble free for the next 3 years." Let's hope it comes true!

•• Eric Bueneman writes with some Internet information, about the new CBC Web page, located at: <http://www.cbc.ca> This new page has been activated, and according to Eric will include program listing for regional CBC stations, RCI, and audio files. Thanks for letting us know, Eric! Eric also inquired about religion stations starting national networks of translators, such as has been the case with several recently, like KAWZ Twin Falls, ID, Family Radio through KEAR San Francisco mostly, and especially American Family Radio's WAFR Tupelo, MS (I've typed those calls enough times for FMNEWS, hi). He had the same questions as I have, the both of us thinking that translators could not relay a station via satellite. I am told by several people that the restriction only applies to commercial stations, allowing stations such as WAFR, to build nationwide translator networks legally. I don't know how well this bodes for the future of FM DXing, if this idea really takes off.

•• From the Internet, the World Wide Web Page of KNPR 89.5 Las Vegas (<http://www.accessnv.com/knpr/>) has a listing of active translators. Thought that might be of interest, so here they are here.

- AZ Bullhead City 89.5  
L. Havasu City 91.9
- CA Death Valley 88.7  
Ridgecrest 88.1
- NV Beatty 91.7  
Boulder City 88.7  
Henderson 88.7  
Indian Springs 88.7  
Laughlin 89.5  
Moapa Valley 88.7  
Pahrump 88.7  
Panaca 91.7  
Tonopah 91.7

•• Thanks to all of you that have contributed to FM NEWS the past few months! It has taken me awhile to get caught up with everything, probably for the better, given the already large VUDs recently from all the DX!

| UT | 24 | 5000 | 217  | Ogden  |
| UT | 24 | 1170 | 1197 | Ogden  |

The second Tuscaloosa application is by the same firm which owns WTTO-21 Birmingham. The application in Harrison, Arkansas would be a satellite of KVTN-25/KVTH-26 in the Little Rock area. Kaneohe, Hawaii is on the north shore of Oahu. The ridgetop tower site proposed by all three applicants would serve Honolulu. The channel 17 applicant in Snyder, Texas is Prime Time Christian, whose other stations are TBNS.

An application for a new channel 47 at Madison, Wis., mutually exclusive with existing WMSN-47, has been dismissed. Another application has been dismissed, this one for channel 43 at Wiggins, MS. This one wasn't exclusive with any other stations.

**CONSTRUCTION PERMITS GRANTED TO NEW STATIONS**

| St | Ch | ERP  | HAAT | City                                   |
|----|----|------|------|--|
| ON | 60 | 0.56 | ?    | Windsor<br>(TL: 42°18'58"N/83°02'24"W) |

The Windsor CP is a correction to last month's listing. This CHWI-16 relay is on channel 60, not channel 6. The error was in the source. But see "New Stations on the Air" for more about this situation. (the power on this station also seems to have changed)

**APPLICATIONS TO CHANGE CONSTRUCTION PERMITS**

| St | Ch | ERP | HAAT | Call | City  |
|----|----|-----|------|------|---|
| TX | 10 | nc  | 92   | KTRG | Del Rio<br>(TL: 29°20'50"N/100°52'22"W)<br>(was 352m) |

WFXU-57's application for 1622kW/270m has been dismissed.

**APPLICATIONS TO CHANGE EXISTING STATIONS**

| St | Ch | ERP  | HAAT | Call | City  |

## CHANGES GRANTED TO EX- ISTING STATIONS

| St                | Ch | ERP  | HAAT | Call | City        |
|-------------------|----|------|------|------|-------------|
| GA                | 44 | 1700 | nc   | WGVV | Valdosta    |
| (was 1380kW)      |    |      |      |      |             |
| IN                | 4  | 58.9 | 357  | WTTV | Bloomington |
| (was 55kW/366m)   |    |      |      |      |             |
| NV                | 15 | 1145 | nc   | KINC | Las Vegas   |
| (was 1150kW)      |    |      |      |      |             |
| TN                | 58 | 3980 | 240  | WNAB | Nashville   |
| (was 5000kW/381m) |    |      |      |      |             |

## CHANGES GRANTED TO CON- STRUCTION PERMITS

| St                            | Ch | ERP | HAAT | Call | City     |
|-------------------------------|----|-----|------|------|----------|
| NC                            | 50 | nc  | 548  | WRMZ | Raleigh  |
| (TL: 35°40'35"N/78°32'09"W)   |    |     |      |      |          |
| (roughly 20km ENE. Was 449m.) |    |     |      |      |          |
| (also reported as 599m)       |    |     |      |      |          |
| PA                            | 64 | 8   | 374  | WSWB | Scranton |

## CALL LETTER CHANGES

| Was     | Now     | City, state    |
|---------|---------|----------------|
| WPTY-50 | WBDC-50 | Washington, DC |
| KDUB-40 | KFXB-40 | Dubuque, IA    |
| W19AH   | WCEA-LP | Boston, MA     |
| WNHT-21 | WNBU-21 | Concord, NH    |
| WQNH-50 | WNDS-50 | Derry, NH      |
| WXGZ-32 | WACY-32 | Appleton, WI   |

The WXGZ=>WACY change had been previously reported as WACE. I think the WACE calls were actually assigned, but only used for a few days. See Scott Fybush's item below for more on WQNH/WNDS.

## NETWORK CHANGES

| Station              | Was | Now |
|----------------------|-----|-----|
| "KFDF" Ft. Smith, AR | new | UPN |

14

## NETWORK CHANGES (contd.)

| Station            | Was | Now |
|--------------------|-----|-----|
| WKRC-12 Cincinnati | ABC | ?   |
| K20DQ Sulphur, OK  | ind | UPN |
| CKVR-3 Barrie, ON  | CBC | ind |

"KFDF" in Arkansas is a LPTV or, more likely, several LPTVs. They're owned by the same Pharis Broadcasting that provides Fox to the Ft. Smith market over several LPTVs.

KRCA-62 Riverside/Los Angeles has become an Asian ethnic station.

KFXB-40 is now a satellite of KFXA-28 Cedar Rapids. The KBAK/KERO change is part of a package deal with KERO's owners, McGraw-Hill.

Tmd is the Telemundo Spanish-language network; IN is Paxson's Infomall infomercial net. Longmont, Colorado is a Denver suburb.

See the Fox Surprise item for effective dates - some of the above changes have not yet happened. Those known to have already occurred are bold-faced.

## NEW STATIONS ON THE AIR

**Raleigh, NC: WRMZ-50+:**  
5000kW/449m; 35°40'35"/78°32'09"

**-or-**  
5000kW/548m; 35°42'55"/78°49'04"  
I'm not sure which is correct. The latter facilities were granted as a CP modification shortly before the station went on the air, so they're probably right. The first coordinates are on the WRAL-5 tower near Zebulon; the latter very close to the WLFL-22 tower northwest of Raleigh. Seen Sept. 14 by a CompuServe member with an Andy Griffin marathon (?). WB affiliate, LMAd by WRAL-5.

**Barrie, ON: CBLT-1-16+:**  
1500kW/275m; 44°21'05"/79°41'55"W  
on the CKVR-3 tower in Barrie. Seen by Steve Ryan in Toronto in late August. CBLT-5 satellite, CBC affiliate

**Windsor, ON: CHWI-TV-n-60-:**  
560w, HAAT unknown. TL 42°18'58"N, 83°02'24"W, about a kilometre east of the CBET-9 tower east of Windsor. Seen by Bob Seybold and Robert Grant (for whom it's a semi-local) in late August. Satellite of CHWI-16 Wheatley, which in turn is a semi-satellite of independent CPPL-10 London.

Interestingly, the CRTC announce

## (New Stations on the Air, contd.)

ment of the CP indicated channel 6, and channel 6 was reported to the FCC, who lists that channel in their files. I wonder, might there be two CHWI relays, with channel 60 somewhere else? Or is this just a typo at the CRTC that got propagated across the border? The CRTC's accuracy on this kind of thing is much better than the FCC's..

**Lewisburg, WV: WGVV-TV-59-:**  
70.8kW/397m, 37°57'13"/80°34'34"  
near or on Grassy Knob, about 25km north of Lewisburg. Applied for operating license in early September. Affiliation unknown.

## STATIONS BACK ON THE AIR

**Concord, NH: WNEU-21+:**  
1860kW/344m, 43°11'04"/71°19'12"  
northeast of Concord, in the general vicinity of Loudon. Satellite of WABU-68 Boston, independent. Seen testing with old calls WNHT on August 30, then began regular programming the first week of September.

## SPECIAL REPORT - THE FOX SURPRISE

A friend of Greg Coniglio's has compiled a list of the remaining network changes and their effective dates. Here we go:

| City       | Station                  | Date    |
|------------|--------------------------|---------|
| Birmingham | WBRC-6 ABC=>Fox          | 9/1/96  |
|            | WTTO-21 Fox=>?           | 9/1/96  |
| Denver     | KDEN-25 new=>Tmd ?       |         |
|            | KUBD-59 Tmd=>IN ?        |         |
| Evansvil.  | WTVW-7 ABC=>Fox          | fall 95 |
|            | WEHT-25 CBS=>ABC         | fall 95 |
|            | WEVV-44 Fox=>CBS         | fall 95 |
| Grand Is.  | KHGI-13 ABC=>Fox ?       |         |
| Greensboro | WGHP-8 ABC=>Fox          | 9/3/95  |
|            | WNRW-45 Fox/UPN=>ABC/UPN | 9/3/95  |
| Honolulu   | KHON-2 NBC=>Fox          | fall 95 |
|            | KHNL-13 Fox=>NBC         | fall 95 |
| Honolulu   | KOBN-26 TEN=>HSC         | 9/95    |
| Memphis    | WHBQ-13 ABC=>Fox         | 12/1/95 |
|            | WPTY-24 Fox=>ABC         | 12/1/95 |
| Miami      | WTVJ-4 NBC=>CBS          | 9/10/95 |
|            | WCIX-6 CBS=>NBC          | 9/10/95 |
| Mobile     | WALA-10 NBC=>Fox ?       |         |
|            | WPMI-15 Fox=>? ?         |         |
| New OrL.   | WVUE-8 ABC=>Fox          | 3/96    |
|            | WGNO-26 WB=>ABC          | 3/96    |
|            | WNOL-38 Fox=>WB          | 3/96    |
| Phoenix    | KASW-61 new=>WB?         |         |
| Providence | WLNE-6 CBS=>ABC ?        |         |
|            | WPRI-12 ABC=>CBS ?       |         |
|            | WRDG-28 new=>WB ?        |         |
| Raleigh    | WNCN-17 WB=>NBC          | 10/2/95 |
|            | WRDC-28 NBC/UPN=>UPN     | 10/2/95 |

|          |                      |          |
|----------|----------------------|----------|
| Raleigh  | WRMZ-50 new=>WB      | Sept. 95 |
| So. Bend | WSJV-28 ABC=>Fox     | 10/18/95 |
| Toledo   | WTVG-13 NBC=>ABC ?   |          |
|          | WNWO-24 ABC=>? ?     |          |
| Tupelo   | WLOV-27 ABC/Fox=>Fox | 9/1/95   |

Again, changes in boldface have already happened. Rumors report WTVG-40 wanting to switch from NBC to Fox. Also, UPN has listed KAKW-62 Killeen, TX and WRJM-67 Troy, AL as affiliates. Neither station is on the air.

## OTHER STUFF

The new WJSU-40 site, if granted, would put a very strong (probably city-grade) signal into Birmingham. WASV-62 has been sold, to Pappas Telecasting. Pappas used to own WHNS-21 there, which he recently sold to Cannell Communications.

America's largest cable operator, TCI, has joined with former Fox executive Barry Diller to get into the over-the-air TV business. The pair have purchased Silver King Communications, the firm which owns the 12 full-power Home Shopping Network stations. The stations are expected to be the basis for a new, seventh, national general entertainment network.

## FORUM

### Mike Cherry, Salt Spring Is. BC:

Mike reports the CBC flagship station in British Columbia, CBUT-2 Vancouver, has gone stereo. "Stereo audio will be an excellent compliment to some of the fine programming produced by CBC." True!

### William Hepburn, Brampton ON:

Also in Canada, William has some valuable information from north of the border. In the Maritimes, the correct calls for the former CHSJ stations in New Brunswick:

| Ch | Call  | Was   | City              |
|----|-------|-------|-------------------|
| 4  | CBAT  | CHSJ  | Fredericton/St. J |
| 4  | CBAT4 | CHCR  | Campbellton       |
| 6  | CBAT1 | CHSJ1 | Bon Accord        |
| 6  | CBAT3 | CHCN  | Miramichi         |
| 7  | CBAT2 | CHMT  | Moncton           |
| 8  | CBAT5 | CHSJ2 | Doaktown          |
| 13 | CBAT6 | CHSJ3 | Boiestown         |

The hourly IDs are "CBC New Brunswick" (which I can confirm by my visit to St. John in July) and the test pattern reads "CBC Fredericton". It would appear the city-

15

(Forum, William Hepburn, contd.)  
of-license for CBAT has changed; when it was CHSJ, the city was St. John. CHSJ4, channel 69 at Parker Ridge, has been deleted. It was listed at only 1 watt, so I don't think anyone's going to miss the DX!

William comments that the call assignments seem to go against normal policy. The CBA calls have been historically assigned to stations originating from Moncton. St. John stations have used CBD, and Fredericton CBZ. In other words, normal policy would have been for the above stations to be CBZT, CBZT1, etc..

Moving west to his home area of Ontario, he forwards the calls of the new CBLT repeaters. Channel 16 at Barrie (listed in "New stations on the air") is CBLT1; the former CKVR2 in Huntsville, channel 8, is now CBLT2. And the new channel 31 station at Parry Sound is CBLT3. I would assume channel 8 has already changed; I have no reports of anyone seeing channel 31 yet. William also says CKVR2 is moving to a new channel, but neither he nor I know which channel will be used.

Going west to Alberta, the Access Network has changed its name to "LTA". In most of the province, this network is on LPRTs or cable only, but there are medium-power stations in Edmonton (CJAL-9) and Calgary. (CIAN-13)

Also provided are some comments on the Database. (thanks!) "CANC", listed as the programming for many of the CHxxxx LPRTs, stands for one of a number of "superstations", including CBC Newsworld, CHCH-11, and WTVS-56, among others.

Some of the acronyms I copied from the official Canadian datafiles are explained. The OL (Ontario Legislature) stations call themselves the "Ontario Parliamentary Network", or OPN. Quatre Saisons (in Quebec) uses "TQS" on the air; I list them as "QS". The "RQ" stations use "Radio-Quebec" on the air (interesting, as to my knowledge they only own TV stations!), and the CRTC lists them as "SRTQ". Finally, "TVNC" stands for "TV Northern Canada"; programs originate from Iqaluit in the Northwest Territories.

The defacto third national network in Canada calls itself the "CanWest Global System". I've been referring to these stations as simply "Global", but William says this name applies only to CIII-41 and its satellites. Stations in other areas, like CKVU-10

Vancouver, use the full "CanWest Global System" name. The acronym "CGS" is occasionally used for the entire network, during news programming. As "Global" applies only to the affiliates in Ontario, the "MITV" network in the Maritimes is also part of the CanWest Global System.

Speaking of CIII-41: "...officially the CRTC lists CIII-TV ch. 6 Paris, ON as the originating station, although the "de facto" originating station is CIII-TV-41 ch 41 Toronto, as there is a split second time lag between CIII41 and CIII (with CIII lagging behind!) The CIII studio is located in North York, a suburb of Toronto.)

#### Scott Fybus, Boston MA:

Scott fills us in on the identity of one of the applicants for channel 11 at Ottawa. He says the answer can be found on the Internet, at <http://www.chch.com>, in the "Engineering" section. As you can probably guess from the Internet address, the applicant in question is CHCH-11 Hamilton. Scott speculates that the other applicant might be CITY-57 Toronto, and I think he may well be right.

Commenting on the calls on channel 50 in Derry NH, Scott notes the WQNH calls were assigned to their CP, but never used on the air. I can confirm that by local monitoring of the station while in Nashua in July. The FCC's engineering database never got the word- the station is still listed there as WQNH.

Closer to Boston, Scott noted the W19AH=>WCEA call change. The station is owned by a Sr. Cuena, who calls the station "Cuencavision". Since W32AY came on the air with Telemundo, WCEA-LP now uses mostly ECO programming.

#### Dennis Park Smith, Sta. Barbara CA:

Dennis has some information and a question about Mexican TV. He's had some good tropo from the San Diego/Tijuana area. The XHDF (Mexico City) relay in Tijuana is now occasionally IDing with its own call, XHJK. This station is on channel 27. The network IDs have been changed slightly, to read "XHDF, Canal Trece". ("Channel Thirteen")

Speaking of Mexico City.. Dennis notes a Mexican TV list by Ronald Schatz which appeared in the May

#### (Forum, Dennis Smith, contd.)

1981 VUD. This list indicated the Mexico City stations as channels 2/4/5/8/11/13. Now, Dennis is seeing a Tijuana station relaying a "TV7" which appears to be in Mexico City. He wonders if there's been a channel realignment to allow a channel 7 there.

If the three stations used similar power and antenna sites, this would probably work. After all, cable systems use all 12 VHF channels without much trouble. The 1989 WRTVH lists Mexico City stations on channels 2, 4, 5, 7, 9, 11, 13, and 22.

#### Frank Aden, Boise ID:

More fun & games with optimistic LPTV types in the Gem State! Frank visited the Malheur Co. Fair in Ontario, Oregon. A church group there was passing out information that K25FD Boise would be on the air August 15 with 3ABN.

It didn't happen. A local engineer told Frank the transmitter and antenna haven't even been installed yet. When Frank asked the folks at the fair whether they expected a viewable signal in Ontario (about 70km west of Boise), they replied "there will be a downlink in Sandholow", about 30km east of Ontario. Frank questions whether they have any idea what a downlink really is?!

K22DX's people at the Western Idaho Fair in Boise were much more knowledgeable. They were demonstrating the proper use of UHF loop antennas (K22DX is the only UHF station in Boise) and passing out "Hope 22" bumper stickers. Also present was a petition for carriage on the Boise cable system.

K22DX's people denied rumors they were applying for the vacant full-power channel 14 allotment, but did say they're considering going stereo!

Bill Frahm, CE for several local radio stations, tells Frank that many Boise engineers are scared by the prospect of a full-power channel 14 station. When KGSW-14 (now KASA-2) went on the air in Albuquerque, just about every radio station on the site had to add traps & filters. The problems come from fundamental overload and intermodulation in 450mHz receivers and repeaters (often used to dispatch news crews and pick up live remotes), and 2nd harmonic interference in 900mHz studio-transmitter link receivers.

Public safety organizations in the Washington, DC area had objected to the grant of WTMW-14 Arlington, VA for the same reason. And when WVEU-69 Atlanta went on the air, operators of cellular-phone services (in the old channels 70-83) and 800mHz trunked radio asked the FCC to move the station to a different channel or revoke its license.

KHDT-9 has been running on reduced power since the end of August, when their antenna was struck by lightning. Their normal power is 190kW ERP; they're currently operating on about 10% of that. Their stereo generator was also knocked out.

Attendees at the 1995 IRCA Convention in Boise toured KHDT. It's a "bare bones" operation, but it was built for under \$400,000. This sounds like a lot of money- but for a full-power TV station, it's peanuts! It's not at all difficult for a station to spend well over \$100,000 on a single piece of equipment, and that doesn't even factor in real estate.

#### Bill Draeb, Kewaunee WI: Tim Noonan, Madison WI:

Both wrote with information on the network switch in Green Bay, which happened on August 28. WLUK-11 has gone Fox, with WGBA-26 taking over the NBC affiliation. While not a related development, WXGZ-32 has joined UPN and changed calls to WACY. WLUK has replaced WGBA on W56BF Iron Mountain.

And Bill has information on network changes in other places. The WTVO/WREX flop in Rockford, Illinois has taken effect, with WTVO-17 now ABC and WREX-13 now NBC. Bill also has a mystery. While watching a mess of stations from the west on channel 40, he heard a Morse ID fragment, "...0AS". Presumably K40AS - but the FCC lists no such station. W40AS is in West Virginia, and I can find no other likely targets. Could be someone's (K40AA Alexandria, MN sounds most likely) automatic IDer is fouled up.

#### DX ETC.

Out of room!

This month I continue with the up-dating of the satellite list recently published. This list is something like the World Radio-TV Handbook in that it is a constantly changing listing. This month the major update continues and concludes with the Canadian Anik Satellites which have been subject to many new channel/programming additions. Unfortunately another name for the Aniks could be the Porn Birds.

EDITED FOR THE 'VHF/UHF DIGEST' BY TOM BRYANT,  
849 TODD PREIS DR., NASHVILLE, TENNESSEE, 37221

This month another voice from yesteryear reinforces the hoax theory in regard to KLEE reception in Europe. Also, some very clever art work from the early days of WDAY-TV in Fargo. Get ready to meet the 'bottle man'.

The following reprint is the result of a "FIDONET" exchange with Mike Femyer of Phoenix, AZ. The article was originally published by Electronics Illustrated in January 1972.

## A TV STATION IN SPACE ....

The October 1971 issue of *ELECTRONICS WORLD* contained the article "Interstellar Communications-What Are the Prospects?" It reported on the reception in London of an American TV station (KLEE-TV, channel 2, Houston, TX) after a 3 year delay, possibly as the result of what some postulated as a "plasma cloud" or perhaps due to an interstellar transponder. The following letter (although we don't have the space to print all of the technical details) should be of interest to readers.

I never expected to see any further reference to the reception of KLEE in England after a supposed 3-year delay. It was a good prank while it lasted.

In 1958, I was the International DX Editor of the American Ionospheric Propagation Association, which was the only American club devoted solely to the observation and reporting of TV-DX. The group is still active today as the Worldwide TV-FM DX Association.

As International Editor, I corresponded with many TV-DXers all over the world. The strange reception of KLEE was frequently mentioned. Therefore, I did a detailed study of the characteristics required by the "plasma cloud".

If this cloud is merely a distant reflector, it must have a perfect parabolic shape with an error no more than 300 meters. It must also be astronomically large in order to collect enough energy to return a signal at 1.5 light-years distance.

The picture claimed to have been received in England was transmitted by KLEE at 55.25 MHz AM with negative modulation; audio at 59.75 MHz FM; picture at 525 lines by 30 frames. This video (and, by some reports, sound) was received on England's channel 2 with video at 51.75 MHz AM with positive modulation; audio AM at 48.25 MHz; picture 405 lines by 25 frames. Note that U. S. negative modulation means increased transmitter power which causes the picture to get blacker, while British positive modulation will get whiter with increased power.

After I published such an impossible set of conditions even to the fiction writer, a Swedish friend stated that he was in receipt of a letter from a British experimenter who admitted transmitting the KLEE test pattern, but was afraid of legal action if he was ever known by name, and hence was not able to tell the truth about the hoax!

As for all the other better-documented cases of long delays (in seconds..not years), they are all easily explained on the basis of round-the-world signals which are trapped in the ionosphere for a number of revolutions. Only very rare conditions in the ionosphere would support such multiple hops, and with today's high noise levels and cluttered spectrum, it is no wonder it is not accidentally noted.

Gordon E. Simkin, W6KUH  
Auburn, Calif.

## WDAY-TV's 'BOTTLE MAN' ....

(Editor's comment: Most early small market tv artwork was less than creative; and sometimes downright ugly. An exception was WDAY-TV in Fargo, ND. The station latched onto a young artist by the name of Norm Selberg who created the character featured in the IDs below. The figure, similar to Al Capp's "schmoos" in the "L'il Abner" comic strip, got the 'bottle man' nickname from WDAY-TV staff members. The collection featured here came from an historic article sent by former WDAY-TV news intern Donn McLellan of Apple Valley, MN. In a later ID series (not currently available) the bottle-man painted the channel 6 logo on darned near everything in the Red River Valley...panel trucks, silos, water tanks, grain elevators, and even cows! Considering the mediocrity of most early tv ID slides, these are truly jewels!)

October 1995

Well, hopefully this batch of photos turns out better than the first two. I'm not sure why they came out so dark - I assure you they didn't appear that way when I submitted them! One problem was that I submitted two columns before I even saw the first one in print. After going to at least half a dozen printers and prepresses in town, I think I finally found one who can do halftones for a reasonable price.

Our first contributor is Robert Delaney (KA9UVY) from Mt. Vernon, IL:

Well, I hope the fall tropo season goes well. I know I need to start checking my own conditions more often. For an update on KLVV's translator on 103.1 that served Stillwater, it's off the air as of around Sept. 1. Their new 100 w. xlator on 106.7 is impressive.

## John Jefferson, 4104 Spyglass Ct., Antioch, CA 94509-6051

Guess it's time for an update. January was an exciting month because the flooding opened up 107.9. Arrow-108, aka KXOA Sacramento, was @ 20 watts for over a day because their regular xmitter was under 3+ feet of water. KXPR 90.9 was at 40 watts for the same reason, but I couldn't find a null in their pattern even at such low power, whereas Airhead-108 vanished with the antenna aimed SE. That created an interesting situation, in that KUZZ Bakersfield was suddenly the "nuisance" on the frequency despite dead-band conditions. And it took me 5 1/2 years to even log them after I moved here! The noted time below was just when I happened to get a nice clear set of calls.) February was dominated by unseasonal tule fog & the tropics which typically accompany it. Possibly the best signals ever from Bakersfield (including KUZZ over a full-power KXOA at one point), and very good signals from Redding to the north as well. Never thought I'd get KKBB with KJOY (28 mi), KVVN (51), & KJWL (141) all on the air, but it happened twice in the month! (Distance note: KERN, KUZZ, & KKBB are on Mt. Allison, s.e. of Bakersfield, so their distance differs from KTIE's, KRAB's, & KIFM's. As usual, new are underlined. An '@' denotes new to Antioch and a dashed underline means new mode.

 "News-Talk 101.5"  
 July '95 sets a new record for number of  
 days (month of July only) with FM MJF. 14  
 days of FM Es breaks my old record 13 for  
 July '89. My month with most days of FM MJF  
 is June '94 with 16 days. Other years seemed  
 to have better quality skip, but '95  
 surprisingly is my third most active year.

As usual, new are underlined. An '@' denotes new to Antioch and a dashed underline  
 new mode. A '?' denotes uncertain time. An '&' indicates something heard at the office,  
 which is outside my logging area, hence not countable on any log. Those stations were  
 monitored on my boss's Pioneer receiver (a non-DX instrument with a wire antenna) inside a  
 building I think was designed to block all radio waves & is alive with computer noises and  
 wireless terminals in the warehouse. It must've been a barnburner event to be noticed  
 there!!! A '!' denotes a stations heard on the Blaupunkt near the office; a '!' denotes  
 new to my ancient Concord log (& w/the Blaupunkt).

**OCTOBER 1995** — **DEADLINE: The 5th** — **LOG CUTOFF: 3 months from postmark**

Another fairly large column this month, as more tropo is reported. There were a few stray E-skip openings reported late in the season, but the majority of the action has been tropo. The last few days of July were considerable in many parts, while the last week or so of August produced much tropo in the Midwest, not to mention some coastal "hurricane" tropo along the Atlantic, at extreme distances in some cases (over 700 miles). Most did not find the Perseid meteor shower very productive. Things have quieted down a bit for the beginning of September. Why not let us know what you are getting too! ....

**AUGUST 16 MS**  
 2054 KUFM 89.1 MT 6 secs. NPR + ID

**AUGUST 17 Tr**  
 0956 104.9 CJA PQ Mirabel  
 English and French pop music, French ID at 1000 with call  
 letters and "Radio Fusion" slogan, very strong, but nothing  
 else noted on other frequencies. Quebec #4 257  
 1343 88.5 CKDX ON Newmarket - Weak, but  
 first time heard away from lakeshore, with "Music Sweep".

2145 At this time I noticed a very strong signal from CFLZ 91.9 at  
 Niagara and other enhanced regional signals, especially  
 WTKW 99.5 mauling Buffalo 99.5, and WCNY 91.3 pushing past  
 WXXI 91.5, but the strangest thing was this:

weak signals are normally muted on my car radio, and I have to  
 push the time/frequency button to defeat the mute on each  
 channel I tune in, but during this time virtually no signals were  
 muted! Nothing new heard, however.

**AUGUST 21 Tr**  
 0938 89.3 WSKG NY Binghamton 110  
 // 90.9 Ithaca, under WMMH

0943 94.7 WPHD PA Tioga "The Met" ID, classic rock  
 0945 94.3 WLWY NY Elmira - rock 81  
 0949 97.5 [WKVE] PA St. Marys  
 - ID as "KVE", local ads, strong! 128

0953 99.5 WOKN NY Southport - in briefly,  
 calls, "Morgan in the Morning"  
 1000 101.9 WJIV NY Cherry Valley - preacher. 145  
 1007 106.3 "CKME" ON Peterborough Clear 97  
 French ID for 94.3, probably strong tropes caused  
 106.3 to pick up Montreal 94.3 instead of normal CBC  
 Belleville 94.3 feed

1107 93.9 [CKKL] ON Ottawa - "Cool 93 dot nine" ID 193  
**AUGUST 24 Tr**  
 1204 104.7 WLOT OH Toledo 320  
 "Toledo's home of rock'n'roll", ads

1213 102.1 UNID OH? - Paul Harvey, then news  
 story about OH state representative Otto Beatty,  
 then entertainment news

Note: band completely dead at this time!

A couple of loggings from the Perseids, but generally the  
 shower wasn't that impressive here. Peak seemed to be  
 Saturday morning (08/12) between 10am - noon PDT.  
 None of my 2 meters (144 MHz) pre-scheduled contacts  
 worked out except for one east of here. 6 meters was a  
 bit better. NEW CALLS: one of the first stations to sign-  
 on with the new & successful "Smooth Jazz" format,  
 KEZX-FM 98.9 Seattle has carried the format for close to  
 2 years. Although nothing has changed format-wise they  
 are now KWJZ (AM 1150 is still KEZX). Non-ID is  
 "Smooth Jazz KWJZ Seattle at 98.9 FM". Hope your  
 tropo season is well under way. Here in the tropo doldrums,  
 I am planning my usual October "tropo vacation" to the  
 west coast of Vancouver Island (Radar Hill @ Long  
 Beach) Hopefully new Oregon coast FMs KNSD 95.1 &  
 98.9 Seaside will be on by then. '73's for now Greg.

JOSEPH FELA - 150 ROBERT PLACE - SO. PLAINFIELD, N.J. - 07080  
 Equipment - McIntosh MR-78 tuner/stacked Stereo Probe 9s + a single Stereo Probe 9,  
 on rotors, at 40 ft., Bolin phase box.

1245 CIEX 99.1 ON Toronto see notes

NOTES: Very good Tropo throughout August but a dry week to end August and start September. Conditions seem elevated August 4, and there's a hurricane in the Caribbean, so here's hoping. CIEX aired labour day weekend to broadcast the air show. I finally got calls, when the show wasn't on, it was solid 1970s MOR with no IDs or talk. CIEX is the same station that broadcast the Molson Indy Car race in July, which I forgot to tune in this year but have heard before on 99.1, so the station isn't new for me. It was in Mono. 99.1 became vacant when CKO went belly up, and I've logged a total of 21 stations there for my best FM frequency in Toronto including my Tr record of Mn reported here. By the way, directory assistance tells me there is no listing for Audio Explosion in Laurel MD. So I don't think the 99.1 which also mentioned Montgomery County is WHFS MD. Any ideas? (I still suspect WHFS because of the mention of Laurel and Montgomery County. Maybe this is a new store? -gc) 73's, Saul

Another great tropo opening occurred on 8/21: KFJQ 99.1 Clayton MO (St. Louis) completely obliterated semi-local (27 miles) WIAI. All other St. Louis 100KW FMs were received at local strength on that evening. This opening afforded several new catches to the west/southwest in the Missouri and Kansas areas; enclosed are the results of this DX session.

TIM MCVEY - 124 TIMBER LANE - HANOVER, PENNSYLVANIA 17331

0831 91.9 ???? PA /WGRC, can't find this in Atlas or FMNews

Lots of quiet, warm air has produced daily AM groundwave enhancement out 150-200 miles in all directions. Productive from the standpoint of logging PA-NJ-VA stations, so much isn't reported here. However, there have been some actual short ducts which have given me new states.

MIKE BUGAJ - 69 SHERMAN ROAD - ENFIELD, CONNECTICUT 06082

Equipment: Carver TX-11 and Sherwood rx, (both IF modified), Probe 9 at 30 feet with rotor. New are underlined. Sherwood used most of the time. Bolin phase box used.

Not a bad summer for Es. Phasing really helped me get stuff through my locals. The abundance of tropo this summer really impressed me. The log of WBUB-107.5 was pure luck because I came back to the channel five minutes later, and found WBYN covering the channel. WBUB is my third SC (99.7 and 92.9 being the other two) Inland tropo were nil and will continue to be until these weather patterns change. I have heard around 60 new stations since January 1st, most due to phasing. My total is up in the low 1800s now. That's all for now.

Nice hurricane tropo on the 20th! Haven't heard SC since May of 1991. Is Monticello, NY's 99.7 really only 3500 watts? Boy are they a pest. They're always in! Took a vacation to Stockbridge, Mass. on August 13-16 with the wife and kid. We ventured up to the top of Mt. Greylock (3,491 ft.) one day by car and I DXed a little bit on the car radio. Wow! What a DXers dream up there. Every frequency was packed with signals. Seemed like all of New England but Maine was in and all of NY but the western part. WAMC 90.3 (which transmits from the top) was not an overload problem on the radio. The view from the top of the mountain was incredible. You can see five different states. There's a little eatery and an observatory at the summit. I highly recommend any DXer or non-DXer to check out Mt. Greylock, MA. (Yes, others who have been there have relayed the same positive comments about it, sounds like a neat place!-gc) Had some trips to Allentown PA and Atlantic City, NJ on August 15 from Western MA. So long, Dan O.

100,000 WATTS BANGOR TO BOSTON

That's it for this "season", Greg. Finally, a bad weather day here gives me the chance to sum up my FM DXing this summer - not too good here, varies are hard to come by, as well. Right now, my NAD amplifier is in the hospital, being revived, I hope! Looks like others did a lot better than I. Anyhow, I appreciate the column you're doing on changes in the FM band. It must take many hours to put that into the neat form you give us every month! Nice going! Ernest. (Thank you for the kind words, Emiel-gc)

## GREG CONIGLIO - 5100 GLENWOOD DRIVE - WILLIAMSVILLE, NEW YORK 14221

Equipment: Pioneer TX-9100 tuner modified with 150khz and 180 khz filters, CM Stereo Probe 9 FM antenna = 20' AGL, CAC11 & RG6 coax. Phasing: Jerrold 10 element TV antenna at = 25' AGL, rotatable, into "two capacitors in a phase box", and switchable rabbit ears both into a 0-10-20 db Radio Shack amp.

**17 ES**

2200 unID 91.7 GA complete list of GA educ. stations, more than one on this frequency.

Hot and humid at the beginning and now hot and "Arizona" like, the weather this month has not favored DX, especially tropo. The meteors on the morning of August 12 and 13 were pretty good but no IDs netted. I don't know if it's a good idea to DX and sleep but that's pretty much what I did on the morning of the 13th. WWDL 104.9 goes off the air at midnight so I camped out on 104.7 in the wee hours. I heard some station with baseball around 1:30 in the morning and there is some station who runs a test tone all night also. I don't know how I did it, but it seems as though as soon as a meteor burst occurred I was instantly alert from sleeping, although maybe I missed quite a few too. Who knows? I eliminated my amplified from my system and find I have sufficient gain from my antenna without it and at the same time I have eliminated an awful lot of overload noise, especially at the educational band frequencies. I was using a Radio Shack switchable 10 and 20db gain amplifier and find that it's just too much amplification in the city. On the bad news front; there's a rumor floating around that WXPB Philadelphia is looking to put on a translator in Wilkes-Barre, which really means two translators since if they put one in Wilkes-Barre they undoubtedly would want one also in Scranton. Where the heck this outfit could squeeze in two more translators remains to be seen, the FM band already sounds like being in the middle of New York City here. Regards.

## Notes from Prosit:

- Wrong date on my Montana & Idaho Es reported last time. I had June 21 listed, it should have been June 27 (also MD & NY listings).
- During the June 27 opening, had a clear KPBX call on 89.5. They operate on 91.1 in Spokane, Wash. Letter sent (no answer yet on August 22). Asking info on this translator, etc.
- Unid 93.7 "Classic Rock 93.7", NC & SC in on Es July 18th. (I think I recall someone reporting WSCA Georgetown, SC with that slogan, does anyone know?-gc)
- Counted eight days of Es here (June 7, 20, 27, July 1, 5, 7, 18, & 25) in Prosit, but tropes have been good to excellent and has allowed many new loggings- not a bad season up here in Northern Minnesota.

## Notes from Bloomington:

- The August 3rd E-skip occurred while the eye of Hurricane Erin was passing over the Florida panhandle. Many stations were giving the eye co-ordinates and had many special programs due to the hurricane. Also, many stations were in a four to five station network. Very interesting DX period!
- Much of the tropes is "catch up". Been going thru both logs to notice which newer and/or frequency change stations I need to log.
- Religious fund raising. WNLA calls heard and taped; however, WNLA is on 105.5. Tie in during fundraising? Letter sent requesting info; however, will probably never receive reply. (Keep an eye out on FM NEWS in case WNLA gets a translator on 101.1-gc)
- Counted six days of Es here in Bloomington (June 15, 21, 23, July 7, 11, 19, August 13). with good tropes on July 11.

Regards and good DX, John Ebeling

## PUBLISHER'S NOTES

ANOTHER TIGHT SQUEEZE...Yikes! It happened again. This is another record-breaker, the biggest October VUD edition we can remember, forcing us to hold ANTENNANOTES yet another month. As you can see by this month's reports, trope conditions have been nothing short of spectacular. Late August included what one New York State UHF TVDX enthusiast is calling, without not too much exaggeration, "the night of 1000 translators!" We can expect more very interesting DX reports in the next couple of VUD's. And, many thanks are due to WTFDA's outstanding DX column editors and their reporters for such a massive effort in the midst of what has been an unforgettable season on the VHF and UHF bands!

toons by Old West  
Graphics

THE COVER...Thanks to Jim Thomas of Old West Graphics for the hilarious cover on this issue. More of Jim's cartoons in upcoming VUD's!

--Bill Thompson

## WESTERN TV-DX

October 1995

Dennis Park Smith, 3703 Dixon St., Santa Barbara, CA 93105-2419 (805)687-7803

## Equipment:

Sears 9" B&W semiportable model 564-50010000 (tube) with rabbit ears and bow-tie, with occasional access to a 1987 MGA-Mitsubishi 13" color semiportable model CS-1344R with indoor 2-bay bow-tie/reflector.

While this report covers from January through August, there isn't a lot to it. Limited equipment was part of it, but more time was spent travelling so at least noted LPTV activity around California for TV News column. For what DXing I did do, I didn't keep organized notes (Ed. shame, shame!) so have no actual dates for Es seen. One thing was definitely noted: Over all my years of off-and-on DXing since 1954, the most-often logged Es station in any year has been KMID-2 Midland TX, wherever I have been in central and southern CA. The summer of 1995 was different; the most-logged Es station (both in Santa Barbara and on the road) was PBS' KACV-2, Amarillo, TX.

The trope path to San Diego/Tijuana (175-200 mi) occurred only once in a while, as usual from January through May. June and July were good, though not constant. August was constant and fairly good with outdoor antennas, though would have been better with outdoor arrays. One item of interest: KSTV-57, Ventura (approx 35-45 mi) used to be dominant on channel 57, with only CCI from XHUA-57, Tijuana (200 mi). Perhaps KSTV has moved their transmitter, because it is no longer seen in Santa Barbara, not even as CCI under now-dominant XHUA. KSTV still has local signal in Ventura & Oxnard, and is still on Santa Barbara cable.

Jim Pizzi, 814 Brookhill Drive, Paso Robles, CA 93446

## Equipment:

4" B&W Portable with amplified rabbit ears.

Perseids in August were not as good as last year, but the KXLY catch was a good one. Locals KAID-4 and KBCI-2 are now 24 hrs, so that cuts back on MS taping.

We got to tour KHDT-9's office in downtown Boise during IRCA Convention. They put the whole thing on the air for under \$400,000! They do not have any studios.

Randy Miltier, KK6TQ/7, 1185 Linda Ave, Ashland, OR 97520

**Equipment:**

12" Quasar color TV, 12" Zenith b/w TV, Antennacraft ch 2-6 Yagi, HD-73 rotator, RG-6 coax, dipole antenna.

The Perseids shower produced nothing here on TV or 6m. Did make contact with Mike Cherry, VE7SKA, on a quick short-skip opening on August 8.

Ernest J. Wesolowski, 13312 Westwood Lane, Omaha, NE 68144-3543

**Equipment**

KTV-13 color TV. Two VCRs, 50' leadin connected to Winegard AP-4800. 28 dB preamp and 34" turning radio antenna in attic. High terrain. FM Antenna for VHF on rotor, outside, 13' high.

I am awaiting a channel 15 trap as my new KXVO-15 is causing havok with all DX. Tower is 8 miles away.

Thanks to Peter George for a super convention.

Well, there it is! One of the best tropo openings in years. I have some photos which I will send along. Perhaps, some of your readers can help fill in the blanks. There are a lot of them.

Western TV DX

Pat Dyer, 5315 Silvertip Drive, San Antonio, TX 78228-2744

Equipment:

Emerson 1987 model 872 VCR used as the tuner ahead of a 9" B&W Keepsafer CCTV monitor, Archer V-100 and 8-bay bow-tie UHF array at 20' AGL with rotor

August 1995

Table with columns for station call letters, frequency, and location. Includes stations like 03 Es 0959 KBJR, 04 Es 1330 KOTA, 05 Es 1731 KOTA, 08 Es 1528 WBTV, 09 Es 0918 WESH, 18 Es 1300 WAVE, 19 Es 1045 XHBC.

Precious little in the way of TV Es the last half of August. With the heavy July levels I'd really expected more to come from this month.

Danny Oglethorpe, P.O. Box 6688, Shreveport, LA 71136-6688

Equipment:

JC Penney (RCA) 19" TV; Archer 15-1113B preamp for UHF; Radio Shack 15-1718A V/U at 25' AGL, RG-6, Channel Master 95 10A rotor; Antennacraft Y5-2 ch. 2 Yagi at 14' AGL, RG-6.

Distance is to city of license, from Fred Nordquist's printout.

July 1995

Table with columns for station call letters, frequency, and location. Includes stations like 26 tr 1445 WMAV, 27 tr 1410 KENS, 29 Es 0002 KUTV, 31 Es 1840 unIDs, 1915 Hash, 1928 KNAZ, 1940 KVVU, 2110 WTAE, 2120 unID, 2135 KXMA, 2225 Mexico still in, 2310 KSL, 2335 WPBT, 2358 KNAZ.

August 1995

Table with columns for station call letters, frequency, and location. Includes stations like 01 Es 0025 Cuba, 03 Es 1320 unIDs, 1358 WJBK, 1430 unID, 1455 KDKA, 1605 WTOM, 1614 unIDs, 1702 WDEM, 1725 unIDs, 1758 WGRZ, 1820+unID, 05 Es 1525 WPBT, 1629 WPBT-2, 1945 WPBT, 2155 Cube, 2329 KUTV, 2343 KTVX.

Table with columns for station call letters, frequency, and location. Includes stations like 06 Es 0010 unIDs, 0100 Hash, 0135 KWGN, 0150WKSGL, 0155 KASA, 0158 KCWC, 0245 KCMC, 0401 KOB, 0440 unID, 1640 unID, 1715+WPBT, 1835 unID, 2158 WJMD, 2329 CHBX, 2340 KTCR, 07 Es 0000 CKCO2, 2140 C1112, 2220 CKCO2, 2220 CKCO2, 2227 WBBM, 2105 unIDs, 2145 unID, 2225 WCRD, 2245 WJMD, 09 tr 1325 KTEM, 1340 KVUE, 1340+KABB, 1340+KBVot, 10 tr 1445 KAFT, 12 tr 0835AKOTV, 13 Es 1510 unIDs, 15 tr 0335 K42DA, 16 tr 1425 KCEM, 17 Es 1530 unID, 18 Es 1515 KNAZ, 1920 WPBT, 2128 WBYA, 21 tr 1610 KAFT, 1631 JURH, 1631 KMBC, 1650+KSHB, 23 tr 0545 KTEM, Es 1615 WDTN.

Notes:

- 1) USA vs. Cuba baseball, from somewhere in the USA.
2) Crawl of closings due to hurricane. How much effect do hurricanes have on Es? I've seen some good Es from FL when hurricanes were near the peninsula.
3) Does KSGI air anything besides a test pattern and radio audio?
4) BBS and MCTV with Sault St. Marie ad (finally).

I hope other DXers were able to take advantage of the August 21 daytime tropo. As KAFT-13 was in, I expected the channel 5 to be KFSM. The IA loggings are my most-distant tropo.

Randy Miltier has informed me that my Fox station with the two in a circle logo and "Mornings on 2" is KTVU in Oakland, CA! Thanks Randy!

Eric Bueneman (N0UIH), 631 Coachway Lane, Hazelwood, MO 63042-1347, (314) 839-9751 (Internet: EBSDJDX@aol.com)

Equipment:

Ajaron 12-inch (30 cm) black and white TV, Archer VU-110 with Archerrotor at 33 feet AGL. All times CDT, all distances in miles and km.

August

Table with columns for station call letters, frequency, and location. Includes stations like 21 tr 2305 W52BR, 2310 WPRW, 2311 WSNs, 2312 WCLJ, 2312 WCFE, 2313 WTVG, 2313 WFTO, 2313 WFLD, 2314 WSVJ.

Western TV DX Eric Bueneman's report continues

Table with columns for station call letters, frequency, and location. Includes stations like 2315 WCIU, 2316 WICD, 2318 WEHS, 2319 WCET, 2320 W39BH, 2325 WSBT, 2325 WPIX, 2327 WFIE, 2330 WGN, 2331 WSTR, 2333 WOKY, 2336 WDRB, 2337 WLKY, 2338 WTVW, 2340 WEVW.

Great trop opening this evening, managed to bag my second Champaign LPTV in the form of W52BR. W39BH was in stronger than WCCU-27, WICD-15 or even WCIA-3, the only one stronger than W39BH from Champaign/Urbana was WILL-12! Two new Cincinnati stations were bagged, and WXIX-19 was again in, this time with the country's first and only midnight newscast! Total now at 196.

Table with columns for station call letters, frequency, and location. Includes stations like 23 tr 2125 WQUE, 2127 WOSU, 2129 WKEF, 2130 WPTD, 2131 WQWO, 2132 WTJC, 2134 WRGT, 2135 WUPW, 2136 WV12, 2140 WUAB, 2145 WNED, 2150 WPBQ, 2158 WCET, 2204 KOLR, 2258 WAKC, 2358 WQHS, 2359 WIPR, 24 tr 0005 WKDI, 0006 WQAC, 0007 WPGH.

Ohio was well-represented in this opening. Noted a 716 area code number under WAND-17. I looked it up in the Dajja TV Journal, and the area code fit WNED! This makes it my farthest U.S. UHF, and my first UHF from New York! Add that state to my list of states seen on both skip and trop! KOLR-10 was the only Missouri station in from outside St. Louis. WRGT-45 turned out to be station #200 from this OTH.

The trop continued after 2200 CDT, with WAKC-23 making it in, along with the first reception above Channel 66, WOAC-67. The first PA station on UHF also made it in, in the form of WPGH-53. I now have PA (KYW-3, WPV1-6, WPGH-53), NY (WCBS-2, WSTM-3, WNBC-4, WNYW-5, WRBG-6 and WNEB-17) and GA (WSAV-3, WATL-36) in via both trop and skip. Total now at 206.

Keith K. Smith, P.O. Box 45008, St. Louis, MO 63145 (314)355-5043 QTH nr Spanish Lake, MO

Equipment:

Funai 13" (FC-1300T) color TVCR with internal clock and (cc) decoder. Unipolar antenna. Radio Shack Portavision 4.5" B&W TV w/AM-FM stereo and cassette recorder. RS Color Eagle antenna (8-directional).

August 1995

Table with columns for station call letters, frequency, and location. Includes stations like 01 tr 2145 WICD, 08 tr 2000 K4BDN, 09 tr 2024 WMBD, 11 tr 0905 WCFE, 13 tr 0153 WEXA, 0204 unID, 0703 WRPD, 0705 WFIE, 0707 W33AY, 0707+WHMB, 0707+HTLU, 0707+WAGVT, 0725 W65BV, 0725 WCIU, 0725+WGB0, 21 tr 1818 WICD, 1818+WEEK, 1818+WTVP, 1818+WCIA, 1818+WFHL, 2240 WUS1, 2245+W11B, 2309 WFLD, 2309+WEHS, 2309+WGB0, 2330 WITW, 2341 unID, 22 tr 0008 KCCI, 2235 WUVT, 23 tr 2139 WSNs, 24 tr 2100 KWML, 2124+WCIU, 31 tr 1900 WNDU, 1900+WGB0, 1900+WFLD, 1900+unID, 1900+WJYS, 1900+WFCF.

Notes:

- 1. Hard to tell. Thought I saw John McLaughlin or Robert MacNeil, so I suspected PBS. Later, though, "3ABN" flashed on the screen.
2. Is this KOCR with new calls? Nothing else fits!
3. "In touch" with Charles Stanley. Couldn't be W44BO or W41AZ, as TBN airs "Cornerstone" (?) at this time. Maybe an affiliate?
4. Local news. Earlier promo indicated this as a rerun of the 5 PM airing. 5PM + 11PM news on a PBS station? Kind of unusual. And yes, they had promo breaks. WUVT signed off about 2330 CDT (EST for Indiana).

Wow! A spectacular month—36 new stations here, for a grand total of 61 stations. It would have been 59 stations, but chs. 16 and 28 from Elkhart/South Bend came in "at the last minute"! Hope September is better.

Walt Breville, 1149 Innsbrook Estates, Wright City, MO 63390

Equipment:

Proscan 27" stereo color TV (new), Radio Shack VU-190 UHF-VHF Yagi 14" AGL on porch deck, no ant. amp.

July 1995

Table with columns for station call letters, frequency, and location. Includes stations like 10 tr 2230 KODE, 2235 KSPR, 19 Es 1820 KENW, 1900 KOAT, 24 tr 1830 WRSP.

### Western TV DX Walt Breville's report continues

Notes:

1. On 7/10 I had mistakenly listed KODE last month as Springfield MO, while I left out KSPR-ch33.
2. On 7/19 KOAT was received here on ch. 6, but it is listed as 7; did they change channels? I tried 7, but nothing but snow. Or is KOCT-6 Carlsbad relaying KOAT-7?
3. KMIZ-117 is my closest unseen TV excluding LPRTs finally caught after 10 months of starting my TV log here. It is now at 36 TV stations seen.

The new 27" Proscan TV is about the same as the four year old 20" RCA in DXing performance; while both are about the same as my 9" RCA B&W with fine-tuning control, circa 1977.

Steven Branch, 3105 Sharon Dr., Champaign, IL 61821

### Equipment:

GE 20 in. Color TV

It was a decent summer for tropo within 250 miles, only a couple of openings greater than 300 miles. St. Louis at 143 miles and Indianapolis at 116 miles accounted for the most frequent tropo. Some of the better catches include:

New logging CBIT-5 in Sydney N.S. came in with the local news on July 22. At 1439 miles, it will be the most distant station I am calling single hop. It is my fourth most distant and most distant I have a pix of.

Seattle 5 on July 25 was a surprise. It came in for 10 minutes during the brief peak in an otherwise mundane Es opening. At 1607 miles, it must be 2E. Billing 2 at 967 miles at the same heading was in. KING-5 audio was very strong. I talked to one of the station managers on the phone. They have more audio ERP than normal. 2E on channel 5 must be rare.

On July 29, a narrow duct opened to Lubbock and Amarillo TX. Lubbock is 875 miles. Both peaked at 1100 and were gone by 1330.

Colorado UHF was in the next morning to over 800 miles. I never saw the band so full on a Sunday morning. A dxxer verified my pix of KAKE-10 Wichita on channel 54. The daisy chain is: Dixon, IL—K54AB Eads, CO—KUPK-13 Garden City, KS—KAKE-10 Wichita KS. Primary is KRDO-13 Colorado Springs. Also searched Blair's TV Factbook for other possibilities. Found one and it couldn't happen. My furthest translator at 728 miles. Where is WGN-9 on channel 33 to the west? I think this tropo was caused by a large h ot air dome being pushed northward by the remnants of a hurricane. I never expected to see Denver.

On August 14 I watched the late night news on Mitchell, SD-5. Much closer Ames-5 at the same heading was absent. I stumbled onto this one as I do not look for 450 mile dx into sever thunderstorms. Nothing else at the time. Three hours later I logged a channel 33 translator with WCCO-4. A west MN heading. I can find no listing from three sources.

### Western TV DX William Eckberg's report concludes

In the early AM of August 21 a front extended from eastern NY to OK. At 0515 Rochester NY 21 and Oklahoma City 34 were both snowfree at 600 and 612 miles. Ontario, NY, and OK dxxers must have had a 1000 miles tropo path open.

Even after years of TV dxxing I find these six dxxing events very unusual.

William Drach, 1304 Ellis St., Kewaunee, WI 54216

 and that covers the DX seen this past summer. There are a few mysteries like the CGGC-3 I saw from western Canada. CGGC is supposed to be on ch. 11 in Sudbury, ON though.  
 K40AS should be an easier mystery to solve. I was watching a jumble of stations on ch. 40 to the west when out of nowhere this Morse code I.D. shows up. I caught the last three digits "0, A, S," but didn't get the first two. I've ruled out W40AS because there wasn't anything coming in from WV.

Deadline: 5th

Tropo has been busting out all over, or as Frank Sinatra says, (or sings) "It was a very good year". Most DXers have seen stations past 400 miles, some have seen 600+ miles. August 16 and 20 were outstanding (Hurricane Felix related) as well as some dates at the beginning and end of August.

**THE 1995 SUPER-  
 TROPO--MORE  
 REPORTS**

**HOW TO CHOOSE A  
 DX ANTENNA**

Notes: An average June ES season...although 2 new provinces were added..Nova Scotia & New Brunswick. I had received those 2 provinces from my Niagara Falls location, but this is the first time from the Greater Toronto Area. Ch 2 (CBGAT14) Carleton, QC was distinguished from CJBR Rimouski by its offset. Both stations relay CBVT-11 Québec. I now monitor 48.25 MHz video during Atlantic openings for the faint hope of some multi-hop Es to Europe / Iceland. I have a mini PAL monitor with a video line out. The June 25 ES was frustrating as local C111-6 was off the air due to lightning! (only weak semi-local CJOH6 was present)...but the ES would NOT budge past ch 5. Chs 5 & 6 are my 2 toughest ES channels due to the strength of the locals.  
 On the semi-local's seen; 2 new UHF stations are now on the air...ch 21 Gravenhurst (xmtr=Severn Falls) & ch 54 Peterborough (xmtr=Bobcaygeon)...both relaying CF1O-9 Toronto (CTV) to the "Cottage Country" areas. Locally, the OPP mobile robot reported last month on ch 16 has also been seen on ch 14 with a +11 kHz offset. 73s.

Dave Nieman - Ho Sta Geh Road - Rock City New York

Equipment: RCA SelectaVision VCR into a RCA 19" b&w TV. Channel Master 3617B VHF antenna at 15 feet AGL, on a Radio Shack rotor, Belden RG-6 coax feed into a Winegard FT-7600 FM trap (set to 95.7MHz) and Winegard DA-205 distribution amp. Antennacraft P-7 UHF antenna at 70 feet AGL on a Alliance HD-73 rotor, Winegard PA-4975 preamp and Belden RG-11/u coax feed.

All loggings are new. New call (K0000).

It was nice to see some fair tropo this past month. I did limit my report to only new catches, since I had so many. I hope this keeps up, it's kind of fun! Dave

Doug Smith, 1385 Old Clarksville Pike, Pleasant View, TN 37146-8098

Equipment: Sears 19" color stereo TV; Archer VU-160 for VHF; RS corner-reflector for UHF, with CM-7475 preamp.

|            |                  |           |     |            |          |         |     |            |            |          |                      |                        |         | OH      |

#1-After a fine New England opening,this backlash came out of the south.Central NC UHF's incredibly strong:WNCN-17 red-lining and bleeding on to Ch.16(at 240 miles!)Also WTVU-11 best ever,totally covering WBAI(MD,40 mi).Wilmington 39 also loc.quality at 320 miles,Myrtle Beach 43 in & out S/F for 15 minutes.

#2-A DX milestone for me;tropo received over locals WJLA and WUSA.Also Tentative reception of Charleston,SC over WRC-4 and WTTG-5.I don't think these were Raleigh 4/5 based on a relatively poor performance of WTVU-11,and the strength of costal stations that morning.

#3-NEW;Zero offset,chiron w"/TV-55 Windsor,NC".Sign-on seen on 8/24;"TV-55" and "WCA",Windsor-Williamston NC.Wrote to address seen to verify calls.Independant religious station.

#4-Weak but very rare path.WDKY was visible briefly,ID as "Fox-56",ment. Lexington soccer association.WLEX was audio and frame bars only.Second time ever to central Kentucky.

COMMENTS-On 8/14 I moved my VHF antenna to Fairfax,fully consolidating DX operations there. The site is 150 feet higher ASL than home.As with UHF,VHF is a whole new world up here.Locals that made DX'ing useless at my house lose their 'teeth' up on the hill.WPSX-3/PA at 170 miles is in almost every day.In McLean I saw them once in five years,due to the close proximity of WRC-4,which is so powerful that it leaks into the CATV. These last two weeks have been very good all around;15 new UHF,8 new VHF and 8 new UHF-LPTV,+ a new UHF best for me.Moreover,I am also seeing stations west of the Appalachian mountains,opening up new DX possibilities.

STATION NOTES-WJAL/68/MD seems to have radically dropped their power or height.I used to get them snow free most of the day,but now they're snowy and fade a lot.My unid 53-EXP station on July 31 was ID'ed as WJAL,Charlotte,NC,a HDTV field testing station for PBS.I had a pleasant conversation with chief engineer Ed Williams,who verified my reception and is sending me some info on the station.Ed even said he would run the calls more frequently during the NTSC portion of future tests.Now there's a DX friendly station! Unfortunately,they will stop testing at the end of Sept.My unid 44 last month was Onancock,VA after all(local phone # ID'ed).

William R. Hepburn, 35 Lockwood Rd, BRAMPTON ON, CANADA, L6Y 4T7

Note 1: While the basketball game was on had supered in the upper left hand corner: severe thunderstorm warning-Comanche county. Then a weather bulletin came on warning of the impending storms. Just more evidence that lightning helps E-skips.

Comments: CBS This Morning has returned to the "Burch." KDKA-2 is now carrying the program and has eliminated the Disney cartoons. However, the biggest local story involving television was the Westinghouse purchase of CBS that took place at the beginning of August.

An interesting season. May and June were almost complete failures, for both skip and trop. July wasn't great for quantity, but had some interesting skip openings, especially to the Midwest. I was away out west during the last part of July. Had some interesting DX out there, but I hear that I missed some interesting stuff back east as well. August has been VERY active trop wise, although nothing super major has hit yet. Lots of trop back down to the SE, maybe related to the active tropical season the Atlantic is having. DXers: beware of another new Canadian on, in addition to the 21 & 54 above. CHW1-16 has signed on a channel 60, only 3kW or so, in Windsor. I haven't seen it yet, but Bob Seybold has picked it up several times. Great to see everyone at the convention in Lake Placid! Peter should be congratulated for doing a really great convention!

## FRED NORDQUIST - 7945 BOXFORD ROAD - CLAY NY 13041 (ELT)

Eqt: Receivers - Panasonic CT-11108. After 7/22/95-Mitsubishi HS-U650 VCR primary VHF/UHF tuner/recorder, with Monochrome Green Video Monitor. Antennas - UHF: 7' CM Dish at 35' AGL (1" screening)

VHF: CM SP9 at 30' AGL, both on same mast w/rotor. Preamp - Winegard AC-4990 CAC-11 Coax Cable. \*-new to log.

Total=367. New VCR tuner is nice DX machine..with very good sensitivity and selectivity, video mute defeat, and SAP monitor/record. Now all I need is to enable manual fine tuning and adjust very weak signal capture threshold. Any ideas? 73 - Fred.

Rick Shaftan, 217 Green Road, Sparta NJ 07871

FM: Realistic STA-220, JVC JRS-201 w/stacked FM-13's, phase box and Jerrold TV antenna for phasing and VHF. CM 7' Dish w/PA-8275 Winegard amp. ICOM R-7000 w/video adapter.

The Ultimate DX machine. Can't wait for some trop. Reception is unbelievable although I have to be more aware of "off the back end" stuff now.

Lotsa new stuff. Ohio is now one of my top states on TV. Still haven't gotten Southern West Virginia, Western Virginia or Western North Carolina. Nearest unheard trop states: IL (unless the 322 is Chicago), TN, WI, GA, FL. I'll get GA and FL on trop before I get TN. I think that's 40 new TV on this report, putting my total TV near 400.

Bob Seybold, 76 East 6th Street, Dunkirk, N.Y.

"Hot weather has brought some tropes in on July 13th with WICD-15, KSNF-16, Decatur-17, S. Louis on 30 & 46, Neb.-42, KDOR-17 OK., WICS-20, KOZK-21 MO., KSPR-33, WCCU-27, Ft. Wayne 15, 21, 33, 39 & 55 and South Bend on 16, 22, 34 & 46. WSJV-28, IN-63.

Bob Seybold (cont.)

July 14th starting around 5am super signals from; Quebec-15, Ottawa 24, 33, 40 & 60. Also new 54 in Peterborough seen with Canadians on 15, 16, 18(2), 20, 22(2), 27, 42(2), 44(3), 45, 48 51, 53(3), 32(2), 34(3), 35, 38, 55(3), 56, 59(2), 61, 64, 68 and 69. Also in with the Canadians; Binghampton, Syracuse, Cadillac-33 and Mt. Pleasant-14. In the evening Wisconsin, Michigan (including LPTV-15 G.R.) were in strong. August 24 0530-0730 Michigan, Wisconsin & Minnesota 43. (PM) Ohio, Indiana, Springfield 26.

August 25 (AM) Indiana, Peoria 19 & 31, Madison, Grand Rapids & 69 S. Bend. (PM) WUSI-16, York 43, WETA-26 DC, Iowa, Michigan and Ohio.

Comments: I hope you received my last report, it was sent to your old address. (Yes, but it did delay your report. sw) At the last minute I decided to go to the convention, I had a free ride and was able to take time off from work. I enjoyed it and I was glad I attended...My DX report is condensed...way too much tropo to report all of it. I am using a 4-bay bow tie UHF antenna and a small VHF antenna at 20' AGL with a Channel Master pre-amp.

Russell Miller, Amity, Maine 04730 (P.O. Box 1736)
